The Happytime Murders Jump
v1.0

by Maskedduskrider

In a world of sex, drugs and puppets there is an inequality between Humans and Puppets with the later treated as second class citizens. This story follows the case of the Happytime Murders as members of the beloved *Happytime Gang* get killed off. Former Puppet Cop turned Private Detective Phil Phillips lost his spot on the force after missing a shot to save his former partner Detective Connie Edwards accidentally killing an innocent puppet. Now years later in a city where Puppets are no longer legally allowed to be cops the two are forced to team up after Phil's brother former star of the *Happytime Gang*, Larry "Shenanigans" Phillips is murdered. Torn apart by dogs let into his property. Only things go far deeper than either of them expect.
Now just who are you in this case? An innocent caught up too deep? A possible victim to be? A former or current officer of the law? Or did you team up with the Murder or have your own plot in mind for this puppet filled world having dived in too deep into a world of sex, drugs and puppets to escape?

Take **1000 Creation Points** to fund your adventures.

Starting Location

Feel free to pick any locations in Los Angeles. Phil's Office meeting with Bubbles his human secretary for a case you need help with? On the street dancing for the man? In the LA Police Department another day on the job? Up to you how this shit goes down. Just has to be somewhere in LA, the city of angels is about to get bloody and you're involved somehow.

Age and Gender

Pick your age, the only requirement is you have to be at least 21 to enter this Jump. This is no kids' jump.
By default your gender is whatever you were previously.
It is **50 CP** to change your gender.

Origins

Drop-In
Feel free to add this to any of these other origins.

Police/ Private Detective

Either your on the Force trying to bring law to this fucked up city, or you're not on the force for whatever reason you have. If you're a Puppet you were forced to leave after being fired after the city wide ban on Puppet Cops was enforced. If you're human you get the option from the start to either be a cop or not. Either way you got the skills needed to solve the case.

Former Washed Up Actor

You used to be part of the Happytime Gang! Good for you! Now though years after the 90s you are just a washed up actor trying to make ends meet. Maybe you have some luck and are involved in some new project and got a lot of money? Maybe you're a drugged out stoner living under a bridge trying to get your fix? Maybe the only job you could get after working on a TV show for Puppets was as a stripper at a Strip Club for Puppets? All up to you baby. It's alright with me.

Master Criminal

Maybe you are a gangster of some kind after you lost your part in the show? Maybe you saw something horrible that made you snap and spend decades setting up events to get revenge on the one you blame. Either way you are smart, resourceful and dangerous as fuck! And oddly sexy too.

Race

Human [Free]
You are a boring vanilla human, hope this universe has those otherwise you might stick out.

Puppet [+ 200 CP]
Feel free to pick a design human, animal, monster in the end you still look like something that stepped off the Muppet Show and got hit by a stick most of the time. You're one of this world's second class citizens who get a LOT of shit done to them. You know what, take this CP. You are gonna need it as things will get fucked up.

Perks

Origins get their 100cp perks for free and the rest are discounted to 50%.

General [Undiscounted]

This Mystery is Brought to You by the Letter P [Free/100 CP]
Ever get sick and tired of how fucking childish some jumps are? Want to just be able to get your fucking porn or be able to go out and get some drugs, but they don't ALWAYS exist in your jump? Well with this you can now toggle that shit into your future jump. You get it for free here as you got a world of puppet people that can fuck, do drugs and other adult rated shit they wouldn't let Sesame Street pull. Take it with you for 100 CP to use whenever.

Fucked Up Sense of Humor [100 CP]
You have a fucked up sense of humor. And now you can get away with the shit you say even in settings it wouldn't fly. For example saying, 'Yeah! I unsew your mother, and made a jacket out of her' to a puppet will not get them to beat the shit out of you if you say it for a laugh. Well unless you switch this off if you want to really get them to try to take your ass down.

Organ Transplant [400 CP]
This is a Capstone Booster
OK, you're a freak of nature. Let me get into what this means. Either you got shot and needed a transplant, only to end up waking up in a fucking hospital with a lung that is not your own SPECIES or you took surgery WAY too far to be accepted by others. Long story short you're either a Human with a Puppet Liver or something.
Not only can you use abilities from other Racial Perks or Items list for a discount, you can apply this to future jumps if you want to mix future species by paying for both or at least a -100 CP for the new species you're gonna be if there is no cost listed.
Unlike what happens with Edwards or Larry this actually makes you better at your job somehow. Don't ask me how, but this is a Capstone Booster.

Human

Oddly Sexy [100 CP | Discounted for Human]
For some reason even species that don't like Humans find them oddly sexy in most media. Especially here to the point the top stripper in a puppet strip club is a human woman. Applies to you now no matter the form.

Straight Face [200 CP | Discounted for Human]
The humans of this world are able to keep a straight deadpanned face having lost all sense of wonder. Now it's not as bad as that for you, but now you can watch the more absurd stuff that goes on without raising an eyebrow. Unless you're playing for a reaction.

Comedy Movie Durability [400 CP | Discounted for Human]
You can take injuries that should have killed you far easier if it was funny. Play things up for laughs and greatly reduce just how much damage you take at any given time. Doesn't work unless you're funny about it though for fair warning practice your Stormtrooper Scream so that when you fall a great distance you land on a thing of pillows and not into the airplane engine!

Adaptive Body [600 CP | Discounted for Human]
You can give Humans all the shit you want. At the end of the day they always seem to survive shit that shouldn't work in the media. For example get shot in the liver and get an organ from a different species that somehow works fine enough. Even though it's made of felt and stuffing. Now that applies to your body too!
Capstone: No negative side effects of surgery or body modification will happen for now on. Even if you get that Puppet Liver you will not have a sugar addition that sends you going straight into diabetes. Heck if you really wanted to you could fuck a puppet and have a hybrid child. Good luck with that shit you kinky weirdo.

Puppet

Puppet Liver [100 CP | Discounted for Puppet]
You can frankly survive amounts of sugar that would kill off most humans. Your body just processes the stuff better, and from now on your body is able to handle large amounts of stuff that are bad in that amount food wise at least.

Rated R Puppet [200 CP | Discounted for Puppet]
Your body is that of a Puppet in a rated R Movie. Of course you can have sex and do all that stuff now! Sure your body cums silly string, but for whatever reason your body no matter the form is up for Rated R scenes that can appear in the movie.

Stitch and Switch [400 CP | Discounted for Puppet]
It is easier for your body to be altered and changed when you want it to. Your body is mostly stuffing as long as enough of you is around inside your body you can live through shit that will kill most humans by getting a needle and thread along with the replacement felt in time. Well as long as no one takes a shotgun to your head. You're screwed in that case and not the fun way!

Protagonist Puppet Luck [600 CP | Discounted for Puppet]
You were the main character of a TV show for Puppet characters. You are not going to get killed off randomly by accident or by villain's plans. Think of this as low grade plot armor that will not let you die in an accident or when no one is watching.
Capstone: Your plot armor got a bitchin upgrade. You are going to make it to the big showdown at the end of the film for sure. And you have a massive boost to one moment of luck you need during that encounter. You need to make sure you don't miss the shot this time. This only works once per Jump, or every 10 years whichever comes first.

Police/ Private Detective

Get A Clue [100 CP | Discounted for Police/ Private Detective]
You pick up on clues quickly. You notice the stuff that can tell you if something such as if something is a robbery gone wrong or a murder on the loose.

Marksmanship [200 CP | Discounted for Police/ Private Detective]
This is a Rated R puppet movie. Of course you need to be able to shoot a gun for an epic scene! This skill boosts your marksmanship.

The Pieces Come Together [400 CP | Discounted for Police/ Private Detective]
Your luck is often bipolar, but even if you don't get it at first all the clues will line up sooner or later. You just have to be willing to dig deep to search for them. Boosts your skills as a detective.

Don't Miss the Shot [600 CP | Discounted for Police/ Private Detective]
You never miss the really important one. You don't freeze up. When the time comes you will not let your partner down. If someone you care about is endangered, you get a boost to your ability to save them. Even if it means taking someone else down.
Capstone: One per Jump or every 10 years your luck is boosted to SAVE the people you care about. To keep them from getting hurt and dying. A gunshot fired, forcing a puppet doctor to perform surgery on a human. Anything that you need to get the job done to save them you just have the luck you need.

Former Washed Up Actor

Ex-Actor [100 CP | Discounted for Former Washed Up Actor]
Some things still carry on with you even if your acting days are long past. You are a skilled actor, not a great actor, but you have enough skill to fake your own death and pretend you're not doing jack shit even when face to face with someone about to take the fall for your 'death'.

Adult World Skills [200 CP | Discounted for Former Washed Up Actor]

You had some fall back skills in life. Though not really child friendly in most cases you are not gonna end up passed out from an overdose in an alley. Pick one job set and you have the skills needed to do the job well. Shopkeeper, Porn Director, Bouncer, Stripper or ect. Just one though.

Prop Creation [400 CP | Discounted for Former Washed Up Actor]
You live on a very small budget, yet are creative. You are able to make props and other sorts of things you need to make a living or do a job with what you have laying around the place. Gives boost to crafts based skills, especially non-lethal stuff. Heck with these skills you could make a fake body double of yourself and set it on fire with everyone believing you actually died!

Media Pull [600 CP | Discounted for Former Washed Up Actor]
Turns out you're not THAT washed up after all. You got enough stuff going for you to make a campione and get back into the business if you really wanted to. People recognize you and you have skills needed to star in your own show if you really wanted to. You can use this to get favors and attention from seemingly random people as long as they are fans.
Capstone: Now it seems like you can't go 100 ft without walking past someone that used to watch your show or knows of you. You never went down with the show and have options for more jobs if you want them. Acts as a luck boost giving you favors and attention from people that can actually and want to help you out when you really need it.

Master Criminal

Evil Wears Heels [100 CP | Discounted for Criminal Mastermind]
You are fucking HOT and you know it! Gives a boost to Charisma and makes the hero become putty in your long term plans. Hard for the big damn hero to know you're involved when they stare more at your boobs than your glaring eyes full of hate afterall.

Minions Recruitment [200 CP | Discounted for Criminal Mastermind]
You are VERY convincing and able to get people to work for you. As long as you get what they want you can get almost any mook off the street to do a task for you. And with enough effort you could get someone to become your devoted follower in a long term revenge plan.

Convincing Liar [400 CP | Discounted for Criminal Mastermind]
You can spin the truth a dozen ways. Especially the ones that fit you the most. Whether it is using the fact you slept with someone to make them take the fall for the death of someone. Or lying about your real identity and goal so well your spouse has no idea they have been a pawn in your long term revenge plan since the start.

Mad Woman Revenge Plot [600 CP | Discounted for Criminal Mastermind]
You are fucking insane and use it! Your end goal is unpredictable and it would take someone stumbling onto your top secret hidden room by accident to even put the pieces together. You are unpredictable and deadly without morals stopping you from the goal and getting your revenge. Boosts your planning ability as well as making it hard to predict what you are going to do.
Capstone: Not even a psychic could predict your plans. Helps you are now brilliant at making revenge plots so complicated and well hidden that no one finds out unless you leave behind evidence on purpose. Helps you pick up on the facts you need to set your plan into motion and make everyone walk right into your plan.

Items

Items may be imported into similar - items, weapons to weapons, clothes to clothes, etc.

Any item alterations and upgrades made will be maintained between jumps and are fiat-backed.

All origins get their 100cp perks for free with subsequent purchases being 50% off, and all other purchases for that origin discounted by 50%.

Building complexes, unless stated to have an in-world location, will be placed near your starting location in-jump for your stay and will be attached to your warehouse after the jump is complete, they can then be imported into future jumps as desired.

General [Undiscounted]

The Happytime Gang Complete Series [100 CP]
You have the complete series for the show within the universe most people in this case are in some way connected to. This is the version from the Movie, along with the one you starred in if you did star in it or your companion. Look back through this 90s classic and ask yourself. Just what were you smoking when you picked this Jump? Post Jump the Movie "The Happytime Murders" both OG and version of you in this Jump will join your collection.

Puppet Hospital [600 CP, Discounted for Puppets]
An emergency hospital that treats puppets. Get there in time and you may just survive. If you're a human you're out of luck…unless you force them to operate on you anyway. Post Jump this will include doctors with knowledge of your and your companions species who will help get you back on your feet good as new. Will join you in future Jumps or as an extension of your warehouse.

Police/ Private Detective

The Book [100 CP | Discounted for Police/ Private Detective]
A big book of laws that you can use to look up the crimes you are charging someone for. Honestly a lot of really weird laws in this and future Jumps. This updates with each Jump you go to.

Cop's Best Friend [200 CP | Discounted for Police/ Private Detective]
A gun. Well a pistol, but you get the picture. This will not run out of bullets and intimate most people enough to get them to talk.

Personal Office [400 CP | Discounted for Police/ Private Detective]
You have a personal Office to see your clients in. It is located somewhere that makes it both easy for clients to find in Jump as well as safe. People can't hear or see what is going on in your office so that if things get a little….freaky they can't use it as evidence against you for whatever reason. Like a long term plot to make you take the fall for the murder of the woman's wife you were fucking like crazy. Post Jump you can import this into future Jumps or keep it as a Warehouse attachment.

The Official Badge [600 CP | Discounted for Police/ Private Detective]
This is an official badge to be a Police Officer or member of the FBI. This makes people shut up and listen to you. This badge puts you into the system and allows you to make use of resources from the local law enforcement agencies without people asking too many questions. Need to look up the history of someone, no one is going to think twice about it.

Former Washed Up Actor

Happytime Gang Money [100 CP | Discounted for Former Washed Up Actor]
The Happytime Gang is still being shown on TV. As an actor from that show you get a cut of the money whenever it is shown. This is a small percent of the cash since it is split with the other Actors. In future Jumps if you are the only one that has this you get full access to the money.

Supply of "Pixie Sticks" [200 CP | Discounted for Former Washed Up Actor]
OK, I'm gonna be real with you. These are not actually Pixie Sticks. Unless you want them to be if you know what I'm saying. You got a supply you can pull out of your pocket at any time that looks like Pixie Sticks. Enough to last you the Jump, though just you. If you start giving away or selling products it is up to you to figure out how to make more.

Mansion [400 CP | Discounted for Former Washed Up Actor]
You invested well and you got a Mansion with a top of the line security system. No need to fear someone letting dogs in to maul you to death. Comes with a hot tub and anything else you need to be comfortable such as TV with many DvDs and Bluerays of all the stuff you ever Starred in. This will follow you into future Jumps or as an extension of your Warehouse.

The Studio Sued by Sesame Street [600 CP | Discounted for Former Washed Up Actor]
You now made the studio that MADE this movie! Mind blowing isn't it? You can use this place to film your comeback film. Hire actors and get together what you need. Comes with all the stage pieces, costumes and access to the technology you need to film and make special effects. **WARNING THIS WILL NOT LET YOU MAKE BLOCKBUSTERS WITHOUT SKILL AND OTHER ACTORS AND DIRECTORS.**

Master Criminal

Plotting Board [100 CP | Discounted for Master Criminal]
It helps to get it all laid out sometimes. Don't worry this is going to be in your warehouse unless you don't have access to it. This updates as your plan changes and helps you keep track of the details of your evil plan. You can swap out which plan it is with a thought if your prior plan is just not working.

Murder Weapon [200 CP | Discounted for Master Criminal]
You have a weapon that is untraceable to you. You could go classic and go with a shotgun that the cops can't match the ammo from a crime scene to. Or you could get creative and go with a dog who can rip the fluff right out of the target!

Private Jet [400 CP | Discounted for Master Criminal]
You now own one of your own Private Jet in any style and color with unlimited fuel. Has enough room for a good few dozen people to sit around as you fly off into the distance. Untrackable and air traffic control never notices when you are nearby. Great way to get away and start a new life.

Adult Shop [600 CP | Discounted for Master Criminal]
You own an adult shop that is on the less than legal side of things, not that the cops care since the good ones will not find the place and corrupt cops spend their paycheck for the product inside. It can be a Strip Club for Puppets, or a Porn Shop which makes disturbing puppet porn with octopus and cows in the back or something else. You are free to change things, though you can only change it between Jumps. Comes with employees that will staff your place. No one will even question why you have species that don't exist in Jump on staff such as puppet bunny shop clerks, human strippers, a live cow puppet for porn in the back and anything in between. If inserted into the Jump it will provide some income without being traced back to you, or you can have it as a Warehouse extension.

Companions

Companions can purchase more companions.

Companion Import/Creation [50-200]
Well import a single companion into any origin and race for 50cp each or eight for 200cp. Comes with 600 CP for them to make use of. You could also make your own if you want to.

Canon Companion [100]
So you want to take any other existing character from this world. Well then this option is for you.

Non-Canon Cameo Companion [100]
Hey I got a deal for you? Know how this movie has many other puppet show references such as Sesame Street. And more than a few puppets being stuff sold off and used by other companies? Well if you want to you can bring over characters into this world as a companion as a cameo or more. Just a fair warning if you are bringing in say Elmo you are not bringing in the happy child Elmo so much as the burnt out puppet actor who plays the character. How that looks is up to you.

FBI [200 CP | Discounted for Police/ Private Detective]
You got a pair of FBI Agents knocking at your door. Long and short of it is that they are going to help you and believe you are innocent. You have the help of trained professionals to help bring in the real perps. You can make them followers, familiar or companions your choice.

As Seen on TV Happytime Gang [200 CP | Discounted for Former Washed Up Actor]
These are the Happytime Gang before everything went downhill as they appeared. They will be child friendly and happy people. Not washed up and fucked up aftermath celeberties living in horrible conditions for most. Hey who knows maybe you all can make a new version of the Happytime Gang in whatever world you landed on. You can make them followers, familiar or companions your choice.

Puppet Hit Squad [200 CP | Discounted for Master Criminal]
You got a Squad of average puppet hitmen who look like scary fuckers wielding guns up the wazoo in groups of 6 at a time. Send them after a target and most normal targets will end up dead before figuring out what is happening before they drive off. You can make them followers, familiar or companions your choice.

Drawbacks

Self-Insert [+0]
So you want to be one of the Named characters huh, well if you take the appropriate background, race and skills as closely as possible then you are free to go in as any character you would like.

Supplement [+0 CP]
Want to hook this shit up to another Jump? Pick out any Puppet Jump and add this as a Supplement to change it from a fun loving child friendly show into a world similar to this one.

Plot is King [+0 CP]
You may leave any time after the main plot is complete, unless any drawback or scenarios are still in effect and incomplete.

Extended Stay [+100 CP]
For each purchase of this your time here is extended 10 years.

Sugar Addiction [+ 100 Puppet /+300 Human CP]
For Puppets it's bad but not the worst thing in the world. So you have a sweet tooth. Not like the stuff will kill you easily. Not like humans who would struggle with diabetes and possibly a coma if you dive too far in.

Who's the Killer? [300 CP Police/ Private Detective Only]
You don't remember jack shit about this plot. Much less who the killer actually is. You are going to have to actually figure it out yourself. Good luck.

Fallen Star [300 CP | Discounted for Former Washed Up Actor]
The loss of the show hit you REALLY hard. You couldn't get back into the game no matter what you tried. You are going to have to learn to move on from this otherwise you will end up living under a bridge drugged out as you prostitute yourself for your next fix.

REVENGE! [300 CP | Discounted for Master Criminal]
You are nuts! You are completely driven during this Jump for one goal. Revenge! Pick a character you want vengeance against and in this they did something to you. You want to make them suffer. It is not good enough to just kill them. They must know true agony! How is up to you but you NEED to make them pay!

Target of Vengeance [+ 400/+600 CP]
Someone wants you dead and in the ground. This someone actually has the skills and mania to do it. This is not the main villain or anyone else from the film. Someone entered this Jump just to do you in for something you did before. Could be someone you beat up in a prior Jump. Maybe someone figured out your waifu you took was actually that someone's girl or boy, we don't judge. Anyway they are after your ass and will stop at nothing until they kill you. And until you figure out who they are you can't even touch them! On the bright side they left clues around to help you ID them. Unless you took the 600 version of this. Then you are screwed and better hope that you can survive what

they have planned for you since you forget this exists and will ignore any clue left behind about their goal for you.

Lockdown [+600]
You have no **Out Of Context** items, powers, or warehouse.

Decisions

You have three choices …

Go to next Jump
Continue onto the NEXT GREAT ADVENTUUUUURE!!!!!! The show must go on after all!

That's All Folks
Stay and enjoy your current life.

Go back
Tired of your travels and want to rest back home, well then this is for you, grab this ticket back to your starting point and go see old friends.
