THE GLORIOUS VAULT!

Welcome Jumper to my stomping grounds! As you can tell, I am not your usual Jumpchan. I kicked her ass and stole you from her, now don't worry, I'll give you back in a short while once I'm finished with you. Soon I'm going to drop you in my world, the cosmic dump for all the shit of the multiverse. Careful now! My marvelous creations about! Although the universes I placed them in rejected them, I'll be certain to make them pay!

Of course, I can't have you wandering around without perks! That's what that Jumpchan does right? Well anything she can do I can do better!

10 Character Points!
