Angel x Aneurysm
DxD fanfiction by kilokilop

V 1.0 By Apocbox

Long before some virgin gets killed by a fallen dove, long before the two bros-being-dudes flying lizards get squished into artifacts, at the time when the world was young, a certain angel with a human soul starts to cause mischief for the purpose of achieving a better future. Or for funsies. Probably more for the funnies, actually. God almost has an aneurysm. Why did she agree to give him such a giant cock? Just to suffer?

Take these 1000 points to spend. You arrive a few days before Rachumel sneaks into Big G-cup's room to edit his code and can stay here for anywhere from a minimum of 10 years to the start of canon DxD.

ORIGINS

Choose your apparent and actual age as well as sex for free

Drop In

You just spawn in out of nowhere like some fucking game mob on some beach. Some years later a giant ballsack will fall from the sky close by.

Elohim's Child

One of God's beautiful creations, a flying human-like entity with bright white wings, an Angel. You start with one pair of wings, but that can change with training and some perks.

Primal Human

Ayo, Big G is into threesomes or what? Or are they foursomes since Lilith is around down somewhere? Did God make you out of her rib as a sorry for Adam to her? Whatever the case, you are one of Elo's humans currently strutting around Eden butt ass naked, naming things there.

Unholy Creature

Maybe a disgusting primordial demon, or one of the great scaled Enemies, or perhaps a newborn Pagan deity. Whatever the case, you are not of Christian God's light and can freely choose where to start in the world.

Perks

Perks are Discounted to their respective origins, perks worth 100 are free and the rest is 50% off. Free Perks are optional.

General

Background Basics Free

You have access to the universal energies like magic and touki as well as whatever racial energy you should have, like the light power of angels or whatever precursor to the demonic power those disgusting wretches have.

Oh No He's Hot! Free

Damn! Damn boi! DAMN BOI, HE THICC! THAT'S A THICC ASS BOI! What are these genes, my guy?! You are going to mog like half the population here, and that's a fucking achievement considering the local beauty standards. Something that goes with you into future worlds, both the personal beauty and boost to everyone else.

Universal Language Free

Well, the towers haven't been build yet, let alone hit, so everyone still speaks the same tongue. Or is it just because the majority of the cast are supernatural creatures that can understand and speak any non-supernatural language? Something you can now do as well.

Edited Code 300

Would this cause a catastrophic collapse, or did Elo actually write some good code and not a spaghetti nightmare? Whatever the case, you no longer suffer from any racial weaknesses, so you can no longer fall as an angel and, as a demon, be unaffected by light power, well beyond what it normally does to regular non-demonic matter, and so on.

The Sight 300

I see... Steve Jobs... succumbing to... Ligma in the future...
Whenever you enter a new world, you receive a comprehensive set of memories as if you had consumed media based on said world, as well as an increased skill at bullshitting your way into making people believe what you tell them might happen.

Op Please Don't Nerf 600

Well, this is just not fair. You're so beyond the normal limits of your species that it is frankly absurd. You are what Great Red and Ophis are to dragons or what Sirzechs would have been to the modern devils. And this applies to any race you become in the future as well.

Drop In

VOWsers 100

Whenever you create an item or have an item made for you, any number of limitations can be set up on it. The more severe they are, the more said item will get boosted in all of its characteristics and abilities.

No Fly Zone 200

Those damn bastards fighting all the way over there in the sky. What the hell are you supposed to do, jump? Well, fuck them since you can now disable all sorts of flying abilities, artifacts, and technology in a mile radius around you. Make them all fight you on the ground.

Vacation On A Beach 400

Well, I'll be! It's not every day you see the goddess of love and beauty be born out of a titan's nutsack, but here we are. Well, not everyday for others. For you? It's like a monthly occasion since you have great luck in being present in some of the most important events of any world you are in.

Fate Breaker 600

Sniff do you smell that? It stinks like the burned asshole of some aloha-shirt-wearing bastard. Why is Big G-cups glaring at you? Oh, does it have something to do with you not only being immune to all information-gathering abilities as well as attempts of finding you through blind spots you create, but also being completely unaffected by fate, destiny, luck, and other similar forces? Maaaaybe?

Elohim's Child

God's Compassion 100

You can be quite hilarious when you want to be as well as having a tendency to find yourself in situations where you can help others with advice and a kind word. And falling face-first into boobs. That also happens a lot for some reason.

Experimental Ideas 200

Well, okay, that stunt with the ~~touki~~ Spiral enchanted light attack that would have damaged you quite a bit might have been a somewhat stupid, but wasn't it super cool? You are a master of coming up with unique and interesting ways of using any and all the powers that you have for combat and daily use.

YHWH's Personal Cockmeat 400

What the fuck is a Geneva Convention, and why should it apply to your co-oooooh, I see. Okay, yeah, right. Your cock is a weapon of mass pussy and ass annihilation, literally the best shlong in existence, perfectly crafted for the Big G-ussy and further blessed by Aphrodite; this giant piece of meat will make anyone you fuck scream in pleasure and your proportionally large balls produce some of the best baby batter in existence, in every sense of the word. If you don't have a cock, you can either get one or have this apply to one of your holes and the cum part to titymilk.

New Set Of Wheels 600

Damn, those are some nice flyers. Where did you get em? I thought you only had two wings? Well, it seems now whenever you do something sufficiently cool and hard, you undergo an evolution, becoming quite a bit better in the process. There isn't really a limit to how many of these evolutions you can go through, but it does become harder and harder with each one.

Primal Human

Learning And Adapting 100

Cumming into existence is quite confusing, isn't it? Having to learn from scratch all those strange new things would be quite hard for others but not for you, as you learn and improve several times faster than before in any and all fields.

Ancient Strength 200
With there not really being anything else around to use, you've mastered the one thing you had. Your own hot bod. Not only are you a master of hand-to-hand combat, but you also have perfect control over every aspect of your body. Integrating supernatural powers and abilities, be they old or new, into your existing fighting style is trivial to you.

Tits Guy 400
You are capable of absorbing, storing, and releasing ginormous amounts of any and all types of energy completely harmlessly and easily, as well as doing so at quite frankly absurd speeds.

Big Ass Girl 600
You were designed to utilize and freely manipulate any and all types of energy you find. This gives you insane talent in magic and other magic-like fields to the point you could even mimic divine domains with it in time through research and practice.

Unholy Creature
Generalists Suck, Specialization For The Win 100
You are rather good at manipulating any and all sorts of energy you have access to in any way you want as defined by your Domain. It can be something as simple as one of the standard four elements or as complex as Dreams, Infinity, or Creation, with a more focused choice giving you higher raw power while a more complex one gives you better versatility. You are also generally far better in all related things to your domain. You can buy this perk multiple times with each purchase after first being 50 for the Unholy Creature.

Wrathful Jealous One 200
You are absurdly skilled and capable of creating all sorts of curses and applying them to even the beings far superior in strength to you. This can be something as simple as making someone unable to straight up jork it or as complex as turning your hatred into a deadly poison and infusing it into somebody to produce more of it and even sealing extremely powerful beings into slumber.

Big G-Cups 400

Awooga! I order you to put your butt, your whole butt, and nothing but your butt on my face! Well, not actually just your butt, as your whole body is perfection personified, with there not being a single thing in existence that wouldn't find you attractive. And the actual feel of your body? Oooooooooh my gaaawd! Somebody might very well achieve nirvana from a simple handjob done by you.

Primordial Being 600

Well, hello there gramma- *blegh* I'M SORRY, MOMMY! MOMMY, SORRY!
Well, it seems you aren't just some regular schmo with a connection to some element or concept but are more like its avatar or personification with just what and how much you could do with it. With fire as your domain for example, you could burn holes in reality to create transdimensional portals or ignite the flames of hatred in the hearts of your enemies or just plain set the whole of Europe on regular old fire. If you didn't have at least a single purchase of "Generalists Suck, Specialization For The Win", you now do. No, you don't get another one if you already had one.

Items

Items are Discounted to their respective origins, items worth 100 are free and the rest is 50% off. Anything can be imported in to a fitting item (Weapon into a weapon, tool into a tool etc.). If lost or stolen you get them back in an hour. All items can be brought multiple times, with free items costing 50 after first purchase. You can combine compatible items like Your Wood and Weakness Weapon.

Drop In

Goon Material 100

Whenever you meet any person of interest, you'll receive a collection of porn based on them. Both drawn and real actual photos of them. Just don't let them know about it, ok?

Your Wood 200

O-oh, oh my~ What great size, no bends, and the hardness of the shaf- *Bonk* Ouch, ok, fine! This is an extremely nice baseball bat with "NO HORNY" written on it. Extremely compatible with any enchantments and is fantastic at channeling all of your powers. It is completely unbreakable.

Replacing your love... with My HATE 400

This plain-looking melee weapon of your choice currently is no better than its mundane steel/wood version, but the moment it comes in contact with material or energy of any being, it can absorb it and become a complete and utter antithesis to them. It will produce an extremely potent venom that will dissolve the body and the soul of its victim. It can only contain one sample, and if you want to switch it, the one it's currently absorbed will get destroyed, resetting it to the base form.

Form Condenser 600

A cheap pokeball knock-off that is capable of turning any sufficiently bound or unconscious being into a sacred gear when thrown at them, a sort of soul artifact capable of providing the user with abilities based on the being stored inside of it. Can also work on beings who give their go-ahead, although the consent must be genuine, so no mind controlling or definitely-not-mind-control-just-a-charisma-perking them into becoming your buttplug.

Elohim's Child

Non Bulging Robes 100

A set of pristine white angelic robes that make you look pure and innocent and even somehow hide your massive erection.

Cockring 200
A golden band with a small dove etched on top that always fits nicely and comfortably around your cock. Soothes any pains and even gives a slight regenerative factor or improves one if you already had one.

Animal Crossing 400
This is a bigger and smarter version of any mundane animal of your choice that is rather loyal to you if somewhat lazy. Not only does it have access to ~~touki~~ spiral, but it also has some sort of unique ability. Acts as a follower unless imported in future jumps and respawns a day after death.

Weapon To Murder Gods 600
A weapon of your choice made from divine materials with godly skill empowering any and all of your abilities. What is more important is your ability to place vows and restrictions on it that would provide both a general boost in its characteristics as well as potentially give it unique abilities. Sacrifice is powerful, and the more you sacrifice, the more powerful the abilities and the general boost become. You can use it no matter how strong it is and how weak you are. You can change placed vows and restrictions at the start of each jump.

Primal Human
Sweet Home Alabama 100
A nice humble homestead with a field of crops and a barn with animals nearby. Has a soothing effect on anyone living there and makes people more open to sharing their problems and hangups.

Fetish Wear 200
Is—is that a bodysuit? Oh, and are those a leaf bra and a g-string? No, don't take it off; you're so sexy, aha~

This set of extremely durable and beautiful clothes that somehow always protects you comparatively to how a regular human would be protected by a suit of steel full plate armor, while also allowing you to fuck without taking it off.

Angel On Your Shoulder 400

This invisible ball of light power can not only offer guidance to virtue, support for negative emotions, and aid in resisting temptation, but also some very nice firepower in the form of light attacks. The more of a generally good person you are, the stronger it becomes.

Astral Buttplug 600

There's an artifact stored inside of your soul proving you great power. One of the Sacred Gears that would have been developed in the future. You can freely choose one of the canon ones or design your own with the power limit of canon Longinuses.

Unholy Creature

Lightbulb 100

An illusory ball of light that can be placed over your face and perfectly conceals your features even from supernatural means of detection. You have no problems seeing through it.

Totally-Not-Evil Lair 200

A giant fortress of black and brown stone with islands decorated with sheltered pavilions, open gardens, or guard towers linked to the citadel by twisting chains of enchanted metal. Precious jewels clearly charged with magic stud its walls and channel the power of every being that willingly rests there, providing a defense that could only be shattered by a combined strength equal to everyone who rests there.

Bimbo Disguise 400

An illusory double you have no trouble controlling can interact with the world around as if it were real, and that is about a third as strong as you, being able to perfectly channel any of your powers, abilities, and skills. You can freely change its appearance at any moment, and it respawns a day after being destroyed.

An Instrument Of Will 600

A divine weapon or tool that has a similar effect to the "Generalists Suck, Specialization For The Win" perk but is boosted ten times over in strength, and if you already have one, it can either boost it or give you another one while it's being used by you. It can store energy that comes from people praying to you that you can translate into any other energy you have access to with an extremely good conversion rate.

Companions

Companions can't take drawbacks.

Original/Import 50 for 1, 200 for 8

Make someone original in this world or import a previous companion. They get an origin, freebies and the discounts along with 1000 to spend as they please.

Canon 100

Take any individual as long as you can convince them to go.

Drawbacks

Drawbacks trump the perks and items from this jump and the previous ones. They last for your entire stay here but disappear when you finish the jump. Take as many as you can handle

Verse Free

This world has some AU and crossover elements with PJO. You can choose how much of it's canon as well as how the original DxD was altered by it.

Supplement Free
You can use this jump as a supplement to any other DxD and PJO jump. Points are kept separate.

Self-insert Free
You can take the place of one of the canon characters, either by replacing them in the story or by taking over their body. You gain their abilities for the duration of the jump but lose them afterwards.

Extended Stay +100 per
It can be taken up to four times, with the first purchase increasing your stay here by 100 years, the second by 1000, the third by 10000, and the fourth by 100000.

Ayo Agenda-max that Skibidi right into Ohiyo fr on God +100
Either you constantly use modern slang and lingo as well as make references to media that does not exist, confusing and sometimes annoying everyone around you, or it's the others doing the same and you being confused and annoyed.

NNN +100
Is there a curse on you, or is it some sort of weird challenge? You cannot cum by yourself and need help with release from others.

Horny +100/200
Sex is one of the primary things on your mind at all times, and you constantly try to get into lewd situations and corrupt innocent people. For an additional 100, your mind gets clouded, and you start to act like an animal in heat if you do not cum at least a dozen times a day, and even then your genitals will constantly throb for more fun.

Too Heavy To Lift +200

All your weapons now need some time for you to adjust to them; the more powerful they are, the longer it's going to take.

Fate Is A Cruel Bitch +200

You cannot change any canonical events from both this story and the original DxD and PJO, no matter how hard you may try. Asking others to do it for you will probably just make things even worse.

The Enemy +200

Maybe you pissed off Great Red on the entry, or you just smell so disgusting that they have to squish you just to make it stop, but all the dragons hate your guts.

You Are Interesting, Little Angel +200

Powerful beings of this world find you amusing and want to play with you. Mostly in a rather cruel manner while keeping you as a pet.

Most Racist Angel Alive +200/300

You absolutely despise every being who isn't the same race as you, and nothing can change that. For an additional 100 you will not even see them as living things, just material and toys for you to play around with and do whatever you want to.

Demon Invasions +200/300

It seems you have rather shit luck, so wherever you go, there just happens to be a portal to hell with demons spewing out of it, and they do not like you even if you're a demon yourself. For an additional 100, if you stay in one place for longer than a month, a permanent portal to hell opens up, and it cannot be closed in any way.

Fated Fall +300

Be it jealousy or hatred or a combination of the two, those emotions will slowly start to grow until they spew out in a crash out of biblical proportions. And then it will happen again and again.

Error! Fall.exe Initiated +300

Maybe fucking around with the whole falling thing wasn't such a good idea? Rachumel is now quite an evil bastard, and no one in Haven seems to notice and realize it. He will indulge his darkest desires and will take advantage of Big G's inaction to reshape the world as he sees fit.

Broken Seal +1000

The beast of the Apocalypse, Trihexa is no longer contained and is now free. It will do everything in its power to destroy you first.

The Final Choice

First of all any mental, psychological, physical or supernatural traumas that you acquired here or anywhere else are gone. If you want them gone that is. Take this toy versions of Rachumel and Big G-cups for free.
