True Super + Fire Super = White Flame Super: Combining the Melee power and Flame Abilities of the Fire Super with the versatile and Weapons Skills of True Super, will result in White Flame Super. This Super form Combines the best of both supers now your attacks have fire properties including your Mechanical Summoning

True Super + Chaos Super = Chaotic Super: Combining the mastery over Chaos Control from Chaos Super and the Versatility of True Super will result in Chaotic Super. This Super form combines the best of both supers also your Mechanical Summoning has been supercharged with Chaos Fusion

Fire Super + Chaos Super = Flames of Chaos: Fire Super's fire abilities combined with Chaos Super's chaos mastery results in the Flames of Chaos. This super form combines Chaos Fusion with fire elemental properties.

True Super + Fire Super + Chaos Super = Perfected Super: This super form takes the best of all of the true supers that the heroes have and the combos that they create. Your overall stats have quadrupled.

Ultimate Armor + Black Zero = Black Armor: Your speed strength and durability have been tripled. Your saber is now stronger; can probably slice even the tougher mavericks with no problems

Ultimate Armor + Super Mode = Neo Ultimate Armor: This upgraded version grants you even greater power, enough to wipe out legions of mavericks with ease. Your buster gun's power and rate of fire has increased greatly, allowing you to fire at great speed with unbelievable power. Your flight capabilities have been bolstered to allow you to match Sonic's speed. The time to charge up your abilities has been shortened and the charge is even stronger.

Black Zero + Super Mode = Dark Super Mode: This super mode is powered by your negative emotions. The more anger, hatred, and grief you feel the more powerful you become. Your saber and buster can be powered up as well. This also allows you to unleash devastating attacks on your foes.

Ultimate Armor + Black Zero + Super Mode = Black Armor Neo: Super mode improves all stats, Ultimate armor upgrades, and the Saber abilities of Black Zero. Black Armor Neo has it all, but quadrupled.

Chaos Super + Black Zero = Riftcutter: Your mastery of chaos energy with your saber skills allow you to affect space-time, in other words, cut the "dimensions" making the attacks indefensible and potentially one-hit kill against those that aren't remarkably strong.

True Super + Fire Super + Chaos Super+ Ultimate Armor + Black Zero + Super Mode = True Hero Super: Okay take everything good about the listed forms and put them together. That's True Hero Super, except imagine it being 10 times more powerful.

Berserker + Power of Metagen's Hammer = Viking Power: The power of the hammer combined with the berserk state gives you a sort of Viking feel to you.

Berserker + Dark Power = Darkened Fury: This super mode is powered by your negative emotions. The more anger, hatred, and grief you feel the more powerful you become. You can also channel this rage into a powerful explosion of energy called Fury Nova. This also allows your blows to inflict intense pain on your opponent, causing even a simple slap to send your foes to their knees in agony.

Dark Power + Power of Metagen's Hammer = Chaotic Hammer: You can now channel Chaos energy through your hammer for even more power. Your Metagen specter can also use Chaos energy and lasts

longer. In addition you can combine Chaos energy with your lightning for devastating power. You can temporarily fuse the hammer with the specter for even greater power at the cost of being unable to use the specter.

Berserker + Power of Metagen's Hammer + Dark Power = Mobian Wrath: Aff, why don't they listen to the warnings? It's gone too far, you turn rage into raw power but anyone can do it with the power of chaos… no, now it's time to reveal the truth, you can turn all fury into power including the fury of your allies and even your enemies, prolonging the fight is just giving you more power, "time to know your place you fools!"

Dr. Light's Hope + Dr. Willy's Ambition = Genius' Work: You can adapt the characteristics of your ranged weapons to your saber and other melee weapons, make it bigger as if it were charged, elongate almost instantly as if it were a shot, the opposite is also true, your mastery in melee combat can be adapted to the ranged, allowing you bending and control your shot to the point of being able to tie a knot with one precise shot. You truly are a Genius' Work.

Dr. Light's Hope + Best Sonic Model = Metallic Hope: Combining technology from two worlds to create something new. In addition to all the abilities you currently have you can absorb weapons into yourself to make your arsenal stronger and more varied. Your shapeshifting has improved as well, to the point of perfectly mimicking someone down to their mannerisms.

Dr. Willy's Ambition + Best Sonic Model = Metallic Terror: This is the result of technology from two worlds being used to crush others. You can infect other machines with your metallic goo to gain control over them, allowing you to use your enemy's tools against them. Your shapeshifting now allows you to turn invisible and silent, ensuring that your enemies won't see you until it's too late.

Dr. Light's Hope + Dr. Willy's Ambition + Best Sonic Model = Marvel of Genius: You are the perfect marvel of genius, a monument to the limitless potential of technology. You can shapeshift your limbs and/or body into any piece of technology that you've absorbed. You can combine them together to create something new. For example combining a blaster with a saber to create a saber/blaster hybrid. Shapeshifting into another person also allows you to mimic any biological requirements such as breathing, crying, bleeding, and more.

Berserker + Power of Metagen's Hammer + Dark Power + Dr. Light's Hope + Dr. Willy's Ambition + Best Sonic Model = Brutal Form: You are rage incarnate. Your Fury gives you focus, strength, and speed. But most of all it gives you a minor healing factor to boot. You will not fall until your enemy is dead.

Semi Hyper + Burning = Blazing Soul: Can you feel it? That burning heat deep inside you? That is your very SOUL and it's roaring to be unleashed!!! Everything about you from your attacks to your aura are now unbelievably hot, enough to melt stone in seconds. What is better is the more passionate and hot-blooded you are the more powerful you get. This can also boost your allies' power when they're nearby. Burn brightly and ask your enemies: "WHO THE HELL DO THEY THINK YOU ARE?".

Semi Hyper + Specter = Wraith: You are Justice, you are Vengeance, you are the Wraith. Your fear effect has been boosted greatly, to the point that weaker enemies will flee from your very presence. You also grow stronger the more you feed off the fear of your enemies, allowing you to grow in power as long as your enemies remain afraid. This also protects your allies from any mental attacks. Let your enemies cower at the sight of the Wraith.

Burning + Specter = Ghostfire: Purge your foes with flame! Your flames now take on an ethereal, blue form. Any foe burned by this flame will have their strength and will be sapped from them, losing the ability to fight back. This flame also bypasses most objects, allowing you to attack your foes through walls and shields. This flame won't harm anyone deemed an ally. Burn your enemies in a ghostly fire.

Semi Hyper + Burning + Specter = Soul Of The Blazing Wraith: You gain all of the abilities seen above plus the ability to channel them through the hammer, increasing their power tremendously. Any power gained from these abilities can be transferred to your allies to heal and empower them. Unleash your true power and let your enemies cower at the sight of you.

Improve Armor Functions + Zero Virus = Light Elf: Cyber-elf X is a form of a grand antivirus program. This is an upgraded variation by taking the Zero Virus' ability to power up the user in exchange for control over one rage and refining it. Light elf powers up the user and makes them immune to any mind control abilities.

Improve Armor Functions + Metal Sonic Copy = Armored Sonic model: X has the ability to gain an ability from a defeated foe. Metal Sonic has the ability to copy abilities based on data. Put these two abilities together with the addition of the powers of the improved armor functions and you are basically a walking evolving tank.

Zero Virus + Metal Sonic Copy = Metal Virus: Strange ability normally converts living organisms into robotic slaves. But in this case, this ability basically turns you into a T-1000. You control a liquid metal substance that can form weapons and encase enemies within.

Improve Armor Functions + Zero Virus + Metal Sonic Copy = Overlord Features: You gain all of the abilities seen above, plus the ability to transform into a more powerful form reminiscent to Metal Overlord.

Semi Hyper + Red Hot + Specter + Improve Armor Functions + Zero Virus + Metal Sonic Copy= Overlord of Flame: Fire is under your complete control. You are no longer just any fire user. You are a Master of it. In addition to your attacks being stronger, Your flames burn much hotter, You can transform into a dragon of flames. Those who fight you should take care not to get burned.

True Hyper + Inferno = Eruption: The transformation components have been further boosted, with the more notable factor being, the clones. Eruption's cloning abilities are better than its predecessor, able to make clones in the hundreds, with having the same amount of power as the original.

True Hyper + Reaper = Death: Your power as the Reaper has evolved beyond anything thought possible with the near-endless energy that is True Hyper. Typhoons that once could level a large city could destroy a continent now. Where once you could summon meteors, a whole asteroid field is easily within your range. Not only has your power grown, but your skill and knowledge far outshine what you knew before. A World of Magic is now at your disposal.

Inferno + Reaper = Hellfire Reaper: Remember how you could once throw fireballs at your opponents? Now you can throw *Suns*! Your Firepower has reached to the point that your Versatility with the element has grown to levels beyond mortal understanding, you can use your fire to heal, burn, purify, and other incredible methods you could have only dreamed of once before.(Rewrite if not good enough)

True Hyper + Inferno + Reaper = True Chaos: "Chaos is power… Power enriched by the heart. The controller is one who unifies the chaos", you are probably the first to "unify" chaos, by fully accepting your dark side without losing your empathy you have gained access to the full capabilities of Chaos, there is little you can't do now as you can not only turn thoughts into power but also into reality, show them the True Chaos's power.

Omega Armor + Absolute Zero= Infinite Zero: Within you holds the full potential of both Dr Light and Wily's research. All the powers of X, Zero and all others are yours to withhold. You can use any of their powers, combine them in any possible form given time and experimentation, and have no trouble mastering these with a bit of training.

Omega Armor + Perfect Egg Robot= Nega Omega You are the end result of evolution for all Robots, the Golden Chip combined with Dr. Light's research has made you the pinnacle of machine kind. You have access to any Machine Eggman, or his family(Including Dr. Nega and Gerald) have created. Your ability to adapt rivals the Emerls, and has only been fortified with the power of Megaman X and street fighter skills. You stand on the brink of Perfection, now don't disappoint.

Absolute Zero + Perfect Egg Robot= The Eggmighty: Dr. Willy and Dr. Eggman. Both are scientist that used the knowledge to take over the world. But they are always thwarted despite their genius. You are the result of their research being merged. Robot Masters, Eggman's Robots, their abilities are yours. This alone would be enough but somehow you have access to the abilities of three of Eggman's greatest Machines: Egg Emperor, Death Egg, and Egg Walker (From Sonic Adventure 2 Battle). Your Saber attacks will have sword beams, you can create a shield, fire a barrage of missiles, and large beam called the power laser. Let them try to stop you, it will be amusing

Omega Armor + Absolute Zero + Perfect Egg Robot: True Robotic Perfection: By taking the absolute best of Robotnik, Light, and Wily; the best robot emerges from their combined efforts: You. With this all the functions that X, Zero, and Cyber Metal Sonic have are yours to command. Note this includes things from Megaman Zero. You are a true super-fighting robot now. Go forth for great justice!

True Hyper + Inferno + Reaper + Omega Armor + Absolute Zero + Perfect Egg Robot = True Hyper Hero: Don't you think this is a bit overkill? Then again when it comes to evil, it's better to be prepared. You are something of a god in this state. You have all the abilities from the required forms. In addition, the abilities you have while in this state have been increased 100-fold. Also, the other abilities granted from the other power combination are now yours to command.
