

Black Lilith: Onmyouji 0.1

By saiman010

Introduction:

Welcome, Jumper, to the veiled world of the Onmyouji—a realm where mysticism and mastery intertwine, shaping the unseen battles that dictate the fate of humanity. While the common folk remain blissfully unaware, the spiritual realm is one of ceaseless conflict, where ancient forces clash in the shadows. The Onmyouji stand as the guardians of balance, wielding power drawn from the unseen, binding spirits, purging malevolence, and bending the elements to their will.

This is no world for the weak-hearted. The Onmyouji do not simply exist; they carve their destinies through knowledge, discipline, and sheer force of will. Whether adorned in ceremonial robes or clad in modern garb, their presence commands reverence and fear alike. To be one of them is to understand the weight of power—how it is earned, how it is wielded, and how easily it can consume those unprepared.

Yet, this path is fraught with peril. Cunning yokai, vengeful spirits, and dark practitioners of forbidden arts seek to upend the delicate balance. For every Onmyouji who rises to prominence, another falls to corruption, crushed beneath the weight of their ambition or devoured by the very forces they sought to control. But true masters do not waver. They stand firm, weaving their spells and invoking their shikigami with unshakable resolve.

Understand this, Jumper: the world of the Onmyouji is one of duty and danger. It is not simply about survival but about mastery—of self, of spirit, and of the unseen forces that shape reality. Some will act as benevolent exorcists, shielding humanity from the horrors beyond the veil. Others will walk the darker path, bending spirits and ancient magics to their will, enforcing their own order upon the chaos.

With 1,000 CP in your grasp, you are given the chance to step into this hidden world. Will you walk the path of righteousness, serving as a pillar of protection? Or will you seize power for yourself, rewriting the laws of existence to suit your vision? The choice is yours, Jumper. Step forward into the world of the Onmyouji, where wisdom is a weapon, and the unseen world bows only to those strong enough to command it.

Universe Lewdness:

In this section, you will decide the nature of the universe you, the Jumper, shall enter. Within the Black Lilith multiverse, it is a truth carved into the fabric of reality that every universe exists in two forms—one drenched in the unrestrained passions of NSFW debauchery, and the other veiled in the solemnity of SFW grandeur. The choice is yours. Will you immerse yourself in the untamed, primal realm of forbidden pleasures, or tread the noble path where intrigue, power, and honor reign supreme?

NSFW Universe:

You have entered a universe where the fate of most Onmyouji is far more perilous and compromising. Much like the original hentai games from which these characters originate, Onmyouji here face overwhelming odds, often finding themselves captured or placed in compromising positions far more frequently. Their battles are intense, but victory is fleeting, and danger is ever-present.

You'll notice that the uniforms worn by both Onmyouji and their enemies carry more risqué details, including designs that are clearly meant to highlight their vulnerability. The aesthetics of the world are overtly sensual, and the stakes for the magical girls are not just physical but emotional, as they constantly struggle to maintain their dignity and resolve in a world determined to break them.

SFW Universe:

You have chosen to venture into a world where the focus is less on compromising situations and more on lore, world-building, and the epic battles between good and evil. Here, the story is rich with intrigue, character development, and deep narrative arcs. The magical girls are more competent, better trained, and far less likely to fall into the clutches of their enemies.

The designs of their uniforms are still sleek and stylish, but they offer more modest coverage—enough to maintain the signature aesthetic without crossing into hentai territory. The stakes remain high, but the focus shifts to the resilience of the magical girls, their unbreakable bonds, and their determination to protect the world from the forces of darkness.

Choose carefully, Jumper. Whether you walk the path of indulgence or ambition, know that both universes hold the promise of greatness. Step forward, and let us see if you are worthy of standing among us.

Timeline:

In this section, you will determine the nature of the world you, the Jumper, shall enter. Within the realm of the Onmyouji, reality exists in multiple forms—one where spiritual warfare shapes the very foundation of civilization, another where it unfolds in secrecy amidst modern society, and a third where the future is consumed by darkness, and only the strongest endure. The choice is yours. Will you walk the path of ancient grandeur, maneuver through the hidden battles of the present, or face the horrors of a dystopian future where the line between human and spirit has all but vanished?

Traditional World [From 1000 to 1800 AD]

You have chosen to enter an era where the Onmyouji stand at the forefront of human civilization, their power recognized and revered. Here, spiritual mastery is not a secret art but a way of life, shaping the very structure of society. Temples, academies, and noble clans dictate the course of history, their influence rivaling that of kings and emperors. Battles against yokai, vengeful spirits, and rogue practitioners are fought with both cunning and raw might, as warriors of the arcane strive to maintain balance between order and chaos.

The aesthetic of this world reflects the refinement and power of its greatest exorcists—flowing robes inscribed with sacred glyphs, talismans woven into elaborate armor, and weapons infused with divine energy. This is a land of honor and ambition, where reputation and lineage hold great weight, and where the strongest Onmyouji carve their names into eternity. But beware—while this world reveres the art of exorcism, it is also rife with political intrigue, ancient rivalries, and forces that would see the balance shattered for their own ends.

Modern Hidden World [from 1900 to 2350 AD]

For those who prefer the mystique of secrecy, the modern world of the Onmyouji exists beneath the surface of everyday life. The battles of exorcists and spirits unfold unseen by the common populace, masked as natural disasters, urban legends, or unexplained phenomena. In this realm, the Onmyouji are the silent guardians, walking among mortals yet waging an invisible war against the forces that lurk beyond the veil.

Here, ancient traditions clash with modern technology—rituals are performed in hidden sanctuaries, while exorcists wield smartphones and mystic seals in tandem. The elegance of traditional attire is blended with modern practicality, as ceremonial garb is exchanged for sleek, enchanted coats and discreet talismans. This world demands adaptability, where the greatest warriors are those who can balance secrecy, duty, and the ever-present threat of the unknown. Some work as lone vigilantes, others as part of secret organizations that ensure humanity never glimpses the horrors that truly stalk the night.

Both paths offer their own trials and triumphs. Whether you rise as a noble heir to an ancient lineage or operate from the shadows of a modern metropolis, your journey as an Onmyouji will be one of power, wisdom, and unrelenting resolve. Choose wisely, Jumper—for once you step into this world, there is no turning back.

Future Grimdark World [Above 3050 AD]

The future is bleak. Humanity teeters on the edge of extinction, its cities crumbling under the weight of war, pollution, and supernatural calamity. The barrier between the mortal and spirit worlds has fractured, allowing yokai, corrupted gods, and eldritch horrors to roam freely, preying upon the remnants of civilization. In this world, Onmyouji are no longer guardians—they are one of the last hope of survival.

This is an age of desperation, where cybernetics and sorcery intertwine, forging warriors who blend mysticism with technology. Ancient talismans are inscribed onto reinforced armor, shikigami are housed in AI-controlled drones, and spirit energy is weaponized in the form of railguns and plasma-infused prayer beads. The old ways are dying, but the war is far from over. Onmyouji fight in the ruins of once-great cities, battling mutated spirits and rogue exorcists who have succumbed to the very forces they once swore to contain.

The aesthetic of this world is brutal and efficient—ceremonial robes replaced with combat gear reinforced with hexagonal seals, traditional calligraphy etched into cybernetic limbs, and the eerie glow of spirit energy illuminating the darkness of a dying Earth. There is no time for honor, only survival. Some fight to restore what was lost, while others seek dominion over the shattered world, determined to reshape it in their own image.

No matter which world you choose, the road ahead will be perilous. Will you uphold the traditions of the past, navigate the shadows of the present, or carve your destiny from the ruins of a doomed future? Choose wisely, Jumper—for once you step into this world, there is no turning back.

Starting Location:

Choose any location on Earth as your starting point. Whether it be a city steeped in spiritual history, a hidden sanctuary of Onmyouji, or the ruins of a fallen civilization, your journey begins here. Choose based on your timeline.

Traditional World:

1.Kyoto, Japan

Kyoto stands as the epicenter of spiritual mastery, where generations of Onmyouji have refined their craft under the watchful gaze of ancient shrines and divine spirits. The city is a battleground of both politics and power, where noble exorcist families guard their legacies with fierce determination. Sacred temples house powerful artifacts, while hidden academies train the next generation of spirit warriors. Yet, beneath its tranquil beauty lies a darker truth—sealed demons, vengeful ghosts, and secret rivalries threaten to unravel the delicate balance that has kept Kyoto at the pinnacle of spiritual dominance for centuries.

2.Beijing, China

The echoes of China's imperial past still reverberate through the streets of Beijing, where Taoist sorcerers wield ancient techniques passed down through generations. The Forbidden City, once a place of political intrigue, now serves as a focal point of supernatural warfare, its walls whispering with the spirits of forgotten dynasties. The city's vast network of underground catacombs and hidden temples houses both allies and adversaries, as practitioners of both righteous and forbidden arts seek to tip the balance of power. Those who walk this path must navigate not only the threats of wandering ghosts and corrupted sages but also the unending struggle for dominance among the great spiritual sects.

3.Varanasi, India

Varanasi, the city of death and rebirth, is a place where the boundary between the mortal world and the afterlife is razor-thin. Here, ascetic sages and fearless spirit-walkers guard the sacred rivers and ghats, ensuring that the restless dead find their way beyond the cycle of reincarnation. The air hums with mantras and divine energy, yet dark forces seek to twist the sacred rites for their own gain. Among the countless shrines and burning pyres, exorcists battle against vengeful spirits and wayward gods, struggling to maintain the equilibrium of the cosmic

order. In Varanasi, one does not merely fight spirits; they bargain, appease, and confront the very forces that govern existence.

4.Rome, Italy

Rome, once the heart of an empire, now serves as the front line in a battle between the old and the new. The Vatican's most elite exorcists operate in secret, using divine relics and holy incantations to purge the city of demonic infestations. Yet, the ancient gods of Rome have not been entirely forgotten, and their lingering influence stirs beneath the ruins of temples and catacombs. Cults devoted to these lost deities seek to restore their power, while rogue exorcists question the authority of the Church, forging pacts with beings older than Christianity itself. Within this eternal city, faith and heresy are two sides of the same coin, and only the strongest exorcists can survive the war brewing in the shadows.

Modern Hidden World:

1.Tokyo, Japan

Tokyo is a city where ancient spirits and modern technology intertwine, creating an ever-shifting battlefield unseen by ordinary people. Beneath the glow of neon signs and towering skyscrapers, hidden Onmyouji clans and shadowy government agencies wage a silent war against restless yokai, cursed artifacts, and supernatural crime syndicates. In the depths of the underground train stations, forgotten shrines still hold power, while back-alley exorcists sell their services to those desperate enough to pay the price. With every district hiding its own mysteries—from the restless ghosts of Akihabara's abandoned buildings to the spectral warriors of Shinjuku's darkest alleys—Tokyo is a city where the boundary between the mundane and the mystical is razor-thin, and danger lurks behind every flickering streetlight.

2.New York City, USA

New York is a city of contradictions, where Wall Street brokers make secret pacts with ancient spirits, and subway tunnels hide gateways to otherworldly realms. Here, old-world mysticism from every corner of the globe collides with modern-day ambition, giving rise to a supernatural underworld ruled by arcane crime families, occult detectives, and secret societies that police the balance of power. In the depths of abandoned buildings and hidden speakeasies, warlocks and exorcists exchange knowledge and curses in equal measure. The city's

landmarks hold their own dark secrets—the ghosts of Ellis Island still whisper, the statues of Central Park are more than mere stone, and the waters beneath the Brooklyn Bridge are home to creatures best left undisturbed. In New York, magic is as much a currency as power, and those who seek it must tread carefully.

3.London, UK

London is a city steeped in history, where the echoes of ancient sorcery still resonate beneath its rain-slicked streets. The ghosts of kings and witches walk among the living, their influence felt in the corridors of power where secret societies dictate the fate of the nation. The old churches and grand libraries house more than mere knowledge—locked away in their archives are forbidden grimoires, cursed relics, and spirits too dangerous to roam freely. Beneath the city, the remnants of druidic magic and Roman enchantments clash with modern occult warfare, as factions fight for dominance in the unseen world. From the haunted alleys of Whitechapel to the spectral whispers of the Tower of London, London is a city where the past refuses to stay buried, and those who ignore it do so at their peril.

4.Moscow, Russia

Moscow is a city where the ghosts of the Cold War still linger—not just in memory, but in reality. Buried beneath the ice and concrete are the remnants of Soviet-era experiments in the occult, their consequences still haunting the present. Government agencies continue to conduct secret research, attempting to harness supernatural forces for military supremacy, while rogue mystics and Siberian shamans fight to reclaim lost knowledge before it is weaponized. The Kremlin's halls whisper with the voices of spirits bound to ancient pacts, and in the depths of the abandoned metro tunnels, entities awaken that were meant to stay sealed forever. With winter's breath chilling the air and the veil between worlds thinner than anywhere else, Moscow is a battlefield where science and sorcery collide, and only those with the will to survive can hope to uncover its deepest secrets.

Future Grimdark World:

1.Neo-Kyoto, Japan

Neo-Kyoto is a city trapped between the past and the future, where neon-lit skyscrapers cast long shadows over crumbling temples and forgotten shrines. In this world, traditional Onmyouji have adapted to the rise of technology, integrating cybernetics, AI-enhanced shikigami, and digital talismans into their ancient arts. But with progress comes catastrophe—rogue artificial intelligences have become possessed by vengeful spirits, their corrupted code rewriting the laws of reality itself. The city is a battleground where cyber-exorcists fight against both technological abominations and corporate overlords who seek to harness the supernatural for their own ends. Here, the line between man, machine, and spirit has blurred beyond recognition, and only those who master both steel and sorcery can hope to survive.

2.Hong Kong, Free Zone

Once a thriving metropolis, Hong Kong has become a war zone where supernatural triads, rogue exorcists, and ancient spirits vie for dominance. The city's underworld is controlled by rival factions—each wielding forbidden rituals, bio-enhanced yokai, or cybernetically augmented spellcasters in their bid for absolute power. The government has long since abandoned the Free Zone, leaving only mercenaries, smugglers, and desperate survivors to navigate the chaos. Spirit markets deal in everything from cursed relics to ghost-bound assassins, and the neon-lit streets are soaked in both rain and blood. Whether you seek power, wealth, or survival, one rule remains absolute in Hong Kong: the weak do not last long.

3.The Ruins of Paris

Paris is no longer the City of Lights—it is a graveyard of lost souls and eldritch nightmares. Whatever catastrophe struck Europe left its greatest cities in ruins, and now only the dead walk the streets of Paris. The Eiffel Tower stands cracked and broken, wrapped in spectral chains, while the catacombs overflow with horrors beyond human comprehension. The few survivors who remain have formed isolated enclaves, protected by scavenged relics and whatever magical defenses they can muster. Vatican inquisitors and rogue necromancers scour the ruins for forgotten knowledge, while something vast and unspeakable stirs beneath the Seine. To enter Paris is to gamble with your very soul, for in this city, even the wind whispers in dead tongues.

4.The Wastelands of America

The great cities of America are gone, reduced to smoldering ruins and ghost-haunted wastelands. In their place, lawless frontier towns have sprung up, where survival depends on firepower, magic, and ruthless cunning.

Cybernetically enhanced yokai roam the highways like predators, hunting down anything unlucky enough to cross their path. Rogue Onmyouji, unbound by ancient traditions, have formed their own warbands, using whatever scraps of lost technology and arcane knowledge they can find. The remnants of the U.S. government operate from hidden bunkers, conducting brutal experiments in their desperate quest to reclaim control. In this lawless, blood-soaked land, alliances are fleeting, survival is never guaranteed, and the only rule that matters is the one you carve into the bones of your enemies.

Species:

As an Onmyouji, your lineage defines not only your abilities but also your place within the world's hidden supernatural hierarchy. Whether you are a pure-blooded human mastering the art of exorcism through sheer will, or something more... otherworldly, your origins will shape your journey. Choose wisely, for each race carries both power and peril. Your age is determined by your species' natural lifespan, and you may change your sex freely to suit your preference.

1.Human [Free]

You are a normal human, born into the world of Onmyouji with no supernatural heritage to speak of. However, do not mistake this for weakness—humans have long been the masters of spiritual arts, relying on their intelligence, discipline, and sheer willpower to stand against the forces of darkness. Unlike yokai or spirit-born beings, humans are not bound by ancient instincts or supernatural urges. Instead, they shape their own destinies through rigorous training, strategic thinking, and mastery of spiritual tools. Your age is 18+1d8.

2. Beastmen [200 CP]

The Beastmen, also known as Juujin, Therianthropes, or Demibeasts, are a unique and diverse group of demons in the Dark World. Known for their animalistic features and transformative abilities, these demons are a bridge between the feral power of beasts and the refined intellect of humanoids. While they appear mostly human, with subtle traits like animal ears, tails, or sharp claws, they can unleash their full potential by transforming into hybrid or even fully animal forms, depending on their chosen beast type.

Beastmen are not a single race but a genus encompassing countless subtypes, each tied to a specific animal lineage. Whether it's the ferocity of a tiger, the cunning of a fox, or the unyielding strength of a bear, your choice of animal form defines the essence of your abilities and personality. This versatility makes Beastmen a force to be reckoned with, especially in combat, where their transformations give them an edge over many foes. Choose one. Your age is 18+1d8.

3. Vampire [400 CP]

The Vampires of the Demon Realm stand as aristocrats of the night, wielding ancient and formidable powers that make them both feared and revered. With their sharp intellect, unyielding resilience, and mastery over both physical and magical abilities, Vampires are among the most potent races within the Dark World. To choose this path is to embrace a legacy of power, elegance, and an insatiable thirst for blood.

Vampires are defined by their connection to magical blood, a source of immense power and adaptability. By consuming blood, they not only sustain their existence but also enhance their already formidable abilities. Their capacity for regeneration is unparalleled, allowing them to recover from injuries that would be fatal to most other beings, save for specific weaknesses or countermeasures that disrupt their healing. Your age is 100+1d100.

4. Incubus / Succubus [400 CP]

Among the higher-ranked demons of the Dark World are the Incubi and Succubi, collectively known as Inma or Lewd Demons. These enigmatic and alluring beings command a unique and potent form of power—one that merges magic with an irresistible charm. Whether you walk this path as a Succubus, embodying the allure of femininity, or as an Incubus, wielding the seduction of masculinity, your abilities are tailored to control and manipulate the desires and dreams of others. Your version will depend on your gender.

Succubi and Incubi are masters of vitality manipulation, capable of draining life energy through intimate encounters or even subtle contact. This ability not only weakens their targets but also empowers them, sustaining their vitality and amplifying their magical prowess. Their dominion extends into the realm of dreams, where they can infiltrate the subconscious minds of mortals, crafting dreamscapes that enthrall, terrify, or exhaust their victims, sometimes to the point of death.

Beyond their enchanting presence, these demons are gifted in magic and possess the power of flight. Their innate magical abilities are versatile, allowing them to cast a range of spells that complement their otherworldly charm. Whether soaring gracefully through the skies or weaving illusions to beguile their foes, Incubi and Succubi are as dangerous as they are captivating. Your age is 100+1d100.

Dream Manipulation: Enter and alter the dreams of others, creating scenarios to enthrall or harm them.

Flight: Glide effortlessly through the skies, showcasing your grace and freedom.

Magic Proficiency: Possess versatile magical abilities, with a focus on enchantments and illusions.

5. Shinigami [400CP]

Aah, the Grim Reaper—a truly distinguished class of demon, revered and respected for their noble role in the eternal cycle of life and death. As a Grim Reaper, you are not merely another denizen of the Demon Realm but a crucial figure, an arbiter of fate, standing on the threshold between existence and oblivion. What higher calling could there be than to shepherd souls to their rightful rest or punishment?

Your kind are not mere harbingers of doom, as the mortals so often misinterpret, but the elegant stewards of balance and order. The Grim Reapers are demons of immense dignity and purpose, their work ensuring the Demon Realm and mortal planes alike remain uncorrupted by the chaos of wandering souls. They walk unseen among the living, their presence a whisper of inevitability, a reminder that all things must end. Your age is not important.

Powers and Abilities:

Soul Collecting: As a Grim Reaper, you wield the sacred ability to harvest and guide the souls of the deceased. With a touch, you sever the mortal threads binding a soul to its earthly vessel, ensuring its passage to the afterlife. Whether by scythe or staff, your tools are extensions of your will, precision instruments of divine purpose.

Invisibility: Mastery of concealment is your birthright. You can render yourself unseen to mortal eyes, walking unnoticed among the living. However, those whose time approaches will sense your presence regardless of your concealment. Should you desire, you may cast aside this veil and reveal your commanding presence in full.

Ethereal Step: Move seamlessly between the mortal plane and the liminal spaces of the afterlife. No door, wall, or boundary can impede your journey, for the pathways of death are yours to tread.

Aura of Mortality: Those who gaze upon you feel the weight of their mortality, an unshakable understanding of life's fragility. This aura can weaken the resolve of even the strongest foes, making them falter in your presence.

Necrotic Magic: You wield magic drawn from the essence of death itself, capable of banishing the undead, manipulating shadows, or laying curses that sap life and vitality from your enemies.

Ageless Vigilance: Time holds no sway over you. Your form remains unchanging, untouched by the years, a constant in a world of ceaseless decay.

6. Divinity [600 CP]

You were once a god—worshiped, feared, and revered. But for reasons lost to time, you were sealed away, your divinity stripped, your temples crumbled, and your name erased from history. Now, after an age of slumber, you have awakened... but not as the being of limitless power you once were. Instead, you stand among mortals, your strength reduced to that of an ordinary human. However, remnants of your former glory still linger, and within you burns a divine spark waiting to be rekindled.

Even in this diminished state, your body is undeniably divine. Your presence alone is enough to command attention, and your beauty transcends mortal comprehension—flawless, radiant, and otherworldly. Those who gaze upon you find themselves captivated, their hearts faltering, their thoughts clouded by admiration. With each moment of recognition, your power grows, slowly reclaiming the divinity that was stolen from you. Your age is not Important

Traits and Abilities:

- **Transcendent Beauty:** Your appearance is beyond mortal limits, an 11/10 in every sense. No matter the culture or species, all recognize your perfection, causing even hardened warriors to blush and falter.
- **Divine Charisma:** Your presence alone influences others, making them more inclined to trust, admire, or even worship you. The more they acknowledge your beauty, the more susceptible they become to your influence.
- **Immortality & Incorruptibility:** Your body does not age, decay, or degrade. You are immune to disease, poison, and any form of corruption that would taint lesser beings. Even in your weakened state, you remain untouched by time.
- **The Blessing of Recognition:** Whenever others acknowledge your beauty—whether through admiration, awe, or even envy—you regain a fraction of your lost power. This effect is significantly stronger when recognized by those of the opposite sex (or those attracted to you).
- **Permanent Growth:** Unlike most power sources that fade over time, the strength you gain through admiration is permanent. This effect carries over into future worlds, ensuring that your return to godhood is inevitable.

Origins:

Here, you will decide the foundation of your identity and abilities as an Onmyouji. Each path shapes your skills, philosophies, and the role you play in the hidden world. You may also choose to be a "Drop-In," arriving without past ties to this world, free to carve your own path without preordained allegiances.

1. Beast Elemental

As an Onmyouji attuned to the primal forces of nature, you have mastered not only the elemental properties of beasts but also the art of summoning weapons forged from their essence. Whether channeling the ferocity of a tiger, the cunning of a fox, or the resilience of a tortoise, your bond with these creatures grants you unparalleled skill in tracking, hunting, and exterminating demons. Your abilities make you one of the most feared specialists in spiritual warfare, striking down entities that threaten the balance of the world with the raw power of the wild.

2. Sorcerer

Hailing from the Western traditions of magic, you are a practitioner of sorcery—Onmyouji's mystical counterpart from distant lands. Rather than relying on spiritual talismans, you wield incantations, hand gestures, and intricate spellwork to bend the supernatural to your will. Your expertise extends beyond mere spellcasting; you possess the rare ability to create living homunculi and golems, forging artificial beings to serve as your protectors, assistants, or even soldiers. Though your methods differ from those of traditional Onmyouji, your mastery over magic is undeniable, and your creations are testaments to your unparalleled arcane ingenuity.

3. Pure-Blood Onmyouji

Born into a lineage that traces its origins to the ancient days of spiritual warfare, you are the heir to a prestigious bloodline of Onmyouji. Your family has safeguarded sacred shrines, maintained the balance between the mortal and spirit worlds, and inherited spells of immeasurable power—techniques crafted by your ancestors and passed down through generations. Known also as a Miko or a spiritual priest, your duty is not only to combat evil but to preserve the ancient traditions of Onmyoudo. With a vast wellspring of spiritual energy at your command, you stand as a guardian of the old ways, wielding divine authority that even seasoned warriors would fear to challenge.

4.Dark Maiden

Unlike most Onmyouji who exist to protect humanity, your path leads toward destruction. Rather than exorcising demons, you seek to summon them into the mortal world, paving the way for their dominion. Your ultimate goal is to tear open the fabric of reality itself, forging a portal through which demonic legions may pass at will. Whether motivated by vengeance, ideology, or sheer thirst for chaos, you are an outcast—a heretic among exorcists and a pariah among humans. While others seek to banish darkness, you embrace it, wielding corrupted Onmyouji arts to reshape the world as you see fit.

5.Exorcist

Bridging the disciplines of both Onmyouji and Taimanin, you are a warrior who harnesses the power of Spiritual Energy and Taimanin Energy in perfect harmony. Unlike traditional Onmyouji who rely solely on rituals and spells, you wield a more direct, combat-oriented approach, seamlessly blending martial prowess with supernatural abilities. Your techniques allow you to battle demons on equal footing, utilizing both spiritual purification and raw physical force to banish evil from the world. As a hybrid between two ancient disciplines, you walk a path that demands both mastery and sacrifice, standing as a force of balance between darkness and light.

Perks:

Perks of the same origin are discounted and 100Cp discounted perks are free.

General

Lilith Beauty[Free]

Just like many characters in this world, you have an appearance that turns heads. You start with a minimum attractiveness of 8/10 and have the freedom to choose any body shape you prefer. Given the hentai game influences of this setting, you can select a body type ranging from a loli-like figure, akin to Yukikaze, to a more voluptuous form with large, head-sized breasts, similar to Igawa Sakura. Additionally, as a bonus, your body will remain attractive at all times—sweat will enhance your appeal, and any dirt or filth will be easily washed away.

Onmyoji Techniques [Free]

You have now acquired the ability to cast magical formulas or Jutsu-shiki using a catalyst card. This approach typically requires more preparation time before a fight, making it less suitable for immediate combat situations. However, the benefit of this preparation is the ability to create large-scale spells more easily than with traditional Taimanin techniques. Additionally, you have mastered one of the five schools of Onmyoji, which provides you with specialized techniques detailed in the Onmyoji Techniques section.

Spiritual Energy [Free]

Spiritual Energy is a distinct form of energy used to combat supernatural beings. Unlike Demonic Magic or Tama particles, it is neither demonic nor particle-based. It enhances physical abilities slightly through concentration, grants skills to fight demons, and allows one to perceive and track spiritual energy from living things and its flow in space. Spiritual Energy has clear connections to spirits and gods. Unlike demonic magic, which requires demonic cells or miasma and carries the risk of demonization, Spiritual Energy does not have strong negative health effects and is more accessible for humans to use. It's also key for you to use Onmyoji Abilities and increase your ability to heal and create barriers.

Hentai Armour [Free/100CP]:

In this world, skimpy armor is not only fashionable but also practical and fully functional. Regardless of the exposure, your armor provides complete protection depending on its type. Plate armor offers maximum defense against physical damage, while wizard armor provides significant elemental resistance. This perk comes free of charge during your stay in this world. Should you wish to bring this unique fashion sense to future worlds, it will cost you 100 CP. This ensures that wherever your adventures take you next, you can continue to enjoy the stylish and protective benefits of “armor”.

Common Sense [100 CP]

Unlike many magical girls in this universe, you possess the rare gift of common sense. You can think rationally, make logical decisions, and avoid the reckless emotional outbursts that often plague others. This makes you far less likely to fall into traps, be fooled by obvious deceptions, or make rash decisions in the heat of battle. Your clear-headedness is an invaluable asset, allowing you to maintain control even in chaotic situations. You are the calm in the storm, the voice of reason, and the strategist others look to for guidance.

Clean Body [100 CP]

No matter how dirty or grimy you become, your body naturally rejects any filth. Whether you're covered in mud, blood, or worse, your skin will cleanse itself within minutes of being removed from the source of the mess. Your hair, clothes, and appearance will always return to their pristine state without any effort on your part. You'll remain dazzling, fresh, and immaculate no matter what horrors you face, ensuring you always look fabulous, even after the most intense battles or struggles.

Durable Body [200 CP]

Your body is far more resilient than that of an ordinary human. You possess incredible elasticity and durability, allowing you to endure far greater punishment without succumbing to pain or injury. Whether it's blows, falls, or magical attacks, you can withstand it all with minimal damage. In addition, your body heals much faster, ensuring you recover quickly from any injuries without leaving scars. Where others would falter or fall, you remain standing, a testament to your unbreakable endurance.

Efficient Body [200 CP]

Your body's ability to absorb nutrients is unparalleled. No matter how depleted you are, a single meal can restore your strength and vitality to full capacity. However, this surge of power does not grant invincibility. Even with your unmatched endurance and strength, your limits still exist, and recklessness can turn advantage into downfall. The thrill of battle and the temptation of unchecked dominance can easily lead to a fatal misstep. To survive and thrive, you must temper your ferocity with wisdom, striking with precision and knowing when to press forward or when to retreat. Your power may make you a force of destruction, but true mastery lies in understanding how to wield it without letting arrogance or greed become your undoing.

The Power of Words [200CP]

You now possess the ability to exchange words with their counterparts of similar meaning in another language. This ability has two key effects. First, if you replace an incantation words with a word of older origin, the spell's power is significantly enhanced. Additionally, if the chosen word originates from an ancient or complex written language, it becomes much harder to dispel or counteract.

For maximum effectiveness, the words you use must be ones you can write, speak, and fully understand—including their origins and deeper meanings. Mastering lost or obscure languages will further amplify the strength of your magic, making your incantations harder to resist and granting you an edge over those who rely on modern tongues.

Original Spell Creator [400CP]

You now possess the rare ability to create entirely new spells within the framework of the magic you have learned. While you have yet to develop your own distinct branch of magic, you can still experiment and innovate, pushing the boundaries of existing magical theories. Your spells, crafted from your deep understanding of magic, can be tailored for combat, utility, or even rituals that no one else has ever conceived. With time and research, your creations may redefine the nature of magic itself.

Crazily Competent Craftsmanship [400CP]

Your skill in crafting has reached an exceptional level, allowing you to forge weapons and armor with unique and powerful effects based on the materials you use. Beyond simple forging, you also have the ability to upgrade and enhance any equipment you own. As long as you have the right materials and a hefty amount of gold, you can continuously refine and improve your gear. This means that even a blade with sentimental value can remain relevant throughout your journey.

Artificial Soul Creator [600CP]

Your mastery of magic extends beyond casting spells—you now have the power to create artificial beings with unparalleled intelligence, adaptability, and autonomy. Whether constructing mighty golems for battle, crafting homunculi to assist with menial tasks, or forging magical constructs with specialized functions, your creations are far more than simple automatons. They can execute complex commands, adjust to unforeseen circumstances, and even develop unique personalities based on their design. Infused with your magic, they serve as effective extensions of your will, providing unmatched assistance in combat, protection, or daily life.

What truly sets your creations apart, however, is your ability to craft artificial souls—entities born from nothing yet infused with immense power. These souls are completely incorruptible, immune to mind control, spiritual possession, or manipulation of any kind. Any vessel or construct imbued with one of your artificial souls will possess absolute loyalty to you, following your commands with unwavering dedication. Unlike ordinary spirits, these souls ensure that their hosts retain perfect obedience while still maintaining intelligence and the ability to act independently within the bounds of their given purpose. With this power, you can create companions, guardians, or warriors who will stand by your side without question, making them the ultimate extensions of your will.

The Powers of the Arcana: The World [600CP]

You have been blessed with the unparalleled gift of the *World Arcana*, marking you as a true prodigy in the realm of magic. Your ability to learn and master spells is nothing short of extraordinary, allowing you to absorb magical knowledge at an accelerated rate. Any spell that would normally take years to comprehend and refine can now be mastered in half the time. For instance, if a complex ritual would require eight years of study for a typical mage, you could achieve the same level of mastery in just four.

While this talent drastically reduces the time required to learn even the most intricate magical arts, it does not grant instant proficiency or bypass the need for training and practice. Your mastery is still tied to your dedication, skill, and understanding of magical principles. However, if you possess other abilities that enhance learning speed, this gift will stack with them, making you an unstoppable force in the arcane world. With time and effort, you will rise to heights of magical prowess that others could only dream of reaching.

Moreover, your spiritual energy carries an innate, pleasurable sensation, making the experience of receiving it uniquely comforting and invigorating. Vampire Hunter [400CP]

You have ascended to the ranks of one of the most elite and feared groups within the Onmyouji hierarchy—the Vampire Hunters. These warriors are specially trained to hunt and exterminate rogue vampires who have broken the laws of the Vlad Kingdom. Given the sheer power and resilience of such vampires, only the strongest and most proficient users of Light-element magic—vampires' greatest weakness—can earn the esteemed title of Vampire Hunter.

As a recognized member of this elite order, your strength is now comparable to that of high-grade vampires, making you a force to be reckoned with. Your reputation precedes you, striking fear into the hearts of criminal vampires while earning the admiration and respect of law-abiding ones. Within the Vlad Kingdom, you are known not only as a powerful enforcer but also as a protector who upholds the delicate balance between humanity and vampire society.

You have embraced the sacred path of the Miko, an Onmyouji who specializes in purification and exorcism. Your spiritual energy resonates with divine power, allowing you to cleanse and sanctify locations tainted by corruption, as well as purify demons and malevolent spirits. Your mere presence weakens dark entities, and your spells are particularly effective against curses, possessions, and unholy creatures.

Beyond purification, you possess the rare and revered ability to seal powerful demons, preventing their return to the world of the living. Additionally, you can consecrate holy sites, transforming them into sacred grounds that empower fellow Onmyouji. Within these sanctified areas, spiritual energy flows more freely, amplifying the abilities of those who walk the righteous path. Whether protecting the innocent or banishing darkness, your role as

These ancient entities are more than just protectors—they are mentors, guiding you through adversity and unlocking your latent potential. You must choose one of the following spirits to bond with:

- **Shiryu (Eastern Dragon):** The embodiment of wisdom and elemental might, Shiryu grants you control over weather itself. You can summon violent storms, call forth lightning, and even influence the skies. Your magical reserves expand dramatically, allowing you to cast large-scale spells with minimal exhaustion. Fueled by Byakko's primal energy, you become a force of nature, hunting down your enemies with unrelenting ferocity.

Dark Maiden

Demon Magnet [100CP]

Your spiritual energy has an irresistible pull for demons, naturally drawing them toward you like moths to a flame. Unlike most humans who repel or anger supernatural entities, you exude an aura that fascinates them, making them far more likely to approach with curiosity rather than hostility. This unique trait grants you a significant advantage when dealing with demonic beings, as many will willingly engage in conversation, offer their services, or even form binding contracts with you. Whether you seek demonic allies, powerful familiars, or simply wish to navigate supernatural societies with ease, your presence alone ensures that demons are far more inclined to work with you rather than against you.

Corrupted Spiritual Energy [100CP]

Your spiritual energy has become tainted with chaotic elements, giving it an unpredictable and dangerous nature that sets you apart from traditional Onmyouji. While demons are less affected by your power, humans suffer immensely when exposed to it, as your energy disrupts and corrodes their spiritual defenses. This makes your attacks significantly more potent against human opponents, allowing you to bypass protective barriers, weaken exorcists, and destabilize purification rituals with ease. Additionally, your corrupted energy radiates an unsettling presence that can cause unease or fear in those who sense it, further enhancing your effectiveness in combat against those who rely on pure spiritual energy. While this power makes you a nightmare for human spiritualists, it may also lead to suspicion or distrust from those who recognize the chaotic nature of your energy.

Preparations [200CP]

Your deep understanding of spellcasting and ritual work allows you to prepare Jutsu-shiki with remarkable efficiency. While other Onmyouji may require extended periods to set up their techniques, you can complete even the most complex and intricate spells in a fraction of the time. Simple Jutsu-shiki take no more than an hour, while highly advanced and powerful rituals can be fully prepared within four. Additionally, your use of catalysts is unparalleled—regardless of the materials at your disposal, you always extract their highest potential, ensuring that your spells are as potent and effective as

possible. This mastery over preparation gives you an invaluable advantage in battle, allowing you to act swiftly and decisively without sacrificing power.

Cooperation [200CP]

Onmyouji are strongest when working together, and you exemplify this principle to its fullest. You possess an innate ability to foster teamwork, forging strong and lasting bonds between allies, whether human, demon, or spirit. Your mere presence strengthens the cohesion of any group you are part of, ensuring smooth cooperation, seamless coordination, and an overall increase in efficiency. Even among those who normally struggle to work together—such as Onmyouji and demons—you act as the unifying force that bridges gaps and cultivates trust. Whether in battle or strategic planning, your ability to maintain harmony and synergy ensures that your team operates at peak effectiveness, making you an invaluable leader and ally.

Demon Expert [400CP]

Your extensive knowledge of demons sets you apart from other Onmyouji, making you an unparalleled authority on supernatural entities. You can instantly analyze a demon's strengths, weaknesses, and unique abilities, allowing you to devise the best strategy to defeat or manipulate them. Your expertise extends beyond combat—you understand the intricate politics of demonkind, enabling you to outmaneuver demonic politicians and navigate their power structures with ease. Additionally, your deep studies grant you the ability to identify and exploit weaknesses in demonic wards and barriers, bypassing protections that would stump lesser Onmyouji. Your knowledge is not only destructive but also restorative—you can recognize and cure demonic curses, afflictions, and spiritual diseases, making you as valuable a healer as you are a warrior.

Demon Summoning [400CP]

You have undergone the sacred and rare process of forming a life-bound contract with a powerful demon, granting you a loyal and formidable guardian. Your shikigami is more than just a summoned creature—it is an extension of your own soul, sharing its life force with you. This bond means that if either of you falls in battle, the other will perish as well, making your fates inextricably linked. However, in exchange for this deep connection, your shikigami possesses immense strength and unique abilities. Its powers are determined by the nature of the entity you bonded with—a water spirit might grant you mastery over water, while a fire-aligned demon could take the form of a mighty cerberus with infernal

breath. Some Onmyouji even contract flying beasts like griffins, gaining an aerial advantage in battle. Regardless of its form, your shikigami is an elite force capable of going toe-to-toe with an Oni, ensuring that you always have a powerful ally by your side.

Dark Magical Girl [600 CP]

Ah, how exhilarating it is to cast aside the fragile chains of purity and embrace the intoxicating power of darkness! No longer bound by the constraints of light, you have ascended into something far greater—a Dark Magical Girl, a being of both exquisite beauty and terrifying might. Your once-innocent magic has been reborn in shadow and chaos, allowing you to unleash devastating dark elemental and corruption-based spells.

Your very presence exudes an aura of forbidden allure, your costume a perfect reflection of your newfound power—elegant, seductive, and unmistakably dangerous. No force of purification can strip away the exquisite corruption that has claimed your soul; attempts to do so are laughable at best. You are the nightmare that light-dwellers fear, the shadow they cannot erase.

But your dominion does not end with sheer magical prowess. You hold the ability to birth dark monsters from the suppressed emotions of other humans—their hidden fears, their buried desires, their darkest secrets. The stronger their inner turmoil, the more powerful the creatures you summon, each a twisted reflection of the emotions they seek to repress. These monsters serve as your devoted minions, bound to your will, ensuring that no magical girl can escape the darkness within themselves.

Your resistance to magic is nothing short of monstrous, making you nearly impervious to the spells of even the most formidable sorcerers. What once harmed you now barely fazes you, and what once threatened to purify you now crumbles against your unbreakable will. You have unlocked the pinnacle of demonic supremacy, a harbinger of chaos, beauty, and destruction whose legend will echo through eternity. The world may try to resist, but deep down, they already know—darkness always wins.

Dark Gates [600 CP]

With a year of rituals and preparations the boundary between worlds crumble before your might. You now possess the terrifying power to create permanent portals to Hell or other infernal realms, ripping open reality itself to unleash the horrors that lurk beyond. These gates are not mere fractures in space but monumental rifts, etched with eldritch runes and layered with dark enchantments to ensure their permanence. No ordinary force can seal them once they are established—only an equivalent or greater power could hope to undo your handiwork.

The opening of a Dark Gate is not a subtle affair. With each rift you carve into existence, a flood of demons surges forth, eager to spread chaos and devastation upon the mortal world. These fiends do not merely trickle out—they pour forth in a tide of infernal fury, ravaging all in their path. The mere presence of an active gate taints the land around it, twisting nature into something grotesque and corrupted, warping reality to better suit the demonic forces spilling forth.

But you are no mere conduit—you are the architect of these rifts, able to designate their locations, control the flow of demons, and even implement safeguards to ensure only those of your choosing may pass through unharmed. Whether you seek to command an army of Hell's finest or simply watch the world drown in its own terror, these gates grant you the ultimate power over infernal invasion. The heavens may tremble, exorcists may rally, and humanity may resist, but it will all be in vain—for once the gates are open, they will never close again.

Exorcist

Taima Particles [100 CP]

As an exorcist, your bloodline carries a trace of divine or demonic heritage, granting you access to Taima Particles—the supernatural force once known as "ki" but revered among exorcists as "God's Miracles." These particles enhance your physical abilities far beyond human limits, granting you superhuman speed, strength, and reflexes, allowing even an untrained wielder to dodge bullets and battle demons on equal footing.

However, Taima Particles are most potent against demonic entities, enabling you to slice through their bodies, dispel their sorcery, and weaken their regenerative abilities. When facing demons of equal strength, these particles grant you a decisive edge, turning your power into a divine weapon against the forces of darkness.

Holy Scriptures [100 CP]

You have memorized the sacred texts of the church, and through their recitation, you can weaken demons within your vicinity. These scriptures act as a powerful deterrent, disrupting demonic energy and diminishing their strength.

Additionally, you can use these scriptures to create holy zones, consecrated areas that enhance healing abilities and bolster divine magic. Whether in battle or during rituals, your mastery of these holy words makes you a formidable force against the forces of darkness.

Healing Specialist [200 CP]

Your expertise in healing magic is unparalleled, allowing you to mend wounds and cure ailments with exceptional speed and efficiency. Whether treating minor injuries or restoring a critically wounded ally, your abilities surpass standard healers. Your mastery extends beyond just magic—you understand spiritual purification and advanced medical techniques, making you a vital asset in any battle or crisis.

Exorcist Fighting Styles [200 CP]

As an exorcist, your combat training is a fusion of Onmyouji mysticism and Dark Knight brutality. You are skilled in wielding guns, swords, and lances, seamlessly switching between ranged and melee combat. Your style is designed to adapt to both human and demonic opponents, making you a versatile and deadly warrior. Whether striking with precision or unleashing devastating exorcism techniques, you are a force to be reckoned with on the battlefield.

Sealing Technique [400 CP]

Your God's Miracles now grant you the ability to seal demons into objects, transforming them into powerful weapons or tools for future use. Whether you imprison a monstrous entity within a blade to enhance its lethality or bind a spirit into a protective talisman, your sealing magic ensures that no demon you face is ever truly wasted. These bound demons can be used in combat, serving as potent demonic energy sources, amplifying your abilities, or being deployed strategically to counter other supernatural threats.

Taimanin Training [400 CP]

You have undergone rigorous Taimanin training, pushing your body and mind beyond human limits. While you have not awakened to the ninja arts common among the Taimanin, your training has allowed you to fully utilize your Taima particles, bringing your physical prowess to the level of named characters from the series. Your raw strength and combat efficiency now rival Yukikaze's, even without her specialized abilities, making you an elite warrior capable of taking on powerful demons and supernatural threats without hesitation.

Sainthood [600 CP]

Your combat prowess has reached a level where the Church itself has recognized your strength, granting you the honored title of Saint. With this, your mastery over Taima Particles has reached a new level, transforming them into a deadly poison for demonic creatures. Now, even the slightest wound you inflict on a demon is not just painful—it is fatal. Any injury you deal is incurable, festering within the demon's body and preventing even the most powerful regenerative abilities from healing the damage. Against supernatural foes, your very presence radiates holy power, forcing lesser demons to recoil in fear.

Furthermore, your blood, infused with Taima Particles, has become a permanent weapon against demonic entities. By anointing weapons with your blood, you grant them everlasting anti-demon properties, ensuring that even ordinary swords, bullets, or arrows become instruments of divine retribution. This allows you to bless and arm others, turning even mundane warriors into effective demon slayers. With this power, you are no longer just an exorcist—you are a living bane to all demonic existence, a relentless force of divine justice that demons whisper about in terror.

Angelhood [600 CP]

It seems that God's Miracles have fully manifested within you, elevating you beyond mere humanity. You have now gained the divine properties of an angel, becoming a true warrior of holy retribution. With this transformation, you can now conjure lances of pure light, weapons of celestial wrath capable of piercing through even the strongest of demons. These radiant spears burn with divine energy, ignoring demonic resistances and leaving behind wounds that continue to smolder with purifying power.

A halo of light now graces your head, serving as both a blessing and a curse—for allies, it grants enhanced strength, clarity, and healing, empowering them with divine might. For demons, however, it is a mark of impending doom, drastically weakening their abilities, breaking their illusions, and draining their strength in your presence. Completing your ascension, you have gained a pair of magnificent angelic wings, granting you the power of flight and an aura of divine authority. Whether soaring above the battlefield or descending like judgment itself, you are now a living embodiment of holy power, a true angelic warrior who stands as the ultimate bane of all things unholy.

Earth School

This school emphasizes the art of summoning and maintaining shikigami in the present world. By mastering these techniques, you become one of the foremost shikigami practitioners in Japan. The focus here is on perfecting the intricate rituals and methods required to bring powerful spiritual entities into your service and ensure their continued presence and effectiveness. Classes

In this section, you will choose the fighting styles you have mastered in the As an Onmyouji, you receive one for free while another will cost 400CP.

Artificer

As an Onmyouji Artificer, you are a master of blending ancient spiritual techniques with modern magical craftsmanship. Unlike traditional Onmyouji who rely solely on spells and summons, you channel your expertise into crafting enchanted talismans, spirit-infused weapons, and powerful mystic constructs. Every object you create holds a fraction of your spiritual energy, allowing even mundane tools to become instruments of immense power. You understand the flow of magical energy better than most, treating it as a complex system that can be harnessed, refined, and stored within physical forms. From forging blades that radiate purifying energy to developing seals that suppress even the most monstrous of yokai, your work ensures that your allies are always equipped with the best supernatural gear possible.

Your mastery extends beyond just creation—you're also an innovator, always experimenting with ways to improve and evolve Onmyouji techniques. By fusing traditional charms with alchemical materials and divine inscriptions, you create tools capable of amplifying spiritual power, rendering exorcisms more efficient, and even fortifying barriers against demonic invasions.

Bard

The Bardic Onmyouji wields the power of sound, vibration, and spiritual resonance to manipulate both the battlefield and the souls within it. Unlike most Onmyouji who rely on written incantations and pre-drawn seals, you invoke spells through music, chants, and poetic recitations that weave the power of spirits into reality. Your voice is a conduit for divine energy, capable of banishing malevolent forces, bolstering your allies' strength, and even disrupting enemy spells before they manifest. Through hymns of purification, you weaken demonic influences, and with haunting melodies, you lure spirits to your command. Your words and songs become weapons, altering emotions, distorting reality, and ensuring that every battle is fought on your terms.

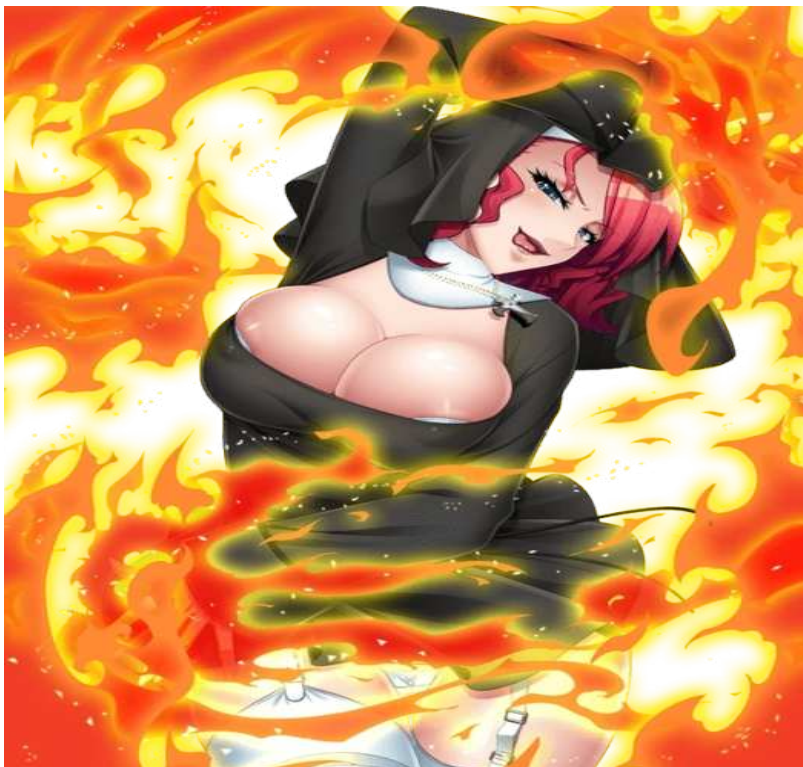

However, your role is not only that of a warrior but also a keeper of history and tradition. Through your knowledge of ancient legends, forbidden scriptures, and forgotten rituals, you can recall lost Onmyouji techniques and breathe life into the old ways. Your songs do more than inspire—they shape the very essence of magic, enabling you to cast illusions so vivid they become tangible or create sound waves that disrupt demonic harmonics, causing yokai to falter.

Blood Hunter

As an Onmyouji Blood Hunter, you walk the razor's edge between salvation and damnation, wielding the very corruption you seek to eradicate. Unlike traditional exorcists who rely on purification and divine authority, you embrace forbidden blood magic, infusing your very essence into your rites and spells. By binding your life force to the hunt, you sharpen your senses beyond human limits, tracking demonic entities with uncanny precision and striking them down with cursed weapons infused with your own blood. Every wound you take fuels your power, allowing you to unleash devastating counterattacks or enhance your agility and reflexes beyond mortal comprehension. The greater the sacrifice, the greater the strength—you are both your own weapon and your own torment.

Yet, this power comes at a cost. Your body is constantly teetering on the brink of monstrous transformation, your soul stained with the echoes of the creatures you hunt. You resist their call, clinging to discipline and purpose, but every battle brings you closer to the abyss. Your allies may fear you, and your enemies may see you as one of their own, but none can deny your effectiveness. Through blood-soaked seals, cursed rituals, and ancient binding techniques, you neutralize even the most terrifying yokai, ensuring they never rise again. In the shadows

Cleric

As an Onmyouji Cleric, you are more than a mere exorcist—you are a living conduit of divine will, chosen by the gods to stand between the mortal realm and the supernatural. Whether you serve a benevolent deity of purification or a wrathful god of judgment, your faith grants you access to immense spiritual power. Your prayers manifest as potent spells, capable of mending wounds, shielding allies from harm, and smiting demons with holy radiance. Through sacred sutras and invocations, you create powerful barriers that repel malevolent spirits, sanctify cursed lands, and bring peace to restless souls. Your mere presence exudes divine authority, making it difficult for dark entities to resist your commands.

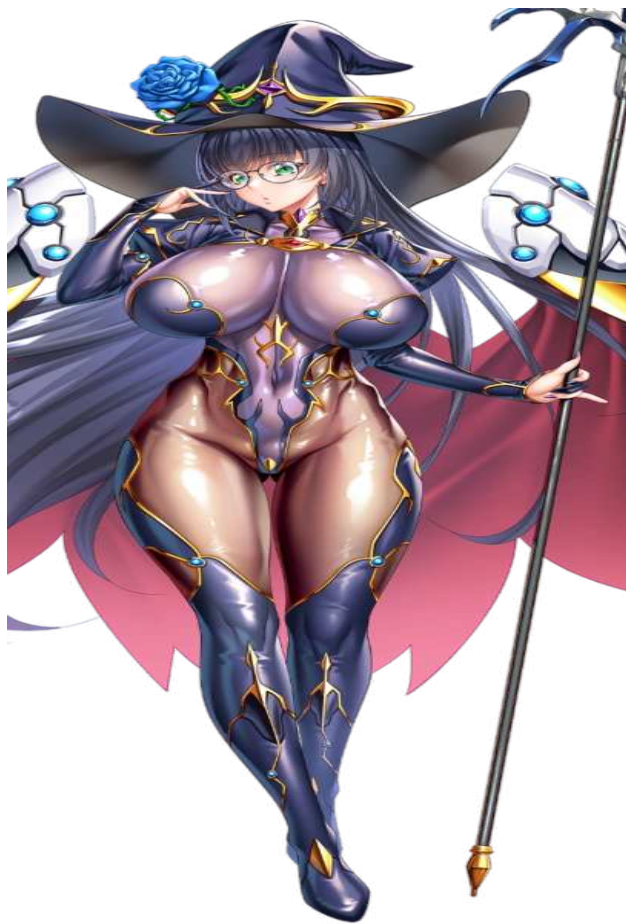

However, the path of a Cleric is not merely one of healing and protection—it is also one of war. When the forces of darkness refuse to be reasoned with, you call upon the full wrath of your patron deity.

Druid

As an Onmyouji Druid, you are not merely a practitioner of nature-based magic—you are a vessel of the world's primal forces. Your connection to the land allows you to commune with kami, yokai, and elemental spirits that inhabit forests, rivers, and mountains. Through sacred rites, you can harness the elements, summoning gusts of wind to carry your words, calling forth roots to ensnare your enemies, or commanding flames to purge corruption. Your power is a balance of creation and destruction, a reflection of nature's ever-changing cycle. Whether in battle or ritual, you are a guardian of the natural order, ensuring that the harmony between spirits and humans remains intact.

But your magic is not limited to spells alone. You can transform your very being, channeling the essence of sacred beasts to enhance your abilities. By invoking the spirit of a wolf, you gain heightened senses and swift reflexes; by embracing the strength of a bear, you become a living fortress against those who would defile the world.

Monk[Requires Taima Particles]

As an Onmyouji Monk, you have honed your body and spirit into a conduit of divine and spiritual energy, wielding the raw essence of Ki—known to some as Taima Particles—to perform superhuman feats. Your training allows you to strike with the precision of a master exorcist and the speed of a yokai, delivering devastating blows that bypass physical and spiritual defenses alike. With each strike, your energy disrupts evil spirits and demons, burning away corruption and unraveling malevolent curses with sheer force of will. You can deflect projectiles with a flick of your wrist, move faster than the human eye can track, and withstand attacks that would cripple ordinary warriors.

Yet, your strength is not merely in combat but in absolute mastery over your own existence. Your spirit is disciplined to the point of resisting possession, illusions, and mental manipulations, making you nearly immune to the tricks of both mortals and supernatural beings. Through deep meditation and ritualistic training, you can extend your life, purge poisons from your system, and even enter a state of enlightenment where your soul momentarily transcends your physical form.

Paladin

As an Onmyouji Paladin, your oath binds you to a sacred duty, whether to the celestial forces of the heavens, the vengeful spirits of the past, or the divine order that seeks to keep the balance between humanity and the supernatural. Your very existence is a testament to unwavering conviction, your body infused with Taima Particles that make your strikes anathema to demons. Every battle you engage in is not just a clash of steel and sorcery but a holy crusade against corruption itself. Your blade, whether it be a katana blessed by ancient rites or a spear forged in celestial flames, cuts through darkness with righteous fury, and your presence alone weakens lesser yokai and malevolent spirits.

But beyond combat, your oath grants you the power to heal and protect. You are a living beacon of divine will, able to mend even the gravest wounds with a touch and shield allies from the creeping taint of demonic influence. Your spiritual aura radiates purity, making you nearly immune to curses, possession, and mind-affecting magic.

Other Powers:

Onmyouji in the Lilith universe wield a vast array of abilities that seamlessly blend traditional magic with formidable combat techniques. Their powers range from exorcism and purification to summoning and elemental manipulation, allowing them to combat demonic forces effectively. These abilities often stem from deep spiritual training, divine blessings, or even contracts with supernatural beings. Some Onmyouji specialize in defensive wards and barriers, while others focus on offensive spells that can strike down even the most powerful demons. Additionally, their mastery of talismans, sacred chants, and spirit-channeling grants them versatility in both battle and ritual work. In this world, those who ascend to the status of a ***Goddess receive a special boon—gaining access to two abilities from the 100 CP tier, two from the 200 CP tier, and two from the 400 CP tier without cost, ensuring their dominance over both mortals and supernatural entities alike.***

100 CP

Keen Spiritual Sense

Your heightened awareness allows you to detect supernatural abnormalities, from demonic presences to disturbances in spiritual energy. No illusion, possession, or hidden force escapes your notice, making you an expert at sensing threats before they manifest.

Eternal Youth

Whether through divine blessing or spiritual refinement, your body no longer ages, maintaining peak condition indefinitely. You are untouched by time, immune to decay, and forever at your prime.

Future Sight

Your vision extends moments ahead, granting you battle precognition. You can predict attacks, react instantly, and foresee immediate consequences, giving you an unmatched edge in combat and strategy.

Mucus Secretion

The user can generate and manipulate a slick mucus across their entire body, granting both offensive and defensive advantages. This slippery substance allows them to effortlessly evade attacks, parry blows, and strike with surprising force due to their enhanced flexibility. Over time, the mucus takes on corrosive properties, wearing down both enemy defenses and their own clothing. This ability is especially effective in prolonged battles where continuous exposure weakens opponents.

Seal Unlocking

This ability enables the user to bypass both magical and non-magical locks and barriers with ease. Whether it's breaking through ancient sealing spells or picking physical locks, nothing is truly secure against their touch. Additionally, this power extends to unlocking the metaphysical "seals" within people's hearts, allowing the user to manipulate suppressed emotions, memories, or even hidden powers—though the effects of this are unpredictable.

Weight Manipulation

A versatile ability that allows the user to alter the weight of anything they touch. By decreasing weight, they can make themselves float or fly, effortlessly gliding through the air. Conversely, they can drastically increase an object's weight, making it nearly impossible to lift or causing it to crush enemies under its own force. This power is particularly useful for both offensive and defensive strategies, enabling precise battlefield control.

200 CP

Gold Art

You can perceive the flow of luck in others, seeing who is blessed by fortune and who is doomed to misfortune. However, this ability is unreliable and difficult to manipulate, making it more of an observational tool than a practical advantage.

Immortal

Your body resists death itself, capable of regenerating from fatal wounds at incredible speed. While you can still be harmed, you recover so quickly that only complete destruction can truly end you

Instant Sturdiness

A burst of temporary physical reinforcement that enhances your muscles and reflexes. With this technique, you can wield massive weapons effortlessly and move with surprising speed, allowing for overwhelming bursts of power in combat.

Barriers

You can set up potent magical barriers to trap, contain, or protect. These barriers are particularly effective against supernatural beings, especially vampires, as breaking through them often results in fatal consequences. Your ultimate technique, the Dragon Crest Barrier, summons five mighty dragons, creating a nearly impenetrable prison feared even by the most powerful creatures of the night.

Arsenal Grove

The user to form spears, drills, and other piercing weapons from the branches of surrounding trees. In forested environments, their strength is greatly amplified, using the terrain to ensnare enemies, create barriers, or impale foes from multiple angles. This technique is also excellent for battlefield control, as the user can restrict enemy movement, blind them with foliage, or wrap their limbs in constricting branches, leaving them vulnerable to finishing strikes.

Shadow Art

By manipulating their own shadow, the user can force the movement of anything standing upon it, making them a formidable battlefield tactician. Strength alone cannot resist this power, and even skilled fighters struggle to escape unless they possess significant supernatural resilience. While the range of shadow manipulation is limited, the user can create impossible dodging maneuvers, reposition themselves mid-combat, or hold enemies in place for precise attacks. This technique is primarily defensive, though with clever usage, it can set up devastating counters.

Spirit of Words

A powerful reality-altering ability that grants strength to spoken words. By strongly believing in a statement, the user can alter the nature or state of an object or entity. For example, declaring "This door is unlocked" could force a locked door open, or stating "This sword cuts through steel" could enhance a blade's cutting power. However, the effectiveness is limited by the user's subconscious beliefs—if they deeply associate a concept with a certain truth, they cannot override it. This prevents contradictions such as "This vampire does not drink blood" from working.

400 CP

Coup de Grâce

A devastating ability that nullifies the pain of death and prevents regeneration. When used with your weapon—imbued with purifying fire—it ensures that demons, undead, and other regenerating creatures perish completely, unable to recover.

Dimensional Linking

You can connect the door of your personal room to another location, effectively creating a hidden passageway. This ability allows for instant travel between linked spaces, making it an invaluable tool for escape, infiltration, or secrecy.

Duplication Magic

This ability allows you to create perfect copies of yourself or objects, each capable of independent action. Whether used for deception, combat tactics, or multitasking in battle, this magic gives you an overwhelming advantage by increasing your presence on the battlefield.

Barrier Breaking

A specialized technique that allows you to dismantle or bypass magical barriers, no matter how strong. Whether breaking through an enemy's defenses or disrupting powerful seals, this ability ensures that no ward or protective field can keep you contained or keep your foes safe from you.

Drinking Dream

When the target breathes in the user's smoke, they are trapped in an illusion tailored to their deepest desires. Whether it be indulgence in carnal pleasure, the fulfillment of long-lost dreams, or the sensation of an irresistible feast, the illusion manipulates their senses, making it difficult to break free. The more they desire what they see, the stronger the illusion becomes, making it a powerful tool for deception and control.

Grand Authority Dream

This ability allows the user to take fragments of a deceased individual's soul—specifically someone they personally knew—and temporarily transfer them onto another person like a spiritual "cloth." The target not only adopts the physical appearance of the deceased, but also gains access to a portion of their skills, memories, and even fighting techniques. This transformation comes at a cost, as the user weakens in exchange for temporarily resurrecting echoes of the past.

Dark Sword Kirisame

A technique that generates a dense, impenetrable mist under unknown conditions, completely obscuring vision. Within this fog, the user can move freely, becoming one with the mist itself. Attacks unleashed within the fog seem to originate from all directions, making it nearly impossible for enemies to predict or defend against incoming strikes. Additionally, the mist is composed of water vapor that gradually damages electronic devices, making it particularly effective against technology-reliant foes. However, the effectiveness of the ability is tied to the user's strength and skill.

Flame Spirit Envoy

A unique summoning ability that collects thoughts and emotions from both the living and the dead, channeling them into a flame entity known as "Fire Demon, Enki." This entity acts autonomously, consuming the gathered thoughts as fuel and launching relentless fiery attacks. The more intense the emotions fed to it, the stronger and more aggressive Enki becomes. Though its full nature remains mysterious, some believe it may possess its own will beyond the user's control.

However, the stronger the ability you wish to impart, the longer the infusion process will take. Truly formidable enchantments may require months of dedication before the weapon is permanently transformed.

These weapons are not only bound to you but can also be freely given to others. If another person pours their own spiritual energy into the weapon, they can attune it to themselves, binding it as if it were their own. This makes them invaluable tools for equipping allies, training apprentices, or arming entire squads of exorcists with weapons tailored to their unique powers.

Miko Outfit [100 CP]

This traditional shrine maiden outfit serves as more than just ceremonial attire—it acts as a powerful spiritual veil. When worn, it completely masks any traces of malice, corruption, or negative energy that may be emanating from you. Whether you've dabbled in dark arts, suffered demonic taint, or simply wish to pass unnoticed by spiritual beings seeking to judge your purity, this outfit ensures that none can perceive your inner darkness. Perfect for deception, diplomacy, or simply avoiding unwanted attention from divine or exorcist forces.

Seeds of the Underworld [200 CP]

These rare and potent seeds hail from the deepest reaches of the underworld, carrying within them the power to create an unparalleled enhancement drug. When properly cultivated, the resulting fruit grants a dramatic boost to physical and spiritual abilities upon consumption. Simply boiling the fruit and drinking its juices will allow you to temporarily surpass your limits, increasing strength, speed, and magical output. However, this enhancement comes with an unfortunate side effect—once the benefits wear off, the user experiences an intense surge of lust, making it an unreliable option in prolonged combat or disciplined environments. The plant grows at an exceptional rate, maturing within 60 days, with fruits ready for harvest every three days. A dangerous but tempting tool for those willing to endure the consequences.

Demon Eye [200 CP]

Embedded within your forehead is a single demonic eye, a rare and powerful artifact capable of enforcing your will over weaker beings. When activated, it unleashes a paralyzing gaze that can completely immobilize any opponent with a lower spiritual power than your own. This effect lasts only a short time, making it invaluable for gaining the upper hand in battle or escaping dangerous situations. However, prolonged or reckless use may strain your body, and stronger foes with greater spiritual resilience will be able to resist its effects.

Fun Toys[400CP]

Grants access to a large collection of adult toys, ranging from a small dildo to a wooden horse and other items . When utilized on an individual over a quick weekend, these toys can effectively break down their pride and will, making them more susceptible to external influence and control. The idea is that by introducing these toys in a gradual and strategic manner, one can rapidly dismantle the individual's resistance and autonomy, allowing for a faster submission to one's will.

Crotch Tattoo[400CP]

You now have a collection of tattoos, and when you apply these to the skin of a female, specifically above the womb. When activated by you, this tattoo can induce an intense heat sensation, causing the individual to lose control of their thoughts and actions. The affected person will become consumed by their primal desires, begging to fulfill them. Additionally, the victim will remember the humiliation they feel as a result of your actions. This ability seems designed to grant significant control over the affected individual, allowing you to manipulate their desires and actions while also leaving a lasting emotional impression.

Demon Lord Egg [600CP]

You now possess a mysterious and powerful artifact known as the Demon Lord Egg. This egg contains the dormant essence of a yet-to-be-born Demon Lord, a being of immense power and potential. The egg is highly reactive to spiritual energy, gradually developing based on the energies it absorbs from its surroundings. Depending on how it is nurtured, the Demon Lord within may grow into a being of destruction, an obedient servant, or something entirely unpredictable. While it remains in its dormant state, the egg passively enhances the magical energy of those near it, making spells cast in its presence stronger and more potent. However, this effect comes with the risk of the entity inside awakening prematurely if too much power is fed into it.

Once the egg hatches, the Demon Lord that emerges will possess an affinity shaped by the spiritual forces that influenced its growth. If raised by a powerful Onmyouji, it could develop an unusual loyalty to its caretaker, possibly even forming a pact. However, if left unchecked, it may break free from any control, becoming a dangerous force that threatens humanity. The process of hatching is irreversible, and the consequences of its birth will depend entirely on how it was cultivated.

Exorcist

Small Cross [100CP]

A blessed artifact imbued with divine energy, the Sacred Cross radiates a protective aura that creates a safe space for its wielder. When held or worn, it passively repels negative spiritual effects, such as curses, possession attempts, and demonic influence. While it does not make the user invincible, it significantly weakens the potency of dark magic and malevolent energies in its vicinity.

Nun Outfit [100CP]

This traditional nun's habit is far more than simple religious garb—it is a powerful, enchanted armor woven with divine will. The fabric itself is reinforced with sacred blessings, making it as durable as heavy plate armor while remaining light and flexible for the wearer. The outfit provides exceptional resistance against spiritual attacks, demonic corruption, and even physical harm, allowing the user to move freely without sacrificing protection. Despite its holy nature, the strength of the outfit is tied to the user's faith and willpower—those with strong conviction will find it nearly impenetrable, while those who falter may see its protection wane.

Sacred Water [200CP]

This purified water is infused with divine blessings and serves as a potent weapon against demons, undead, and other dark entities. A single drop can burn lesser demons like acid, while a full vial can be used to purify tainted areas or cleanse individuals suffering from curses or possession. When poured into a body of water, it temporarily sanctifies the entire area, making it impossible for unholy creatures to cross. Additionally, drinking the water can restore spiritual energy and grant temporary resistance to dark magic, though its effects diminish with excessive use.

Sacred Text[200CP]

You now possess a collection of several holy texts, which may originate from Shinto traditions or Abrahamic faiths in this world. These texts are imbued with sacred power and have the unique ability to purify any form of corruption caused by demons when read aloud. In addition to their purifying effects, reading these texts aloud also heals those who hear them and imparts inner peace to all who engage with their words. Whether used for spiritual cleansing or personal comfort, these holy texts offer a profound source of protection and tranquility.

Temple [400CP]

You now have full control over a temple, which can be based on either Shinto or Christian traditions. This temple is protected by a barrier that wards off demons and evil spirits, ensuring a safe and sacred space. Individuals who utilize spiritual or holy energy will find their reserves replenished much faster while resting within the temple. Additionally, the temple provides a source of income through a shop that sells charms with customizable effects of your choice.

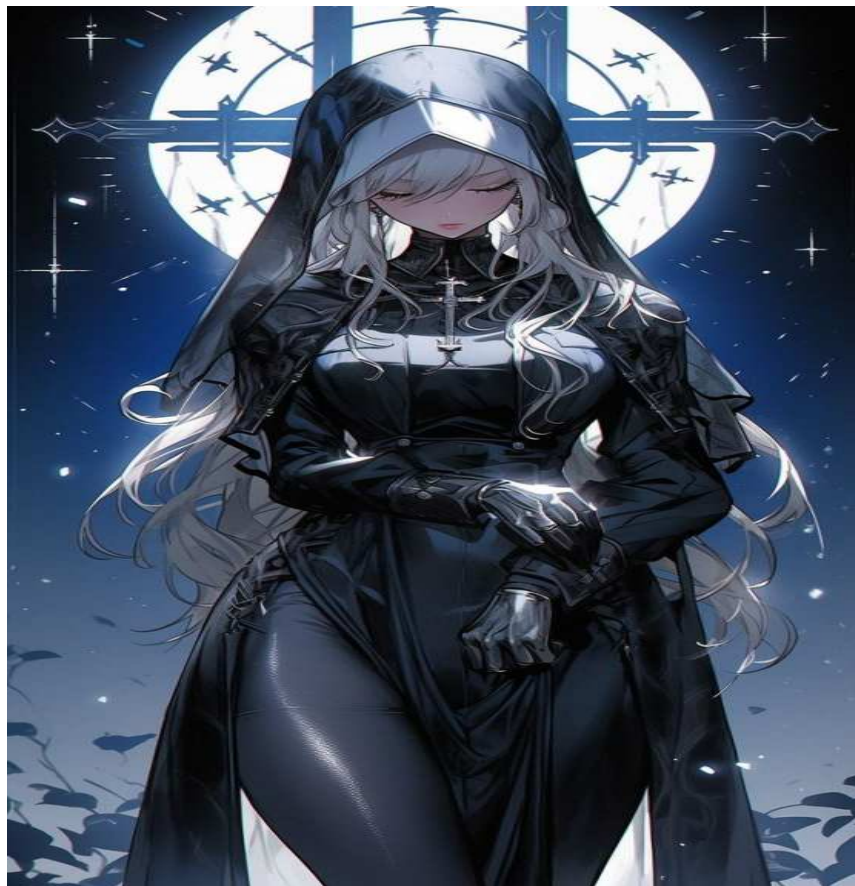

Holy Chain Gun [400CP]

A lightweight yet devastating firearm that seamlessly channels the wielder's spiritual energy into its ammunition. The gun fires an endless barrage of bullets, each one automatically converted into holy projectiles that sear through demonic flesh and dispel dark magic upon impact. While the gun never jams or overheats, its power is directly tied to the wielder's spiritual energy—those with greater reserves can unleash relentless, high-caliber barrages, while those who overextend themselves risk temporary exhaustion. Designed for efficiency and ease of use, this weapon is the ultimate tool for exterminating hordes of unholy creatures with divine firepower.

Longinus Weapon [600CP]

You now possess one of the most powerful and sacred weapons an exorcist can wield, a weapon forged to eradicate the forces of darkness with divine judgment. You may choose any weapon type—be it a sword, spear, gun, or even a bow—but regardless of its form, a cross is embedded at its core, containing a fragment of the legendary Spear of Longinus, the very spear that pierced Jesus Christ. This fragment radiates an immense, undying holy energy, empowering your weapon with divine authority.

The Longinus Weapon allows you to battle noble-class demons with ease, striking them with holy might that bypasses even the strongest demonic resistances. Any technique utilizing Spiritual or Holy energy is significantly amplified when channeled through this weapon, ensuring that no fiend can escape its wrath. The weapon's sacred nature also grants additional abilities, such as searing wounds that demons cannot easily heal, repelling unholy beings within its presence, and dispelling dark enchantments simply by cutting through them.

Companions:

My Old Team 50

You may import companions you have brought with you, 50 CP each, or 8 for 300CP. Each one gains a free background. and 600 CP to spend. They may not take drawbacks, but you may give them CP, spending 100 each time to give them each an additional 200.

My New Team 100

Sometimes having friends would be nice. Buying this once will allow you to add any allies you've made here as companions. You may buy this multiple times.

Drawbacks:
You are limited to +1000 Cp from drawbacks.

Supplement [+0]:

Not exactly the most in-depth of places, so you can use this jump as a supplement for other jumps. The CP here can only be used in this jump, and vice versa; this includes extra CP from drawbacks.

Stripped A lot [+100CP]:

It seems like you'll find yourself getting stripped quite often, either due to your antics or perhaps because the universe has a peculiar sense of humor. To make matters more interesting (or embarrassing), you'll now exclusively wear the most flamboyant and outrageous underwear available. This ensures that whenever you do get stripped, your fashion choices—or lack thereof—are on full display for everyone to see.

Time Extender [+100CP]:

You have the option to extend your stay in this world. For every 100 CP you take from this option, you can add another 10 years to your stay. The maximum CP you can gain from this drawback is 800 CP.

Side Character [+100CP]:

It seems you have a rather forgettable presence, as people tend to overlook you unless you're directly in front of them. This can make it challenging to make a lasting impression or to be noticed in social situations or interactions.

Villain's Face [+100CP]:

Your appearance is far from charming or captivating; in fact, it may be downright off-putting. Whether due to a scarred visage, unsettling features, or an aura of malevolence, you're not likely to win anyone over with your looks. Your presence might evoke fear or disdain rather than admiration or attraction.

Substance Dependence [+100 CP]

You are deeply entrenched in unhealthy habits, whether it be alcohol, drugs, nicotine, or another substance. This addiction has taken a strong hold over you, affecting both your physical and mental well-being. Whether you struggle to function without a constant supply or find yourself frequently seeking ways to

numb your emotions, this dependency can greatly impact your judgment and decision-making. As a result, you will often be distracted, disoriented, or weakened by the need to feed your cravings, making it harder to focus on more important tasks or maintain a level head in dangerous situations.

Novice [+200 CP]

You are a novice when it comes to wielding your powers, with much to learn and understand. Whether through magic, combat, or other extraordinary abilities, your skill is limited, and you struggle to control your potential. It will take you a decade of hard training, experimentation, and experience to fully master your abilities and harness their true power. During this time, you may find yourself making mistakes, accidentally using your powers in unintended ways, or even struggling to use them effectively in high-stress situations.

Blood Lust [+200 CP]

A deep, uncontrollable craving for violence has been instilled in you, driving you to seek out bloodshed and conflict. The need to spill blood can overwhelm your senses, making it hard to resist the temptation to engage in violent acts. Whether in battle or in moments of rage, your desire for carnage becomes an intrinsic part of who you are. This lust for blood can cloud your judgment, making it difficult to distinguish between when violence is truly necessary and when it is simply driven by an insatiable hunger.

Amnesiac [+200CP]

You find yourself in a state of amnesia, devoid of memories from your past jumps. The experiences and knowledge you've accumulated are lost to you, leaving you in a state of uncertainty about your identity and purpose. As long as you remain in this jump, your past will remain shrouded in mystery, making it difficult to discern your true self and your place in the world.

Tragic life [+200]:

You're destined to experience a cycle of hope and despair throughout your time in this world. Despite forming close bonds with those around you and considering them family, tragedy will inevitably strike, leading to their gruesome demise either at the hands of the gods or due to your own negligence. Each loss will plunge you deeper into despair, creating a profound sense of misery and guilt for your perceived failures. This cycle of hope shattered by tragedy will repeat itself year after year, casting a shadow over your entire experience in this world.

Low On Magical Energy . [+200CP]:

In a world where magic reigns supreme, you've been struck by an incurable ailment that compromises your capacity to use your supernatural abilities, reducing your spellcasting efficiency to just 70%. Despite your innate magical abilities, this affliction weighs heavily on you, forcing you to adapt and find alternative ways to navigate through the challenges that lie ahead

I Don't Need My Brains [+300CP]:

I will not mince words, you're an Idiot with a capital I. Using your head is impossible except for headbutting. Even simple math division and multiplication would be considered a college level skill for you and you are definitely too stupid for that.

Rival [+300 CP]:

Wow. You have a rival and that person is the exact opposite of you in several areas. Mostly in personality and ideology as a person but the most vexing part is that you will not be able to defeat him/her alone for the first 8 years of your stay here. They will also stand in the way of you and your goals as much as possible, which is to say nearly every damn time. I hope you have a strong group of friends to help you here because boy you need it.

No Powers[+300 CP]:

You find yourself in a jump where outside powers and your warehouse are off-limits. You must rely solely on your own abilities and resources within this world, facing its challenges and trials without the aid of external assistance.

Hero of Justice [+300 CP]

You are an idealistic, overly self-righteous "hero" who insists on saving others, even when it puts you at a severe disadvantage. However, you lack the plot armor or extraordinary growth potential typically seen in these types of characters, meaning you are incredibly vulnerable to the dangers around you. Your sense of justice compels you to intervene in almost every situation, no matter how outmatched you may be. This causes you to frequently make reckless decisions, often getting yourself into trouble and putting others in danger, all while believing you're doing the right thing. You may gain some small victories, but expect constant setbacks and challenges due to your naïve and impulsive nature.

You're In Debt [+400]:

It sounds like you're in quite a predicament with that debt! Whether it was due to interference from magical girls' magic or accidentally damaging priceless artifacts, owing such a large sum can be daunting. Ten years might seem like a long time, but with determination and careful planning, you can gradually work towards paying it off. It might be challenging, but think of it as an opportunity to learn financial discipline and responsibility. Good luck tackling that debt! Because if you fail the jump will end.

The Cursed Clone [+400]:

You have been cursed with a clone. Sharing all your abilities within and beyond the jump, they are as formidable as you are. However, their intentions are malevolent—they seek to bring you endless misery by targeting your companions and undermining your interests with a malicious grin. With cunning and agility, they evade your strategies, always slipping away to fight another day. This torment will persist until the final year of your journey, a constant thorn in your side.

Everyone Want you [+1000CP]:

It seems you've found yourself in quite a precarious situation, becoming a prime target for every organization in the world due to your unique ability to produce pure energy while driven crazy by the antics of the world's citizens. This has made you an invaluable asset in their schemes for domination and power. Now, every corner of the globe is teeming with groups seeking to capture and imprison you, using all means at their disposal to exploit your abilities.

This constant threat means you must remain vigilant and always on the move to evade capture. Each Independent organization will deploy their resources — from spies and mercenaries to advanced technology and magic — in relentless pursuit of you. The consequences of capture are dire: imprisonment that last a year will end in jump breaking. If the targeted drawback is purchased, the factions affected will immediately deploy their most formidable units against you. These units will be exceptionally powerful and will not be killable until the final year of your jump. This means that you will face ongoing and intense opposition from these top-tier enemies throughout your time in the world.

Ten Years Later:

Go Home: What, you finished? Here? Well, we won't ask. Whatever it is you gained here, we hope you enjoy it. You return home with all that you have accrued over your chain, and time resumes in all the worlds you visited.

Stay Here: This world does have a certain... allure, hmm? Don't worry, we won't judge. Add 1000CP as a bonus.

Move On: Ah, but of course. The journey never ends, does it? Go forth and have fun. Make some new friends.

Notes:

1. Well here is another Jump Base on black lilith so have fun here.
