VtM Toreador NSFW Jump
V1.0 By u/Only-Cellist2989

"The Toreador's are just a bunch of whores! - Yes, what's your point?"

— Zelios to Victoria Ash

Welcome to the World of Darkness you horny soul. There is no other way to say this, you are dead cursed with both vampirism and incurable sexness. You are now a Toreador vampire having beautiful sex for the next ten years. Good luck Kindred.

You receive **1000 cp** to help you survive and get some ass.

Locations:

You can freely choose where you start, or roll a 1d4 and gain **[+100 CP]**.

1) Bangkok: The capital of Thailand and let us just say the name is very accurate.

2) Paris: The land of art and the de facto headquarters to the Toreador clan.

3) Athens: Is the capital and largest city of Greece and had a strong presence a long time ago. Nowadays this place is known for its rocking nude beaches.

4) São Paulo: The most populous city in Brazil full of beautiful and fuckable people.

E) Supplement Mode: Should you desire something more from your stay here, then you can use this as a supplement for another WoD Jump. Alternatively, you could be in another world, separated from the WoD series entirely. Whether you merge the two worlds into one, or bring your purchases from here to there, is entirely up to you.

F) San Andreas: Is that a made up city from the Grand Theft Auto setting? I guess it's also part of the WoD setting somehow. Why not just use Location E? Hot Coffee! Ok good point there I hadn't thought of that.

Origin:

Only one Clan Toreador! Age (above 21) and gender can be chosen freely.

Model: You're not an artist, you're pretty. You are accustomed to getting what you want with nothing but a smile. Your mortal background is a model just like the name.

Doc: Not what most people think of when they say artist. Your mortal background is a plastic surgeon.

Alice: I know someone who really wants to meet you, and you should avoid them. Your mortal background is a graduate of art school.

Drop-In: No new memories, no new whispers in the back of your mind, no friends or enemies. You are alone in the world of darkness, for better or worse, with pretentious running in your veins. Hopefully you find a place to rest before dawn in the next ten hours.

Perks & Stuff:

Toreador [0 CP, Mandatory]: You are no longer counted amongst the living, now one of the supernatural predators of humanity that share the blood of the Arikel, "The Moon". You are completely ageless, capable of living potentially forever so long as you don't run butt ass naked into oncoming traffic. You possess superhuman strength and durability, and no longer require the majority of your organs to survive. The only thing you need to consume is blood, as not only can it be used to heal you, but it is also what powers your vampiric abilities. This doesn't mean that you're invincible, as sufficient damage or dismemberment can kill you, as will fire. Chief among your weaknesses is the light of the sun, which will immediately reduce you to ashes, Oh don't look at me like that it all becomes an alt-form post jump.

Blood Bond [Free, Optional]: The blood of a Kindred has some interesting properties, especially when consumed by a normal human or an animal, transforming into what is known as a Ghoul. Feeding them your blood will see them developing strong feelings for you, as well as gaining a smattering of your vampiric powers. They will cease aging, possess slightly superhuman physicality, heal quickly, and learn the basics of your Disciplines. When fed to an animal, they tend to grow larger than normal.

Ancilla [400 CP]: Being a Neonate sucks and somehow being a Fledgling is worse. Want to skip that? Cool now you're an 8th generation Ancilla with the blood to prove it. Don't let it go to your head there are always bigger fish out there.

Model Perks, Items, & Drawback

Posing [100 CP, Free Model]: Holding a pose for hours isn't easy, but it's a lot easier than working a real 9-5 job. Easy jobs that pay great just fall into your lap. Most are gigs like a photoshoot, filming an adult scene, or starring in a local TV commercial. Your bank account can stay healthy, and your job history looks interesting.

Photogenic [200 CP, Discount Model]: You're so good at applying makeup that could be mistaken for something out of a spy movie. Contouring your face to the point it would be mistaken for magic. Speaking of magic, you're getting **Chimerstry** as an in-clan Discipline with the first dot free.

Cosplay [400 CP, Discount Model]: Have you ever seen My Hero Academia? Go watch it because Himiko Toga is the best crazy girl out there. If you didn't figure out why I am bringing her up, you have something very similar to her Transform Quirk pre awakening. For every cup of blood you consume you can transform into that person for 18 hours. You can transform back and forth from this form as long as you still have "time" left on that clock. Unlike her you only copy their form and voice, not their clothing or other powers. As you can't copy their clothing I am throwing in sewing skills at 5 dots.

Helen of Troy [600 CP, Discount Model]: The face and tits that launched a thousand ships to start the Trojan War. What does this have to do with you? Well, take a look in the mirror—you are now a twenty out of ten, so perfect anyone who sees you is going to want to fuck you silly. Things like sexual orientation, age, race, & social status are quickly forgotten after looking into your eyes or at your ass. If you are a lad expect lesbians, asexuals, and straight guys to fight for your attention as much as the straight girls are. Ladies, expect the same from gay guys, asexuals, and formally straight girls. The Kinsey scale will be straight-up busted for any human that sees you. Hell, you're so hot don't be shocked if a few kindred say they felt their hearts restart.

Bikini [100 CP, Free Model]: Wardrobe stocked with outfits for any occasion. Anything from business suits for the office, sexy garments for the bedroom, hoody and blue jeans for walking the streets at night, and tactical turtlenecks for spying. If you have Cosplay perk then you get a well made costume for anime and video games made in the last 50 years.

Smut [200 CP, Discount Model]: You have a back catalog of material from your mortal days. Hours of video, thousands of pictures, and short clips that could fuel your OnlyFans content for years before you had to start making new material again. On the part of making new material you can have cameras and lighting equipment to make more. You may want to hire staff for operating the equipment and running the website.

Glitter [400 CP, Discount Model]: You have a bank account filled with money your beautiful ass earned before you kicked the bucket. Like Bella Thorne you were earning \$11 million monthly that's after taxes. Giving you a lovely \$107 million in the bank at the time of your death. Now that you're a Kindred it's going to be very hard to keep making that kind of money so try not to blow it all in ten years. The amount refills at the start of each jump to whatever the local currency is in that equivalent of \$107 million circa 2024.

Money [+200 CP, Mandatory Model for +0 CP]: You're overcome by the beauty of cold hard cash! Simply any large amount of valuable currency be it thousands of US dollars, Euro, Pound sterling, or good old fashioned gold bars will immobilize you with fascination and greed. Maybe this is why everyone calls you a gold-digging whore?

Doc Perks, Items, & Drawback

MD [100 CP, Free Doc]: Get yourself a medical doctorate, 3 dots of Medicine (Plastic Surgery), 3 dots of Academics (Medical History), and 4 dots of Intelligence.

Anesthesiologists [200 CP, Discount Doc]: You're not a descendant of Baron Vollgirre and yet you still got yourself **Vicissitude** as an in-clan Discipline with the first

dot free. Unlike the Vollgirre you're not into pain, but perfection. When reshaping a mortal with Vicissitude the mortal will lose consciousness and feel no pain from the sculpting.

Uncanny Valley [400 CP, Discount Doc]: There is a point in when you risk over plastic surgery face with unnaturally distorted appearance, stretched skin, and an alienized look. You no longer have to worry about that weirdness. Any and all power, perk, skill, abilities, and Disciplines that change or reshape appearances always look natural unless you actively don't want them to. Super helpful then trying to make perfection.

Bigger & Better [600 CP, Discount Doc]: If you haven't seen the short film on Mood Boobs it's shockingly not an

R-rated film. Just like in that movie with a snap of your fingers and a female target in the line-of-sight this great miracle takes place. Increasing the cup size of the female to enormous, gravity defying (no weight increase), and perfectly perky ranging from 32L at the smallest to 50 NNN at the largest. Where does the increase in mass come from? HEAVEN where boobs come from your silly bitch. Just like in the movie the breast expansion feels orgasmic to target and unlike the movie it's permanent unless the power is deactivated by you. Why would ever do that?

House [100 CP, Free Doc]: A nice house in the hills away from the hustle and bustle of the city. It's a well furnished haven to sleep the day away.

Office [200 CP, Discount Doc]: A private office in the local hospital. Great for a quick consultation, more importantly thanks to that you have the credentials to let you into the hospital in the middle of the night, or even order bags of blood for an “operation”.

Clinic [400 CP, Discount Doc]: Your own private clinic with 40 medical assistants, 10, nurses, and 4 surgeons. The staff will run it in your absence but never forget Doc you are the main draw so maybe go to the office it will earn more money that way. On earning, this thing earns millions in profit each year.

Symmetry [+200 CP, Mandatory Doc for +0 CP]: You're overcome by the beauty of symmetry! Simply any perfect alignments whether it be a person's face, architecture, or a very straight road will stun lock you.

Alice Perks, Items, & Drawback

Pointless [100 CP, Free Alice]: Got yourself a pointless degree from an art collage. So here are some pointless skills to go with it: 3 dots of Academics (History of art), 3 dots of Performance (Theater), and 4 dots of Charisma.

Faze [200 CP, Discount Alice]: Maybe it was from your goth faze but you have **Obtenebration** as in-clan Discipline with the first dot free. As just giving you a Discipline feels lazy you are also getting the ability to blend into any none-ethic based subculture with minimal effect on your part.

Sweet [400 CP, Discount Alice]: You give off a sweet and innocent vibe that's so strong even if a mortal sees what you really are they will find themselves unable to see you as a direct threat to them. Hell if you asked them sweetly to have just a tinny taste of their blood as you're so hungry. The fools would offer you their wrist without a second thought. This is a passive kind of mind control that fades over time after they leave your presence.

Damsel [600 CP, Discount Alice]: Some kindred paint with their blood simply to be edge lords. Not you when painting with your blood you can temporarily bring your creation to life. If you're a Naruto fangirl then yes this is Sai Yamanaka ability substituting blood for ink. Hmm I really don't want you painting something crappy so have 5 dots of Craft (Painting) skill. Why did I call this Damsel? Red herring.

Art Supplies [100 CP, Free Alice]: A decade's worth of art supplies so you can paint your pretty pictures or whatever.

Studio [200 CP, Discount Alice]: A large studio space apartment that can double as a place to make your art. If you want to use this place as a haven you're going to have to cover all the giant windows that let in all that light.

Daddy's Money [400 CP, Discount Alice]: A trust fund that pays out \$9,000 dollars a month into your bank account.

Classic [+200 CP, Mandatory Alice for +0 CP]: You're overcome by the beauty of art. You're a true prisoner of their artistic vision be it a painting, sculpture, piece of music, or even a sunrise. You require a real effort of willpower to break the fascination unless you really like standing around like a fool.

Drop-In Perks, Items, & Drawback

It still works! [100 CP, Free Drop-In]: Your genitals are always in “blush of life” mode and rock hard/gushing wet. You can cum like a living person and it’s not blood, but the correct fluids. No more refractory person hell it looks more like rigor mortis and for the lady vamps your crotch looks like Niagara Falls. You can cum hundred times in a row without any rest in between or at least your genitals can. All that with your sex organs feeling just like when you were alive if not better. Yes, I used this before in the Malkavian NSFW jump. Is that a problem?

Not a Wink [200 CP, Discount Drop-In]: Not every male Toreador is a wink or cuck, some actually both a lover and a fighter. You are one of them with 4 dots of Brawl (Bar Fights) and **Potence** as an in-clan Discipline with one dot free.

Longer Lasting [400 CP, Discount Drop-In]: Nope, not just a sex joke. Normally the effects of most Discipline are short lived like minutes or hours. You can keep it up for days or even weeks. Yes, this just makes powers that are short lived last longer. Post jump it will apply to power other than just Disciplines. Want something to abuse this with ok **Dementation** is now in-clan Discipline with one dot free.

Vamp Cock [600 CP, Discount Drop-In]: You're not human so why play by their rules. Removing human limits lets you pick from 25 inch dick or triple z cup size tits. Your Cain cursed genitals now beyond anything else in this world, even the Kiss. Anyone you have sex with will have the best sex of their lives putting all past lovers to shame. Sex is with you is now literally more addictive than crack cocaine as it surpasses the normal maximum human pleasure level. Your meat saber still somehow always fits; same going if you have a meat sheath. Ladies, as for your boobs, they get the gravity defying effect if you picked z cup size.

Red [100 CP, Free Drop-In]: A crimson 1990 Lamborghini Diablo that's perfect for dropping panties or your money back. The vehicle never needs any maintenance, has unlimited fuel, and if destroyed it will reappear fixed in a week.

White [200 CP, Discount Drop-In]: A beautiful apartment in the nice part of town. The bedroom in the center of the apartment with no windows (fire code violation) making it perfect for hiding from the sun and a partner who screams during sex.

Blue [400 CP, Discount Drop-In]: Ok never seen a Wetherspoons outside of the United Kingdom before not sure how you got this. This place has a full staff running it completely independently of your input. It earns a decent profit even after paying the royalties and more importantly it's a magnet for tourists seeing a random British pub & think I could get laid.

Ass [+200 CP, Mandatory Drop-In for +0 CP]: You're overcome by the beauty of people. You don't give a shit about paintings, jewelry, fashion, or any of the art stuff. Sexy beautiful people on the other hand stun lock you hard and also hard down there.

Items:

First Haven [100]: The shitty first haven you get in bloodlines as the protagonist. It's horrible, dirty, in the crap part of the city you start in and paid up front for ten years.

Companions:

Normal rules apply to max 8 companions.

Vampiric Coterie [50/100/200 CP]: You don't want to be alone in this nightmare, do you? No? Good, because neither do they. Your new OC friend(s) or returning nutjob gains a free origin, 800 CP to spend as they like, and they may take drawbacks. Just in case it wasn't clear, one costs 50 CP, up to four costs 100 CP, and up to eight costs 200 CP.

Locals [Free]: If you can convince them of their own free will, without mind control like Disciplines or blood bonds. Then you can take as many people with you as you like. They don't gain any CP, you don't get a favorable meeting, or anything like that.

Drawbacks:

Not The End [+0 CP]: Gehenna. Apocalypse. Winter. The Time of Judgement. Last Call. So many creatures of the night have their own stories about the end of the world, and many believe that those times are fast approaching. Thankfully for everyone involved, though, there is this option, ensuring that such cataclysmic events don't happen unless you actively go out of your way to cause them.

A Familiar World [+0 CP]: Would rather visit the world of a game of Vampire the Masquerade you played, watched, even maybe a video game version.

Extended Stay [+100 CP]: Ok sure additional ten years drawback can be taken multiple times if you like. The maximum amount is 10 times.

Stereotype [+100 CP]: The masquerade got you good, didn't it, to be fooled by all the vampire stories you've read or seen. You wear a long black cape, speak with an accent and otherwise act in a cartoonish fashion. Non Malkavians vampires are likely to ostracize or mock you and probably report you to the prince.

Aesthetic Fixation [+200 CP]: Your desire to see beauty so intensely that they suffer in its absence. Whenever you find yourselves in less than beautiful surroundings like a sewer or a Buc-ees bathroom that wasn't cleaned (!?) you lose access to your Disciplines until you are in a nicer location.

Tune [+200 CP, Requires Model]: Heard of the Daughters of Cacophony? No good then this is going to suck. You got an unending hallucination of a simple tune that you can't pinpoint. This isn't mind breaking, just distracting.

Obsession [+200 CP, Requires Doc]: You're utterly obsessed with a single thing, perfection. Any time you're making anything or crafting something (someone) you will find yourself obsessed with making it perfect.

Submission [+200 CP, Requires Alice]: Something about you wants to be dominated not just by the Discipline of the same name, but obeying a command, being punished, and getting restrained by force. You just love it, not your beast it still may, anger frenzy.

Transgression [+200 CP, Requires Drop-In]: Got yourself a burning desire to influence those around them to give into their darker desires or at least their lust.

Ending:

Did you know the word "Toreador", meaning "bullfighter", kinda funny as there isn't a single Toreador that would even have the Err...I mean good job not meeting the final death now pick a thing.....

Stay: Staying in this trash fire of a world?

Go Home: Probably a good idea after all this.

Continue: Sounds like fun.

Notes:

- Yes, Vamp Cock is from one of my older jumps. If you take the 20 inch cock as a female then I guess you're a futanar now.
- entia pics from CherryMouse, Ayanakitori, SleepyGimp, Andava, Master69m, DoubleDeck, Fellatrix, Tarakanovich, DevilHS
- Small Discipline list: yes I know there are a lot more out there. I have listed all the ones you are likely to learn from the Camerilla clans (20th anniversary edition) and from perks. If you want something I haven't listed, I am not stopping you.
- Post Jump removes the sunlight weakness from you and your companions. Doesn't work on anyone your sire in the future sadly, but they get your origins flavor of madness automatically so that could be fun.

WHILE THE MANAGERS DO HAVE TO FINAL SAY ON HIRING, CHARLENE WILL NEED TO IMPRESS THE LOWER LEVEL EMPLOYEES IF SHE WANTS TO GET THE JOB.

SO FAR SO GOOD CHARLENE!
