Perks

Perks under your origin are discounter or free for the 100 CP perk.

General Perks:

Sex is for all to enjoy -0 CP: Now most 6 years old cannot really get a aroused or get there uh for a lack of a better term "peepee up" at all. But this would be a VERY boring 10 years if you could not do this so if you buy this perk, no matter how old you are you will always be able to get aroused and have sex as if you were an adult. And on the flip side any if you have any younger friends you want to play with, you'll find that they also are able to have to have sex and get aroused.

Cum cannon -0 CP: Damn jumper what are you eating to be able to cum that much! The amount of cum your able to shoot out is enough to cover a face completely! Not only that' but your able to cum multiple times in a row! And if you're a girl you make a large amount of breast milk, enough to fill 10 bottles!

DUDE YOUR MOM IS HOT! -0/100 CP (Free for this jump costed 100 CP to keep): Am sorry but she is, but it's not just your mom either your big sister, your big sister's friend, your teacher, etc, etc. It seems that every woman in your life is at the very least a 8/10. This effects men (or in the case of this jumps cute little boys) as well. But the weirdest part about this is that, since everyone is so hot, women (and shotas) seem to have a bigger "appetite" for sex. There also seems to be a lot more shotas then you remember

Monster dick/tits -50 CP: If you buy this perk your dick becomes quite long and big, perfect for fucking a sweet oneesan. It will never be so big that it cannot fit so don't worry about that. If you're a girl your tits are huge and never seem to cause back pains.

Well-aged shota -100 CP: Do you know what the worst part of growing up is jumper? It's that you stop being a cute little boy! But with this perk it will not be a problem. You see no matter how old you get, you can choose to look like a cute little boy for as long as you want.

The wonder of threesomes -100 CP: What's better than having sex with one girl who is 20 years older than you? TWO! Girls who are 20 years older than you! The only problem is that its actually very hard to make sure everyone is happy by the end of it. And that's only when there's three people! Imagine how hard it would be with 4! Or 5! Maybe even 8! But you won't have to worry about that, why you ask? Because you're a master at pleasing multiple people in bed. You will never leave someone unsatisfied jumper.

Bad luck aura -100 CP: Don't worry jumper this perk isn't as bad as it sounds. This isn't the "your best friend falls down the stairs" type of bad luck. It's the "my hot big sister skirt keeps getting flipped up by the wind" type of bad luck. All sorts of lewd accidents happened to people that you find attractive when there around you. You can turn this on and off. And no this doesn't work on your enemies.

Harem master -200 CP: Most people do not really enjoy having to share their lover with someone else, at least that's what you hear. Because it seems that all of your lovers see no problem with you having sex with other people, hell they may even join your other lovers and have a full-on orgy!

The Innocent Perks:

QT -100 CP: Now there is being a cutie and then there's being you. You are one of, if not the cutest child on the face of the earth.

Am innocent! -200 CP: It seems that no matter how much evidence someone has against you, you never seem to get into any trouble. Did your mom find piles of hentai under your bed? It must have been the school bully trying to get you in trouble! Did your big sister find out that all of her panties are in your room and coved in cum? Someone else must be hiding it in your room to throw her off! What am trying to say is that unless someone ACTUALLY see's you doing something wrong, no one will think it's you. Even if it clearly is.

Protect the child! -400 CP: Let's say some brat is trying to take your lunch money or that there is a girl that will just not take no for a answer, what will you do? You're just a cute little kid, you cannot defend yourself. Well this is where the perk comes in, when your lovers are fighting to protect you, they get a boost in their abilities, how big of a boost they get depends on how much they love you. If they only like you a bit, they will only fight a little bit better than normal. If they are head over heels in love with you then they could break their own limits and do things they never thought was possible! Keep your "special friends" close jumper!

Good with the ladies -600 CP: It seems that girls, specifically older girls. Just cannot get enough of you they love to hang out and play games with, help you with your homework, buy you sweets and just in general spoil and dote on you. However that's not all, girls also find you to be very VERY attractive even women that are not into shotas would have a hard time not trying to "teach you something new about your body". And if they ARE a shota-con then.... well your in for a lot of fun my friend

The Rascal Perks:

Fast learner -100 CP: It seems that despite the fact you're only a kid you have a natural talent at having sex! The longer you have sex with someone, the more you learn what turns them on and what pushes their buttons! But this doesn't just affect your sex skills, no it also makes you better at flirting! Just like with sex, the more you flirt with someone the more you know what works with them and what doesn't.

Totally normal family dynamics -200 CP: The rascal type isn't exactly known for being the most subtle of sorts, and realistically would be found out within the week. This perk lessens that issue, keeping secrets from everyone is now as easy as keeping secrets from one person, same goes for hiding and getting away with things in public. If the dad across the table doesn't notice, the waiter and the couple two tables down certainly won't.

Smooth talker -400 CP: Ok so I just want to let you know that, most people do not like it when they find out that their best friend is raw dogging their mom. But your just so charismatic that they don't seem to care all that much. When people find out about you having sex with their loved ones they for some reason, don't get mad. This only works with things like sisters or mothers. Not girlfriends or wives.

These kids nowadays can get away with murder! -600 CP: Now pining your hot older classmate down and showing her the time of her life, is not the best idea when her father could crush you like a bug, good thing he'll never find out though. When you're having a "good time" with someone not only will

they not tell anyone, but no one will ever find out on there on either. No one will walk in, see video of it, hear it, etc. The only way for other people to know is if you tell them.

The Peeping Tom Perks:

"It wasn't me I swear!" -100 CP: Strangely enough, most people are uncomfortable with the idea that someone might be watching them during their private moments. Fortunately enough, unless caught in the act most people won't even suspect you, and the ones that do are easily set off your trail with a few words.

Stealth -200 CP: Maybe it's because you're so small, or maybe it's because the people you watch don't pay too much attention to the things around them. In any case you are very skilled at hiding not only yourself, but other things as well. Not stalking someone by crawling behind them skilled, but still very skilled. You're also quite skilled at hiding things were people can't see them, like camera's for instance.

Blackmail -400 CP: Well, well, well. Aren't you a naughty little shota? This perk does two main things. One you are a master at finding dirt on people and always seem to catch them in the act, and on camera too! And two you have great luck blackmailing people with your info. Normally they would just call the police or try and take it by force, but with you they will roll over and accept whatever you ask of them. Well as long as it's not TOO crazy, asking them for sex is one thing, telling them to kill everyone they know is another.

Master hacker -600 CP: You know for a kid you're really good at hacking things. In fact, you're so good I don't really think ANYONE should be able to hack this well. You are so good at it, that hacking into the most well protected government database in the world would be as easy as breathing.

The Elder Perks:

"I only get better with age" -100 CP: You know how when a woman gets older their tits sack down and they get wrinkles and all that bad stuff? Well that doesn't seem to affect you at all, in fact it works the opposite. The older you get, the more good-looking you get, so your tits get more perky instead of sacking down and your face becomes more and more smooth instead of wrinkling up.

Wisdom of the elders -200 CP: Respect (and sex) boost based on the age difference between yourself and your target. Being less than ten years older than them won't do much but having a solid 50 on them would have the average human hanging on your every word.

Nice old lady -400 CP: You got yourself a very good reputation jumper! Children think you're the best adult in the whole wide world! And love to spend their time with you. It's clear why too, you#re great with them. You know how to calm them down by talking to them for a few seconds, what's bothering them by looking at them, and knowing just the right thing to say to get them to go from "Ew that's gross my pee comes from their!" To "Please just one more time!" (This also makes young boys develop crushes on you.)

Loving aura -600 CP: There is something about you that just makes people at ease around you jumper. Whenever someone is near you they feel very loved and happy, as a bonus people are also much more calm and submissive around you as well. This perk stops working if you try to attack someone under the effects of your aura.

The Classic Perks:

"Ara~Ara~" -100 CP: It is a LOT more likely that you'll end up "randomly" and "Accidentally" stumbling across your young charges masturbating or experimenting sexually. Your also very good at convincing them to let you "lend a hand" or maybe more~.

This is our little secret ok? -200 CP: Sometimes when you teach your cute little charges a fun new game, they want to tell people about it. Sadly, some games you need them to keep to themselves and that's where this perk comes in, you see when you tell anyone to keep anything a secret. As long as you're on good terms with them, they will bring it to their graves. So teach your charges all the games you want jumper!

Master cook -400 CP: This perk is pretty simple, all it does is make you a godlike chef. Even cooking things like grilled cheese with 3rd rate ingredients will still turn out to be most people's new favorite meal.

Trustworthy -600 CP: You are a very trustworthy and responsible adult jumper! At least that what people think about you, in fact even people who only just meet you think your trustworthy. Talk to some MILF for a few minutes and you'll end up with a offer to babysit her cute little boy. And your cute little charges just seem to love telling you all their dirty little fantasy's.

The Partner-in-Crime Perks:

"Go get 'em" -100 CP: Your words grant confidence, talk people into crossing taboos they wouldn't dare consider otherwise. It's amazing what people will do when they've got someone backing them up.

"Loosen up" -200 CP: You have a knack for getting people to set aside things like prejudice, prior commitment, and other inhibitions, opening them up to temptation and seduction. Just be warned that this perk is most powerful when you let other people do the tempting and seducing. It's easy to turn down the one offering you the bottle, not so much when some else advises you to drink

Cover up -400 CP: Sometimes when your friend's get lucky, they leave some, let's just call it "evidence" behind. Good thing they have a friend like you to clean up after them. You are supernaturally good at finding things that could get you or your friends in trouble and are also quite good at finding quick and easy ways to get rid of them.

Match maker -600 CP: You are the BEST match maker in the world. You are able to tell at a glance a person's kinks, pet peeves, likes, favorite foods, and other things about a person. And people who long for a lover but just cannot find/get one on their own, seem to be drawn to you, like it was fate. Your also able to tell if they would make a good girlfriend/boyfriend to yourself or anyone you know.

Companions

Import -50 CP: You can bring any companions from your past jumps to this one with a free origin and 800 CP to spend. You can also make new companions if you'd like to.

Shota companions:
If you have the Innocent, the Rascal, or the Peeping Tom origin then the companions cost %50 less.

Big titty goth GF -200 CP: This is your girlfriend jumper she is pretty shy and hard to talk to for most people, but you can get her to open up if you try hard enough. While she likes how goths dress and tends to copy them a lot, she isn't really THAT into being a actual goth. She is really only in it for the fashion. She is a huge nerd and adores JRPG's and anime. But she tries her best to keep that a secret from everybody except for you. While she is shy and quite don't let that fool you jumper, she is a master at gentle femdom, and she will have you moaning her name after a few minutes in bed. She fell in love with you the moment she laid her eyes on you and would never cheat on you. And she has the biggest tits of all the companions in this jump.

Cool aunt -200 CP: This isn't your grandfather's aunt! Your aunt is totally awesome, she rides a motorcycle, she always cooks you very tasty (and unhealthy) foods, and she may even let you take a drink of her beer. She is also a pedo and would love nothing more then to teach you how good it feels when a girl plays with your peepee. Don't worry about her cheating, she wouldn't think of doing anything to hurt her favorite nephew. Oh, and she's a nudist too, while she'll put on clothes when going out or someone comes by. Most of the times the clothes are OFF! (And yes, she will try and turn you into a nudist too.)

Badass big sister -200 CP: This is your big sister, while she is only a few years older than you she is a total badass and could beat anyone in a fight. She is also quite overprotective of you and will rush to your aid if need be. She also LOVES to spoil you rotten, want her to buy you that new game? Done. Want her to give you a massage? She's right on it. Want her to give you a massage in a "special place?" She most likely already asked to do just that. Like the cool aunt she is very loyal to you and would never cheat on you, in fact if anyone ever said that she would... well let’s just say they may not have a tongue to tell lies with anymore.

Creepy stalker girl -200 CP: This girl is creepy as fuck, she is always following you around, staring at you and touching herself right in front of you. And you don't even know her! You talked to her one day for not even a minute and she has been obsessed with you ever since! Then again..... she IS smoking hot, with her curvy figure, her thick ass, and tits about 2 times bigger than her head. Plus, she is helpful, always leaving you gifts, driving you to school if your mom can't, and giving some grade A head. Maybe having a stalker isn't so bad after all. Just like with ever other companion she would never cheat on you so do not worry your cute little head about ok jumper?

The lonely MILF down the street -200 CP: This poor lonely MILF has had everything she had taken away from her. Her husband took all her money and left with a younger woman, her own kids hate her guts and she barely makes enough money to get by. That's why she is always inviting you over to hang out, she doesn't have much but she's a good chef and is more than happy to cook for you. She says that she loves it when you come over because, it brings back good memories of being a mother again. And a part of that is true, but the REAL reason is that she is a closet shota-con and while she is ashamed of her feeling for you. She still wants to be with you as more than just a friend. She knows how painful it is when somebody cheats on you and will never do anything like that to you.

Shota-con companions:
If you have the Elder, the Classic, or Partner-in-Crime then the companions cost 50% less.

Cute little brother -200 CP: Meet your little brother jumper. He is as cute as a button, very helpful and is the MOST naive little boy you've ever met. He has no idea what sex is, let alone how to do it. But I'm sure you'll fix that quickly. He is very good at keeping secrets so don't worry about him telling anyone about what you taught him. And he thinks cheaters are the worst! So, he will stay loyal to you.

Shota-con in training -200 CP: This girl may be young but it's very clear that she is a shota-con in the making. And she wants YOU to teach her all about the art of picking up shotas. She is a quick learner, so she'll become just as good as you are at picking up shotas very fast. And once she does she'll become your wingwoman and try her best to help you snack, some cuties. Don't worry about her stealing any of your boys, she would never hurt her teacher like that.

Best friend -200 CP: This MILF thinks that you are her best friend and she loves to hang out with you. She is a bit of a basic bitch, but she is pretty nice. However, the best thing about her is her son that she lets you babysit quite often. He has a huge crush on you and is very bad at hiding it, he doesn't know too much about sex, but would love to try it out with you. He also thinks that you are his true love and does not care about anyone else. Don't worry about his mom. She is as quite naive when it comes to these things.

Your little helper -200 CP: This cute little shota is your part time butler. He helps you around the house, cooks for you, cleans, and helps you with your "needs." His parents know about him working for you and don't really care that much (though you MAY still wanna keep some of the things that he helps you with a secret.)

Chuuni shota -200 CP: This shota is not a normal little boy jumper! He is a hero! That will save the world! Nay! The universe! One day! At least, that's what he says. This poor boy has a very severe case of middle syndrome. He thinks that he is a great hero and that fate itself works for him. He also thinks that you are his long-lost lover. And will always try to flirt and make you remember your love for him. Now the question is. Do you play along with his games? Or do you try and make him see the truth?

Police woman -200 CP: Now I know what you're thinking jumper. "This is the opposite of what I want" but don't worry she won't rat you out. In fact, since she is so high up on the totem pole she could easoly pull some strings to make sure you don't ever go to prison. (Well for being a shota-con that is, if you kill someone she isn't going to cover for you anymore.)

Or you could just horde it all to yourself, that works too. As an added bonus, every now and then you can draw a special sort of inspiration from these pages, replicate the steps indicated by their authors and people will reaction in just the right ways to replicate the plot. Doesn't have any fancy fate manipulation though, so it'll be up to you to stage the necessary events and keep things under wraps afterwards. And will find you much hotter than you really are.

Apartment complex -600 CP: Your parents own an apartment complex. This serves two purposes. One, with how much money your parents make they have more than enough to share with you. Speech impediment +100 CP: It seems like you have a speech impediment jumper, its nothing too bad but people may tease you about it.

Weak little boy +200 CP: Sorry jumper but even if your a 20 year old adult you still have the strength of a 5 year old boy.

Switch? Never heard of it +200 CP: Dom or Sub. Choose one, the one you choose is how all your lovers will act for the rest of the jump. They will never change. Yes, this affects their personalities outside of the bedroom as well.

Gonna cry? +200 CP: Yes, yes, you are you see you are a bit of a crybaby jumper. Anytime something doesn't go your way, or you watch something sad or anything like that you start crying and don't stop until you either have sex or cannot cry anymore.

Piss your pants maybe? +200 CP [Requires Gonna cry?]: Am really sorry jumper but it seems you have very poor bladder control, and it only gets worse when you cry

Maybe shit and cum? +300 CP [Requires Piss your pants maybe?]: Oh. Oh dear. It seems you also have poor control of your shit. And you tend to cum at random times as well, like the drawback above this gets worse when you cry.

YOU'RE GROUNDED! +200 CP: Well Jumper, looks like the powers that be have seen fit to ground you for some infraction or other. You'll be confined to the confines of your room, with only short escorted trips to the rest of the house for bathroom runs and food until you can talk or seduce your way out. If

not a child, you may be stuck in an old-folks home that never gets any visitors, or have the world's worst boss that has loopholed their way into legally giving you an all-day work shift that may or may not allow you to go home to sleep. The break room has a couch doesn't it?

DOUBLE GROUNDED!! +200 CP [Requires YOU'RE GROUNDED!]: You have been double grounded to the underground! Sold off to the sock-goblin king who now has you doing chores like vacuuming and laundry all day! You have to escape somehow and make your way back to the surface world! Alternatively you could be contending with a literal manager from hell that got your soul with the rest of the office building, or the old folks home could belong to a secret ring of cultists who think that twenty to thirty years is far too much time to spend of old people who are just going to waste away. How about five? Slowly drain away the rest of the years for more deserving (or perhaps well paying) folks who want to stay young and adorable forever.

"You're such a helpless child" +300 CP: You really are jumper. You now have a very powerful sex drive, needing to cum at LEAST 5 times a day lest you get the worst case of blueballs in your life. However, you cannot relive yourself jumper, no no no no! You need someone else to help you cum.

Hello Miss, this is the FBI +400/300 (400 if you're a shota-con, 300 if you're a shota) CP: Uh oh jumper it seems that shota hunting is gonna be a lot harder now. You see normally the FBI, police and most other law enforcement are a joke when it comes to finding, let alone catch a shota-con. Now however they have made "keeping children safe" (ruining your fun) their top priority. While your chain won't end if you go to jail..... let's just say that people like you don't have a fun time there. If you're a shota then a lot of your lovers have trouble with the FBI and you have to keep them out of trouble. Good luck

Childish Imagination +600/800: No out of jump powers, but you like to pretend you still have them every now and then. A child's imagination just runs off with them doesn't it? You get an extra 200 CP if your 12 years old or younger.

Fin:

Move on: Hmmmmm that's what I thought you'd say. Lets us continue your chain then jumper!
