Introduction:

Welcome, Jumper, to a world that closely mirrors our own, with one striking difference—the confirmed existence of succubi and other mythical species. These supernatural beings aren't just the stuff of legend; they walk among humans, living lives not so different from those of ordinary people. However, unlike the succubi of ancient myths, who were said to live for centuries and drain the life force of men through seduction, the succubi in this world have a more grounded existence. They age at the same rate as humans, experience the same struggles, and must learn to control their abilities rather than being born as instinctual seductresses.

In this society, succubi are not exempt from the rules of civilization. They attend schools designed to help them hone their unique powers, ensuring they understand the responsibilities that come with their supernatural nature. Rather than being feared as creatures of the night, they integrate into everyday life, taking on jobs, forming friendships, and navigating the complexities of modern society. Interestingly, their abilities are not limited to working on men alone—female humans, too, can be affected by a succubus's charm, making their interactions with the world even more complex.

With this knowledge in hand, you, Jumper, are granted 1,000 CP to shape your adventure in this world.

Sexy Wardrobe [200CP/400CP/Discounted for Succubus]

This wardrobe offers a variety of fun and enticing outfits, ranging from sexy lingerie, swimsuits, and skin-tight Taimanin suits, to maid outfits and more. The only limitation is that these clothes don't provide any special abilities on their own, except for a neat little feature: if they get damaged or lost, they will automatically reappear in your wardrobe, fresh and good as new. Additionally, there's a unique bonus where your wardrobe will update with clothing styles that match the fashion sense of future and past worlds within your jumps, keeping your outfits trendy and versatile no matter where you go.

For 400 CP, the fun kicks up a notch. This wardrobe gains the ability to absorb any clothing or armor you possess and imbue the items within with the properties of those pieces. For example, if you have armor resistant to thunder damage, you can sacrifice that armor to receive a bikini or even a school uniform with the same lightning resistance. However, keep in mind that this feature doesn't allow you to multiply items—it's essentially transforming the look of your gear into something more fashionable. This added functionality allows you to create stylish and unique outfits with the properties of your protective wear, blending utility with allure.

The Demon Gate [600CP/Discounted for Succubus]

The Demon Gate stands as a formidable interdimensional conduit, capable of transcending the boundaries of time, space, and dimensions with a mere activation. In future worlds, this gate's power expands, enabling you to traverse between parallel worlds, connecting you to universes with similar rules, settings, or even franchises. Whether you're seeking to explore alternate realities, gather knowledge, or conquer new realms, the Demon Gate serves as your key to endless possibilities. Its use is limited only by your creativity, offering not only access to distant lands but also the chance to encounter beings and places that transcend the ordinary. In essence, this gate is a powerful tool for

adventurers, scholars, and those looking to reshape their destiny across countless worlds.

Companions:

My Old Team 50
You may import or create companions you have brought with you, 50 CP each, or 8 for 300CP. Each one gains a free background. and 600 CP to spend. They may not take drawbacks, but you may give them CP, spending 100 each time to give them each an additional 200.

My New Team 100
Sometimes having friends would be nice. Buying this once will allow you to add any allies you've made here as companions.You may buy this multiple times.

Drawbacks:
You are limited to +600 Cp from drawbacks.

18+ [+0]:
Really? Alright. The setting just became a lot more lewder, if that is even possible, than it already was, as the bands of light used to conveniently hide the private parts of the human body are now removed and you have a full view of said bodies, and other such fun stuff is no longer prohibited.
Hope you have fun with this.

Rule 63 [+0]
Well then... looks like we are entering a world where instead of focusing on yuri-ism, it is instead focus more on Boys love. If you want to see bishonen men in gay situations , be my guest.

Supplement [+0]:
Not exactly the most in-depth of places, so you can use this jump as a supplement for other jumps. The CP here can only be used in this jump, and vice versa; this includes extra CP from drawbacks.

Social Awkwardness [+100CP]:
This one is less about flair and more about endearing, bumbling charm. You now have a tendency to say or do the absolute wrong thing at the worst possible time. Compliments turn into weird metaphors, casual conversations spiral into tense silence, and you might accidentally laugh at entirely the wrong moment. Basically, it's like your charisma stat rolled a natural one, but you're still trying your best!

Too Much Fanservice [+100CP]:
Ok,your clothing seems to meet an untimely demise every week, despite the scarcity of battle here in this jump . Whether due to unexpected mishaps or bizarre circumstances, you find yourself stripped naked on a regular basis.

Side Character [+100CP]:
It seems you have a rather forgettable presence, as people tend to overlook you unless you're directly in front of them. This can make it challenging to make a lasting impression or to be noticed in social situations or interactions.

Hikineet [+200CP]:
Looks like you're a shut in. Going outside is a pain. You'd rather stay inside your room and play video games. Unfortunately you need to go outside, and some busybody will always try and get you to leave your room every day. You hate being outside your room and your complaints will be ignored. I hope you don't go stir-crazy…

Amnesia[+200 CP]:
In this jump, you find yourself afflicted with amnesia, rendering you unable to recall any memories or abilities from your past experiences. As you embark on this journey, you must now relearn everything from scratch, rediscovering your skills, knowledge, and past accomplishments as you navigate through this world. Embracing this fresh start, you set out on a quest to uncover the mysteries of your own forgotten past while forging new paths forward.

Ticklish Body [+200CP]:
Well it won't be an yuri series if you don't have an excuse for girls to touch each other. You are extremely ticklish that renders you helpless when triggered.Even the slightest touch in the spot of your choosing can send you into fits of uncontrollable laughter, leaving you incapacitated and unable to focus on any task at hand. You can take this drawback multiple times choosing an extra place where you are sensitive.

You're In Debt [+300]:
You have no money, as you have been given a huge amount of debt while in this world. It will take you 10 years to pay it off.

Yandere Stalker [+300CP]:
You have attracted the obsessive affection of someone who is deeply infatuated with you, but unfortunately, her love borders on insanity. She will stop at nothing to make you hers, resorting to extreme measures such as sabotaging your relationships and even imprisoning you if necessary. What makes matters worse is that those around you seem oblivious to her alarming behavior, dismissing it as normal and refusing to intervene. If you remain confined for a year without interruption, her chains on you will finally be broken. You may choose a Canon character as your Stalker, and if you want you can take your Stalker with you for free at the end of the Jump.

Cry Baby [+300CP]:
You've been cursed—or blessed, depending on how you look at it—with the ultimate emotional sensitivity. Your tears are no longer just a response to sadness.Your crying isn't subtle or dignified. Nope, you've gone full anime protagonist breakdown. Loud, dramatic wails, sniffles, and hiccups are just part of your new everyday routine. Your over-the-top reactions turn even the simplest situations into melodramatic scenes, complete with sparkling tear droplets and a quivering bottom lip.

No Powers[+400 CP]:
You find yourself in a jump where outside powers and your warehouse are off-limits. You must rely solely on your own abilities and resources within this world, facing its challenges and trials without the aid of external assistance.

Very Busy [+400 CP]:
It appears that you have a tendency to be a pushover, unable to decline requests even if they are perilous and offer little compensation. Once a week, you will be tasked with completing a tedious assignment, which, fortunately, won't exceed R+18 content. However, these tasks will be physically and mentally exhausting for you to complete, adding to the challenges you face**.**

Eternal Failure [+400 CP]:
Whether you're a student or a working adult, you seem to be stuck in a cycle of perpetual setbacks and disappointments. For students, your academic journey is riddled with failed tests, missed opportunities, and a lack of progress, no matter how hard you try. Group projects fall apart, and your grades just never seem to reflect your effort. In the case of a working adult, every job you take ends in frustration, with either missed promotions, poor performance reviews, or companies failing to recognize your value. Despite your best efforts, you're stuck in a loop of underachievement and frustration. Rebuilding from this place is difficult, but there's always a glimmer of hope for change. The key lies in finding the right path forward, but it'll require persistence and a lot of work to break free from the cycle of failure.

Ten Years Later:

Go Home: What, you finished? Here? Well, we won't ask. Whatever it is you gained here, we hope you enjoy it. You return home with all that you have accrued over your chain, and time resumes in all the worlds you visited.

Stay Here: This world does have a certain... allure, hmm? Don't worry, we won't judge. Add 1000CP as a bonus.

Move On: Ah, but of course. The journey never ends, does it? Go forth and have fun. Make some new friends.

Notes:

1. **Ok here well this was more vanilla than i thought hope you guys enjoy.**
