Out of Context: Saiyan Supplement

V1.02 By DeverosSphere

This document can be used as a supplement in any Jump that would not otherwise have Saiyans within its continuity.

You may also use this document as a ten year long isolated Jump in order to go to a setting of your choice even if that setting does not have a Jumps.

By taking this Supplement you have chosen to be a Saiyan and you will enter into that continuity as a Drop-In by crash landing in your Saiyan Pod which damages both your Scouter and the Pod leaving you only with Saiyan Armor for clothing. Your power level is at least 50 though this may increase depending on the Perks you take.

As a Saiyan you are visibly similar to a Human, with the exception of your monkey-like tail.

+0 CP

You do not get a stipend in this supplement meaning you will need to gain **CP** from Drawbacks or you will only gain the **Free** options.

Origin:

The Saiyan Army employs various ranks within their society, these positions are chosen at birth by estimating what their adult power level would be though these estimations are not always correct.
With that being the case, what is your social standing in the Saiyan class structure?

Low-Class:

Saiyans whose estimated adult power level at birth was below 1,500 are ranked as Low-Class. Almost all Saiyans are Low-Class warriors with most of them acting as soldiers, grunts and cooks.

Mid-Class:

Saiyans whose estimated adult power level at birth was between 1,500 to 5,000 are ranked as Mid-Class Saiyan Warriors.
A minority of Saiyans are Mid-Class warriors, they tend to take positions of authority within the Saiyan Military.

Elite:

Saiyans whose estimated adult power level at birth was over 5,000 are ranked as Elite Saiyan Warriors, however most Elite inherit their position with a Power Level too low to be true Elites. Very few Saiyans are able to become Elite Warriors with nearly all Elite Saiyans being members of Nobility or the Royal Family.

Perks:

Appetite - Free
As a Saiyans you gain an insatiable appetite. While in your base form this lets you eat great amounts with you only feeling full after eating enough to fill your great ape forms stomach, your body can store and metabolise this food without discomfort or it being externally visible.

This tail also allows you to transform into a Great Ape when you look at a full moon.
If your tail is squeezed, it causes you an extremely painful and unpleasant sensation that causes most Saiyans to lose their strength entirely, but this weakness can be removed by rigorous training of the tail to strengthen it and to tolerate being squeezed.
If a saiyan’s tail is removed, it can grow back in stressful situations such as if the Saiyan is in danger unless the tail wound has been scared closed.

Senses - Free
You have a more powerful sense of touch and hearing than humans and gain a very keen sense of smell similar to that of a dog's.

Combined Forms:

Each of the Saiyan transformations can be used at the same time allowing the forms to work together.

Stacked Forms:

Stacking transformations is the easiest way to use multiple forms at once but is less powerful than merging forms.

These are the 3 stacked combinations of capstone forms and an example of Super Saiyan being stacked with Super Saiyan God.

Super Saiyan + Wrathful Saiyan = Wrathful Super Saiyan

Super Saiyan + Evil Saiyan = Evil Super Saiyan

Wrathful Saiyan + Evil Saiyan = Evil Wrathful Saiyan

Super Saiyan God + Super Saiyan = Super Saiyan Blue

Merged Forms:

Merging transformations is a difficult but powerful way of combining transformations as they are able to be pushed further into additional forms and grades.

These are the 3 merged combinations of capstone forms, with the stage beyond that and the Super Saiyan form being merged with the Super Saiyan God form.

Super Saiyan + Wrathful Saiyan = Golden Great Ape/Super Saiyan 4

Super Saiyan + Evil Saiyan = Supreme Saiyan/Infernal Saiyan

Wrathful Saiyan + Evil Saiyan = Goliath Great Ape/Primevil Saiyan

Super Saiyan God + Super Saiyan = Super Saiyan Rosé
