

## Cream

The time has come for CREAM - the latest product that will fix your life. This is the story of Dr. Bellifer, a scientific genius, who after years of smashing particles together, reveals his revolutionary new product: a cream with the power to fix all of the world's problems.

You get 1000 CP.

### Origin

You start as a random human of any gender/sex you choose, and of any age you choose.

### Location

Similarly, you can choose your starting location, as long as it is somewhere on the surface of the Earth.

### Perks

#### **Creamed [100 CP]**

*"Facial blemishes will be a thing of the past."*

You seem to have taken the Cream, or not, maybe you were just born this way. This perk makes it so that all your biological weaknesses get nullified; coupled with that, every illness you have also gets nullified.

This also boosts your parameters by a fair margin, a cripple would beat an olympic athlete and a dog could challenge Isaac Newton.

#### **Conspiracy [400 CP]**

*"If you eat duplicated food, you'll get AIDS."*

Any product you make will now never be a victim of fake news / conspiracies, unless you want it to. This effect extends to your person, your companions, and your organizations.

## Being of Pure Light Energy [600 CP]

*“He exponentially improved himself physically and mentally to a zenith of absolute perfection, subsequently evolving into a being of pure light energy.”*

This does more than merely granting you this universe’s ascension, this removes any block on ascending in a jump, also removes the chain failure rule on ascending on any jump that may have it.

This also makes it so that powers that modify your form give you all the benefits without modifying it, and that powers obtained in one form also carry to another, you can turn these on/off.

Read Notes for more in-depth stuff.

## Items

### Cream 2.0 [1000 CP]

*“The Cream detects the most likely problem and attempts to solve it by correcting the molecular structure. Even quite vague problems such as general ugliness. Instant fixes for: any kind of aging, fractures and lacerations, the recently deceased.”*

You will receive one 500g pot of Cream monthly, this Cream can self duplicate, effectively creating matter out of nothing. Cream can solve any problem, perfectly fixing anything it touches. In fact, as it is touching itself, Cream perfects itself over and over, constantly surpassing and redefining perfection.

A machine sprayed with Cream can be, each time it is sprayed, exponentially upgraded. A person sprayed with Cream can be exponentially augmented. A Jumper sprayed with Cream can become better, even if it does not make any sense. It would even be possible to throw Cream at the Riemann Hypothesis to make it solve itself. Anything that makes even just barely any sense (or none whatsoever) can be done with Cream.

This fiat-backed Cream is guaranteed to not screw everything up somehow, always doing everything respecting the intent of what it was “asked” to do.

## Ending

*Go Home*

*Stay*

*Continue*

## Notes

The original material, **Cream**: <https://www.youtube.com/watch?v=0UgiJPnwtQU>

**Creamed** applies only one time, but the effect is permanent as long as the perk is active. This means that you are effectively immune to illnesses. Parameters boost apply after all other perks and powers, exponentially improving you after that. When you obtain a new perk, **Creamed** updates as if it was applied after this new perk as well.

For example, let's say this perk is a 2x multiplier, your new power will be (other perks) \* 2, after you get a new perk, it becomes (other perks + new perk) \* 2.

**Being of Pure Light Energy** would let you use a Mahou Shoujo power without actually transforming. I am also aware that some cultivation settings (and some D&D ones) ban you from reaching ascension because there is already the maximum number of ascended beings, this perk lets you bypass that. This perk also lets you have the metaphysical weight of mantling completely another being's power, even if you are not the original one (say you inherit some primordial vampire bloodline in some generic edgy world, you will be metaphysically treated as if you were the original, not a fake inheritor).

The Cream can basically enhance anything, even tech and magic. And covering someone completely in it makes them become an energy being (it is guaranteed nothing bad will happen because your bought version is fiat-backed).

We only have 3 perks and 1 item because, come on, you don't need more than that, and one of the perks even modifies jump rules.

There are no drawbacks because this world itself is a drawback, deal with it.

This is not a joke jump, even though its power level is just so immense that everything else might become a joke.
