Welcome Back, Jumper to Earth, Japan , it remarkably similar to your old world at first glance, save that the women are remarkably more beautiful and erotic, if you were to look deeper, you would notice the presence of a hidden war between shinobi Villages dating back all the way from the Sengoku Period, but you're not here for that, eh?
So, take these **1000 Choice Points.**

Starting Location

Fuuma Hidden Village
The currently Dominating and proheminant Hidden village, known to have perhaps given birth to the famous shinobi Kotaro Fuuma, it is perhaps the only surviving one if we count it is the only one that is an actual village rather than just some base in a cave, you arrive not too far from the village, away from any patrol,it is up to you if you want to enter, if you turn left, you will end up straight to the Fuuma's Rival the Onimeshuu .

Origins

ALL origins can be taken as a Drop-in, Age and Gender are up to you.

Young Master
You Believed you were just a regular Salary man until you received a letter from you're your Grand Parents who lived in the Mountains until It was revealed you were descended from a line Shinobi dating back to the Sengoku Period, of course you may not need to become one, but your grandparents insist you spread your seed and birth a male heir.You may take the place of Fuuma Kojuurou for free.

Kunoichi [200 CP]
By virtue of Birth or adoption, you have lived in a secluded village full of Shinobi, naturally this unique lifestyle mean your body has been conditioned to naturally be far superior to a regular human, and that is without training or technique, of course as masters of infiltration and seduction you are quite the catch in term of looks and your body don't deteriorate like they should, making you age much slower, half as much in fact. You may not be necessarily a kunoichi from the Fuuma Clan or a female at all, you may take the Place of Iyo or any canon kunoichi or become a version Of Kojuurou who at least conditioned his body like a Shinobi for Free.

General [Undiscounted]

A Skewed ratio [100 CP]

This story couldn't have been possible without a unique quirk of the location, or perhaps the Bloodline, you see it is remarkably difficult for male to be born, in exchange the male that do be born are exceptional enough to be considered chief material, so here and in future jump, any offspring and descendant you have, any location you own, any organization you lead, you may decide the gender ratio, of course in exchange the rarer gender is more exceptional, at its worst the ratio is equivalent to those in the village, you may also skewer the ratio worldwide, but not to that level, you mau not delete a gender with that perk however, you may also increase the level of beauty to match this world, or enhance it if its already the case, as well as increase the chance of your lover being virgins.
