V 1.1

To try to increase her chances of winning the coming grail war that would happen in two months' time, Rin Tohsaka decides to attain an advantage, an edge that will help her poor situation. An edge in the form of a penis. She grows herself a cock through a potion and then performs a ritual that fuses her best gem into it, allowing her to store ridiculous amounts of magical energy in it. Not having seen all the warnings and recommendations for the ritual due to the pages being stuck together and being unaware of its side effects, Rin embarks on a journey of growing degeneracy, the amount of studs, and the size of her cock.
You arrive just as she collapses into a pool of her various fluids after the dick growing process.
Take this 1000 points to spend. You will stay here for 10 years.

ORIGINS

Choose your age and sex for free

Drop In

You appear in this world without any prior history a couple of blocks away from Rin's house.

Magus In Training

You are a third-generation magus specialized in jewel magecraft that has recently moved to Fuyuki. Perhaps you wish to try participating in the coming Grail War? You come to your senses in a modest home located somewhere between the Tohsaka and Emiya houses.

Child Of Darkness

Although you possess magic circuits and were born into a magical family, due to being a second child, you weren't taught your family art and treated like shit. Having managed to learn some scraps you ran away from your abusive home and wound up in some shitty hotel in Fuyuki.

Supporting Cast

You are a first-generation magus and don't really know much about the whole Moonlit World. You did pick up some basics when you were younger from some nice old man with a bit of a trolling issue, but otherwise live a normal life. You wake up in your apartment next to that nice video store where one of your friends works.

Perks

Perks are Discounted to their respective origins, perks worth 100 are free and the rest is 50% off. Free Perks are optional.

General

Hentai basics Free

You and everyone else in this and future worlds you visit are at minimum a 7/10. Sex in general is quite a more enjoyable process with you having immunity to STD' s and everyone's endurance in regard to sex being slightly boosted as well. Holes stretch quite a bit more than should be possible, and that process is rather pleasurable but might make the hole in question looser in the future. Hentai stereotypes are also quite a bit more common, with that Gyaru over there probably being happy to suck you off for some cash and that older teacher being an absolute sexual menace.

rule_63 Free

Woah! Who's that blond beauty with ruby eyes over at the church? In this and future worlds, you can freely choose to genderbend anyone, even if it doesn't make any sense. This can only change the plot a little if at all.

Muscle Compression Technique 100

You know a secret technique that two owners of that one cool gym use. At will, you can shrink your muscles to a point that a hulking slab of meat will look like an average salaryman and then explosively return them back to normal. This is extremely easy to perform, with you being able to do it in your sleep.

Magical Basics Free/200

You have 69 magical circuits of good quality as well as knowledge and ability to perform the structural grasp, reinforcement, projection, and basic hypnosis spells as well as general knowledge about this world's magical system. For an additional 200, you not only know quite a few more mind-altering and controlling spells than the basic one but also seem to have an affinity for them, similar to what someone with an awakened "Control" origin would possess without any of the negative traits or side effects that they might have had.

Snake Tool 200

Not only are you a master of hand-to-hand combat on par with Souichirou Kuzuki, possessing skill, experience, and physical conditioning, but you also have incredible talent to integrate any and all of your abilities, powers, perks, etc. into a cohesive and unique fighting style that is quite hard to predict even for experienced fighters.

Made For Sex 200
Maybe you were a homunculus created by some perverted magus to be a perfect sex toy, or you went through some serious magical experimentation for the same reason. Whatever the case, your body is literally made for sex, being extremely pleasurable in any and all ways, as well as you being able to learn anything related to sex ten times faster. You can start and stop producing breast milk on demand or have an extremely fast sperm production rate with your cum being extremely thick and potent or both if you have the necessary "equipment".

Pen? More like a club! 300
Huh, was the Penis Wizard at it again? It seems you have undergone a procedure similar to what Artoria has gone through and now have a magic core. It's from a different and far weaker dragon than Albion, so the effects are only a fifth as good, but there's an interesting side effect if you have a cock and balls. They can at will become bigger by about 25% and change shape to be more draconic, like gaining ridges and a knot, as well as turn back if needed. The sperm and breast milk you produce almost glow with how much magical energy there is in here, and it's almost guaranteed to make anyone who ingests it or even just gets it on their skin orgasm.

Drop In
Sudden Expy 100
Wait a minute, is that, uh, what's-her-name? The weak old sandwich munching vtuber? Sure as hell looks like her. Oh and is that the tracksuit exploding trainer from that gym anime? And that' s the gem loving blond lolibaba right? It seems in this and future worlds you have great luck to run into an expy' s of characters you know and people you've met in previous worlds.

Body Modding 200
You have quite a talent at biomancy and possess a wide assortment of spells designed for the alteration of living beings. Not only that, but you also have a strange knack for turning such spells and other powers and abilities designed to affect the living to be able to target and affect servants, ghosts, and other technically nonliving things.

Magic Breaker 400
Ah, metamagic, the great art of altering and controlling the spells themselves. You start by knowing the Empower, Extend, Maximize, Quicken, Silent, and Still spells as well as great talent in creating new ones and being good at coming up with new spells in any magic system in general.

Summoning Specialist 600

Whenever you utilize any sort of summoning magic, it takes tens of times less energy to perform and hundreds of times less energy to keep the summoned being around. You also have great talent to modify any such magic before casting, allowing you to summon exactly who you want and even implant mental commands or perform body alterations before the summon arrives.

Magus In Training

Jewel Mage 100

You have exceptional talent and aptitude for jewel magecraft and combined knowledge of both Rin Tohsaka and Luviagelita Edelfelt. Yes, you do know the jewel-studding ritual, even the things that were written on the stuck pages. Also how to brew the penis growing potion, even if it's not technically jewel magic.

Managed Urges 200

It was your choice! You are the one who chose to fall to debauchery! And you aren't even deluding yourself. You have exceptional control of any and all of your mental compulsions and urges, both mundane and supernatural, as well as immunity to mind-altering spells and effects of others. If you're going to rape someone, it will be because you chose to.

Parasite Digestion 400

That damn fossil, who does he think he is?! Trying to impregnate your prostate with his worms, that's ~~hot~~ disgusting. Well, fuck him! Now whenever something enters you, be it your body, mind, soul, or some other part, you will stealthily and completely digest it, gaining some sort of boost and boon from it without any negatives as well as not alerting anyone who might have been paying attention.

Push It To The Limit 600

There are no longer any limits on how much you could improve yourself. Be it through training or magical, biological, or some other type of alteration. And you don't even suffer from it! Become super strong and still have a great level of control; increase your cock to ginormous sizes, and not only will it still manage to become erect even if you shouldn't have enough blood in your body to support it, but it will actually be extra pleasurable to anyone you fuck with it.

Child Of Darkness

Recovery Up 100

Maybe it's natural or achieved through magical alterations, but your body is quite resilient and can bounce back to perfect health from a lot. You could get your pussy gouged out by a ginormous cock and your belly filled with so much cum

that it looks like you're nine months pregnant and be fine, tight, and ready to fuck again in a few minutes.

Bent Over But Not Brocken 200
Pleasure is great and all, but losing yourself in it is not something you want. Your mind is immune to any sort of mind-breaking attempts, be it from pain or pleasure or some supernatural influence. Your willpower and determination also get quite a boost.

Semen Demon 400
Mana transfer. A sort of ritual that… ah who are we kidding. It's an excuse for all those doujins to exist! But there is a legitimate benefit to it, the whole sharing magical energy through body fluids bit. You seem to have taken that idea to the extreme and are now capable of transforming even the most mana dry bodily fluids into large quantities of energy for yourself. And if you actually get your hands on some rather charged liquids? Whooo boy, mana for days!

Gold Shards Covered In Mud 600
There is something inside of you, something dark and evil. Good thing you are actually perfectly in control of it. At will, you can create a sort of small leeches or worms and control them at will. They can't survive for long but when they enter someone's body, they fuse with it and gain an ability to change and improve it the way you want as well as giving you permanent control of both their body and mind no matter how strong the host might be. It can be both direct, like making someone's cock grow or shrink, or subtle, like altering their likes and fetishes.

Supporting Cast
Nice Uncle 100
Despite looking like ugly bastards, a lot of Ojisans around here are actually pretty nice. You find it rather easy to befriend people and make great impressions on them. You also know that a real man doesn't just fuck to satisfy himself but his partners as well, and so you have an insane level of sexual knowledge and skill in bed. To the point that even if you had a below-average cock, you could still make even the most experienced of sluts cum their brains out.

Motomiya Level Stacked 200
Jesus Christ, how do you walk around with that thing? You have a ginormous cock, easily fifteen inches in length and as thick as a forearm. Not only that, but your sexual stamina is insane, as you could easily fuck somebody all night long, cumming so much you make them look pregnant and still have more to go. You can also produce large amounts of smegma at will, and even if it smells disgusting,

people seem to be unable to stop wanting to slurp it up, with the smell watering their mouth and making them super horny.

Jumper-Sensei! 400
Ah, to see your students grow and improve, truly a sight that makes you smile. You are an excellent teacher and tutor, with your students learning and improving far faster than before. You also have an eye for people's talents and affinities as well as being able to offer some nice advice from your wealth of experience in the mundane world. From stock trading to business management to tax evasion and so on and so forth, you know quite a lot.

Fujimura Luck 600
Holy shit balls! It's like you have the equivalent of EX-rank luck! Well, only when it comes to sex, although you are still quite a bit luckier in general. But when it comes to 18+ things, you just keep stumbling into great scenarios over and over again. From going to a public bathroom to finding some 10/10 beauty furiously masturbating in an unlocked stall, to finding a well-stacked Futa girl to fuck you just right while walking down on the street, to randomly finding a girl fused with a toilet asking for cum in the middle of the woods, you are guaranteed to never go without fun times in your life ever again. And if it gets a bit tiring, you can dial it down.

Items

Items are Discounted to their respective origins, items worth 100 are free and the rest is 50% off. Anything can be imported in to a fitting item (Weapon into a weapon, tool into a tool etc.). A potion that will grow a set of male genitalia on anyone who doesn't already have one. The size depends on genetics, so it will be the size that they would have had if they were born with one. You get another one every time it's used.

Magic Crest 300
A magical structure made out of hundreds of medium-quality magic circuits that has ten generations worth of research into the magic field or fields of your choice and is placed somewhere on your body. You can cast spells contained in it by just pumping mana into it.

Drop In
Saint Quartz 100

Clas Editor 400
This strange plastic raygun that can change the class of anyone's who gets shot by it based on the servant class system, altering all of their abilities correspondingly. The person doesn't actually have to have a qualification for said class for it to work, nor do they need to be a servant and their general power level stays the same. Changing class works by turning a knob on its side to corresponding image.

Fake Grail 600
This silver cup can't grant you any wishes but can summon servants, taking the majority of energy requirements on itself. With it, even someone like Emiya could summon and contract over a dozen servants. Interestingly, it maintains connections to this world and any worlds you have already visited in the future jumps, allowing you to summon servants from there as well as from any world you currently reside in.

Magus In Training

This is a purplish book with a cover made out of selkie leather with a large purple jewel embedded in the cover. When the book is opened, a ghostly visage with a wild mess of violet hair covering where eyes would have been with deep purple and very plump lips will appear to pleasure you. Selkie leather grants her seductive and transformative properties so she can change form to whatever you desire. It has magically endless pages that were made from a felled fairy tree and blessed by a fey to grant inspiration in return for the seed of man and the magical energy held within, although you can use any sort of magical charged liquid you want. After it consumed its price, it will give you inspiration and some notes for any magical research you want. Also is generally a good fuck. Is completely loyal to you and acts as a follower but can be Imported as a companion in future jumps.

The library updates in the future world to include local magical knowledge. All the magical research done here produces far better results in far less time.

Kaleidoscope Gem 600
Maybe it's a piece of the Jewel Sword or another creation of Zelretch, but this rainbow-colored gem is an artifact of great power aligned with the 2nd True Magic. While it can boost any sort of space or multiverse-related powers, spells, and so on by a bit, its main feature is the ability to store endless amounts of any kind of energy as well as to freely convert them into each other. The speed of its absorption is also quite insane, making it able to take in gallons upon gallons of extremely magically charged cum in seconds.

You get a new worm or bug whenever the old one is dead.

Pool of Mud 400
A pool of a dark red and black mud-like substance. Anyone who gets a dunk in this will come out permanently altered to be sexier, hornier, stronger and more evil. You don't hold any sort of sway over them, but they do become far more susceptible to your mind control attempts.

Piece Of The 72 600
A jar containing an average-looking worm. It is actually one of Solomon's Demon God Pillars. It's currently slumbering and will continue to do so unless you take it out of the jar. Be very careful with it.

It's Only Been A Few Hours How Does It Stink So Much +100/200
You get dirty and smelly far faster than normal, requiring you to shower multiple times a day to feel anywhere close to clean. For an additional 100, you always stink, no matter what you do.

Dirty Girl +100/200/300
You're one lusty creature, aren't you? It seems that you can't go even an hour without popping a boner and ogling people. For additional 100, it makes it quite a bit harder to concentrate unless you drain your balls a dozen times a day. For additional 100 you're more like an animal in heat barely able to think about anything other than rutting.

What A Thrill +100/200/300
For 100, you adore the taste of cum and will try to put it on all your food. For 200, you dislike the taste but still have great compulsion to consume it. For 300 you absolutely hate the taste, with it making you puke, but you need to consume at least a quarter of a gallon a day to survive.

Everyone Hated It Whenever He Was Around +200
You're an extremely self-centered asshole. You hate to share anything and will despise anyone who touches and interacts with things you like.

It seems you constantly have to share your sex partners with others and said partners find you lacking in comparison to those others.

Public Toilet +200
Once a week you have to spend a night as a cum toilet servicing all sorts of people. There are guaranteed to be at least a few that you'll hate but still have to service.

No Magic? +300

Get That You Worm! +300

Your body is infested with Matou worms. And not the more pleasurable local kind but the ones from the original timeline. They're incredibly hard to get rid of.

Meals On Wheels +300
You had a person whom you loved dearly. Unfortunately something happened, and now they're a husk of their former self. You can perform some things that you would absolutely hate doing to return them to a semblance of sanity, but you'll have to constantly continue to do that to keep them sane.

Possessed By Evil +100/300/600
Oh no, you have been possessed by a spirit of a perverted old man! Well, he's not actually that bad of a person, but he will constantly annoy you to do more lewd things. For an additional 200, you instead have a crest worm inside of you containing a piece of Zouken's soul. Better find a way to get rid of it quickly. For an additional 300 instead of the old worm, your benefactor put out a patch that put Angra Mainyu in your prostate. It would take unbelievable willpower to resist enacting all sorts of evil upon others to satiate the ever-growing desire for spreading misery.
