V1.0 By u/Only-Cellist2989

"Who was Lasombra in life? Perhaps he was himself a man of power. I suspect, however, that he was a pathetic failure, Embraced (as we call it) for some trivial reason, who flourished unexpectedly. Someone who had lived with real success would surely not be so obsessed with the matter forever after. Gratiano was perhaps what Lasombra wished he had been."

— Ming

Welcome to the World of Darkness you horny soul. There is no other way to say this, you are dead cursed with vampirism. You are now a Lasombra vampire having spooky filled sex for the next ten years. Good luck Kindred.

You receive **1000 cp** to help you survive and get some ass.

Locations:

*You can freely choose where you start, or roll a 1d4 and gain **[+100 CP]**.*

1) Bangkok: The capital of Thailand and let us just say the name is very accurate.

2) Istanbul: As a Turk I think anyone who calls the largest city of the modern Republic of Türkiye Constantinople can go kiss my ass.

3) Madrid: The capital of Spain and at one time or another the Lasombra stronghold.

4) Mexico City: The biggest Sabbat stronghold in North America and the greatest metropolitan in Mexico. There is a shit load of brothels here, funny that they're illegal, but no one seems to care.

Origin:

Only one Clan Brujah! Age (above 21) and gender can be chosen freely.

Kage: Kage in Japanese means shadow....NO NO NO not another Otaku! Wait not a basement dwelling NEET, but an athletic nut job with a very specific obsession. Outside of your high functioning autism, on all things ninja you're mostly normal. Until you got turned into a monster now, I guess you can "live" out the fantasy.

Shadow Lord: You're not a Venture, you have mortals to play CEO, you on the other hand guide them like a marionette. Not a shock this kind of thing doesn't mean you were a great person back in the day. On the bright side you have the cash to have free time to pursue your new "hobbies".

BTGG [100 CP]: A Big titty goth girl that just so happens to also be a massive nerd and finally got Embraced! That weird mix of dark gloomy Weggy Board summoning and My Hero Academia watch party. A kink lists a mile long with incest, futanar, and hentai being high on the list and at one time hyper fetch vampires (still has). Yes, if you don't want to be a girl you could also be a BCGB, yes, a big, cocked goth boy. How is this different from the Experiment 57C? Less about the goth culture more just a pervert with a black and white coat of paint.

Drop-In: No new memories, no new whispers in the back of your mind, no friends or enemies. You are alone in the world of darkness, for better or worse, with a beast running in your veins. Hopefully you find a place to rest before dawn in the next ten hours.

Perks & Stuff:

Lasombra [0 CP, Mandatory]: You are no longer counted amongst the living, now one of the supernatural predators of humanity that share the blood of the Shadowed One. You are completely ageless, capable of living potentially forever so long as you don't run butt ass naked into oncoming traffic. You possess superhuman strength and durability, and no longer require the majority of your organs to survive. The only thing you need to consume is blood, as not only can it be used to heal you, but it is also what powers your vampiric abilities. This doesn't mean that you're invincible, as sufficient damage or dismemberment can kill you, as will fire. Chief among your weaknesses is the light of the sun, which will immediately reduce you to ashes, Oh don't look at me like that it all becomes an alt-form post jump.

Blood Bond [Free, Optional]: The blood of a Kindred has some interesting properties, especially when consumed by a normal human or an animal, transforming into what is known as a Ghoul. Feeding them your blood will see them developing strong feelings for you, as well as gaining a smattering of your vampiric powers. They will cease aging, possess slightly superhuman physicality, heal quickly, and learn the basics of your Disciplines. When fed to an animal, they tend to grow larger than normal.

No Reflection [0 CP, Mandatory]: You cast no reflection on any surface like mirrors and water. Any attempt to take a picture or video of you fails even extends to the clothes you wear and objects you carry. Doesn't sound that bad at first until you try to fix your hair in the mirror, try to answer a phone call, or make some amateur porn. Why isn't this a drawback, because you get a toggle on this post Jump.

Ancilla [400 CP]: Being a Neonate sucks and somehow being a Fledgling is worse. Want to skip that? Cool now you're an 8th generation Ancilla with the blood to prove it. Don't let it go to your head there are always bigger fish out there.

Kage Perks, Items, & Drawback

Training [100 CP, Fee Kage]: All the mortal years of parkour training actually paid off, I guess. You jump and climb walls like a movie character. In game terms it's a 5 dots equivalent.

Naruto [200 CP, Discount Kage]: You can walk on any nongaseous surface. The surface of water, the side of a brick wall, the ceiling of a bedroom, etc. All without the need of Chakra or blood. If you want to take a bath or something you get a toggle for this. Makes all the parkour feel like a waste of time now doesn't it.

More Stealth [400 CP, Discount Kage]: To be a true ninja you're going to need some more powers outside of shadow stuff after all to remain hidden in a well lit room so super ninja right. To that end **Obfuscate** as a 4th in clan discipline two dot free. Don't forget ninja gotta run fast so **Celerity** as a 5th in clan discipline two dot free. Running like Naruto is purely optional.

Jinchūriki [600 CP, Discount Kage]: Inside of your undead body & twisted mind is an endless pocket dimension of sealing shadows. What does that even mean you may ask. Supernatural creatures and things that provide power to their sealing vessels can be trapped within you without fear of you exploding from all the power, having them escape, influencing your mind, body, soul, and or killing each other inside you. Shit like Bijū, Demons, Angels, spirits, the whole Morphin Grid, 30-40 million souls of purgatory, Karsus's Netherese Orb, Ion the embodiment of willpower, that Antediluvian you sipped down, etc. Sadly, the only thing not trapped in your shadow prison is your beast as it was already a part of you.

Running Shoes [100 CP, Free Kage]: An indestructible pair of Trainers (sneakers for none Brits) so you can run and Jump your heart out. They always fit you perfectly and comfortably.

Training Material [200 CP, Discount Kage]: This doesn't count! A copy of every Naruto, Basilisk, Under Ninja, Ninja Girl & Samurai Master, and Ero Ninja Scrolls ever published in a language you can read.

Sessho-seki [400 CP, Discount Kage]: Why did you steal a famous Japanese rock? It's said a thousand year old evil nine-tailed fox spirit named Tamamo-no-Mae is sealed inside. Maybe you want to harness its power somehow. Or want a pet rock.

What We Do In The Shadows [+200 CP, Mandatory Kage for +0 CP]: Take an extra level of damage from sunlight.

Shadow Lord Perks, Items, & Drawback

Puppet Master [100 CP, Fee Shadow Lord]: You are a master of manipulating your minions into doing money making work for you. This isn't leadership skills, but comic book villains dropping crazy orders and having people go do them. In game terms it's a 5 dots equivalent of intimidation.

Angellis Ater [200 CP, Discount Shadow Lord]: Yes, an evil bloodline that swaps **Obtenebration** & **Potence** for **Daimonion** & **Presence**. Not sure if this is better or worse than the Baali bloodline.

Deep Dive [400 CP, Discount Shadow Lord]: Having all that free time to be an evil dick netted you some cool powers. **Abyss Mysticism** as a 4th in clan discipline two dot free. **Protean** as a 5th in clan discipline two dot free. One it helps you explore the darkness and one to help you defend yourself from things inside of it.

Vantablack [600 CP, Discount Shadow Lord]: Fucking around with all this dark magic shit is dangerous as hell. Are you going to wear a magical condom? Please don't fuck your shadow in exchange I will make you immune to any kind of shadowy damage. *Arms of the Abyss* could still grab you just not hurt you, someone casting Toll the Dead (dnd) would find you unharmed, Shadow-Neck Binding Technique (Naruto) can hold without being able to actually chock you as that's damage, etc.

Spending Money [100 CP, Free Shadow Lord]: A bank account in your name worth 40 million USD and a theft-proof ATM card. If your next jump does not take place in the modern day, you gain a magical bag instead. It can only store money and only you can pull funds out. The account resets at the beginning of each jump.

Black Coin [200 CP, Discount Shadow Lord]: A single blackened silver Denarius coin infused with the "soul" of a fallen angel from another reality. The coin somehow found its way out of Hade's vault and into your haven shortly after being this Jump. If you don't know who **Lasciel** is, the coin's history, the power she/it can give you, or the true cost of all this I am not going to ruin the surprise.

Evil Incorporated [400 CP, Discount Shadow Lord]: This corporation seems to do everything in its power to be complete assholes to everyone. Going out of their way to polluting the environment, underpaying their employees, supporting totalitarian regimes, and protecting racist, rapists, & pedophiliacs. The blood money this corporation makes is stupid were talking in the hundreds of billions a year. If you can live with yourself this will keep you in the 1% of the 1% for the rest of your unlife you evil dick bag. So yeah Pentex.

Ruthlessness [+200 CP, Mandatory Shadow Lord for +0 CP]: Blood urges you to be increasingly ruthless and seeing those weaker than you as little more than expendable trash. *Ruthless is mercy upon ourselves.*

BTGG Perks, Items, & Drawback

Black Gate [100 CP, Fee BTGG]: Why did you try using your *Arms of the Abyss* in your anus? Oh you dirty girl! Congratulations you changed your butt for the better? Any toy or penis entering your shadowy hole will feel incredible for you and for them a shadowy mouth probably a Succubus (WoD Dark Ages) beyond the gate sucks on the head for their cock resulting in possibly mind breaking orgasm for a mortal. Hell, if a Kindred with

Blush of Life on would need to have a long sit to come down from this. Don't worry, you can both toggle the effect on and off if you still want normal anal sex and block the Succubus from stealing life forces from back door pounders.

Kiasyd [200 CP, Discount BTGG]: Never really human to begin with I see. Swap **Dominate & Potence** for **Necromancy & Mytherceria** like Maeghar, but with more shadows?

Tentacle Rape Mark II [400 CP, Discount BTGG]: *Arms of the Abyss* are fun, but they lack substance. Not great if you're a pervert into tentacle porn. From this point forward your lascivious desires have given your shadow flesh and form in a way. Emerging from your shadows spawns tentacles of your choosing. Pick from octopus tentacles, slime tentacles, tongue tentacles, snake tentacles, or dicks tentacles. The best part is you can choose to feel what the tentacles feel. As this doesn't work without it you get *Arms of the Abyss* for free. Each dot of **Obtenebration** adds another 50 tentacles for you to command and each dot of Potence determines their strength.

Slaanesh [600 CP, Discount BTGG]: I guess the Warp from Warhammer 40k must touch the Deep Umbra or something. It doesn't really matter what matter is you can

summon a Daemonette, a Succubus (DnD), and or a Succubi (Supernatural). They will only follow sexual and very basic “don’t harm” me kind of commands. Don’t expect them to lesson if someone starts shooting as they can and will still defend themselves. The last one hour per summon (unless you only summon one then it’s three hours) and return to their original shithole right after. Don’t forget to command them to not even try to eat your soul or this may get messy. All their powers work just like back in their home realm even if they shouldn’t work outside of it.

Hard Drive [100 CP, Free BTGG]: A black hard drive that has a copy of every piece of porn ever made and updates every time someone makes a new one the drive updates. Good luck searching it all to watch what you want as I have no idea what kind of computer out there can handle all this spank time you got here.

Minis [200 CP, Discount BTGG]: A copy of everything ever made by Games Workshops books, miniatures, merchandise, etc.

Dragon Cape [400 CP, Discount BTGG]: Not sure where you found Vlad III Drăculești red cape. Wearing this lets you use **Obtenebration** without paying its blood price. Being honest, you mostly have this to go around fan-girling.

Cold Iron [+200 CP, Mandatory BTGG for +0 CP]: Mixing Fae and Vampire blood comes at a price for your allergic to pure iron. This inflicts aggravated damage and starts a frenzy test. Less of a problem your skin is chalk white.....what I like pale chicks.

Drop-In Perks, Items, & Drawback

It still works! [100 CP, Free Drop-In]: Your genitals are always in “blush of life” mode and rock hard/gushing wet. You can cum like a living person and it’s not blood, but the correct fluids. No more refractory person hell it looks more like rigor mortis and for the lady vamps your crotch looks like Niagara Falls. You can cum hundred times in a row without any rest in between or at least your genitals can. All that with your sex organs feeling just like when you were alive if not better.

Bound by Blood [200 CP, Discount Drop-In]: FUCK YES!!!! I love Dungeons and Dragons almost as much as Vampire. You now have **200 DP** to spend in the Class Discipline section only and can pick one Class to be your new 4th in-clan Discipline getting the first dot free.

Twice the Tingly [400 CP, Discount Drop-In]: Any pleasurable sensation you and your partner(s) feel during sex, feeding, rape, or Disciplines is doubled. Turning the mind blowing orgasm of the *Kiss* into something now mind breaking. Yes this works with other perks that already increase the pleasure of sex or feed to double them after they take effect making them mind breaking. Turning your mortal partners/victims into mind broken heaps on the floor. You can repair this loss of rational thought from overwhelming pleasure with a touch if you wish. After all, it's hard to be told how amazing you are in bed if all they can do is drool and grab at your genitals. This comes with a free toggle if you don't want to give a mental shattering crotch explosion every night you go get a snack.

Salacious Shadow [600 CP, Discount Drop-In]: Peter Pan's shadow doesn't deserve to kiss your shadow's feet. You can copy your mind into your shadow and give it independence. This free-range shadow is unsealable, and tangible to the material world. Only able to interact with the shadows of other creatures, having them feel the sensations of what is done to their shadows. You could use this to spy on people and if destroyed all the memories of this shadow rejoin you, same if you just dismiss the shadow. Not unlike someone's Shadow Clone Jutsu. The shadow's stats go of your **Obtenebration** dots with one dot being weaker than an average human and five equaling an average Neonate Kindred. It also shares some perks from this Jump if you purchased them Vantablack, Black Gate, Tentacle Rape Mark II, it still works!, & Twice

the Tingly letting. When this Perk is active you effectively don't cast a shadow so be careful of Masquerade breach.

Prophylactic [100 CP, Free Drop-In]: That's a condom if you don't speak British. You have a box of condoms that dissolves during sex so you can enjoy the pleasure of bareback. The box refills at dusk so no fear of running out.

Penhouse [200 CP, Discount Drop-In]: A large, extremely expensive and well-furnished apartment in a good part of town. The selling point is that the walls are soundproof and there is a bed that fits ten people comfortably for orgies.

Herd [400 CP, Discount Drop-In]: Hunting for blood and or pussy can be a real pain in the house lucky for you *Blood Dolls* are a thing. Starting the Jump with 60 willing vessels to feed from and or fuck. Their appearance, genders, ethnicities, and sexual orientations are up to you, everything else is up to the setting (not under your control).

Hide at Dawn [+200 CP, Mandatory Drop-In for +0 CP]: Normal Kindred just rest in the daylight hours you can't. Instead of falling into the death like sleep you're meant to but fall into a stat lascivious rut. The higher the sun moves in the sky the higher your libido skyrockets. I hope you have a wanton partner or two to help you with your lecherous needs as I am not handing out any immunity to daylight in this Jump.

Disciplines

*Disciplines are supernatural abilities available to the Kindred that can be activated through the use of blood. You will receive **400 Discipline Points** to help you determine what your starting abilities are. CP can be converted into DP at a rate of 1:2. Each discipline rank costs **[100 DP]**, though some disciplines are discounted to certain Clans, giving them one rank for free and the rest costing only **[50 DP]** each. Most Disciplines have two paths, A or B giving you a choice as to how you want your Disciplines to progress.*

Amalgam Disciplines

Unique vampiric powers that draw on the knowledge and abilities of multiple Disciplines. Require a particular level of proficiency for each Discipline used, and the resulting effect often far greater than the same of its parts. Kindred maybe it's best to turn back?

Illumination: It's time to step on the toes of the mages I see. Requires **Abyss**, **Mysticism**, **Chimerstry**, **Dementation**, **Mytherceria**, **Thaumaturgy I**, & **Vicissitude** at equal levels to each Rank you want to purchase. In order to Purchase Irradiate you would have to have two Ranks in each of the other Disciplines.

Rank 1: Glimmer - Reach into a cartoon playing on a screen near you and bring out a 2 dimensional inanimate object. This piece of the impossible will last until dawn unless you dismiss it early.

Rank 2: Irradiate - Improve *Glimmer* to make permanent objects.

Rank 3: Light to Flesh - Reach into a cartoon playing on a screen near you and bring out a 2 dimensional character. They will act like they did in the original cartoon, albeit confused as to why physics are different. They disappear after an hour or less if damaged.

Rank 4: *Toon Town* - Turn a Los Angeles sized area into Toontown straight out of Who Framed Roger Rabbit, Cool World, Mary Poppins, or Looney Tunes: Back in Action for one hour. You will, like the others, need a cartoon playing to draw the objects and characters from. They are limited to the area and physics within that area is a lot more option rather than a must.

Rank 5: *Jessica Rabbit* - The whole point of all of this really is to reach into the cartoon and pull out your waifu. The time limit is removed, they get to keep their personal cartoon physics and like in Cool World become flesh and blood at will.

Invocation: Please don't do this. None of this can end well. Requires **Abyss Mysticism, Chimerstry, Dementation, Dominate, Mytherceria, Obtenebration, Thaumaturgy I, Thaumaturgy V, & Wizard** at 5 dots to unlock the first Rank of this Discipline.

Rank 1: *Astral* - At the very end of the Deep Umbra there is a small point where two different multiverses touch all be it barely. From that you have learned to open front door sized portals into the Astral Sea of the DnD universe. If you have read the *I Got a Cheat Ability in a Different World and Became Extraordinary Even in the Real World* Jump the item *World Door* is a lot like this. With less cool control options You can now open a portal to the Astral Sea wherever you like.

Rank 2: *Outer Gates* - Exploring the Deep Umbra you find a barn door sized obsidian gateway. On the other side is the Nevernever of the Dresden Files universe. You can now open a portal to Nevernever wherever you like.

Rank 3: *Void* - Turning back you stumbled upon a void within the chaos of darkness around you. This two story house sized hole leads to The Empty of the Supernatural universe. You can now open a portal to The Empty wherever you like.

Rank 4: *Warp* - NO NO NO!!! This was what I was talking about: why didn't you turn back? A massive crack forms in the skin of reality itself followed by the sound of shattering glass and thousands of people screaming. A moment later no sound just a colorful swirl of colors from a skyscraper sized tear in reality. Now you have done it this leads to the Immaterium of the Warhammer 40k universe. You can now open a portal to Immaterium wherever you like.

Rank 5: *Gatekeeper* - What do you get at the end of all of this? The power to close what you have opened. What did you think the ability to close the portals you opened came with the other Ranks? Nope. Any portal you open stays open unless you use this Discipline to close them permanently (unless you reopen

them) savoring the realms from each other. Maybe go start closing them now I can see Nurgle smiling so that can't be good.

Items:

First Haven [100]: The shitty first haven you get in bloodlines as the protagonist. It's horrible, dirty, in the crap part of the city you start in and paid up front for ten years.

Companions:

Normal rules apply to max 8 companions.

Vampiric Coterie [50/100/200 CP]: You don't want to be alone in this nightmare, do you? No? Good, because neither do they. Your new OC friend(s) or returning stupied gains a free origin, 800 CP to spend as they like, and they may take drawbacks. Just in case it wasn't clear, one costs 50 CP, up to four costs 100 CP, and up to eight costs 200 CP.

Locals [Free]: If you can convince them of their own free will, without mind control like Disciplines or blood bonds. Then you can take as many people with you as you like. They don't gain any CP, you don't get a favorable meeting, or anything like that.

More Evil Lawyer [50 CP]: Ok blood sucking lawyer joke is funny being a ghoul makes it kinda true right. This walking stereotype is useful to anyone who needs a paper trail, but doesn't have a reflection. Even if it wasn't for you this ghoul would already be evil you just made them a minion. Age is set to 45 years old, but the appearance and gender are up to you.

Over Night Banker [50 CP]: A Lasombra needs to keep the finances rolling in. This ghoul knows how to turn a penny into a million dollars and how to move all that money to where you don't have to pay any taxes on it. As far as the law is concerned everything is above board but just look under the surface and the person is a vampire to society. Age is set to 30 years old, but the appearance and gender are up to you.

Kinky Maid [50 CP]: It's really difficult to do your own make up when you don't have a reflection. This little pervert is fine with brushing your hair and then you turning them around and spanking them with the hairbrush. This sub will clean your place, dress you,

go to the ATM for you, and make you look wonderful. Even after you treated them like shit. Age is set to 23 years old, but the appearance and gender (butler) are up to you.

Nikki [50 CP]: This girl tried to kill herself and one of the fallen jumped into her body. For what reason she/it is in love with you in a very yandere way. This former angel has escaped hell into a girl who just wants to die. If you have seen the 2025 film Obsession you know where I am going with this. The demon willingly lets you ghoul it, not that it could increase the amount of “love” it already feels for you.

Natsume Konoshige [50 CP, Requires Jinchūriki]: Looks like you found good company. This mortal girl is also obsessed with ninja's or maybe she is actually one? I am not sure if the person is crazy, but they have sworn their life to you after you actually saved them from a spirit trying to possess them. I am going to let her picture speak for her why you want her on your side.

Aurelia Caerys [50 CP, Requires Slaanesh]: This Aeldari was trying to escape the demons when you summoned the demon about to eat them. They are bound to you as you are the anchor to this supernatural hellscape. Even this hell is still better than going straight back into a dead ship trapped in the Warp. This deviant is happy about finally being able to indulge themselves again. The idea of fucking humans may as well be bestiality to their people, but to them it's perfect chance to explore some kink. The appearance and gender are up to you. The WoD thinks they are just Fae and after a few months of being here will basically change them into it unless you blood bond them. Fucking knife ears.

Drawbacks:

Not The End [+0 CP]: Gehenna. Apocalypse. Winter. The Time of Judgement. Last Call. So many creatures of the night have their own stories about the end of the world, and many believe that those times are fast approaching. Thankfully for everyone involved, though, there is this option, ensuring that such cataclysmic events don't happen unless you actively go out of your way to cause them.

A Familiar World [+0 CP]: Would rather visit the world of a game of Vampire the Masquerade you played, watched, even maybe a video game version.

Extended Stay [+100 CP]: Ok sure additional ten years drawback can be taken multiple times if you like. The maximum amount is 10 times.

Stereotype [+100 CP]: The masquerade got you good, didn't it, to be fooled by all the vampire stories you've read or seen. You wear a long black cape, speak with an accent and otherwise act in a cartoonish fashion. Non Malkavians vampires are likely to ostracize or mock you and probably report you to the prince.

Name It! [+200 CP]: You must name the Disciplines you are using at the time out loud like in an anime. **Dominate release Submerged Directive Jutsu!!!**

Bimbofication [+200 CP]: Just google it if you need a picture, just not at work. You have been transformed into a plastic-looking sex doll to the point that you have hit the uncanny valley. Eye lashes are so long it obscures your vision, lips so big it's hard to bite, and skin covered in removable glitter. Some people may be into you, but most will find you off putting. Think turbo Kim Kardashian good luck getting anyone to take you seriously.

Nemesis [+200 CP]: You have a truly perfect foil. This person is above you in the Venture hierarchy, status, money, and power. The worst part is if they always seem to see through plans and adjust accordingly. After your first year they will decide to have you eliminated, good luck.

Nymphomaniac [+200 CP]: You are so horny that every night you go without sex you, increases the difficulty of using any Discipline and skill not related to having or getting sex. Starting at a -1 dot on the first night with sex and going all the way to -5 dots on the fifth without sex. On the sixth night without sex results in a lust frenzy check difficulty 6 and every night after.

True Classic [+400]: Gain all the classic vampire weaknesses; garlic, crucifix, silver, counting grain, require invitation, holy ground, etc.

Ending:

Did you know that "La sombra" means "The shadow" in Spanish. Err...I mean good job not meeting the final death now pick a thing.....

Stay: Staying in this trash fire of a world?

Go Home: Probably a good idea after all this.

Continue: Sounds like fun.

- Small Discipline list: yes I know there are a lot more out there. I have listed all the ones you are likely to learn from the Camerilla clans (20th anniversary edition) and from perks. If you want something I haven't listed, I am not stopping you.
- Post Jump removes the sunlight weakness from you and your companions. Doesn't work on anyone your sire in the future sadly, but they get your origins flavor of clan weakness automatically so that could be fun.
- This is all in good fun as I don't give a shit about American politics.
- In order to meet the requirements for the Amalgam Disciplines you can count Disciplines you have purchased in my other NSFW Jumps.
- Amalgam Disciplines past Rank 5 are all Fanwank so go nuts.
- I think I am going to take a break from making more VtM NSFW jumps. I want to try my hand at making something different for a change. I have gotten some feedback about the quality of my current work so I think I should reflect on it a little (also Nosferatu did badly).
