RWBY JLullaby Collection

V 1.1 By Apocbox

The world of Remnant is full of human-killing and raping monsters called Creatures of Grimm and brave Huntsmen and Huntresses who utilize the light of their souls as well as shapeshifting weapons that fight them. And also fuck each other a lot. You arrive in a far lewder version of RWBY based on the works by JLullaby, such as Ruby's Workout Regime, where Ruby and later Yang get fucked by jocks; Family Reunion, where Raven gives her daughter a birthday present; and Salem Witch Trials, where the Grimm Queen gets fucked by a pack of Grimm, as well as a variety of smaller series and individual art pieces. You arrive the day new students, including future teams RWBY and JNPR, arrive at Beacon.

Take this 1000 points to spend. You will stay here for 10 years.

ORIGINS

Choose your age and sex for free

Drop In
You appear in this world without any prior history somewhere in Vale.

Student
You are one of the students at the Beacon Academy. A prestigious institution that teaches the next generation of Huntsmen and Huntresses on how to protect humanity from the Creatures of Grimm. You wake up either in your team's dorm room if you are already a student or on the Vale airship as it takes of to Beacon if you are a new blood.

Villain
You are one of the traitors who sided with the Grimm queen Salem. You wake up in your room in the Evernight Castle.

Grimm
Not a human person but one of the Creatures of Grim. Made out of black flesh and white bony plates, far stronger and tougher than regular humans and able to sense their negative emotions. You can freely choose the type of Grimm you are from both the canon RWBY or from art by JLullaby, but it can't be bigger than a Goliath or smaller than a Sulfur Fish. You retain your soul if you had one, be it because of your strange otherworldly nature or due to Salem's experiments. This becomes an altform after the jump.

Perks
Perks are Discounted to their respective origins, perks worth 100 are free and the rest is 50% off. Free Perks are optional.

General
Porn World Free
You look beautiful with lush hair and healthy, almost glowing skin. You have control over your fertility with people believing you are using protection if you turn it to zero as well as being immune to STDs. You're always clean both inside and out, and so are your partners when you are engaging in sexual activities. Your body follows hentai physics when it comes to sex, being able to stretch far past any sane point during sex, as well as stretching others the same way. The pleasure of such and experience is questionable though.

Faunus Free/100
Instead of being human, you are now a Faunus, a human with a single animal trait. It can be something obvious like crocodile skin or animal ears but can also be subtle like retractable claws, chameleon skin, or a horse cock. It's your choice. If taken as a Grimm it will cost you 100 and let you switch into a far more human shape and size at will.

Grab Her Head 100
You have a sort of dominant aura about you. People like it when you treat them rough and can even orgasm from you mercilessly fucking their throat. You can safely and pleasurably fuck any hole, and I do mean any. Go fuck that catgirl's ears for all I care. She'll cum her brains out. Well, not literally; she'll be fine in a bit and with a new fetish. You also produce large amounts of tasty jizz and any smegma you generate, something you can do at will, making people who smell it extremely aroused.

Big Smile And Everything 100
You have a sort of submissive aura about you. You can easily orgasm from someone fucking any of your holes, and it will be extremely pleasurable. And complementary to the perk above, you can safely and pleasurably get fucked into any of your holes. You can also produce large amounts of tasty breast milk at will.

Drop In
Artistic Skill 100
You have great artistic skills and imagination while also being able to improve in them far faster than normal. You can also perfectly replicate art styles of others by just seeing a single one of their pieces.

Mechashift Dis Nuts 200
You are a genius weaponsmith and can easily create local form-shifting implements of death. More than that, you can actually cram far more into a single item than anyone else. They'll make a sword that is also a gun, while you'll make a rocket launcher, minigun, laser rifle, washing machine, and warhammer hybrid that can shrink to the size of a handbag.

Sexy Mechanics 400
You know everything there is to know about local tech, from scrolls to the CCT towers to form-shifting weapons, robots, mecha, giant flying ships, and so on and so forth and can easily innovate and improve all of it. Especially if you're making sex-related technology, as any research regarding such gets done ten times faster than normal.

Your Soul Thingy Give It To Me 600
How the fuck does a smartphone read an output of your soul or some life support transfer magic? Well, not only do you know perfectly how, but you can also easily create technology that can manipulate and control any sort of energy, be it mundane or supernatural, with surprising ease and efficiency.

Student
Damn Boy! 100

You are either extremely thick with great thighs and an amazing, slappable bubble butt or a muscular slab of meat with abs you could grind cheese on.

Family Bonding Activity 200

The taboo of incest is no longer a thing as you can easily convince your family to engage in any sort of sexual activity with you. Any children you have do not suffer from inbreeding. You are also generally more attractive to your family, and they are far better-looking than they otherwise should be.

Aura Farming 400

Oh, right, the monster-of-darkness-hunting and bandit-fighting thing. Right so, the light of your soul has been awakened, and you now have as much aura as Jaune did in the original story. You also possess some sort of sex-related superpower called Semblance. Maybe you can transfer aura by fucking someone or make anyone you look in the eyes incredibly horny and so on. You also have great talent for acting cool, and have good luck that provides you plenty of opportunities to do so.

Train Running 600

Your stamina is insane, and your body was made for sex. Just putting a cock in you or you putting your cock in someone is enough to make them cum. You could easily fuck the whole night, go kill monsters all day, and come for another sex marathon. You could probably outfuck the entire Beacon population in one go while becoming only slightly tired.

Vilain

Strong Back 100

Your back is several times stronger than normal, and you have far easier time lifting heavy things, so the next time Salem sends you to collect Grimm cum, you'll have no problems.

Midnight Stroll Through The Woods 200

A nice upside to betraying your kin in favor of forces of darkness is that the shadow monsters that terrorize the world no longer consider you their enemy. Hell, you can even direct and control them somewhat with proper incentives since they're able to understand you to a surprising degree. Make that pack of Beowolves go in a certain direction by pointing out that there are thicc women over there. In future jumps beings related to evil, darkness, and destruction are similarly affected.

Catching By Surprise 400

How the hell did Cinder manage to not only subdue Amber but also do it so thoroughly that she couldn't save herself from being fucked by a horse? Or how did she do a similar thing to the Grimm Queen herself? Well you see it's the elemen…
AH!
Did I jumpscare you? Yeah, I bet I did. You coward. You make me sick. Your weakness is pathetic.
The element of surprise is an extremely effective weapon for you. The less someone expects you to do something to them, the higher the chances of your actions succeeding.

Black Cum 600
At will, you can produce black liquid from your genitals when you orgasm, as you would cum or squirt. At any moment you can turn that liquid into a loyal Grimm of your design. The size and strength of the creature depend on the amount of liquid; with a single orgasm-worth making an average-bird sized nevermore. It doesn't expire in any way, so you can accumulate it without an issue.

Grimm
Strangely Appealing 100
It seems people's sexual and romantic preferences now always include you, and the farther away you would have usually been from their strike zone, the more attracted to you they become.

Big Grimm Cock 200
You have a pink or red giant monster cock several feet long and as thick as a forearm in your chosen design. Stretches any hole it is put into, causing tremendous pleasure without any damage. If you have a pussy you can either become a futa or make this applicable to your cunt, making it super tight yet stretchy and pleasurable. You can easily shrink all of it down if it gets in the way.

Breed New And Better Grimm 400
It's like Salem made you specifically to fuck and breed. Not only are you naturally talented at sex and so fertile you can impregnate or be impregnated by anybody even if it should normally not be possible, but all of your children are always better than their parents combined, with you being able to freely design their looks, race, and any inherited powers, abilities, perks, and so on from both parties. Any of your kids are always completely loyal and love you dearly, with nothing being able to make them go against you. You also have heavy melon-sized musky balls or tits that smell divine and produce enormous amounts of aphrodisiac-laden cum or milk that living beings can live purely off of. Similarly to the perk above you can shrink them as well.

Ancient Darkness 600
You are an exemplary member of your kind, with all of your stats and characteristics being in the top 1%. But more interesting is your ability to grow smarter, stronger, and bigger, gaining more bone plates and spikes as you age, a process that can now stretch forever since you are always in your prime no matter how old you get. And not only is your regeneration now improved to an insane degree, being able to regrow a limb in a matter of minutes, but also, whenever you are damaged, your whole being adapts to gain high-level resistance to whatever damaged you. Get reduced to a barely living piece of flesh, something that you can survive and bounce back from, in the same way half a dozen times, and you will completely become immune to that type of damage.

Items

Items are Discounted to their respective origins, items worth 100 are free and the rest is 50% off. Anything can be imported in to a fitting item (Weapon into a weapon, tool into a tool etc.). If lost or stolen you get them back in an hour. All items can be brought multiple times, with free items costing 50 after first purchase. You can combine compatible items like Sword That Isn't Also A Gun and Sword That Is Also A Gun.

General

Dust Cache Free

A suitcase similar to what Weiss had when she arrived at Beacon, containing every commercially available type of dust. Replenishes a month after use.

Drop In

Sword That Isn't Also A Gun 100

A regular, if really durable and sharp, sword of your choice as well as a pistol with infinite regular-non-dust bullets. Both do more damage to people with complicated or advanced weapons.

Bullhead 200

Your very own flying vehicle with infinite fuel and a few weapon systems installed. It can have a different design if you want and is modded to high hell, making it far faster than the original model.

Scrapshop 400

A warehouse full of tools and machines for the creation of weapons, vehicles, robots, and mechs. Provides an infinite supply of non-supernatural materials as well as speeding up all construction done here by 10 times. Everything crafted here has a regenerative quality to it, being able to return to a perfect state within 24 hours after damage.

Jumper's Dust Company 600

A giant underground mining complex within a separate dimension containing not only every type of metal and gem but all types of dust as well. It is bigger on the inside, potentially infinitely so, because whenever you run out of some sort of material here, a new deposit will appear within a couple hundred meters, with you just needing to find it and mine it. You can make it generate a new material in a future world by dropping a sample inside.

Student

Peak Design 100

A couple of bespoke designer outfits that fit a theme of your choice as well as a collection of sexy outfits from this world. From sexy Beacon uniforms to the famous gym outfits to all the costumes that the canon characters wore.

Sword That Is Also A Gun 200

A mechashif weapon of your choice that has two or three forms. You can always summon it to your side, and it never jams or breaks; it is always clean and fine-tuned. It is extremely appealing to all the gun nerds, so go show this to Ruby; she'll probably cream her pants and jump your bones almost immediately.

Definitely A Gym And Not A Porn Set 400

This gym contains top-of-the-line training equipment that you can find in this world as well as constantly updating in the future if they have something better there but never downgrades. Working out here makes people horny and far more open to sex with you.

Robotic Cocksleeve 600

This is either Penny or a copy of her, or maybe an android of your design. Whatever the case, not only is it an extremely capable yet absolutely loyal murder machine, but it is also a perfect sex partner. It has all the necessary bits and even an artificial womb that can be inseminated and carry children or a cock that can impregnate you or both. Is completely unhackable by anyone but you and acts as a follower but can be imported as a companion in future worlds.

Villain

Totally-Not-A-Villain Outfit 100

This set of dark, sexy clothing is a nigh-perfect disguise despite leaving most of your body on display. Even your partners who explored every inch of your body not being able to recognize you. It does nothing for your voice, so maybe keep your mouth shut.

Is That A Dildo? 200

A mecha-shift weapon of your design made not to kill but to cause both pain and pleasure. Maybe it's a giant dildo that somehow still fits in your enemies but is also a taser. Or a crop that causes pleasant stings and can also elongate to become a whip.

Semen Collector 400

An artificial vagina attached to a liquid storage tank. Feels like the real deal and can quickly and efficiently collect semen from any being. An interesting effect of this thing is that once a semen sample has been collected, the tank can generate infinite amounts of it.

Breeding Restraints 600

Whether it's stockades, a bondage set, or a breeding mount, any being, no matter how strong, once secured here cannot escape or damage anyone no matter their powers, skills, and abilities. Any sort of normal or supernatural protections against impregnation, like pills or magic seals, fail to work for those strapped in here.

Grimm

Lair 100

Wherever you go, you can always find a shelter. Be it a dark cave or perhaps one of many ruins scattered across the remnant. Chances of being disturbed during sex here are significantly lowered.

Dust Enhancements 200
A few pieces of crystal dust of every naturally occurring type. You can painlessly insert and pull them out into and out of your body, giving you moderately powerful elemental abilities. Inserting more than two different types at the same time will start to cause damage and may vert well kill you.

Pack 400
A group of nine Grimm of the same type as you. They are always scaled to be at least a third as strong as you and are absolutely loyal to you, with nothing being able to control their minds or bodies. Are about as smart as adult humans and respawn a day after death.

Power Stealing Cockroach 600
This Grim bug can fuse and unfuse with your genitalia at any moment, granting you the ability to steal the supernatural abilities and powers of those you fuck. This leaves them completely mind-broken from pleasure, but at least they're still alive.

Companions

Companions can't take drawbacks.

Crossover Free
You can combine this world with one other from a jump of your choice. Points are kept separate.

Copycat +100/200
There are a few people who seem to admire you so much that they copy your entire look, fighting style, and personality. They are not exactly bad people but can be quite annoying. For an additional 100, they're jealous of you and constantly try to get you in trouble so that they can be seen as the better version.

Bad Hygiene +100/200
Either you or everyone around you greatly underestimates the importance of hygiene and goes around smelling like garbage. For an additional 100 points, it's both, and you never get used to the smell, neither yours nor others'.

Early Junk +100
Everything looks like cheap 3D animation with models clipping through terrain, mouths not always following the words, and so on.

I'm Gonna Go Stupid From Your Dick +200
You are extremely sensitive to pleasure, and no matter how much of it you experience, you never grow any sort of resistance towards it.

Grimm Breed +200
A few months ago, you were captured by a pack of Grimm and raped repeatedly. You were saved, but it left you traumatized and pregnant. You can get therapy, but it'll take a good specialist and some time to get through it, but you can't abort the germ child, as it would kill you.

They Get Real Frustrated +200
You are one real horny individual, needing to cum a dozen times a day to feel any semblance of normality; otherwise, you start to turn into a wild, horny beast.

You'll Seat and Watch Cuck +200
Whenever you get into any sort of committed relationship, you will inevitably get cucked, and any sex you can have needs to be a group one where you'll always go last.

Unfinished Story +300
All of your adventures, be they sexual or normal kind, always end abruptly and unsatisfactorily. Same thing with any media you like.

Shit Happens +200/400/600
While before, the plot, if not completely averted by both Cinder and Salem getting absolutely railed, would have been at least postponed somewhat, now canon events will still occur as they should up to the Fall of Beacon; after that, you could start changing things. For an additional 200, the events will be guaranteed to transpire like in the show up till the end of Volume 9. For a separate 200 you are guaranteed to get dragged into the plot whether you want to or not.
