Home of John along with his mother Jen and sister Jane. This is where most of the story takes place. Expect the smell of cum and marijuana on entering.

2. Herron country

Deep in rural America the scrap of land known as Herron Country. Home to Jane's sister Veronica and her daughters. Most of the Herron clan live here, the girls end up size queen sluts and the boys end up well endowed breeding studs. Veronica's pot farm is located here.

Origins:

Size Queen
Calling you a slut would be too nice. You live to fuck, the bigger the better you always say. You take on the role of one of Jon's female relatives. Hope you like cock because you will be getting a lot of it. Most likely a closely related female relative of Jon, like Jane or Jen.

Stud
Ah the apple didn't fall far from the tree I see. Well it's more like a leek or a marrow than anything. You're one of Jon's male relatives or perhaps you're here to take the place of Jon himself. A well endowed man like Jon.

Perks (100cp perks for origins are free, other perks for origins are 50% off) (50% discount on origin perks)

General perks

STD immunity free
There's going to be a lot of sex with a lot of people while you are here. So I'll give you this, no form of sexually transmitted disease will ever affect you and you can't spread them on.

World's standard 100cp/200cp/400cp
The looks of people here are unreal. Men with two foot cocks and women with massive perky tits. With this perk you become this world's standard of gorgeous for your sex.

For 100cp you'll be considered 6/10 for this world and be in the top 10% when it comes to sexual characteristics.

200cp and you become 9/10 with a cock/tits/ass that's supernaturally large. Most of the Herron family are around this level with Jane and Veronica being the exceptions.

And for 400cp you break the scales! You'll have a face that makes people aroused just by looking at it, tits bigger than your head, an ass like a pair of bowling balls or a cock that would make even Jon's look small by comparison. Jane and Veronica are located around this level. At this level the perk will also be able to apply the 200cp version of it to any world you enter, turning planets of Plain Jane's into Jen level foxy bitches.

Size Queen

Sexy dirty talk 100cp
Young lady! I should wash your mouth out with soap! You know every dirty innuendo ever created. And which ones will most likely turn on your partner. Just don't say them in front of your parents.

Pot head 200cp
Jen takes a lot of drugs. Like a LOT of them. But she never seems to have any negative side effects other than a hangover. Thanks to this perk most narcotics and aphrodisiacs won't have any of their negative drawbacks on you once you take them.

Diamond Broker 400cp
In the comics, if the women of the Herron family are something, in addition to size queens, is successful, either because you know how to use your "gifts" or because you have great sugar daddies, you can easily get rich or support your expensive habits without having to really work. Give Aunt Veronica a run for her money

Bimbo fitness milf 600cp
You have incredible strength and athletic capabilities. Like Jen you've spent years turning your body into a athletic fuck machine to surpass all others. You have done the same. Your stamina and endurance is nearly impossible to keep up with, it would take a full orgy to reach your limit and your flexibility allows all forms of positions that usually wouldn't be possible.

Stud

Shoulder Angel/Devil 100cp
In the comics Jon has a shoulder Angel and Devil each trying to steer him in a different direction be it good or bad. You now have a smaller version of yourself on each shoulder, one an Angel encouraging you to do the right thing and the other a Devil who encourages you to do bad. They really help with different decisions.

All American Bod 200cp

Huba huba. Looks like Jane's mothering style of body before brains had one good effect. Like Jon you have a peak body for a human man. In terms of all physical aspects such as strength, speed and endurance you are at an gold medal Olympian level. Not superhuman like the Cock Hungry Milf that you'll be living with but not bad.

Sorry Sluts 400cp Jon lived a life that would drive others crazy, especially when his secret was discovered but he still managed to hold back for a long time however he failed, you on the other hand have mental strength great enough to turn the women of the Herron family into proper members of society. Weirdly it makes you supernaturally good in bed, without explanation.

Like Father like Son 600cp
Ever wonder how Jane and Jen aren't constantly pregnant? Well it's simple. For a Herron girl to get pregnant she needs large, thick loads of cum. The kind only another Herron can produce. Now you can impregnate virtually any sentient lifeform as long as it's female. The best part is your offspring will always take after you, including all the perks you amassed before conceiving them. And if you're a creep (or just weak willed) , knocking up your daughters would not result in the nasty effects of inbreeding.

Items

Size Queen

Sexy Nightwear 100cp
Sometimes it's hotter when you have clothes on than nothing at all. You are now the owner of a set of sexy lingerie set to your preferred style. This will change overtime as your tastes evolve and will repair themselves if damaged.

Infinite Sex Toys 200cp
Dicks aren't always a guarantee, sometimes you've got to get creative. Or have an Amazon account. This 1x1 meter box contains countless sex toys of all shapes, sizes (tho usually big) and functions. They clean themselves after use (unless you don't want them to) and are nearly unbreakable.

S.S.S.T. 400cp

"How to make your own Ideal Stud, the Special Supreme Stud Training", the long lost secret of the Herrons, long ago the women of the Herron family tired of "normal" guys developed a "confirmed" method of developing their Ideal Stud, a series of diets, massages, stimulants, herbs, training and ideas, that are guaranteed to develop the best traits of a Herron-approved Stud, over time developing a harem of Jon's level studs is a piece of cake.

Veronica's Farm 600cp
The original home of and main source of income. A fully decked out weed farm capable of growing at least 100 pot plants with room for expansion. With the right business model and loose enough morals this could become an extremely profitable business empire.

Stud

Comfy Underpants 100cp
When you've got a piece of shmeat like the Herrons you need specially made underpants. Or at least you SHOULD get some if you can. This set of your preferred underpants is capable of hiding your junk comfortably even when fully erect. They also clean themselves so any loose pre-cum stains should disappear quickly.

Jon's Car 200cp
One of the few places that Jon can go to escape the hedonism of his Mother and Sister. (Most of the time) it's got a gas tank that never empties, a radio that always picks up the nearest station. And it's got a low carbon to mile comparison.

The Book for Success in Life by Jon 400cp
This is useless for the rest of the Herron family but maybe you can use it, it is simply a guide to help people through instructions and tips to develop essential areas like cooking, cleaning, mechanic, studying to expert/genius level quickly and efficiently without disturbing your day-to-day life, it also includes how to do it fast, how to satisfy your woman and, strangely, how to manage your harem.

Herron Family Home 600cp
Home of our reluctant protagonist the Herron household is a three floor suburban home where most of the series takes place. It comes equipped with all the modern

conveniences that the American home should need along with a gym and enough bedrooms for Jon and his Horny Harem.

Companions

Import 50cp/400cp

Jon Herron 100cp
The main character of the story, Jon Herron just wants to be a normal man with a normal life. But due to his ‘gift’ and the cock hungry nature of his female relatives he can’t have it. Perhaps you can give him the chance he never had along your travels? He has all the perks from Stud origin but Sorry Sluts.

The Herron Family 400cp
Are you sure about this? Fine, with this all the girls in the Herron family, that being Jen, Jane, Aunt Veronica along with her 17 daughters, will come with you filling one companion slot (that’s not the only thing getting filled) and all girls have every perk from Size Queen origin, with most girls having the 200cp version of world’s standards while Jane and Veronica Have the 400cp version.

Drawbacks

Supplement mode +0cp
This jump has been added onto another jump. Regardless of what world it is you’ll end up in a world far lewded than the one you would have ended up in without supplement mode.

Drop-in +0cp
For those who aren’t into incest this drawback is for you. You drop into the world with no backstory or relation to any of the characters.

Canon character replacement +0cp
Instead of entering as yourself you will start as one of the canon characters in the story.

Small dick +100cp (stud only)

Oof, sorry to tell you this son. But you've got a small dick. It wouldn't even hit the cervix on any girl, prepare to get laughed at by most women in this world.

Realistic stretchiness +100cp (size queen only)
Yeah that's not going to fit. No matter how much lube you use, anything bigger than ten inches is going to hurt a lot!

Obvious bulge +200cp (studs only)
Yeah you're definitely a shower. You've got a massive bulge in your pants, it will bounce and swing about as you move. Expect it to be an easy target for assholes and immature kids. The ladies love it so there's an up.

Cocks on the brain +200cp (size queen only)
You struggle to think about anything other than getting laid by the biggest cocks you can find. Everything else in life ranging from your hobbies to your family will always come second to cocks.

Bad home life +200cp
Well at least your drunk step dad isn't around. But any family you land in will be just like Jon's. Totally obsessed with their own pleasure and while not physically abusive they will neglect many familial duties such as not stealing from your wallet or not fucking Santa while your relative are over. Also expect high bills because they will spend tons of money on jewelry and clothes.

Criminal +400cp
Much like Aunty Victoria you are involved in a criminal operation of some form. Unless you are very careful you may wake up to the police knocking on your door. You really don't want to be someone's prison bitch in this world.

No bitches? +600cp
You can't get laid. No matter how hard you try you will be trapped in a state of not being able to fuck. Almost like there is a force field around you that acts as a repellent for those you find attractive. Hope the points were worth it.
