Abridgimon Jumpchain V1.01

By DeverosSphere

Welcome to the digital world kinda, well a bootleg version anyway.

I'm Sukamon.

I'm going to be your Digimon guide for this Jumpchain!

You gain +1000 CP to build for this jump and may choose your age and gender.

You will wake up in the digital world at the same time that those Humans showed up.

Origins:

You get to pick 1 Origin which dictates your background.

Digital-Destined:

These are humans from the non-digital world who have Digimon as partners. They are supposedly chosen by "fate" to "save" the Digital World.

Unfortunately you can't use the term DigiDestined anymore because the Dark Masters have copyrighted the term.

Digimon Partner:

This is what I am and all the series revolves around. Digital Monsters are various forms of living, breathing, thinking folk in the "Digital World" and the other fake digital worlds. Digital Worlds are created by a parallel universe called Earth's thanks to its communication networks including spam and video streaming sites.

Dark Masters:

The Dark Masters were created in 2008 by members Scott "Piedmon" Frerichs, Nick "Puppetmon" Landis, and Curtis "Machinedramon" Arnott.

That same year, they created the Apocalymon Abridged Digimon, a non-profit parody abridged Digimon consisting of data from the titular Apocalymon interspersed with humor.

Perks:

For each origin, the 100 CP Perk is Free and the others cost 50% of their initial price.

Digital-Destined

We Could Really Use Your Computer Smarts -100 CP

Congratulations with this Perk you know how to use the internet.

You gain the level of expertise and familiarity sufficient to be able to use computers, how to surf the Web and use email.

What do you mean that's not enough ok well you know how to download computer files and how to update applications, you're also aware of potential viruses.

Still not enough... fine you get coding the Visual and Basic stuff yea and the sharp one C#.

You Should Focus More On Being A Digidestined -100 CP

You're such a killjoy you know what you're such a killjoy that you can find it easy to guilt people into doing their job or stuff that they're supposed to be doing.

What The Hell's A Koromon -200 CP

What kind of Pokémon are you, How do you do the thin.. digi-what? Oh yeah this is Digimon fine take this Encyclopedia of Digimon and go away. Perk not an Item ok fine it's a Perk now, you know what it's a Pokédex now! Yeah whenever you meet any kind of creature you can activate this Perk to get the same information a Pokédex would give you if it were a Pokémon which it might be or it might not.

I Might Have Been Offered A Job By The Dark Masters -400 CP

Don't be mad but I may have given your CV to a bunch of the bad guys but I don't think they recognised you so using this Perk your enemy's will keep including you in their communication systems sending you messages, group invites and a lot of their plans but they probably don't realize it so don't tell them or I might get in trouble.

I'm Untouchable If I Live On The Internet -600 CP

Oh this is literal you can Digitize yourself and others then drop into any computer or computer game or computer folder. Yeah and dropping into a game you can either go into a digital world of the game or the files of the game, you can also bring stuff back out but it's just data so expect it to fall apart when it gets damaged.

Digimon Partner

I Have A Stat Screen Just Look At Those Ratings -100 CP

If you're a Digimon you got this, if you're not a Digimon how did you get this?
This stat screen shows you the details of yourself and anyone you target with it.
This shows you the Digi-Attacks known, the Age/Weight, Hunger, Strength, DP (Digimon Power, Digimon equivalent of Stamina), Battle history (The number of battles won and fought), Type/B/J, Evolution (Chance of success of evolution), Currency, Digimon's health, Basic care.

Do You Have A Stat Screen -100 CP

See i knew you were a Digimon or more than one Digimon somehow well with this Perk you can pick one Rookie level Digimon to gain as new Alt-Form, you may be able to digivolve to champion level but it won't last long but with practice you will be better able to hold it. (Hey i know this is cheating but you can make a homebrew Digimon but it's got to be in line with normal Digimon)

It Usually Works -200 CP

Blowing bubbles is a brilliant plan! Your weak attacks will always have a notable effect even if it just knocks them off balance or makes them blink. Whenever I blow bubbles it makes people cry!

WEN BROLY -400 CP

You know the internet is full of pests, not just bug type or virus type Digimon but humans who pester other humans for stuff and with this Perk you can force the collective internet to target someone causing them to hear constant bings and message alerts from the internet at large as they ask stupid questions.

Digimon Roll Out And Transform -600 CP

Who needs a digi destined you can transform on your own!
With this Perk you can digivolve into your champion form at will and when you unlock them, you can transform into your Ultimate and Mega forms keep in mind anyone can become Sukamon regardless of their current level hint hint.
Ok I turn into Etemon.

Dark Masters

Put Him On A Shirt -100 CP

Wup-pow you've got the power, just touch a shirt, coat or any other type of object to instantly customize its external appearance, add logos, brands and quotes but how well it's made is down to you.

More Important Than Having An Opinion -100 CP

Money makes the world go round and if you've got enough of it you can pay (Bribe) anyone into joining your side but keep aware you've got to have the cold hard cash to pay their ass.

They Multiplied -200 CP

Shadow clone no Jutsu! Ha now we are the Sukamon Squad we are as invincible as paper, wait paper yeah maybe you should have this Perk instead you can create up to twenty visibly indistinguishable copies of yourself who will pop should they take any harm.
For every copy that pops, the maximum number of copies you can create will be reduced by one for twenty-four hours, you can increase the maximum amount through practice and training.

The Trademark Of All Things Digidestined -400 CP

You know how to use the meta legal system which makes it so that once per jump you will be able to trademark one term meaning that anyone who wants to use this term will have to get your permission by purchasing a Trademark package you cant refuse to sell it but you will always know when someone buys the package and will make a small prophet from it.

We'll Make Him Metal And Call Him MetalEtemon -600 CP

And so, with a macabre flash of blinding Darkness, the howling of a Metal patched Dinosaur echoing through his mind, so ends the tragic fate of Etemon. ...Or so you'd think, if you didn't know a thing about merchandising!
The first time someone dies you can revive them with a new gimmick that can be described with one word before their name such as Metal or Ghost.
When I died I became PlatinumSukamon then i digivolved back into Sukamon.

Items:

Now the fun stuff, the Items, like this cool crown, I'm taking this crown.

~~Digi-Crown -1000 CP~~

~~This Digi-Platinum crown bestows its wearer the power to command all Digimon who share their typing.~~

Digital-Destined

Phone, Computer, Camera -100 CP

Hey you get the full package of basic electronics and the appropriate cables for charging and even a few wireless chargers.

A Coin And A T-Shirt -200 CP

Wooo an unlimited supply of personalized merchandise mugs, clothing and even condoms and whatever else you want to sell.

Postcard -400 CP

Whenever you wish to know what someone is up to you can reserve a postcard from them giving you the basic information in their own words about what they have been up to.

Digivice -600 CP

Ok this is the cool part this is a Digivice it makes Digimon bigger stronger and cooler well kind of, the first if Free if you've got a Digimon Partner though it tends to look like a tamagotchi.

Well not really this one is the light blue palm-sized model with a set of three buttons and a clip on its back. But if you paid at least -300 CP for it you can trade it in to use the Digivice Customiser Supplement.

Digimon Partner

Digital Scarf -100 CP

This awesome little scarf makes you look sassy. Oh I've also, I've just been told by Motimon that it's self cleaning and helps to make your eyes shimmer.

Digital Tree -200 CP

You got a cool little disk that lets you create fake trees, just point it at the ground and boom an illusion of a tree that you can hide it or hide other things in.

Chrome Digizoid -400 CP

Cool you get 10 CM3 of this Digimetal once a week. It's also known as Chrondigizoit Hybrid Organism alloy but really it's just solid data don't get me wrong it's powerful stuff but it's mostly found in Digimon by combining Chrondigizoit Metal with organic data.

The cool thing about this metal and the stuff it's made from is that it can switch between solid and digital, you know what? You can also have 1 CM3 of ChromeDigizoit and 2 CM3 of its raw state Huanglong Ore.

The Digital World -600 CP

Cool you've got your very own backup of the Digital world including File island and even a spiral mountain all of it backed up onto a full server so really your just getting a computer with a cool program on it.

Dark Masters

Shirts -100 CP

Woo you've got a lifetime's supply of blank shirts in every color and every size, No idea what you're going to do with them but have fun.

Money -200 CP

Cold Hard Cash once per month you get $500,000 in cold hard cash but it's going to be down to you to convert it to Yen or whatever currency you're currently using.

Nuke -400 CP

For when you need to overstep your bounds why not a Nuke just the one mind you but be warned you use it you lose it at least until the start of the next jump.

The Moon -600 CP

Your very own moon base and a moon I don't know how your going to get up their but it's yours, I suppose I could put a door to it into your wearhouse, ok that moon I was talking about now it's in the wearhouse if you want it out your going to need to find somewhere to put it.

Companion:

Everybody got friends, even me. This is my buddy Chuumon. This whole section is to make friends but not in a Build-A-Bear® way.

Human Partner -100 CP

Cool now you own your very own human, just pick one out and it's yours!
Is that creepy it seems creepy.

Digimon Partner -100 CP/-400 CP

Don't scramble this Egg it's a Digimon, it's your Digimon you can either pick a specific one or just let luck decide. 1 for -100 CP or 4 for -400 CP which counts as paying for your Digivice.

Sukamon -100 CP

What? You want me to be your friend? Well, I guess that's ok but nah that's fine I'm not even canon to the show so I'm fine with that.

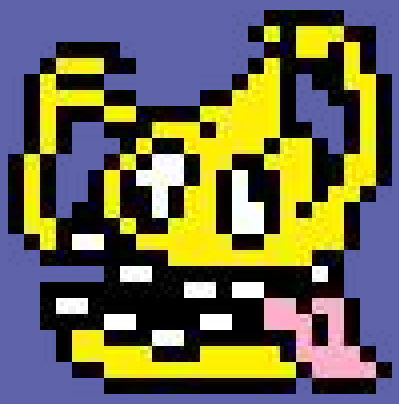

Import -50/200 CP

You can bring along your friends from other places, let them pick an origin and give them each +600 CP, you get 1 for -50 CP or 8 for -200 CP.

Canon Free/-50 CP

Is there someone you like that you don't want to leave behind? No not me you can buy me above!
Anyway if someone wants to go with you they're Free but to make them think that they want to go with you costs -50 CP each.

Drawbacks:

Time for a few down grades, No you don't get to pixelate that's just for me.

I'm Not Entirely Sure That's Where I Am Right Now +100 CP
Looks like you going to forget me cus when you wake up you will have no memory of filling in this jumpchain document.

That Is Not Harry Potter +100 CP
Yea there's cringe and then there's cringe instead of dropping into the TFS bootleg Abridgimon you will instead appear in a 4chan Annoying super abridged that is itself an abridged of the full Abrigimon.

Their Just Fucking Ones And Zeros +100 CP
No one respects the rights of talking poop and now you shall know how it feels as no one that sees you will consider you a lifeform.

I'm Not Ashamed +100 CP
But you will be, as the worst kind of Perverts will show up everywhere and make it your problem.

It's Demanded By The Gods It Is +100 CP
It seems that a glitched spam file known as Jarjarmon won't leave you alone and somehow they keep respawning when killed.

If You Finally Just Apologize For Everything You Did... +200 CP
It seems that you're the only one who is willing to budge on anything as even asking for the smallest concession is considered unreasonable, you're probably better off by yourself.

Tie Can You Stop Rapping For A Minute +200 CP
Dd dd dd dd Digimon dd dd dd,... I can't rap. I'm really bad at it and unfortunately the rest of the world seems to make it mandatory as everyone else speaks in rap.

Now Is Not The F##King Time +200 CP
Freaking spam calls all the time it seems that no matter where you are or what you're doing somehow people will appear out of nowhere and start pestering you, no matter how many of them you kill.

Don’t Eat The Yellow Snow It’ll Kill You +200 CP
It really will, seriously don’t eat the yellow snow!

What About Ogermon He’s The Best Character Ever +200 CP
You know it’s really upsetting when someone hates your opinion and with this drawback they definitely will no matter what you say you like others keep being belittled for your opinion.

Didn’t We Kill Them? +300 CP
Yes but no it seems that no matter what you do no one stays dead, well none of your enemies your friends however they’re fair game.

I Can’t See Because That Giant Beatles In The Way +300 CP
You couldn’t see a snarling monster breathing into your face until it attacked, well I mean you could see it but you are completely oblivious of any danger until it is attacking you.

I’m Really Glad That’s Not Where I Am Right Now +300 CP
Anytime there is a natural disaster you are in the middle of it. That's all natural disasters you get teleported there the second you're out of danger right back you go to where you were.

What The Hell Are These Things +300 CP
Yep Digimon Digital Monsters, monsters from the digital world, You have no idea what a Digimon is and lose any and all knowledge you had about anything Digimon from before the jump started.

What The Hell Just Happened +300 CP
Whenever you stop focusing on a situation that directly affects you it will get worse. Like if you're playing a game and go to the toilet, when you get back you’ll find it’s a lot harder than before you went to the bog.

End Choice:

Go Home - Self Explanatory.

Stay Here - Why would you want this?

Next Jump - I suppose this would be a good idea.
