

Out of Context: Alternate Porno-flick Dimension Supplement

V1.1 By u/Only-Cellist2989

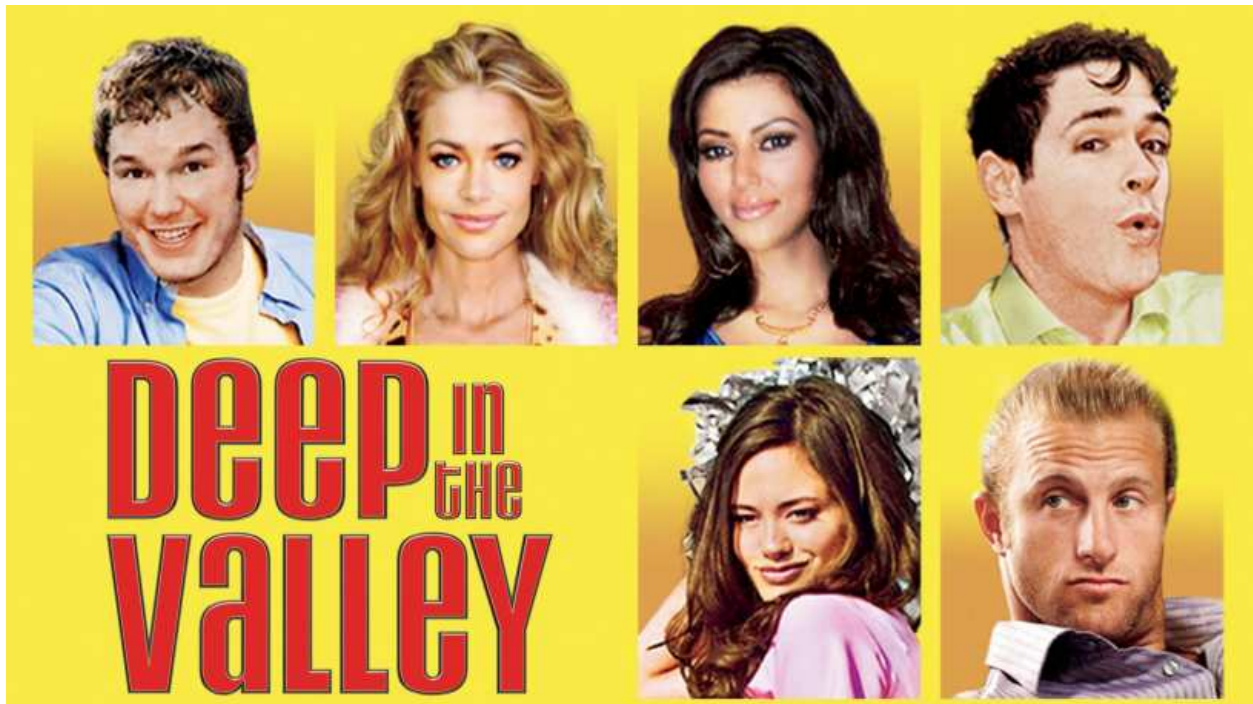

This document can be used as a supplement in any Jump that would not otherwise have Alternate Porno-flick Dimension or Deep in the Valley Dimension within its continuity.

By taking this Supplement you have chosen to be a Dimensional Pornstar and you will enter into that continuity as a Drop-In awakening in a vintage porn-video booth.

Dimensional Pornstars are visibly similar to a Human, unless you choose not to be.

+1000 CP

If this Supplement is instead taken as an Isolated Jump you may select a setting of your choice even if it doesn't have a Jump Document and use this document as a ten year long Jump.

Origin:

There are many types of Dimensional Pornstar who each draw their powers from the Slut Force, primal lust, or something like that. Who cares really?

Vintage Adult Film Connoisseur

Just like Lester Watts you are genre savvy in a world of porn. I should note knowing a thing and being able to do a thing are very different, but it can still help.

A Fool in Love

Just like Carl, you're kind of a little sub or at least you are when in love or in a relationship. It's not all bad, at least you are probably going to get the girl in the end (and yes double entendre as it is still a porn story).

Brand New Cast Member

So you want to be a whore on film? Well here we go then, enjoy all the sex.

Perks:

Movie Body - Free

Ladies, do you want huge boobs, skinny waist, & jiggly booty? Lads, do you want a huge cock & six pack? Make your body more in line with your (or their) fantasy self. As long as it's within human limits you can nip/tuck your appearance as much as you want at the start of this jump.

No Consequences - Free

You can have all the unprotected sex you want without fearing any of the consequences for your actions, like STDs, unwanted pregnancy, or a deep undefined feeling of shame.

Dimensional Pornstar Origin - Free (Cannot be taken with "Not Drop In")

This is an **Out of Context Origin Perk**. At the start of a Jump you can use this Narrative Perk to set your entry into the Jump Setting as if you had entered the Jump from a vintage porn-video booth.

Dynamic Entry - Free (Requires 3 Out of Context Origin Perks)

Using this narrative perk you can dynamically craft your method of Dropping into a Jump.

Lust of Olympus -100 CP

Simply put, you're never not in the mood, always rock hard or wet as the case may be. You no longer have a refractory period; the physical and psychological limits to your bedroom times are forever removed. So lads, just like the ladies you can have multiple orgasms to your heart's content! Just make sure to clean up after yourself and drink plenty of fluids.

Stamina of Atlas -200 CP

You will never grow tired or bored when having sex. It can be hours, days, or even weeks; you have unlimited stamina when having sex. This only works for sex, not anything out of the bedroom. I should note: stamina doesn't mean you can go weeks without air, food, or water, just that you will not get tired.

Beauty of Aphrodite -400 CP

Do you think it's weird that this cost four hundred undiscounted? Well take a look in the mirror—you are now a twenty out of ten, so perfect anyone who sees you is going to want to fuck you silly. Things like sexual orientation, age, race, & social status are quickly forgotten after looking into your eyes or at your ass. If you are a lad expect lesbains, asexuals, and straight

guys to fight for your attention as much as the straight girls are. Ladies, expect the same from gay guys, asexuals, and formally straight girls. The Kinsey scale will be straight-up busted for any human that sees you. Forget ever having to pay for your drinks and start thinking about starting your own OnlyFans. As a added bonus the perk prevents anyone from trying to rape you as that would make you cry and you're just too beautiful to make cry right? Note: this will not stop someone from killing you in a fight no matter how sexy you are. Cell & Freeze are still mass murders.

Parody -600 CP

Have you ever wanted to sexualize your power from other jumps? Here is your chance to do just that, my friend. That fireball jutsu from Naruto looks like a boob all of a sudden, canary cry from Justice League Unlimited sounds a lot like orgasm out of the blue, and that binding spell you cast looks less like vine and more like groping hands (funny, I don't recall that from Legend of Vox Machina, but I'm sure Scanlan would approve). That's to say nothing of perks & power from other jumps that were already sexual to begin with: the slave crest from Erona evolves into a bimbofication ray, and the momentary mind enthralling orgasmic kiss of a kindred from Vampire the Masquerade Bloodlines upgrades to lasting an full hour as a example of your new flavored powers. Fan wank responsibly please. Yes you can toggle this power off. *THIS PERK ACTS AS A CAPSTONE BOOSTER.*

Vintage Adult Film Connoisseur Perk Tree:

Genre Savvy -100 CP (Free for Vintage Adult Film Connoisseur)

Because of your immense porn collection you know most of the characters and locations in Deep Valley, including facts like the sorority house has a disused attic, behind the scenes trivia, & film scripts. This power applies to any hardcore porn, softcore porn, and B-movies with more nudity than plot.

Curtain Camouflage -200 CP (Discounted for Vintage Adult Film Connoisseur)

The curtains are lace and don't conceal you at all, the couch only conceals half of your body, or the closet you're hiding in has a glass door. Doesn't matter; they all just work as perfect hiding places. Why? Because people are just super oblivious when you're hiding, provided they're not looking for you to begin with. Don't forget this only applies to sight not sound, so keep quiet you peeping tom.

Fetish Detector -400 CP (Discounted for Vintage Adult Film Connoisseur)

You can sense the sexual orientation, fetishes, preferences, & desires of anyone and everyone within 10 feet of you just by looking at them. Helpful when hunting for a new partner & maybe finding blackmail material. I should note you can't turn this off unless you have a "toggle" perk from somewhere else.

I Am Your Father -600 CP (Discounted for Vintage Adult Film Connoisseur)

It turns out your Diamond Jim's son. May not sound like much until you remember that Diamond Jim is a wizard, Greek god, or the devil maybe. Whatever he is he has reality warping powers, being able to forcibly bring people into the dimension and kick them out with a snap of a finger. It may look just like a simple teleport power, but moving yourself and others across dimensions is a hell of a thing. He probably has many others, sadly you only get the one he shows off.

Capstone Boosted: Freeuse

Recall where I said you only get the one? I lied, you get this one too. With your reality warping power you can brainwash everyone on the planet you're on to play along your sex fantasy. If you're not sure what Freeuse is, google it or better yet just go to Pornhub and find out. Heads up for anyone with a moral compass or a Paladin class from a D&D jump, using mind control on people for sex is an evil act to say the least so keep that in mind.

A Fool in Love Perk Tree:

On a Journey or Something -100 CP (Free for A Fool in Love)

Fate always conspires to make sure you have a good romantic partner. If you're single or have a wet blanket partner you will soon find that normally within two days you will find a brand new doe eyed romantic better half.

Stealing a Vehicle -200 CP (Discounted for A Fool in Love)

It's easier to escape the police when you can steal a vehicle. Whenever you are in need of a get away ride fate will conspire to have a pizza delivery car, a pool cleaner's van, a drunk's motorcycle, or a cougar's minivan with keys still in the ignition and unlocked in your vicinity. The best part is that after you ditch the stolen ride, all the evidence disappears from the world.

Quest Drop -400 CP (Discounted for A Fool in Love)

Plots are hard to find in a porno, lucky for you it will now come easy to you. This will apply to non-porn jumps but it just works better in a porn, hentai, or any other lewd jumps. It's a six sense for what you need to find, who you need to speak with, and what you need to learn. This doesn't give understanding of why or the order of the stuff being useful just that it's needed.

True Love -600 CP (Discounted for A Fool in Love)

Turns out true love does conquer all, or at least with this perk it can. Anything that separates you from your true love will break under the weight of that love. The barrier that separates dimensions, castle walls, magic shield, etc all will fail when you reach out to your love. This only works if you're trying to get near your love, not just to travel. Warning: breaking the dimensional barrier that separates the worlds may have massive consequences for reality. Special note: if your true love is outside of your jump chain using this power would end your chain as it would send you home.

Capstone Boosted: Finds a way!

Fuck the chain you bring your true love along with you on your chain even from your origin world and if jumpchain doesn't like it he can lick my balls. You will, however, forever lose a companion slot for this. They gain access to your CP points every jump after this one so I hope you don't mind splitting your points, also they only ever get the drop-in origin even if that's not normally possible in that jump. Note you can never toggle this power off once taken unless they die.

Brand New Cast Member Perk Tree:

Money Shot -100 CP (Free for Brand New Cast Member)

You have the perfect timing to cover your partner's face in your creamy white baby batter or spritzzy squirting spray. This will also massively increase your load like 3 times more than normal. Picture the huge load you see in gang bang facials. No one who sees this will question how that's even possible or try to dodge your sexy tsunami.

Kick Dominance -200 CP (Discounted for Brand New Cast Member)

Like Suzi Diablo the dominatrix, if you kick someone in the groin regardless of their durability they will take the full damage a normal person would & feel the full level of pain.

Pizza Boy Special Delivery -400 CP (Discounted for Brand New Cast Member)

As a porn protagonist, any time you deliver pizza, clean the pool, repair cable, check the plumbing, deliver the mail, or any other job that requires you to go to someone else's home, it will result in sexual promiscuity rates skyrocketing to a sex-crazed status. The best part is you somehow avoid getting into trouble with the boss back at the office for taking so long to make a delivery, nor lack of tangible payment for services.

Horse Cock -600 CP (Discounted for Brand New Cast Member)

The problem with the "Movie Body" perk is the whole "human limits" thing. So you can just hand wave that away. You want a 20 inch dick, triple z cup size tits, lips so big they come out a half a inch, or bubble butt that looks like you have basketballs under your skin? What about blood flow, back pain, and the increased weight on your feet? Again, the perk hand waves that away, along with anyone over reacting to your impossible body prepositions. As an added bonus your meat sword still somehow always fits & feels mind blowing; same going if you have a meat sheath.

Capstone Boosted: By Zeus's mighty cock!

How the hells did you get a god's divine genitals? No matter, what's done is done, your sex organs are now beyond anything else in this world. Anyone you have sex with will have the best sex of their life putting all past lovers to shame. Sex is with you is now literally more addictive than crack cocaine as it surpasses the normal maximum human pleasure level.

Items:

Any lost or stolen items will return to you after a week in the same condition as when you had it. Any damaged items could potentially be repaired and have the broken condition removed if worked on by a capable engineer.

Slutty Clothing - Free

Appropriate clothing in this world shows a lot of skinny and cheap looking.

Pizza Delivery Vehicle -100 CP

Gets you from place to place and keeps your pizza hot or a black/white delivery van if you want more room to have sex in the back.

9-5 Office Job -200 CP

Why would you want this & why pay for it you ask. This office job comes with a sexy secretary, corner office, 165,000 year paycheck, & zero responsibility in a building with a freeuse policy. Expect a lot of sex with no hard work, just don't let anyone know you're not in charge of anything. Losing a job at a place with orgy office culture would be sad right?

Sexbot -400 CP

This tech shouldn't be around judging by the level of technology around you, but this is a low budget adult movie after all. This sex bot is programmed with all the kids of sex you could ever want & can do some light house work. It looks, feels, and fucks just like a human, but recharges at the power outlet, not at the dinner table. It will follow your orders to the best of its sexy ability. Its appearance is up to you within human limits unless you want it to look like a human wearing shitty sci fi robot makeup. Can purchase multiple sexbots if you wish.

Vintage Porn-video Booth -600 CP

It lets you travel between a regular boring world and its porno version of it. This can be helpful if you want to see Buffy laying the vampire instead of slaying it, other than that it's not very useful. Also, besides being a very limited Rick's portal gun you can also watch vintage porn on it.

Companions:**Import Slut -50/200 CP**

Bring old friends from previous jumps along or create OC companions for 50 CP each or 200 CP for a total of eight. They gain a background and 300 CP to spend on perks and items. Companions can't take companions or drawbacks unless they're OC companions, then they can take the Neighborhood Slut drawback for no points.

Canon Slut -50 CP

Do you want to bang Bambi Cummings, Autumn Bliss, Suzi Diablo, Tracy, Summa Eve, Daphne, Candi, Sandi, or some other hottie from this place? Well, now's your chance. You will meet them under the best circumstances and they will be naked at the time as a added bonus

Drawbacks:

Movie Length +0 CP

The movie Deep in the Valley takes place over the span of two or three days so now so does this jump.

Neighborhood Slut +100 CP

You are no longer a Drop-In or from an alternate Reality. You are instead Local who somehow knows they're in a porn reality. You will need to work out your Background with your Jump Chain, additionally you will lose all Items from this Supplement.

Wanted the Dumb Arm of the Law +200 CP

Rod Cannon & Suzi Diablo are after you for some crime or something. Rod is a dumbass that will chase you everywhere, but Suzi on the other hand is actually good at her job and has the Kick Dominance perk.

PG-rated +300 CP

This jump no longer has any explicit nudity, sex, drugs, and is a lot more prudish. It's almost like this world is desperate to be shown on mainstream American TV.

Hit On You +400 CP

You pissed off Busta Nut and he has sent his whole gang of drug dealing gunslingers. They will all be trying to kill you and the cops will always look the other way.

For The Plot +500 CP

You're the kind of person that watches porn for the plot aren't you. You will skip the hottest orgies, best parties, and anything fun if it means focusing on the plot. As an added kick in the genitals you can't take Movie Length drawback to shorten your trip.

Cup Your Balls +600 CP

Pissed of Diamond Jim something bad. He is the lord of this dimension having damn near absolute power here so try your best to keep a low profile.

Special thank you to DeverosSphere for the template and my wife for the spell checking.
