

Out of Context: Life Energy Supplement

V1.01 By Deverossphere

This document can be used as a supplement in any Jump that would not otherwise have wielders of life energy within its continuity.

By taking this Supplement, you have chosen to be able to wield one or more forms of life energy and will enter into that continuity as a Drop-In awakening at the center of an explosion of energy that would otherwise have occurred regardless of your insertion into the setting.

+1000 CP

If this Supplement is instead taken as an Isolated Jump, you may select a setting of your choice, even if it doesn't have a Jump Document, and use this document as a ten-year-long Jump.

Origin:

There are many forms of life energy, but most of these tend to lie within three categories. Which do you wield?

Organic Energy

You are able to wield the energy crafted by your biology. This form of power is focused on what you are, your species, your biology, and your bloodline.

Spirit Energy

You can utilize the power of your spirit. This form of power comes from who you are rather than what you are and is influenced by your emotions, drives, and personality.

External Energy

You can now tap into the power of the universe and wield it as your own. This form of power comes from where you are and is influenced by the laws, physics, and power of the reality you are in.

General Perks:

Explosive Origin - Free (Cannot be taken with “Worldly Power”)

This is an **Out of Context Origin Perk**. At the start of a Jump, you can use this Narrative Perk to set your entry into the Jump Setting to be within the crater of an otherwise canon explosion.

Dynamic Entry - Free (Requires 3 “Out of Context Origin Perks” from other Supplements)

Using this narrative perk, you can dynamically craft your method of Dropping into a Jump.

Lines and points from which life flows -100 CP

Life energy exists within all things, from the largest of beasts to the smallest of bacteria, and now you can feel it. Through this perk, you can now Perceive Life Energy

Mage Booster: Interconnected Energies (“Chakra”, “Aura” and “Hamon”)

You are now able to convert any life energy within your body into another form without difficulty. This will also allow you to convert these life energies into Mana, a form of Magical fuel that can be used as payment for spell casting without any additional costs or consequences. Be warned, Mana which is corrupted or decays can become Miasma, the life energy of Monsters and some demonic creatures. Should too much Miasma gather in one place, it may mutate creatures into nightmarish beasts or worse, create new ones.

Meridians -200 CP

Your body now contains energy pathways allowing you to manipulate the life energy flow within your body. This will have various beneficial effects on your overall health, improving your baseline physique, improving your immune system, improving your body’s blood flow, and improving your finite control over any form of Life Energy.

Mage -400 CP

You now possess a magic sensitivity that allows you to shape Magic, a natural, primal force that is able to influence events and beings without recourse to the physical world. Actively manipulating Magic into effects is often referred to as spell casting, but magic can also be engraved into markings in order to statically replicate designated effects.

The act of using magic requires a cost or sacrifice; some magical acts are simple with their costs often being so little that they are unnoticeable, but higher-level magic typically demands a toll, sometimes including physical exhaustion, mental strain, severe consequences from magical forces, or even the corruption of the user's soul.

Light Hawk Wings -600 CP

You are now better able to condense energy without it becoming unstable. Thanks to this, you can compress any form of matter into potentially an enormous amount of energy and shape any form of energy you possess into defensive shields, offensive weapons, and even solid matter.

Mage Booster: Anodite

You now have a far greater control over magic, giving you an instinctive capability to force magic into solid forms. This can be used to create magical constructs or project raw magic in the form of waves and beams. The cost for using magic for this will have a massively reduced cost, making it so that you will feel nothing beyond mental tiredness.

Chakra Booster: Z-Fighter

You now have far greater control over your Bio-Energy, giving you the understanding required to condense and project it. So long as you possess enough Bio-Energy, you will be able to perform unaided flight, reinforce your body, and even fire off energy blasts.

Aura Booster: Glyphs

You are now capable of condensing your Spirit Energy into flat circular patterns, which are able to create a variety of effects. These Glyphs can produce spiritual force to cause acceleration, can be reinforced to be used as solid shields or barriers, and can be used to create ethereal entities. The shape and behaviour of these Glyphs will be controlled by your spirit, requiring focus to consciously control.

Hamon Booster: Lantern

You are now able to draw upon the universal energy of the setting you are in and condense it into a physical form. What these physical forms are will depend on the forces within the setting. When within a reality with toon force, you can create toon objects, such as a tunnel that alternates between being real and false. When within the DC universe, you could draw upon your emotions to create lantern constructs without a ring or draw upon the speed force to create lightning. When within the Marvel universe, you would be able to call upon and condense universal aspects into new infinity gems, similar to how the Death Stone, Genesis Stone, Evolution Stone, War Stone, Nightmare Stone, and Chaos Stone were created within Battlerealm.

Organic Energy Perk Tree:

Chakra -100 CP (Free for Organic Energy)

Your cells are now capable of generating biological energy that can be directed by your mind and willpower. This energy has been thought of as Ki, Chi, Qi, and Prana by the various worlds. While this energy could be internally or externally projected to perform a wide variety of impressive abilities, most humans with this energy would be limited in their capabilities without inhuman talent, lifetimes of training, or guidance from experienced teachers.

Ultra-Boy -200 CP (Requires “Chakra”, Discounted for Organic Energy)

Through this perk, your cells have been augmented in a similar way to Astronaut Kent Clarkson, but to a lesser but much wider degree. Thanks to this, your cells are now able to absorb ambient energy and radiation to generate more biological energy. This will also allow you to utilize your Bio-Energy in order to enhance your physical capabilities, sustain yourself without food, water, or oxygen, and potentially go indefinitely without sleep.

Rogue -400 CP (Requires “Chakra”, Discounted for Organic Energy)

You are now able to absorb the Bio-Energy of others through physical contact, temporarily allowing you to replicate any abilities they possess that utilise Bio-Energy. While using this ability, you will also be able to counter anyone else who attempts to utilize energy absorption against you to drain them or nullify their attempt. Additionally, you will be able to selectively toggle the biological markers to be recognised as a mutant, meta-human, or Inhuman.

Mage Booster: Sorcerer

Your magic is now tied to your bloodline, allowing your cells to generate Mana, a form of magical energy at a similar rate to your Bio-Energy. This also allows you to access approximations of the abilities of any Magical creatures that exist within your bloodline. When you absorb the Bio-Energy of a magical creature, you will be able to gain its species' Magical Bloodline, but you will only be able to have one magical bloodline active at a time. By default, you will possess an Arcane Bloodline, which is similar to the magical capabilities of the magical beings of the Wizarding World of Harry Potter.

Fire Bender -600 CP (Requires “Chakra, Discounted for Organic Energy)

You are now able to expel your Bio-Energy from any point in your body as various forms of physical energy, such as Fire, Lightning, Waves of Heat, and a Concussive Force.

Light Hawk Wings Booster: Avatar

You now possess the power to convert your Bio-Energy into manifestations of all four of the Hellenistic elements and directly manipulate those same elements even when they are not the ones created from your Bio-Energy, similar to the Avatar of the four nations. Additionally, you will be able to perform Energy Bending to manipulate Bio-Energy within yourself and others in order to teach them how to use their own Bio-Energy.

Ultra-Boy Booster: Conduit

You can select a single attribute that your conduit powers will integrate into a power template set. Your attribute is not limited to traditional elements, and while it could be fire or electricity, it could also be neon, paper, or ash. You will be able to drain that attribute from an available source in order to gain Bio-Energy that you can use to fuel your other conduit abilities. You can convert your Bio-Energy into the selected attribute to enhance melee attacks, fire small, medium, and large projectile blasts of your attribute, you can even use your attribute for a large-scale attack comparable to a MOAB missile. Additionally, your Bio-Energy passively decelerates your aging, reinforces your physique, and grants you a moderate healing factor.

Spirit Energy Perk Tree:

Aura -100 CP (Free for Spirit Energy)

You can now summon the power of your spirit, manifesting it within yourself as a practical power. While spirit energy is often associated with the soul, it does not directly require it, as spirit energy is the binding force that connects the body and soul. This is why ghosts and vampires who lack a soul are able to use spirit-based abilities such as Nen, Reiryoku, Ecto energy, and Stands.

Curses -200 CP (Requires “Aura”, Discounted for Spirit Energy)

Your spirit energy can now be influenced by your intentions and emotions, allowing you to alter it into Cursed Energy and Blessed Energy. Thanks to this, you can strengthen any spirit-based abilities you possess, with them taking on the will and drive you feel when using them. Cursed Techniques tend to focus on negative feelings such as fear, greed, and rage, which more often than not are used offensively and can damage spiritual beings. Blessed Techniques tend to focus on positive emotions such as hope, compassion, and love that normally act to heal or enhance others, but can be used to painlessly disperse spiritual beings, putting them to rest.

Zanpakutō -400 CP (Requires “Aura”, Discounted for Spirit Energy)

You are now able to actively manipulate spirit energy into physical weapons that can harm the living and undead alike. You are able to shape spiritual energy into semi-physical weapons, with more durable weapons being created the more spiritual energy is used for their creation. This is not limited to only your own spiritual energy, as you can communicate with and wield the remnant spirit energy of the dead, converting them into pseudo ghosts bound to your own spirit and revitalised by your life force in order to prevent them from being corrupted over time.

Mage Booster: Shaman

You are now able to imbue ghosts with the property of spells to make them a foci of magic. The way these ghosts died will fulfill the cost requirements for those spells so long as their deaths relate to the types of magic you are imbuing them with. The spells these ghosts cast will become far more powerful if you imbue the ghosts with more mana. Mana can be drawn from the dead, both ghosts and fresh corpses, as the spirit energy remaining is converted to mana; this will act to weaken and eventually erase ghosts if they are not given time to recover.

Semblance -600 CP (Requires “Aura”, Discounted for Spirit Energy)

You now possess a Semblance, a manifestation of your spirit and personal power as an ability that is unique to you. What the effects of your semblance will be will vary greatly depending on who you are. The nature of your Semblance is a representation of an aspect of your character, but it can be similar to those of your parents or other family members. You will gain one Semblance that matches your spirit, but you can also gain additional semblances to match any other souls you possess. You may only have one Semblance active at a time.

I.E. “Passive Fist” is a Semblance that envelops the user's Attacks with their Aura so that instead of doing the recipient of the attack physical harm, they instead drain the target's stamina, causing the enemy to feel exhaustion and restore the user's stamina.

Light Hawk Wings Booster: Stand

You now possess a Stand, which is a semi-physical manifestation of your spirit, specifically your fighting spirit. A Stand is an entity generated by your spirit energy and generally presents itself as a figure hovering over or near the user and possesses abilities beyond those of an ordinary human. How your stand looks and what its abilities are will depend on how you face conflict.

You will gain one Stand that matches your fighting spirit, but you can also gain additional stands to match the fighting spirit of any other souls you possess. You may only have one Stand active at a time. While Stands will often have similar abilities to a user's Semblance, they will often, if not always, be used in a very different way to make the outcome of the ability dramatically different.

I.E. the user of the Semblance “Passive Fist” when they gain a Stand would get “Comfortably Numb”, which acts as a close-range stand that prevents the user from feeling harm or taking damage; instead, each strike disorients and tires the user, the more damage they should have taken.

Curses Booster: Fullbringer

You are now able to manipulate the spirit energy within physical matter and imbue items of importance to you with your own spirit to alter its form, granting it powers that vary greatly depending on the individual's spirit and fondness for the object in question. As such, this power is usually awakened through a strong emotion associated with the object. Until a Fullbringer has fully realized this power, its developmental stages can look radically different from its final form through growth. However, Fullbringers must progress to a certain level before they can use their unique abilities to their fullest. A Fullbringer's unique power largely depends on the object that is used as a focus, the emotional connection to that object, and the spirit of the user. While your Fullbringer tool may have a similar ability to your Semblance, they will be utilized differently by the item.

I.E. the user of the Semblance “Passive Fist” who selects a Prefect Badge for their Fullbringer could get “Weight of the Badge”, a defensive Fullbringer that drains the stamina of any attacker while they are fighting and allows the user to release the burst of regenerative energy to revitalise themselves or others, slightly healing the target.

External Energy Perk Tree:

Hamon -100 CP (Free for External Energy)

Your body can now draw from, contain, and express energy that comes from the universe around you. Using this, you could draw in the radiation and light of the sun, then express it within your physical movements so that if a vampire makes contact with you, it would burn them as though they were touching sunlight. This is not merely limited to sunlight as you can use this to draw in any universal energy if you were to draw upon the force within Star Wars your body would become habitable for Midi-chlorians, should you draw in the light of will you could recharge a green lantern, should you be in contact with an infinity gem you could draw it in and store it within your body but with only this perk all you could do is release the infinity gem from your body.

Midi-chlorian -200 CP (Requires “Hamon”, Discounted for External Energy)

You can now use the universal energies you are connected to in order to connect any other beings who are connected to the same force. For example, should you be in Star Wars you would be able to instantly speak with any Jedi or Sith through the force regardless of where they are in the universe, when absorbing sunlight you would be able to communicate with any plant currently photosynthesising from the same star, while in contact with a light of the emotional spectrum you would be able to speak with any Lantern of that Light.

Morphing Grid -400 CP (Requires “Hamon”, Discounted for External Energy)

You can now contextualise the requirements of the forces you are in contact with, allowing you to shape them into the tools required to wield them. For example when in the Power Ranger Dimension you will be able to shape the resonant energy of the Morphing Grid into a Power Morpher allowing you to transform into a Power Ranger, when in the DC universe this could be used to shape the lights of the Emotional Spectrum into Lantern Rings and within some variants of the Harry Potter universe where Magic is a universal force instead of a biological one you would be able to shape residual magic into a wand that is suited to you.

Mage Booster: Warlock

When wielding magic, you are now able to shunt the bill into the universe itself. If you cast a spell, you can now force that cost either into the universe you are in, nearby pocket dimensions, or onto any universal forces you have access to, though this will have two consequences. The first is that when the spell is cast, it will be influenced by what you have used to bypass the cost, such as a Fireball spell becoming an Infernal Fireball when cast in Hell, a Green Willpower Fireball if cast at the expense of the Green Light, or perhaps becoming a cartoonishly animated flame when used while under the effects of Toon Force. The second consequence will be that the cost of the magic will take its toll on the force or universe that funded the spell and while this will likely have no effect with small scale spells prolonged large spell magic can twist corrupt and warp a universe resulting in horrific things and distorting the magic that exists within the setting similar to how the Wall in the north of Westeros corrupted magic within its setting. This perk will also give you the opportunity to draw from any radiant mana should it be available within the Universe you are in at no additional cost to you or the universe.

Universal Laws -600 CP (Requires “Hamon”, Discounted for External Energy)

You are now able to Toggle on and off the non-mundane universal forces that govern whatever setting you are in, as though you were an average person chosen to use it. The forces you have access to will depend on what setting you find yourself in. You would be able to activate and deactivate the Toon Force, the Emotional Spectrum, the Negative Speed Force, the Web of Destiny, the Wheel, the Force, and even the Dark Soul. Be warned, when you are connected to these forces, you will also be subject to their rules. Some forces may contradict each other, and some may require tools to wield them that this does not give you.

Light Hawk Wings Booster: Mantling

When connected to a universal force, you will be able to mantle it, granting you apotheosis for that force. This will grant you absolute power over that force; however, you will also take on the properties, some limitations, and, to an extent, the identity of that force as you temporarily gain physical and personality features of that force. The drawbacks of mantling will become increasingly obvious the more forces that you try to mantle simultaneously; however, it will allow you to completely depower an enemy who used that force.

Midi-chlorian Booster: The Endless

While you are connected to the forces of a universe, you are protected by them. So long as these forces exist, you will never stay dead, as they will actively intervene to prevent or reverse your death. How they do so will be dependent on the forces trying to protect you and may be very strange, such as sending you back in time, rapidly mutating your corpse, or forcefully resurrecting you by slamming your ghost back into your body with a frying pan.

It seems you've pissed off the wrong people. You have a notable bounty on your head, and while it's not enough to get the big guys interested, it *is* enough to draw the attention of random thugs.

Culture Shock +100 CP

This world doesn't have the same cultural standards you're used to, which isn't a problem if you're quick to adapt. Unfortunately, you *won't* be. You'll constantly butt heads with anyone whose cultural norms and social mores are different from your own. Friends to the Four Winds +100 CP

Instead of arriving at your Location Choice, your Companions are now scattered randomly throughout the setting. They won't be able to enter your Warehouse until they've found either you or one of your properties.

The Glitch +100 CP

Technology randomly fails around you, normally when you need it the most. You might be able to jury-rig a quick repair, but you'd better act quickly because while this won't be instantly fatal, it will make things more dangerous.

Gore Galore +100 CP

It seems that every creature you kill has ten times the amount of blood and viscera that you would expect, making it a real possibility of drowning in the blood of your enemies.

G-Rated +100 CP (Incompatible with “X-Rated”)

This Jump is now a family feature... or so it seems when it comes to you. Any attempts to swear, drink alcohol, take recreational drugs, have sex, kill someone, or anything that might warrant a PG rating will be averted at the last moment – often painfully and humorously.

Heroic Sayings +100 CP

You have several quotes and sayings that always come across as annoying or cheesy, which you unintentionally use every time you try to talk to others.

Hidden Knowledge +100 CP

People keep forgetting to tell you important things until it's *just* about to become relevant.

The Holiday Special +100 CP

Your enemies can easily spy on you without being detected.

In Another Castle +100 CP

Each time you attempt to complete a task or objective, you will find that you have been tricked and will have to repeat the process all over again. You'll not only forget this Drawback, you'll also forget every previous time you've been affected by it whenever you start a different task. This only triggers once per task and will not become an endless loop of deception.

Inconveniences +100 CP

You will constantly encounter minor obstacles that are uncomfortable to deal with.

Kick The Cook +100 CP

You are a terrible chef and everything you cook is disgusting. You can't even cook toast without making it *monstrously* vile.

Knowledge Lockout +100 CP

You lose all of your knowledge of the setting's universe and its continuities once you start the Jump.

Language Barrier +100 CP

You do not speak the local language, and no one here knows what you're saying until you learn.

Loser +100 CP

Anyone who doesn't know you will automatically expect you to fail at whatever you are trying to do. This will cause those who mean well to push you to work harder and those who don't mean well to attempt to discredit you.

Low Budget +100 CP

Something about this world just seems... *cheap*, with flying wires, plastic shields, old school lights, and tatty-looking monsters.

Magnet For Misfortune +100 CP

You have *terrible* luck. You're almost constantly hit by random, unpleasant, and painful bouts of misfortune.

Money Money Money +100 CP

Your avaricious desire for money and other symbols of wealth leaves you willing to go to extreme lengths to get more.

Never Mind My Head Trauma +100 CP

People don't care when you're injured.

Nightmare +100 CP

Every night, you'll fall asleep and suffer terrible dreams.

No Hard Feelings +100 CP

There's one random person who constantly tries to outdo you... And somehow, they keep succeeding before rubbing it in your face.

Optician Required +100 CP

Your eyesight is highly restricted, as you can not see anything other than indistinct blurs without wearing glasses. No form of healing can remove this drawback, and any form of contact lens will feel incredibly itchy.

Orphan +100 CP

Your in-universe parents are dead, and you are an orphan.

Pixelated Objects +100 CP

This pixelation in this Jump would shame an NES. Everything is blocky!

Plot Anchor +100 CP

Every plot seems to revolve around you, and no matter what you do, you will always be dragged into the story.

The Pollen +100 CP

You have hay fever, and it's really, *really* bad. Just a handful of flowers could leave you with blurred vision and sneezing for hours.

Prove Your Worth +100 CP

Every time you try to do anything, it seems that everyone wants you to complete an arbitrary task to somehow prove your worthiness. This won't be hard, but it happens all the time for even the smallest things. It may even cause you to get stuck in a worthiness spiral, requiring you to prove your worth to get things needed to prove your worth for some totally unrelated task.

Recurring Foe +100 CP

You have an enemy whom you have no way to convince to leave you alone. Each time they encounter you, they learn more about you and how to better face you in the future.

Rough Childhood +100 CP

You were not as lucky as some people. Your in-universe childhood was - or will be - abusive and painful to such a degree that you will be affected by it, even if you didn't really live through it. Gain an extra **+100 CP** if taken with **Just A Child**.

Scarred +100 CP

You either have horrible burns or horrible wounds, neither of which you can hide. You appear monstrous to others, causing most to feel deep fear at the sight of you.

Scripted Encounters +100 CP

You'll run into whatever threat you're dealing with more often. You won't automatically become a priority target, but sheer proximity is likely to put you at risk.

Shameful Attraction +100 CP

The worst kind of perverts keep seeking you out and trying to get you to fulfill their fetish.

Shy +100 CP

You find that it's incredibly difficult to talk with people you want to be friends with.

Sickly +100 CP

You have a poor immune system and are more susceptible to illness. You'll get sick at least once a month.

Silent Night +100 CP

Unfortunately not. An annoying narrator who constantly insults you and reiterates things that you already know will rhyme in your inner ear every. Single. Christmas.

Silent World +100 CP

The world seems emptier than it ought to be. You don't know what happened, but the population of your starting planet (or nearest equivalent) is *drastically* lower than expected. After including every named character, the population is at most **10%** of its expected total. If you would normally see eight billion humans, you can instead expect to see as few as eight *million* instead.

Simple Minded +100 CP

You find it difficult to understand somewhat complex topics, and you have trouble remembering when holidays are.

Stalker +100 CP

A random, ordinary human knows *everything* about you and is *obsessed* with you. They're also protected from any Perks or Powers that would help you find them quickly.

Stranded +100 CP

Instead of whatever your normal starting location would have been, you find yourself in the middle of a deserted island somewhere in an ocean.

Team Up +100 CP

It seems that you can't go anywhere without some random person showing up and joining you. What's worse, *they* always seem to get any of the praise you may have earned, and *you* always get all the criticism for the group's failures.

They Heard You +100 CP

Any time you say something mean about someone, they'll overhear you and probably get upset. You will forget you took this Drawback.

They Took My Loot! +100 CP

Any time you leave any treasure unguarded, expect thieves to show up and steal it.

This Is A Holdup +100 CP

For some reason, every two-bit henchman, sidekick, minor minion, and comedy relief character thinks they can kick your ass, and they're going to go out of their way to prove it! Expect to get mugged *a lot*.

This Is A Really Good Book +100 CP

Whenever you try to read a book, you get sucked into the narrative and ignore everything happening around you.

Thugs For Days +100 CP

Every day, a minimum of ten random thugs will show up and target you.

Touch Of Madness +100 CP

Things keep happening that leave you thinking you're going crazy... and maybe you are, but not because of this Drawback.

Turn-Based +100 CP

Whenever you enter into a fight with someone, you will find yourself transported into a weird pocket dimension where you are only able to take an action after each of your opponents in a fight.

Two Of A Kind +100 CP

People keep drawing parallels between you and other people, and these comparisons are *not* flattering.

Unknown Rival +100 CP

It appears someone has taken a shine to you, but not in a good way. They have abilities or a similar area of expertise to you, and they're *not* taking it well. They won't do anything to outright harm you, but they *will* try to one-up or challenge you, and there's not much you can do to get rid of them. If you beat them at their own game, they'll double down. If you try to help them beat *you* to get them to leave you alone, you'll come out on top purely by accident, which will, again, spur them to double down.

Unnecessarily Slow +100 CP

Everything that happens here seems to take forever, moving at a snail's pace. I hope you're a patient person.

Unwanted Crossover +100 CP

This drawback acts like a magnet for other settings, resulting in strange individuals from other worlds popping up and potentially causing us issues. These individuals tend to have power consistent with the power level of the chosen setting, but you won't have any way of knowing when someone new has shown up.

Wanted +100 CP

You have a criminal record somewhere out there. It has a surprisingly high bounty, but not so much that you will be sought out. People *probably* won't go after you as long as you stay away from wherever your wanted poster is.

Wearing Underwear on the Outside +100 CP

You have terrible dress sense, with everything you wear being the worst possible combination of clothing.

The Weirdo +100 CP

Everyone seems to think that you are a strange individual, and they will go out of their way to avoid you unless they actually need to speak to you.

What's His Name? +100 CP

No one seems to remember your name, so you've been given a nickname that really winds you up. What's worse, most people think that it's your actual name.

What's That Smell? +100 CP

No matter where you go, no matter what you do, something always smells slightly off. The source of the smell varies depending on your location, but it's always distracting.

What's Wrong With His Face? +100 CP

Your face has been messed up, leaving you grotesquely ugly and near-unrecognizable to everyone who knows you. Those with a weak stomach may be sick merely at the sight of you.

Where Did I Go Wrong? +100 CP

You can't tell the difference between confidence and arrogance.

Why Am I Naked +100 CP

You start this Jump naked, and your clothing becomes incredibly fragile as it keeps getting destroyed, leaving you in the nude.

X-Rated +100 CP (Incompatible with "G-Rated")

Things in this Jump are a little more... *explicit* than normal. Sex, drugs, murder, and a lot more are out there, and it's almost like this world is desperate to show it all off.

Amnesia; Local +200 CP

Until the end of this Jump, you can not remember the events of the setting you have entered.

Amnesia; Personal +200 CP

You have no memories of your personal life before entering the current Jump, but this does not affect academic, social, or media knowledge.

Amnesia; Jumper +200 CP

You lose all memories and knowledge you gained since beginning your first Jumpchain.

An Accident +200 CP

You keep accidentally falling into compromising positions.

Betrayal +200 CP

You keep trusting people who don't deserve it, and they keep betraying you.

Whether you're just that naive or it's against your better judgment, you keep trusting people who don't deserve it, and they keep betraying you.

Bigger Boss +200 CP

Any time you defeat an enemy, not only will their superior know, they'll also know *how* you did it.

Blinded +200 CP

You have lost your eyesight and will not regain it this jump.

Dark Minions +200 CP

Some odd physical embodiments of evil will seem to appear everywhere, and they always attack you. No one else ever seems to see them or interact with them, but those things seem to be drawn to you like ants to sugar. If the setting already has creatures of darkness or evil, they are now also drawn to you en masse.

Dead Or Alive +200 CP

You have a local criminal record, and anyone who recognizes you as the target may attempt to turn you in for the bounty.

Demonic Disturbance +200 CP

Your presence has caused discomfort for the demonic entities within your chosen setting. They will attack you on sight and may go out of their way to make sure any acts of evil in your area are directed towards you. If demons didn't exist in the setting beforehand, they do now.

Discount Budget +200 CP

Anything you get your hands on is always the cheapest alternative option.

Fighting Myself +200 CP

At least once per week, you will appear within an empty space outside of time and must fight to the death against a fake copy of yourself. This copy will have all of your Perks, Items, and Abilities, but regardless of how the battle goes, you will not truly die. You will still feel pain, however.

Friends From Beyond Your Dimension +200 CP

A powerful godlike being will interfere in your life, making it more interesting or fun for them to observe.

Godly Distractions +200 CP

Your presence has drawn the attention of the universe's local divinity. Though they will not take direct actions against you, they will pull strings to make things difficult for you until you choose to confront them. If no gods exist within the Jump continuity, your Jump-chan may choose to retroactively add the Gods, such as the Greek Gods, to the setting for this Drawback.

Hormone Problems +200 CP

You have a heightened state of arousal that makes it so that you are constantly in the mood and find those you are attracted to far more attractive.

Lemming Friends +200 CP

All of your in-universe allies gain an unfortunate lack of self-preservation, causing them to take actions that are obviously stupid or will likely end very poorly for them.

I Hate Fighting Me +200 CP

At least once a week, you will have to fight a counterfeit version of yourself. Some will be shapeshifters, artificial replicas, and occasionally incomplete clones, but none of them will have any Perks, Powers, or Items gained from a Jump-Doc.

Instructional Video +200 CP

Whenever you do something for the first time, you will be forced to watch a long, boring tape that doesn't actually explain anything.

Is this Blood +200 CP

You have an unfortunate habit of stumbling upon fresh corpses without any excuse or explanation.

Lemming Behaviour +200 CP

You lack any self-preservation. No matter the danger, no matter the threat, you seem to face it as though you are invulnerable. The greater the chances of you being crippled, maimed, or killed, the more excited you become.

Local Scale +200/300/400/600/800 CP

Your power, and perhaps your growth, has been restricted to align with the locals. Any Perks or Items you possess that exceed this power will be weakened if possible or otherwise made unavailable for you to use until you reacquire through normal means power roughly equal to your lost or weakened Perks and Items.

For **+200 CP**, you start the Jump with power equal to the local protagonist.

For **+300 CP**, your initial level of power will be capped at the general range of the supporting cast at the start of the fictional setting.

For **+400 CP**, your level of growth will be capped to match the growth of the local protagonist.

For **+600 CP**, you'll instead be limited to 90% of the scale of growth of the local protagonist.

For **+800 CP**, your scale of growth will be limited to 85% of that of the local protagonist, while your strength shifts so that it is never enough to make you as powerful as the story arc's main villain.

Looking For Help +200 CP

You often struggle to find allies and will often find yourself alone without anyone to trust.

Mirror Match +200 CP

It seems that you have a clone out there causing chaos. They will have all the perks and race options you picked in this Jump, but their minds are empty.

Nightmares +200 CP

You will suffer terrible nightmares showing you the dark and twisted actions that your enemies might be performing while you are helpless. You can't separate these dreams from reality.

Perfection +200 CP

You are now a perfectionist and will refuse to accept anything less than perfection.

Pet Food +200 CP

Creatures of every shape and size will want to eat you, from animals as small as a flea to ones as big as a lion. The only exceptions to this are sentient creatures such as humans.

Pig +200 CP

You are always hungry, with no amount of food truly satisfying your appetite.

Poor Underestimation +200 CP

You forget this drawback, and whenever you underestimate an opponent, they will get stronger.

Publicity +200 CP

Every mistake you make will become public knowledge, and every negative misinterpretation of your actions will be highlighted. It's almost like someone is trying to make you look bad.

Read People Like A Brick +200 CP

You can't read people, you can not understand people's emotions, and you often misconstrue what they mean, causing you to be oblivious to the intentions of others.

Sore Thumb +200 CP

There is something odd about you that makes you seem noticeable as a foreign being to anyone who deals with anything not native to Earth or this dimension.

Stealthless +200

You are very bad at sneaking.

The Bad People +200 CP

For some reason, everybody is an asshole to you. They will treat you like dirt, and if you dare refuse to do anything for anyone, don't expect any kind of help from them ever.

The Good People +200 CP

It seems that everybody wants something from you. They want you to get their cats out of trees or fetch them milk for their tea, and if you refuse to do a task for someone, you're the asshole. On the bright side, if someone has already given you a task that you are currently working on, people are less likely to give you new tasks.

Thou Shalt Not Kill +200 CP

You are not capable of killing anyone, from the weakest of insects to the most dangerous of gods, thus giving anyone who may be killed by you selective immortality.

Too Soon +200 CP

Every attempt at a romantic confession or to kindle a relationship will crash and burn in a humiliating way.

Too Nice +200 CP

You tend to be overly accommodating of others, allowing them to dictate or make decisions for you. While most of the time this will be simple things, such as what to eat or where to go, if left unchecked, you could find others determining your whole life for you.

True To Myself +200 CP

Alternative versions of you from the future keep showing up and causing disturbances before disintegrating.

What The Heart Wants +200 CP

You have a massive crush on one of the main characters, as appropriate for you. You will discover which one when the Jump starts.

Wider World +200 CP

This world is bigger than you would normally think, but this also makes it more dangerous. There are more magical schools, more super martial arts, more alien races that will target the planet, more magical creatures that will show up to cause trouble, and more that would normally not be shown, and all of them seem to think they should involve themselves in the plot.

You're A Joke +200 CP

No matter what you do or how effective you are, everyone will see you as a failure and treat you like a joke.

You're Only Paranoid if You're Wrong! +200 CP

You expect every word to be a thinly veiled threat, every offer to be a chance of betrayal, and every moment of weakness to be an opportunity to be attacked.

The Jumper's League of Antagonism +200/400/600/1000 CP

With this drawback enemies from your previous Jumps will enter this continuity and find one another and join forces to destroy you. Your enemies will work together, while using their abilities, technology, and resources in order to enhance each other. When it comes to an Organization either the leader or the member you've fought the most will join the team with a contingent of lower ranked members for foot soldiers of the group.

For **+200 CP** up to three enemies will appear.

For **+400 CP** up to six enemies will appear.

For **+600 CP** up to ten enemies will appear.

For **+1000 CP** every enemy from previous jumps who wanted to kill you will appear.

Amnesia: Pre-Jump +300 CP

You forget all memories and knowledge that you have gained prior to this Jump, but you retain all knowledge you will have gained from your In-Jump origin and background. This essentially makes you your In-Jump character after they gained your Perks, Powers, Items, and Abilities.

Cat Got your Tongue +300 CP

You are now mute and unable to speak verbally for the duration of this jump.

Competent Enemies +300 CP

All of your enemies will get situational intelligence whenever you face them, making them twice as competent.

Crippled Limbs +300 CP

This can be taken up to four times, with each time affecting a different limb for the duration of this Jump.

You may select from either a left or right crippled arm, with each crippled arm lowering your hand-to-hand damage and accuracy with all weapons.

You may select from either a left or right crippled leg, with each crippled leg severely lowering mobility during combat. With one crippled leg, movement speed is halved, and with both legs crippled, movement speed is reduced to one-tenth.

Death Takes a Holiday +300 CP

Your enemies now seem to have some form of immortality, no matter what happens to them. While someone remains your foe, they can't die. None of your allies or enemies can slay them either. However, they can be crippled or imprisoned.

Everything Is Fine Now +300 CP

There are consequences for your actions, and it seems that after each battle, you will need to help clean up the mess.

The Ghosts Of Murder's Past +300 CP

Anyone you kill in this Jump will haunt you in the most annoying way possible.

Holy Problems +300 CP

You have an aversion to all religions and will feel weak whenever you come into the proximity of any religious symbols or objects.

I Saw You Barely Over A Year Ago +300 CP

Your sense of time is terrible. You can't tell if a week has gone by or eight years.

I'm Going To Take A Walk +300 CP

You seem to be a walking magnet for issues, as every time you go for a simple walk, you will be pulled into the middle of some kind of event, from a simple robbery to a deep, dark plot.

I've Come To Duel You! +300 CP

Your list of enemies has expanded, growing to include beings from other settings. Perhaps you will face Egyptian pharaohs, strange children, furry animals, or something stranger.

Just A Child +300 CP

Instead of starting this Jump as an adult, you will start it as a newborn baby. You will not start the Jump time until you are socially considered an adult, at which point the Jump time will start, and all other non-narrative drawbacks will begin to activate.

Living In Exciting Times +300 CP

Completely random but exciting things will nearly constantly occur around you. You can try to avoid interacting with them, but fate will often try to involve you regardless.

Outside Problems +300 CP

You keep getting stuck in situations outside the regular continuity, such as monsters, demons, and extraplanetary problems that never came up in the original story.

Part-Time Janitor +300 CP

There are consequences for your actions, and after each time events you are part of make a mess, you will have to help clean up.

Prepare For Evasive Actions +300 CP

Any time you are in a form of transportation, it will be attacked.

Split-Personality +300 CP

It seems that you are not alone in your own head. You have an alternative persona within you, one who cannot take control unless you lose control. They seem to be the antithesis of you, but they seek out what desires you refuse.

Today's Kind Of A Bad Day +300 CP

During this Jump, you will have one really bad day. Someone really strong will show up, beat you up, kidnap someone you care about, and no matter what you do, you will definitely die at least once. Let's hope you have a 1-UP.

Villain of the Week +300 CP

It seems you're a magnet for odd enemies, as every week a new enemy will show up to battle you, ranging from a weakling with delusions of grandeur to those who are a genuine threat to you.

Where are the Instructions +300 CP

You have no idea how to use your perks, powers, or abilities. You require trial and error to figure out the basics, let alone the full power.

You're A Right Git +300 CP

Everyone thinks you're an asshole and a cheat, and nothing you can do will prove this wrong.

You Get One More +300 CP

If you do something annoying more than twice, you will get punished. How, why, by whom? Well, that will be situational.

Alone +400 CP

For the duration of this Jump, you can not import any out-of-Jump companions or followers.

If this document is taken as a Supplement, this drawback will not affect the companions or followers gained in the attached Jumpchain.

You must reserve this drawback, with the effects of the drawback taking place for the entire Jump.

Butterfly Wings +400 CP

Your mere existence will cause massive butterfly effects. The canon events are no longer protected, and every action you take will cause reactions that change the plot dramatically.

Empty Handed +400 CP

For the duration of this Jump, all out-of-Jump Items and Warehouse options other than your Body Mod are blocked.

If this document is taken as a Supplement, this drawback will not affect the items gained in the attached Jumpchain.

You must reserve this drawback, with the effects of the drawback taking place for the entire Jump.

Find And Seek +400 CP

Every year, you will gain a list of 12 items that will be scattered around the world. You will gain basic information about them, but failure to find them within a year will count as a Jump failure.

Here Comes The Bad Part +400

Whenever you get new information, there will always be a bad part to it.

I Am Bound By My Word +400 CP

You are bound by any promises you willingly make.

The Importance Of Education +400 CP

You will be required to attend 10% of your total time in this Jump inside an educational institute. Failure to do so will count as a Jump failure.

Known Enemy +400 CP

Someone doesn't like you. Maybe you wronged them, maybe your friends wronged them, or maybe there's just a huge bounty on your head. The point is, this person is going to try to kill you, and they will not stop trying to kill you until you or they are dead. They cannot be reasoned with, attempting to pacify them through supernatural means will not work, and while restraining them will buy you time, they'll find a way out.

Lost Or Found +400 CP

Your possessions keep winding up in the hands of the worst person to have them. Let's hope it's not world-shattering.

Powerless +400 CP

For the duration of this Jump, all out-of-Jump perks, powers, and abilities other than body mods are blocked.

If this document is taken as a Supplement, this drawback will not affect the perks gained in the attached Jumpchain.

You must reserve this drawback, with the effects of the drawback taking place for the entire Jump.

That Wasn't So Difficult +400 CP

You will forget this drawback, and any time you act overconfidently from solving an issue, a more difficult issue will occur.

Where Am I? Why Am I Here? +400 CP

You keep getting randomly teleported to locations to complete tasks without any idea of where you are or why you are there.

From the Depths of Hell +400/800 CP

For **+400 CP**, a powerful foe you've faced in a previous Jump has been brought to this Jump. They gain access to a random Jump-Doc that they can purchase Perks, Powers, and Items from as though they were a Jumper, and they want vengeance.

For **+800 CP**, they gain access to two random Jump-Docs instead of one and a random Out of Context Supplement.

Deathbound +500 CP

Every year, you will be stalked by death and suffer from dangers that are guaranteed to kill you at least once a year.

False Friends +500 CP

At least 12 times a year, an imposter will replace one of your friends or allies. They are almost identical to the person they're replacing, but they will have malicious intentions.

PS1 Game +500 CP/+1000 CP

There is something wrong with this jump. Instead of it being the normal version of the universe, you are instead in a PS1 game.

For **+500 CP**, this means that what you see of the world will be blocky with flat textures on the floors, walls, and people who are now complex NPCs.

For **+1000 CP**, the entire world will function as a PS1 video game with events forced to stick to a linear plot with optional time-sensitive subplots. You will not gain a system for extra lives or any of the in-game power-ups. However there may be collectibles that do nothing.

You must reserve this drawback, with the effects of the drawback taking place for the entire Jump.

Auto-Punishment +600 CP

Every time you make a mistake, you unintentionally react violently, harming yourself as punishment. This results in minor wounds and injuries that build up over time. These injuries heal at a "normal" human rate, despite any healing abilities you might have.

So Weak +600 CP

At some point during this Jump, you and all your allies will be defeated. There is no way around this. You will lose, and you will all be captured.

We Humans Are Full Of Surprises +600 CP

The humans of this world are not necessarily what is expected. There are now mutants, metahumans, or otherwise superpowered people.

Boss Rush +600/1000 CP

Post-Jump, you will be forced to have a 1v1 fight against every enemy you have faced in the Jump, one after another. You will not be able to move on to the next Jump until you have beaten them all. For **+1000 CP**, all the opponents will have their raw power to reach yours, but they won't gain any extra training or proficiency.

AU Continuity +1000 CP

You are not in the canonical story, but an alternative universe randomly created from all the FanFictions and Fan Theories.

In Context Foe +1000 CP (Requires 2 or more of the following Drawbacks: "Powerless", "Empty Handed", "Alone")

To take this drawback, your Jump setting must have a Jumpchain that you have not used. A new opponent will be added to this jump, with their only goal being to destroy you. They will have double the total **CP** you gain in this Document, which they can spend however they wish in the unused Jumpchain.

Random Setting +1000 CP

By taking this drawback, you are no longer allowed to select the setting of your Jump; instead, you must use one of the following links and choose one of the six options it provides. If that setting has a Jump Document already, you may use that Document for this Jump. You may test each link as many times as you wish before purchasing it, but you must pay for the link before you click it when selecting a setting, and you can't change your mind afterwards.
