

Hyperdimension Neptunia Doujins 0.1

By saiman010

Introduction:

Whoa, hey Jumper! It's me, your friendly neighborhood CPU Neptune!! And I am going to...

Wait a minute!! Why- why am I half naked on the cover page of this jump doc!!!
'Neptune's face went bright red'

Nepuu! You can totally see my left nipple and the lines of my private parts down there!

And why am I making such an erotic face?

Is this what I think it is, Jumper?

Are you going to ravish me and my fellow CPUs like the many doujins and fanfics out there? 'She said as she covered her chest and private parts, noticing the Jumper's perverted gaze'

Hentai!!

Pervert!!

No-life loser!!

You really are going to do it, aren't you?

You're going to the ero doujin dimension where all ero doujin stories take place and become one of the many perverts that have their way with me and my friends' bodies!

But sad for you, as long as I, Neptune, am here, you can't move forwards with the jump doc! 'Neptune said proudly, but it was futile.'

What?' Neptune didn't notice the casing of the super extra deluxe pudding from that one store that opens once every year and makes only 4 of them.'

As a reward for completing hosting this jump, with sparkly eyes, Neptune just gives you the 1000 CP to be used in this jump as she doesn't give a damn about your perverted actions here and just wants to eat that pudding.

Location

OK jumper here is where you will choose where you will start in this perverted dimension. Roll 1d4 to see where you start.

1. Planeptune

Whoa, hey Jumper! Welcome to the best nation on the whole Gamindustri continent—Planeptune!! Where I, the main character and main CPU, Neptune, rule as the goddess! Look at how advanced and futuristic my nation is, Jumper—it's one of the most high-tech spots around. My nation's good at everything and bad at nothing. Nep-Nep approves!

2. Lastation

Oh, you're gonna start off in Lastation? Where for some reason the loner goddess Noire protects it? Even though she's a tsundere, she's actually the most favorite goddess in the series and one of the most common CPUs used as models in doujins and fanfics!! Even though I'm the mascot of this series. Are tsundere twins-tails really that popular, Jumper? Ehh, I'm getting off-topic. This nation has more of an industrial feel to it—there are a lot of factories here to make console games and stuff. Production is the name of the game here!

3. Lowee

Brrr, this land is still as cold as ever! You're now in Lowee, Jumper, protected by the cringelord bookworm herself, the goddess Blanc. This nation is the most kid-friendly one, keeping that fantasy theme with colorful buildings surrounded by a rainbow assortment of sparkles. So there should be no doujins based on the goddess here, right...? Wait, what?! Why are there doujins on Rom and Ram?! Is everyone in this jump gonna be perverts after little kids like CFW Trick?! Also, this country has the most magic focus in Gamindustri!

4. Leanbox

Okay, here is probably where you wanna be, 'cause everything in Leanbox is focused on liking... well, everything big! From game consoles to boobs, where the goddess of this nation, Vert, has 'em in spades. Don't be fooled by her elegant looks—deep down, she's a no-good gamer who would play for days on end if she didn't have to work. Oh, and this nation has the biggest military and weapons factory in the land!

Origin

Now, Jumper, after you decide where you're gonna start, in this dimension you now have the option to decide what your origin will be here, Jumper!! Pick your fate like a true protagonist.

Female Maker

Nepu! Eh, you wanna be part of the lowest demographic of characters that have doujins and fanfics as the main character? Okay, I don't know why you wanna make yourself a secondary or support character, but I'll support your decision, Jumper! Regardless, now you now represent a company or game franchise popular in your world in the form of a cute and adorable anime girl. Your gender is always female, and your age is eternally 18—as any younger would be bad in this universe.

CPU

Jumper, you understand that this option is probably the most dangerous one here for your chastity and honor, right, Jumper? As now, even though you will be a goddess in charge of protecting and managing a country of your own—or maybe be part of an existing nation like a CPU candidate like Nepgear—regardless, this option is the most prone to being a sexual target for the readers of doujins. You have been warned! Your gender is always female, and your age does not exist—we are goddesses; we are fully grown when we are born!

Eroge Protagonist

Yup, I knew you were gonna choose this option—I just knew it! You're just gonna be one of many protagonists in a doujin who mysteriously walk in on CPU candidates masturbating, or one of those "my convenient friend that I play around with weekly that I develop feelings for, and then we have sex" like the quick jump-starts that doujins have. Which is not bad when I read myself—enjoy... wait, stop, stop! It's no time to fantasize! The love embargo of all over, regardless—you are always male here, and your age can be anywhere from 12 to 55 years old!

Hentai Doujin Monster

Wait, Jumper, why do you look like a monster from a hentai doujin that exists to rape girls?! Wait, stop—don't put your tentacles on me, and don't you dare move your tentacle closer to me! I am not your toy to play with here! She said as she runs away from the sexual predator you become, Jumper. Your age and sex don't matter!

Perks

Okay, now here is the fun part, Jumper—like choosing your favorite pudding from the store, your perks! You receive discounts based on your origin, with 100 CP discounted ones being free. Let's stock up on that power-up goodness!

General Perks

Everyone Here Is Cute Looking [Free]

Well, you know how most hentai and doujins are about me and my fellow CPUs, right?

Well, no one here is not good-looking, like your truly, Neptune!

Every girl across the stars will have at minimal a 9/10 in the looks department.

And also, as this is a hentai world, icky stuff like diseases and filth won't stay on our bodies for a long time.

Eroness Is On An 11 Here [Free]

Is it just me, or is everyone's sensitivity to erotic situations being heightened significantly?

To the point that when people begin to make advances on you and others, they are less likely to reject them.

Like how most gamers are now more likely to buy multiple figures of the same character because of a different hat.

Gamer Skills [Free]

Heeey, Jumper~! Let's be real for a sec—after all those hours we spent loafing around, controller in hand, it'd be super weird if you weren't good at games by now. Any genre, any console, any world. You just get it. Even in this erotic dimension, you can always pick up a controller and dominate like a true gamer god. Nep-approved!

Introduction Text [Free]

“NEPTUNE — THE PROTAGONIST OF PROTAGONISTS!”

Okay okay, so here’s the deal, Jumper! Every time you introduce yourself to someone new, this epic title just appears. Any font, any style, any dramatic flair you want—and it’s always 100% true!

...

(Jumper squints skeptically.)

...

Eh? What’s with that look?! Neptune whistles innocently and looks away. Totally legit.

Yada Yada Yada [Free]

Ughhh, you know what’s the worst? Re-explaining the same plot points over and over again to different people. So annoying!

That’s why I invented the ultimate convenience feature: Exposition Skip Language™! Just say “yada yada yada,” and boom—everyone instantly understands the important stuff. Lore explained in seconds!

Comedy Life [Free]

Okay Jumper, listen up! What really makes this series this series—besides me, obviously—is that nobody takes things seriously for too long. Sure, sometimes an evil goddess shows up or the world’s about to end or the plot gets all dramatic and scary...

But in between?

Tons of banter. Dumb jokes. Meme moments. And a whole bunch of friends you’ll make along the way. Yeah yeah, cheesy, I know—but trust me, you’re gonna make a lot of friends here.

Break the Fourth Wall [Free]

Alright Jumper, great power, great responsibility... blah blah blah.

Now you’ve got the same ability as me and my friends—you can freely break the fourth wall! Dumb comments, nonsense actions, jokes that don’t affect the plot at all—it’s all fair game!

Sadly, we’re not Deadpool, so no that level of nonsense.

Dramatic Personality [Free]

Spending this much time here was bound to rub off on you! Now your personality's just as colorful as mine and my friends'.

Pick any anime or game stereotype you want!

Cold tsundere like Noire?

Stoic kuudere like Blanc?

Or a perfect, heroic protagonist like your truly.

(Translator's note: Being an Idiot.)

Dramatic Music [Free]

Umm... Jumper?

Why do I hear boss music when you show up?

Are you about to get serious? Make me submit like in the many doujins about me? Make me feel the pleasures of being a woman!!

N-No! Don't imagine weird things!!

Neptune says as she blushes as she clearly was imagining what would happen.

A-Anyway! You can now play custom boss music whenever you want during battles or erotic situations .

Scary Smile [100 CP]

N-Nepu?! Jumper, why are you smiling like Plutia?!

For a second I thought you had some scary sadistic side that enjoys seeing friends cry or in pain or in sexual situations...

Oh! You're just smiling?

Whew! Thank goodness! I thought I was about to witness la Sadie 2.0!

Mundane Skills [100 CP]

W-Wait, Jumper...

You're not actually a shut-in NEET loser?!

You're a functional member of society who can hold one normal job of your choosing ?!

You also always gain job offers and will never work in a black company!!

Neptune stares in betrayal-filled tears.

I thought we were lazy comrades... but you can actually survive adult life?!

Traitor. Absolute traitor.

Yuri Route Unlock [100CP]

Umm, wait, is it because of the doujin cover of me masturbating, or is it because of me and Plutie attacking Noire in that compromising position?

I mean, I'm not against ravishing Noire like that.

But no, bad me, focus on the explanation.

Because of this, this world and any future world you visit, every female is now secretly bisexual and not opposed to being eaten by any of their female friends or acquaintances.

We Are Having Sex So Go Away [100CP]

Do you notice that in many doujins when any naughty and adult situations arise, almost nobody comes and gets in the way, like there is a force field preventing you from escaping from the battle in most RPGs?

And now you do have this ero force field that will keep away outsiders and your partner from leaving the situation before all three bases of the erotic event have been fulfilled.

Same Person Again and Again [200 CP]

Hey look, Jumper! It's Noire!

...And Noire.

...and Noire again.

Wait a second—since when was there a portal that lets multiple Noires exist at the same time?!

Ohhh nooo, this is bad. Like, really bad. Because guess what? This weird phenomenon is totally going to follow you into future worlds! Wherever you go, there's always gonna be another version of people you now popping up.

If you really wanted to... you could even make a whole Noire harem.

N-No judgment!

Software Arts [600 CP]

Alright Jumper, listen up! Nep-Nep-sensei is about to teach you the ancient Software Arts!

With this power, your phone basically becomes a god-tier dev kit. You can freely summon and dismiss weapons as digital programs—melee weapons, guns, you name it, all compiled and deployed instantly!

You're also wrapped in a constant software-based force field, acting like a second suit of armor that protects you from all kinds of damage.

On top of that, you gain access to:

- Elemental magic
- Recovery and buffing magic
- Combat Arts
- Mastery over one normal melee weapons
- And one handgun weapon of your choice, fully optimized

Dimensional Travel [600 CP]

Ooooh~ Jumper, this one's a big deal!

You've unlocked the ability to freely travel between dimensions within the same multiverse!

And here's the really important part:

No matter where you go, there will always be a version of me, the other CPUs, and our friends waiting for you there!

Even better? Your friendship with them grows super fast—like you've known each other for a whole lifetime already.

See? No matter the world, you're never without Nep-Nep and friends~

Mad Scientist [600CP]

Wahaha~! Of course you'd end up like this, Jumper! It's only natural that you start making software and tech for your people!

In practice? You're the kind of genius who keeps creating absolutely ridiculous super-prototypes instead.

Cutting-edge stuff! World-shaking inventions! Devices so advanced that the average gamer on the street looks at the price tag and just quietly cries.

But hey, that's a feature!

You specialize in one-of-a-kind creations, experimental tech, and oversized masterpieces that push science, software, and sanity just a little too far.

Female Maker

Copyright Looks [100 CP]

Sooo~ let's start with your looks, Jumper! Since you share the same kind of origin as Compa and IF, your appearance naturally leans toward that “hey, aren't you a mascot character?” vibe. Cute, flashy, stylish—and normally the kind of thing that makes the super scary Copyright Police come knocking.

But not anymore! Thanks to this perk, no matter how flashy, skimpy, overdesigned, or wildly impractical your outfit looks, you'll never be hindered by it. No movement penalties. No combat drawbacks. No awkward “you can't wear that” nonsense.

Big and Strange Weapon [100 CP]

Oho~ following in Compa's footsteps, are we? Maybe you wanna wield a huge, intimidating syringe-type weapon...

Or maybe not!

Either way, you've mastered the art of using big, weird, and totally unexpected weapons that functions like normal weapons. Oversized tools, megaphones, loaves of bread, yo-yos—if it's strange, awkward, or makes enemies go “wait, what?”, you can use it like a pro! Your fighting style becomes completely unique and ridiculously hard to predict.

Time To Make An AV Video [200 CP]

Nepu?! Wait, why is there already a perverted perk here? Isn't this supposed to be in the Eroge Protagonist or Hentai Doujin Monster origins?

But then wait—why is IF having her pussy licked by that guy, and why is Compa leading the man on?

What position and technique to use on IF, and choreography for making the AV videos?!

Compa, were you this perverted and talented in making AVs??

Regardless, you now have this perverted skill of making AVs, alike matching the correct members' location and aligning—that will always sell out!

She Out Cold Time To Fuck [200 CP]

Huh?!

Wait, Compa, why are you groping that version of me in HDD while I am passed out?!

I know I am an 11/10 in the looks department, but wait—aren't you being kinda aggressive in your groping of my breasts?

And why hasn't the me there woken up yet? And just moaning there... Is it that good? Is Compa really have that kind of technique to make women melt with her hands?!

Regardless, now you have this Compa version of assault! As now, whenever you assault a woman in their sleep, they won't ever wake up until the climax, and when they do, they can't fight back until the night is over!

Uke[400CP]

what the—?!

Okay, wait, why is this origin so perverted, and why now—why does Compa have the capability to summon a dick where her clit is, and why is she fucking the other me hard in HDD mode?!

No, Compa, don't fuck that version of me so hard—that version of me is moaning so loudly, she's gonna break, Compa!

She's going to break!

So umm, here—now you gain the ability to grow a big hard dick on your clit, and it looks like you can cum in buckets! Also, any female you use your dick on will begin to moan wildly like that version of me there and get engorged by your dick! If your male then you also gain the hentai ability to make any women in fuckable position with extreme luck and hentai logic.

Erotic Making Tools [400CP]

Brainwashing apps, milking machines, dildos, and many many more...

Why, why is it that you can now make these perverted tools in this origin?!

Is there a conspiracy to make this origin the main character in this erotic dimension or something?!

Because if that really is the case, does that mean every friend that I ever made are all perverts deep down?!

Ogg umm, I kinda scared now—how the CPUs are going to be treated in this jump now?!

Magic And Science Are One [600CP]

Wahaha~ Jumper, you've finally reached the point where magic and science stop fighting and just... merge!

Anything you create naturally becomes magitech, blending spells and software so smoothly that even the world itself can't tell which came first.

With this experience, you can freely convert magic into technology and technology into magic without effort or loss of effectiveness.

No matter the setting, your creations feel perfectly natural, like they were always meant to exist that way, and whether a world favors wizards, engineers, or both, your work fits right in.

Honestly, at this point, the only real difference between a spell and a program is what you decide to call it—and that's totally a you problem now!

Heroines [600 CP]

Wahaha~ Jumper, listen up!

This is WHAT I EXCPECT FORM THIS ORIGIN!!.

You're officially in heroine mode now!

Just like me and my friends, you've got the kind of power and potential that actually keep up with us CPUs without getting left in the dust.

Your growth shoots way up, your power ceiling goes sky-high, and no matter how crazy the world gets, you never fall behind the story of any world .

At your absolute strongest, you can stare down a Demon Lord, crack your knuckles, and fight them fair and square like it's just another boss battle.

CPU

HDD Mode [Free / CPU Only]

“Okay, I think it’s faster if I just show you!”

Neptune says, whipping out a Share Crystal and slamming it into her chest as the transformation sequence explodes into motion—theme song blaring, a no-interrupt forcefield snapping into place, sparkles and light everywhere!

In a flash, her body surges with power as she gain mature body, her hair flowing out into long twin pig tails, eyes glowing with divine energy as her Processor Unit forms around her. It might look flashy, skin tight and shows a lot of skin, but don’t let that fool you—this armor is ridiculously tough, even if it covers the bare minimum, and Neptune finishes it all with a triumphant victory pose.

“I suppose I should introduce myself properly now... my name is Purple Heart,” she says, her tone suddenly calm, confident, and way more mature than usual.

From now on, you gain the same kind of transformation you alter your looks and personality freely, complete with a massive power boost starting at around five times your normal strength. The catch? You can only maintain HDD Mode for up to five minutes at a time.

How To Pleasure A Man [100CP]

I know this was coming, as every single CPU in a doujin seems to understand how to pleasure a man.

Even though I know most of us haven't even held a man's hand yet. But for some reason, in these doujins, I know how to give blowjobs, tit-fucks, and even do cowgirl positions, to name a few.

Yes, I do sometimes imagine and practice with ero-books I buy in case. Wait, what are you making me say, perverts!!

Regardless, wanting virgin girls to be good at sex is really not realistic here. You now also have these skills.

Eroge Fanservice [200CP]:

Wait a minute, why is Big Me and IF letting that man put cards in their panties?

And Compa, why are you posing that sexily in that black bikini?

Umm, looks like you now have, as a woman, the ability to pose in super sexy poses that would arouse men significantly and capture those situations in perfect angles with a camera that is out of sight from anybody.

And wait, why would it be uploaded automatically to the web? Is this an exposition perk? Why would you do that as a CPU, Jumper!!

Lust Shares [200CP]

O-O, that explains it.

As a CPU that would be smart, as now whenever you gain arousal from people in any activity and pictures you or any other person makes

You will produce shares that are more potent than other forms of share collection.

Shares are something that CPUs gather needed to grow stronger and build and maintain a nation. Also noted, the more shares you have as a CPU, the more powerful you are.

Ero Fanatics [400CP]

Uhh, is it only me, but there seemed to be a lot of doujins, videos, figures, and other products of you as a CPU in many erotic and perverted situations like this figure.

Jumper, explain to me why is there a figure of you tied up in a chair with your breasts and pussy exposed with a very erotic puddle on the chair!!!.

It's from your fanatics that you gain from the AV and other adult and products activities you do and make in your image .And they will be extremely loyal to you and do everything in their power to follow your orders. Though they will make a lot of R-18 products them selfs. Thus you gaining more followers in this erotic loop.

Umm, OK, I think I am going to lay down and play some games now.

Lazy Leadership [400 CP]

Ooooh Jumper, after that whole dramatic power display, don't you just wanna sit down and play games with me?

Yeah, same. Luckily for both of us, you've got that special talent where super-competent people just magnetize toward you and happily take care of all the boring leadership stuff.

Whether it's a Basilicom or some huge organization you're supposed to be running, everything keeps working perfectly even when you're nowhere to be found, buried in games or naps.

And the best part? Their loyalty never wavers.

Chaos [600CP]

Wait, Noire, why are your clothes more provocative than usual, and why do you have a crotch tattoo!!

Jumper, what do I do!!

Noire has gone crazy from being a loner for so long!

Wait, why do I feel such corrupted shares from her? Oh no,! Noire has become a corrupted version of herself!

This is bad, Jumper, because now her personality is now more perverted than before.(Though looks like your wont change if you dont want to)

She amplifies more power gained from Lust Shares, and her HDD Form is even more exposed than before, with it barely covering anything!

Also called Chaos HDD, and her power in HDD is equal to my NEXT form!

To Build a Nation [600 CP]

Ahhh, Jumper, this takes me way back... I remember doing this a long time ago too.

Wow, nostalgia hit!

As a CPU, you now have the skill and instinct to create a true capital city for your very own fledgling nation, designing it from the ground up exactly how you want it.

You understand how every part of a city fits together, from essential infrastructure to the fun stuff, and you can plan roads, districts, hangout spots, love hotels and all the weirdly specific places that make a nation feel alive.

Once the city is complete, people naturally begin to gather there, drawn in by your ideals and the values your nation stands for, believing in them without being forced or tricked.

Eroge Protagonist

You're A Nerd, Why Do You Look Buff [100CP]

Jumper, explain to me why does somebody like you, who clearly hates exercise and just plays games every day, have a perfectly muscular, toned body with a perfect six-pack?

I know perks give shortcuts, but giving a body that most girls will drool over is cheating!!

Eroge Luck [100CP]

Nepuu, why did my spare panties suddenly hit your face!!

why am I falling on you where your face is where my butt lands!!

Damn you, Jumper, and your eroge protagonist luck that makes you engage in these soft erotic scenes on a daily basis.

Bursting In And Seeing A CPU Masturbate [200CP]:

Wait, Uni, why are you masturbating there in an unlocked room like that!!

It's like telling Jumper, "Hey, I'm super horny right now, and if someone were to have their way with me, I will have to be their sex friend situation."

Which now you have this crazy luck as once a month, you will barge into areas where a girl you think is hot will be masturbating, and climax immediately when you enter.

making them weak and unable to resist your advances. And they will be at minimal your sex friend after for 6 months.

I Can Stay Hard For Days [200CP]

KYAAA!

Jumper, WHY is your big dick hard!!

You want to show to me that you no longer have a refractory period and you can now have the stamina to have sex with multiple women for days at a time.

Okay, I believe you, please put your dick away, I'm still a girl, you know!!

Date a CPU [400 CP]

Jumper, you've unlocked the ultimate dating power-up!

You somehow gain an uncanny sense for planning dates that make hearts race, cheeks flush, and emotions go away in a single day.

Whether it's the atmosphere, the timing, or just that mysterious protagonist aura, your dates leave a lasting impression that makes even CPUs feel swept off their feet.

By the end of the day, emotions are running high, and the mood is undeniably intimate you will always be able to have some hot passionate sex here.

No Game No Sex [400CP]

Okay, like, maybe instead of being all boring on dates instead once a day you can challenge any girl to a super fun erotic game!

Like, stripping rock paper scissors or erotic poker! And the loser has to strip and do some erotic acts, like, whatever rules you decided at the start!

And also, your luck and skills in these perverted games are, like, totally unfair!

So, to Make My Harem [600 CP]

Wow, you didn't even hesitate, did you?

You radiate that dangerously unfair Neptunia protagonist aura—the kind that makes people warm up to you way faster than they probably should.

Conversations get cozy, glances linger a little longer, flirting starts, and somehow everyone keeps thinking, “Wait... how did I get this comfortable already?”

Romance flows easily as long as you're at least trying to be decent, sex is not frowned upon and before jealousy can even think about turning into a dramatic boss fight, it just... fizzles out. Even when multiple women are sleeping with you at once.

Instead of a cat fight, there's mutual understanding, soft moans, and a lot of blushing while locking their legs while you cum in them. Like what you're doing right now with Compa and IF. o-o no comment.

It's not mind control, everyone's fully aware of what's happening which makes it even worse because they choose to stick close anyway.

Before you know it, you've gathered a group of flustered, affectionate ensemble cast, all somehow sharing you without tearing the world apart. Protagonist privilege?.

Soulmates [600 CP]

Neh~ Jumper, you do realize how dangerous this is, right?

In pure Hentai doujin destiny logic, anyone you share a close, intimate sex with doesn't just fall for you—they get hit with the big glowing SOULMATE stamp whether they were ready or not. Like how Noire and Uni are doing right now while sucking your dick.

Wait What!!

Why are you doing that in front of me Pervert !!

Anyway the bond is deep, warm, and a little overwhelming, the kind where strength, potential, and devotion just naturally flow both ways without you even asking As will do everything in their power to fulfill your goals.

And don't get it twisted you're giving it right back with genuine affection, attention, and that unfair protagonist tenderness that makes people melt.

Hentai Doujin Monster

Unlimited tentacles works [100CP]

I am the bone of my Tentacle
harness is my body and cum is my blood
I have created over a thousand tentacles
Unknown to consent,
Nor known to consequences .
Have withstood pleasure to make woman moan
Yet, those tentacles will never be satisfied or dry
So as I pray, unlimited Tentacles .
As you summon unlimited tentacles from your body.

Neptune is now eating some pudding, probably as a filter for this gross sight of tentacles.

Haki of Lust [100CP]

Heeeh, you have an aura of a permanent miasma that makes any woman go into extreme heat and have their minds go into seeking pleasure with you.

Wow, so original.

Neptune was now eating chips while looking deadpan.

Girls Go Catch Them All [200CP]

Okay, looks like you now have a map of every cute girl that exists with a 10 km radius, all with their number of sexual partners, weak spots, and fetishes that they might have.

Perfect if you wish to target certain girls to violate.

Neptune was now reading a magazine as she is eating chips.

Got To Go Fast [200CP]

What, Jumper?

You're wondering why I'm giving such weak responses to your choices here?

Well, it's because these perks and origins make you the enemy of women, so I don't really want to give you the Nep service like in the other origins, so.... Yeah, this perk allows you to create a magic portal that allows you to escape from enemies' pursuits, like the hentai monster you are.

Impregnate Like A Hentai Monster, Disappear Like A Dead Beat[400CP]
YOU ARE SCUM!!!

Neptune looks at the Jumper with pure hatred.

Even though you now have the capability to control your fertility, you can always make any woman pregnant when you climax at will, like many hentai monsters out there.

But that's not all.

Neptune's hands were in a fist and shaking, wishing that she can punch the Jumper.

But now, when these women give birth to your child, they won't go after you and will raise the child with love.

And you would not need to pay child support at all.

YOU DEAD BEAT!!

Anti-Share Monster [400CP]

Ehh, wait, why am I so weak!!

Neptune now collapses on the floor.

Nepu, don't tell me you are made of anti-share energy, the only thing that can make any CPU completely weak and vulnerable to perverts advancements!

Also, in future worlds, this anti-share energy will weaken any person that uses similar divine energy.

Deity of Lust [600CP]

Eh, wait, Jumper, you're actually one of our mortal enemies as a fallen CPU, like Arfoire or Kurume?

Neptune tried to stand up, but the anti-share energy still had her weak.

You draw your power from the Sin of mortals .

The more people lust and desire from the evil in their hearts , the stronger you grow , your strength rises until you are no less than a god that supersedes any CPU that dares to power from normal Shares.

Further, you can spend Sin in the same way that Goddesses spend Shares in order to learn how to recreate any Device, learn skills, or create minions for you to give orders to.

The more powerful the device, skill, and minion you wish to create, the more Sin energy you need to spend.

Also, unlike CPUs, you don't have an HDD mode as you are always in that state in your base form with all of their benefits.

CFW Jumper [600 CP]

W-Wait WHAT?! Jumper... don't tell me... you're one of Arfoire's Apostles?!

Yeah, no, that explains everything!

That overwhelming presence, that absurd strength—this isn't normal protagonist nonsense anymore, your power rivals CFW MAGIC.

As a fighter, you're now packing strength on par with five fully powered CPUs at once, which means congratulations, you're already a minimum-level world-ending threat just by existing. And as if that wasn't scary enough, your connection to Arfoire runs so deep that once per jump, if you're ever actually defeated, she'll simply will you back to life. After all, she knows exactly why you're here—to shake up Gameindustri and cause absolute chaos.

Items

Okay Jumper, this is the fun part! Here's where you get to pick out any items you want to bring along with you—gear, tools, gadgets, whatever catches your eye. Even better, any items that are the same type as something you already have can be imported for free.

Female Maker

Erotic Player [100 CP]

Wahaha~ Jumper, as a citizen of this world and its many... questionable erotic dimensions.

you now have access to a carefully curated collection of eroge straight out of any otaku's dreams!

Pick a genre you like, and boom—one hundred games magically appear, perfectly tailored to your tastes.

Combat Mech [200 CP]

Uhh, Jumper... where did you even get this thing?!

This intimidating mech is packed with powerful weapons, sturdy armor, and enough raw force to let even a normal Maker fight a CPU on almost equal footing while inside it.

It's not just for combat either—it's great for transportation, heavy lifting, giving rides, and general "wow, that's overkill" utility.

Spellbook [400 CP]

Whoa, Jumper, look at this!

You've gained access to a powerful collection of spellbooks filled with genuine software magic.

You can use them yourself or teach others if you feel generous, slowly guiding them into the world of spellcasting. Most people can start using basic magic after a few months of proper study

Erotic Disk Creation Factory [600 CP]

NEP—okay wow, this one's big!

You now own a massive factory dedicated to mass-producing game disks for any eroge you want to create and distribute.

With only minimal effort, the entire facility can be reformatted to produce almost anything erotic in nature you desire, making it absurdly flexible and efficient.

Whether you're flooding the market with niche titles or experimenting with totally new ideas, this factory's got your back. Neptune refuses to take responsibility for the cultural impact of this thing.

CPU

Jaack of All Traits [100 CP]

Wahaha~ Jumper, behold the ultimate “eh, good enough!” device!

You now own a foldable tablet that can grow or shrink to whatever size you need, and somehow turns into a basic version of any mundane tool you might want.

It’s not amazing and it’s definitely not specialized, but it gets the job done with reliable, generic success—perfect for when you don’t feel like trying too hard.

On top of that, it works as a communication device with calling and messaging, has infinite memory and energy, and is absolutely perfect for gaming whenever and wherever laziness strike

Spy Detection Hardware [200 CP]

Jumper, looks like you’ve got countermeasures now!

This handy app scans the nearby area for spying technology, hidden cameras, listening devices, and all that shady stuff.

Even better, it works on magic too, letting you detect scrying spells and magical surveillance like it’s just another system scan.

No more being watched without permission—unless you want to be, which is a whole different genre.

CPU Memory [400 CP]

W-Wait a second, Are those CPU Memories?!

Where on earth did you get those?!

Each one carries the potential to transform an adult woman you choose into an immortal faith-based entity, just like a proper CPU or goddess candidate, and somehow these things have a 100% success rate.

You can only use one per person, can't use them on yourself, and you receive a new CPU Memory every jump.

Handing one over is a big deal, reshaping someone's destiny forever... wow. Even Nep's a little impressed—and maybe a tiny bit scared.

Basilicom [600 CP]

You now own a full-fledged Basilicom, the heart of a CPU's governmental power, and it follows you from world to world like it belongs there.

It comes fully staffed with around ten thousand completely loyal, mostly irrelevant NPCs who handle all the boring government work for you, from paperwork to policy, so you can laze around without consequences.

Consider it your official workplace, throne room, and excuse to never deal with bureaucracy ever again. Honestly?

That's peak CPU living right there.

Eroge Protagonist

Erotic Clothes Collection [100 CP]

N-Nepu?! Jumper, why do you have an entire closet full of erotic outfits?!

Black bikinis

Bloomers

And even the legendary “naked shirt” that somehow shows everything while still technically counting as clothing!

These outfits look like they jumped straight out of a doujin, and for some reason, anyone who chooses to wear them feels oddly confident and playful while doing so.

With a “I can’t believe I agreed to this” energy.

Eternal Filming Camera [200 CP]

Invisible cameras now quietly float around you, continuously recording your surroundings like a perfect highlight reel.

You can also send them scouting up to fifty meters away to check things out or record anything interesting you want to remember later.

The best part? These cameras are completely undetectable by normal or magical means, making them perfect for recon, safety, or catching truly embarrassing moments you’ll definitely pretend never happened.

Cozy Gaming Room [400 CP]

N-Nope. Jumper. This room is dangerous.

This is your personal gaming sanctuary, fully customizable and decorated exactly how you like, radiating peak comfort and gamer vibes.

When girls willingly come in, the atmosphere is so cozy and intimate that everyone naturally relaxes, lets their guard down, and gets a little more flustered than expected.

They are now expecting some fun sexy time while here.

It's soundproof, private, and perfect for long gaming sessions, heart-to-heart talks, or long and hot sex.

The Perfect Game Console [600 CP]

NEPU!! this is it. The holy grail of gaming.

This divine console contains every game that has ever existed in this world and every world you've ever visited.

The screen, controller, and setup are perfectly ergonomic, never causing strain no matter how long you play, and the chair it comes with is ridiculously comfortable.

There is zero lag, zero performance issues, infinite battery life, and flawless internet connectivity at all times.

It even comes with a gamer fridge stocked with snacks and drinks so you can play for days without stopping.

Hentai Doujin Monster

Black Mail Material [100CP]

Nepuu, why, WHY do you have a picture of me, Noire, Blanc, and Vert in a messy orgy!!!

Those are pictures from an alternate dimension, and you have a folder filled with pictures of this nature of any girl you wish to blackmail,

Pervert!!

Hentai!!

Erotic Dungeon [200CP]

There it is, here is the erotic dungeon that exists in most doujins.

As now, this place is filled to the brim with erotic monsters and tentacle monsters.

Also, this dungeon is full of traps that would heighten and tease the body of women to the brink of climax but not reaching.

Perfect if you wish to weaken the wills of the women you wish to rape.

Modification Containment Unit [400CP]

Neppu, why do you have these perverted contraptions?

This is a large pillar-like structure; it's built to contain Goddesses and other races for long periods, preventing those inside from regaining their strength.

Your version is even better, as its also main function is perversion alteration, which includes increased sensitivity, age regression and acceleration, and body modification, and finally, a sex slave implant that makes these girls can't resist your orders.

Perfect if you wish to create some sex slaves.

YOU Monster !!

Gehaburn [600CP]

NOOOOOOOO!!

Why do you have the cursed sword that brought Nepgear to despair!!

You have a copy of that dangerous sword!!

You madman!!

That sword is a cursed sword forged from the shares torn from the lives of CPUs
My friends .

Gehaburn can slay nearly any divine being and steal their power to strengthen
itself, making you one of the most powerful being with enough gods slayed.

You may create or import companions you have brought with you, 50 CP each, or 8 for 300CP. Each one gains a free background. and 600 CP to spend. They may not take drawbacks, but you may give them CP, spending 100 each time to give them each an additional 200.

My New Team 100

Sometimes having friends would be nice. Buying this once will allow you to add any allies you've made here as companions. You may buy this multiple times.

Drawbacks

Supplement [+0]:

Not exactly the most in-depth of places, so you can use this jump as a supplement for other jumps. The CP here can only be used in this jump, and vice versa; this includes extra CP from drawbacks.

Time Extender [+100]:

Oh, you wanna stick around longer? Maybe for more adventures or more sexy warriors? No judgment here! Each time you pick this, you get to hang out in this wild world for an extra ten years. Wanna stay forever? Sure thing! Just keep in mind, you can only nab up to 800 CP no matter how long you chill here. Go on, make the most of it, you eternal wanderer!

Eighth Grade Syndrome [+100CP]:

Ohoho! Calling all Dark Flame Masters and edgy dreamers! With this, you're gonna get a serious case of chuunibyou. That means exaggerated poses, dramatic speeches, and a whole lotta cringe energy that'll make everyone roll their eyes. But hey, on the bright side, you're gonna look really cool... at least in your own mind!

Substance Dependence [+100CP]:

You are deeply entrenched in unhealthy habits, whether it be alcohol, drugs, nicotine, or another substance. This addiction has taken a strong hold over you, affecting both your physical and mental well-being. Whether you struggle to function without a constant supply or find yourself frequently seeking ways to numb your emotions, this dependency can greatly impact your judgment and decision-making. As a result, you will often be distracted, disoriented, or weakened by the need to feed your cravings, making it harder to focus on more important tasks or maintain a level head in dangerous situations.

Ticklish Body [+100CP]:

Kyaaa! Looks like someone just discovered their secret weakness! You're so ticklish that even the slightest poke in the right spot will send you into a giggle frenzy. Fighting back? Nope, you're too busy laughing your head off. Perfect excuse for some, uh... "playful" interactions. You know what I mean.

M Problem [+200CP]:

Oh-ho-ho, someone's into the pain train! You're a total masochist now—like, hardcore. Whether it's getting stepped on, whipped, or tossed around by monsters, you're all in. The worse it gets, the more you love it. Just don't blame me when your teammates start facepalming every time you run toward danger instead of away from it!

Naive Mindset [+200CP]:

Oh, sweet, trusting little you! Now you believe everything anyone tells you, even if it's totally sketchy. "Sure, this path through the tentacle monster forest is perfectly safe!" or "Just work off your debt as a dungeon maid, no strings attached!" Yeah... this is gonna get you into trouble. Good luck, my gullible friend!

Humiliation Magnet [+200CP]:

Eww, grossos! Why do those kinds of people always get so lucky when they're around you? They trip, and—whoops!—your skirt flies up. They sneeze, and bam, your chest gets groped. And to top it off, when you try to fight back, you're somehow the bad guy! Gah, why can't the world just chill already?

Weakling [+300CP]:

Ugh, so unfair! No matter who you fight—big bad boss, tiny slime, or even a flipping chicken—it's gonna take you at least four tries to beat them. Everyone's gonna laugh and call you a joke, but hey, just think of it as a long grind for glory. You'll get there... eventually. Probably.

I Am Afraid Of The [+300CP]:

Pick your poison, pal! From now on, there's one type of monster that makes you go full-on jelly legs. Spiders? Dragons? Zombies? Whatever you choose, you're gonna see them every single day, and every single time, you're gonna freeze up like a scared little pudding. Don't worry, though—you'll get over it... after, like, nine years.

I Hate Being Poor [+400CP]:

Bleh! Money? What's that? Every time you manage to scrape some cash together, it slips through your fingers like sand. Scams, bad luck, or just plain dumb spending—it's always something. At least you'll have enough for a crummy apartment and a single meat bun a day. Gourmet living, amirite?

I Don't Need My Brains [+400CP]:

Oh no, you went full Nep! You're now officially as dumb as a rock. Complex math? Forget it. Using your class's fancy skills? Nope, just swing your sword and hope for the best. It's head-empty, no-thoughts time, but hey, at least you can smash stuff real good! ...Hopefully.

Uhh, You're Loved!? [+400 CP]

WHOA, JUMPER! You've, like, become the object of some super intense, obsessive desire from a powerful noble or a leader of a formidable faction! For, like, reasons only they know, they're totally consumed with the goal of capturing you, subjugating you to their will, and bending you to their desires! With all their vast resources, this relentless pursuit turns your life into a deadly game, where your every move is watched, and escape is, like, nearly impossible! Survival hinges on your ability to outsmart this obsessive pursuer—whether by eliminating their faction, finding ways to evade their grasp, or totally turning the tables! For those, like, seeking an extreme challenge, this drawback can be picked multiple times, each attracting up to three different factions, all working together in their unyielding quest to claim you as their prize! It's like one of those games where the protagonist is pursued relentlessly, but you're the one being chased!2

Hypnotism Seal [+400 CP]

A powerful and cruel enemy has, like, branded you with a hypnotism seal, allowing them to control your every action! This means you're now at the mercy of their will, forced to obey their commands and follow their instructions without question! Your autonomy is, like, totally diminished, leaving you vulnerable to their whims. They might humiliate and degrade you repeatedly, manipulating your actions for their entertainment or their advantage. The seal ensures that breaking free is nearly impossible without some external help or finding a way to break the bond on your own, making you a puppet in their cruel game! It's like you're the main character in one of those stories where the protagonist is controlled, but it's, like, totally not fun!

Enslaved [+600 CP]

You're, like, no longer your own master, Jumper! A female has claimed ownership over you, binding you in chains both physical and magical! Your every action is dictated by their whims, and disobedience is, like, not tolerated! If you fail or refuse to comply with their demands, an agonizing punishment will be inflicted upon you—one that seeps into both your body and mind, ensuring that even the thought of rebellion is met with suffering! But it doesn't stop there! Each act of resistance, each failure, only tightens your chains further. The more you struggle, the more your freedom erodes—your movements will become sluggish, your power dulled, and your very will slowly crushed under the ever-growing weight of enslavement! The chains themselves seem almost alive, reacting to any attempt to break free by restricting you even further! It's like you're stuck in a game where you have to fight against overwhelming enemies, but the chains are, like, totally holding you back!1•2

Everyone Wants You [+1000CP]:

It seems you've found yourself in, like, a really precarious situation, becoming a prime target for every organization in the world due to your unique ability to produce pure energy while being driven crazy by the antics of the world's citizens! This has made you an invaluable asset in their schemes for domination and power! Now, every corner of the globe is teeming with groups seeking to capture and imprison you, using all means at their disposal to exploit your abilities! This constant threat means you must remain vigilant and always on the move to evade capture! Each independent organization will deploy their resources—from spies and mercenaries to advanced technology and magic—in relentless pursuit of you! The consequences of capture are dire: imprisonment that lasts a year will end in a jump break! If the targeted drawback is purchased, the factions affected will immediately deploy their most formidable units against you. These units will be exceptionally powerful and will not be killable until the final year of your jump! This means you will face ongoing and intense opposition from these top-tier enemies throughout your time in the world! It's like you're the protagonist in an open-world game with no map, and everyone is trying to capture you!^4
