Generic Hentai Modern

Welcome to a world much like your own, albeit with a few changes. A few, sexy, changes to be precise. Welcome to Generic Hentai Modern. Things are pretty much the same as what you'd expect, except that almost everyone is getting laid on a regular basis.

Just dropping you in wouldn't be much fun, so go ahead and take these to help get you started.

+1000 cp

Age

Pick your own, as long as it makes sense. Teenager for example, only really needs to be 'school age', but considering that medical degrees take forever, that might get you up to 30.

Gender

Again, pick your own. Futa needs the relevant perks, but otherwise free choice.

Location

Last but not least, where exactly you are in the world. Japan is basically the land of Hentai, what with most of them taking place there, but you can start off pretty much anywhere.

Origins

Pick a major origin, and then two sub origins inside your major.

Drop In

A being from the great beyond, who does not exist to the world at large. Not a shut in, they literally don't exist. Well, they do now. Your three options are : (Futanari), which revolves around introducing the halfway gender into the world. (Doujin), which bends the rules to make it easier to get laid. And (Omnisexual), where you fuck all the things.

Teenager

Elementary, middle, high, or college. Take your pick, and have fun with puberty. Your three options are : (Student), where you'll spend most of your time in school seducing the staff and fellow students. (Idol), where an education takes the backstage to public opinion. And (Sports) where you will learn to become the best through sex.

Adult

A responsible adu- nope, can't even say that seriously. Either way, you're all grown up and ready to rumble in the real world. Your three options are : (Rapist), and gathering all the blackmail material. (Family Man), and proving that love knows no boundaries. And (Molester), where you've got the touch, you've got the power.

Discount Rules

100 cp perks and items are free. The remainder of your two sub origins are 50% off. You may sacrifice your second sub origin for one floating discount anywhere in the jump.

Perks

Drop In (Futanari)

100 cp - Fully Functional Futa

Something that shouldn't really exist, but seems to anyways? How about someone that's both genders? You are now a futa, a shemale, a hermaphrodite, or whatever the actual word for it is. Basically, a chick with a dick. You can design exactly how this manifests, and if you're willing to buy this multiple times, can create several kinds of futa to switch between.

200 cp - Pocket Dimension Pants

Right, so, the thing about a dick bigger than a leg is, it probably won't fit in your pants. Maybe in a skirt though. But we've already fucked physics over, so how about a little more? Your dick fits, and pretty much invisibly. Almost as if there was a pocket dimension in your pants. ...What do you mean you're wearing a bikini?

400 cp - Gender Boundaries

The fun thing about being a little bit of both genders, is that you can now qualify as whichever one you want in any specific situation. Walk into the girls' locker room after gym? You're female. Start flirting with them? It's not gay, 'cause you're a guy. Whichever is most convenient at any point, even if it contradicts itself.

600 cp - Third Gender

Congrats, futanari - or hermaphrodite, or whatever the 'real' term is - is now a full blown third gender. The exact specifics of their body is taken from your purchase of Fully Functional Futa, so if you bought that multiple times, you can have them as well. You can also turn this off selectively, having one kind and not another during a jump, or none at all. You can only make that choice within the first day of the jump however.

Drop In (Doujin)

100 cp - Unbroken Body

Under normal circumstances, the body has a very strict set of limits that it can't bypass, and rules that govern its basic shape. Fingertip to fingertip equals height, and so forth. Under normal circumstances. Circumstances which aren't occurring now. This gives you a little bit of leeway with what your body - or rather, the human body - looks like. And obviously, what it can take without breaking.

200 cp - Sexual Stamina

Another bodily limit, you can't get more out of it that what you put in. In this case, semen and energy. Basically, a sex marathon and a regular one are both exhausting. You, on the other hand, can cum gallons without worrying about dehydration, and rut for hours without getting tired.

400 cp - Jump Across The Room

You know right when you're about to get it on with your significant other, and you hear the door start to open? And three seconds later you're clear across the room, whistling innocently? Well, don't bother. As long as it's either fairly common knowledge that you're dating, or your actual spouse, the intruder won't see anything wrong with it. Doesn't matter if they knew beforehand, just that your lover is actually your lover.

600 cp - Porn Logic

Society is dictated by laws, which are attempts to dictate morals. Sometimes, it doesn't work too well. Like now. Right now, you get to skip just about every stage in the relationship and go directly to sex. People will dress sexy, so complimenting them will get you laid. Exchange cooking tips in the grocery store, naked apron at her house. Trip and grope, steal the rest of her firsts too. Sexier women, smaller amounts of clothing, and looser morals, in a nutshell. Can apply to any gender at your discretion, despite the wording. You've got control over a dimmer switch you can activate which determines the extent of the effect, and whether or not it's 'just for you' or for everyone in general.

Drop In (Omnisexual)

100 cp - Fetish Detection

Certain people like certain things, and other people don't like them. It's just a fact of life, not everyone will be satisfied by the same thing. Fortunately, you have a knack for finding out or just guessing what people like. Favorite food, what they want in a lover, their fetishes, all that jazz. Try not to get mistaken for a stalker.

200 cp - Magic Penis

Moving in the other direction, you can temporarily 'steal' body parts, either through copying or through outright theft. Want to have a horsecock for tonight? Find one, and give it a quick pat on the head. Or, be kinky and steal popular dude #39's and replace it with his girlfriend's vagina. Just for kicks.

400 cp - Half Breeding

For some reason, the sexier something is, the farther out the window the rules of biology seem to go. Never mind beach ball breast, or dicks larger than your arm, how about the fact that certain things that can't get pregnant have? Be it bear or dragon, shoggoth or artificial intelligence, or even a planet, you can breed with it and have a healthy child. Now, why you need to fuck half these things I don't know, but you can, and you can get it pregnant. No I don't know how a half AI or half planet kid would work.

600 cp - Flirt With Everything

Are people not enough for you? Do you want to fuck more exotic things, just for the hell of it and to say you did? Well, I can help with that. Once a month, you can designate an object, animal, plant, location, basically anything, and have it generate a physical avatar that you can sleep with. The personality and body is based on what you choose, so your sword will probably be loyal to you, but a lake wouldn't be.

Teenager (Student)

100 cp - Dress to Impress

What you wear says a lot about you, so what you wear should match who you want to be. Put your hair up and find some glasses, and suddenly you're the sexually repressed librarian. A student uniform and a cheerful attitude, almost certainly a blushing virgin. Hell, if you have the body type to pull it off, put the student uniform… of the other gender, and watch them start crushing on you.

200 cp - Open Relationship

No matter how many times your actual lover finds you with another person, they won't break up with you. Now, this is a tiny bit of a double edged sword, so if you get pissed of about them sleeping with another person, just remember that you've been doing it more and not to be a hypocrite. Because that probably will make them dump you. Also, try to do romantic things with them first, and not others.

400 cp - Everybody Knows, Nobody Cares

That the club you attend after school is primarily based on sex. The information just seems to slide one ear and out the other. Mind you, some people will actually show up to attend, but you could hand out flyers on how your next meeting will have a gangbang with the three hottest girls in school, and not one person would raise a fuss over it. Hell, you might even get some more girls to come, instead of just boys.

600 cp - Have You Heard The Rumors?

There's a rumor going round, about some girl out behind the gym after dark. And there's another about the swim team and their coach. Both of these are blatantly untrue, but whens that ever stopped you? Once you start a rumor, the more it spreads, the more likely it is to come true. You can say that the cheer squad is going to hold an orgy at your house, but unless you have an excuse for them to be at your house, it certainly won't happen.

Teenager (Idol)

100 cp - Get Down Tonight

Regardless of how cute an idol is, if they're a klutz who trips over their own feet on stage, they probably aren't going to remain an idol for very long. Thankfully, you will be doing no such thing. You're no hypercompetent superstar, but singing, dancing, wardrobe coordination, and figuring out which side is your 'good side' all come naturally to you.

200 cp - One Minor Exception

There's this one little highly inconvenient rule about idols that you're probably about to run into. Specifically, no dating. No boyfriend. No sex! It's supposed to preserve the appeal or something. But, since this is hentai, that rule was made to be broken. Even if someone gives you a firm talking too about how you aren't allowed to date anyone, they'll fail to punish you for actually breaking it. Maybe even to notice you breaking it in the first place. Coincidentally, you also qualify as a virgin sacrifice even if you aren't.

400 cp - Blackmail Proof

Now, it's not to say that you simply can't be blackmailed, but the vast majority of attempts to gather material to blackmail you with simply won't work. The key here is 'could you have done anything', like physically remove the camera from its hiding spot before anything could be taken, or sneaking into the security office to erase the last five minutes. Regardless of if you actually knew it was coming, as long an you could have gotten rid of it, it will do so automatically. Or if you prefer, it can be shunted into the warehouse for your perusal.

600 cp - Wink And A Smile

An idol, for all intents and purposes, makes a living off of being a sex object. Well, mostly. Anyways, you have the sheer charisma, beauty, and attitude to make an entire crowd - a BIG crowd- fall head over heels for you with only a few sentences. Hell, with a song and dance and a little bit of skin, you can make the people watching you on tv fall as well…. even if it was a recording from weeks ago. Mind you, there are probably people you don't want falling for you. Good luck with that, by the way.

Teenager (Sports)

100 cp - Wet Tshirt Contest

When doing sports, you may come to realize that having J-cup breasts or a dick as long as your leg makes going anywhere fast very painful. Thankfully, you don't have that problem. As long as you're in good health - ie, no broken bones or debilitating illnesses - you can move about with perfect ease. Even if they're bigger than you are, walking around - or running, as is probably more accurate - won't be hindered at all.

200 cp - A Kiss On The Cheek

When does a person fight harder, train longer, run farther? When there's a reward waiting for them at the end. That's why the results of your training are more effective when there's sex afterwards. Mind you, the boost depends on a cross between how much studying there was and how much sex there was. A full day of studying followed by a blowjob won't do much, nor will five minutes and a gangbang. It's a balancing act for both of you.

400 cp - Star Athlete Homework Plan

More specifically, as long as you perform well, you won't have to do it. No, not really. Not even in hentai. More along the lines that as long as you keep winning - you are winning, right? - nobody will bother you about your training, homework, or pretty much anything else you're supposed to be doing. So if you ace the test, they'll forgive you for not turning your homework in, and if you take the leading role in winning the game, they'll forgive you for not doing the test.

600 cp - Another Kind Of Training

One for stamina to be precise. And the more you have, the better it is. It's sex, if you didn't know, which you can substitute for other kinds of training. Your homework will do itself, your presentation will type itself out, and the cardio you didn't do will make you feel the burn. As you can imagine, it stacks with A Kiss On The Cheek rather well. Not quite as effective as doing it the hard way, but pretty well.

Adult (Rapist)

100 cp - The Look In Your Eyes

You know how they say it isn't rape after the tenth time? Well, that's when little hearts show up in the pupil of their eyes, and they start asking for it. You will know exactly when your kidnapped girl can be trusted to not run away, mostly from the hearts. No one else can see them, including the girls. So if the hearts go away, they need more raping.

200 cp - Tell No One!

You ever notice how just about every piece of blackmail ever has some line about 'don't tell the police', and they always do? Well, the people you target must be kind of stupid, because they'll choose to suffer in silence. "Hi honey, how was your day" "Oh, it was fine*." *fine means she got raped.

400 cp - My Kind Of Girl

As with most people, you probably have a fetish. Young, old, mid, big chest, flat chest, virgins, milfs, bicycles, whatever floats your boat. With that in mind, pick two categories. People who match it are now somewhat weak to you. They'll struggle less when you sneak up behind them and ask if this smells like chloroform to them, or trip when they try to run away. That kinda thing. Effects increase if they fall into both. Can be purchased multiple times.

600 cp - Rape Isn't So Bad

After the tenth time, as the saying goes. Regardless, that's not quite what this does. Your fetish - which could be rape, or it could be something else like blowjobs - is now contagious, for lack of a better word. After sleeping with you, and participating in it, people will find themselves enjoying it far more than before. After a few rounds, they'll be approaching you for it, rather than you convincing them to do so.

Adult (Family Man)

100 cp - Hidden Relations

It's easier to conceal your relationships from others you don't want to know about them. If you don't want it known you or the other person would have to make a major mistake for it to be found out.

200 cp - Taboo Transgressor

You can convince others to commit acts even if some form of Taboo such as incest, religion, or age restriction would normally prevent it and you and they will receive no penalty. Now everyone can try your bacon cheese burgers, even Muslims and the Jewish and you can pass around the beer to everyone without problem.

400 cp - Genetic Diversity

You have had so many forms from your jumps that your children will never receive genes from you that will cause them any problems even if their other parent is one of your relatives, their half sibling, or even a clone of you.

600 cp - Netorare

Now obviously, sleeping with other people's spouses is really bad. However, you seem to be immune to that specific social taboo. And by that, you can flirt with, molest, or flat out fuck a woman while her boyfriend/husband watches and neither of them will think anything is wrong. Bonus points if she starts flirting back because you're a better lay.

Adult (Molester)

100 cp - An Eye For Detail

Just what any stalker needs, the ability to notice small things that others might not. You now have the skills to get the general gist of a person's mood/mental state via their physical appearance, and more importantly, a woman's three sizes. Or the size of a man's package, if you happen to lean that way. Either way, you've an eye for detail.

200 cp - When I Get My Hand On You

You'll give them a massage! Far less sinister than expected, no? Either way, when it comes to the magic you can work with your hands, you have some serious skills. There's a fine line between a massage and molesting someone, but you're a master of both. Reduce them to a writhing mass of pleasure before they have a chance to complain!

400 cp - Just Two Friends Having Fun

Well, it might not be, but if they don't complain about it, who would be able to tell the difference? As long as you're new friend doesn't complain - in this case, presumably by shouting at you to stop - no one will really try to force you to do so. It's a very 'hear no evil, see no evil' attitude, though you do have to stay (mostly) clothed. Public nudity is a different kind of illegal after all.

600 cp - Once More Before I Go

Under normal circumstances, the human body literally can't have a second orgasm right after the first. It's called a refractory period. You've managed to weaponize two small pieces of hentai logic though, so it doesn't matter that much. The first lets you dial up the sensitivity of anyone you touch. The second lets you force them to orgasm with even a light touch. Together, they'll have a dozen orgasms at the same time, and probably ask for more as soon as they come off the pleasure high.

General

You may receive one discount in this section. Companions do not.

100 cp - Living Art

What's love without a healthy dose of lust? With this, you are now a top notch beauty, or one hell of a handsome hunk - or maybe even both, if you're a futa. Even better than that, the lows of beauty have been paved over slightly. Pick your favorite hentai artist, and now everyone follows that art scheme.

100 cp - Fanservice

You are a master at 'accidentally' doing things. Whether it's making up an excuse for why you aren't wearing a shirt as a guy, bending over just so as a woman, or just dropping as many innuendos into your speech as you possibly can, you are now a master at it. Now take your Echi and go be somebodies wet nightmare.

100 cp - Impossible Beauty

A woman with breasts as big as her head, a man with a third 'leg', a woman with an ass so jiggly it makes jello look like cement, and a man who can't be told apart from other women? You know, the kinds of things that don't, even 'can't' exist, in real life? Well, thank god for porn logic. Pick two such archetypes to supplement what is considered normal in a world without porn logic. Or if you prefer, you can pick only one and drastically increase how common said archetype is.

200 cp - Health Care Plan

As much as this world runs on porn logic, that logic isn't very stable, and there's actually a lot of work that goes into it. However, not for you. While a casting crew would have to make sure to find actors with no STD's, said diseases seem to flee your presence. Preparations, from foreplay to an ass cleaning for anal, simply happen 'off screen', allowing you to go directly from 'lets fuck', to actually fucking.

200 cp - All The Time In The Fucking World

You know the problem with a harem? There's never enough time in the day to both raise flags with the girls you want to sleep with, and to actually sleep with them. Seriously, if you want to get over that last hump, you have to take them out on some fancy, expensive, date. And that's time you could have spent with the other girls. That's why the two are now interchangeable. Some sex in the shower or an evening under the stars with a bottle of wine, both will make them fall further in love with you. Or you could go the other way and make handholding incredibly lewd.

200 cp - Wandering Eyes

Now, as a counterpoint to the well developed and well received magical girl, you have none of the luck they do. Thankfully, you've managed to get your hands on something a bit darker than 'love and justice' People often complain about looking like you want to molest them… and now you can. You've got a total of four invisible hands with which to molest anyone within your line of sight.

200 cp - Universal Constant
No, not relativity or gravity or anything like that. Sex. More specifically, fetishes. This option allows you to take one particular brand of porn logic and make it a universal constant from here on out. Maybe you want MILFs to ara ara as many shota as they can find? Or for young women to practice on each other on a regular basis? Or maybe you want teenage boys everywhere to agree that traps aren't gay? Or, make your own up, and have any girl with a sibling very interested in that sibling? Regardless, choose a demographic of some kind, and choose a fetish. Anyone who fits the demographic will now express the fetish, and the few that don't are the ones that haven't discovered it yet. I can't promise that you fit the fetish, but surely there are enough options elsewhere to ensure that? Beyond that, you may add a second demographic or fetish for 100 cp, but not both. Additionally, you may purchase this multiple times if you want.

Items

Drop In (Futanari)

100 cp - Stefrility Pills.
Condoms, birth control, morning after pills, who needs them? They're a hassle, that's what they are. Which is why I got you these, the Stefrility Pills. That's a portmanteau of 'sterility' and 'fertility'. Grey pill leaves you sterile, white one makes you fertile again. Creampie all you want, ain't nobody who had one of these getting pregnant. Until they take the other one, that is.

200 cp - 'Banana Cream'
I'm not entirely sure why you would ever need this, but you now have a daily supply of a dozen gallons of your own cum. It's not sterile though, so if you want to impregnate someone you'll have to do it the old fashioned way. On the other hand, if you had something like a flavor, or addictive cum… How's your cooking? Ever felt like opening a bakery?

400 cp - Xchange Virus
A strange virus that genderbends the recipient within a few days. Or, rather, getting genderbent is somehow the cure. How this is pulled off, I have no idea. They come in a nondescript briefcase with ten vials inside. There's ten vials, six pink, three purple, and one white. The pinks swap genders, the purples cause futa, and the white acts as a counteragent. All of them will respawn once per month unless they haven't been used.

Drop In (Doujin)

100 cp - Media Remaker

For all that the world is currently running on porn logic - possibly literally if you bought said perk - you may still find yourself in need of some actual porn. That why the adaptifier was created. It remakes any media you point it at, from video games, tv shows, books, hell even the bible. Said remaking ups the amount of sex in it, as well as the explicitness, by quite a bit. Send your RPG party to the inn to heal up? Get a nice cutscene of them having an orgy. So on and so forth.

200 cp - Penthouse Or Less

So, once you've seduced a woman to have sex with you, and possibly to cheat on her husband… I highly suggest you don't go to her house, but to a motel or something. But, who has the cash to shell out for a hotel every day of the week? So take this card, full of frequent fucker miles, and use it instead. Accepted everywhere, and it only requires you bring a date with you to have all expenses paid.

400 cp - Tropical Resort Vacation

You've got tickets to a top of the line vacation spot. Well, technically you've got the island, but eh. The island itself seems to take the concept of porn logic and send it into overdrive. In addition to being chock full of beautiful women in showy clothing, their concept of flirting doesn't seem to extend past hello. In other words, something like this. "Hello." "Hello." "Want to have sex?" "Sure."

Drop In (Omnisexual)

100 cp - Well Used Sex Toy

A sex toy that one day decided to love you back! Onaho, the goddess of onaholes! Or perhaps Dick, the god of dildos? Anyways, this toy/person is more or less immune to societal standards. They can walk around naked and nobody will bat an eye, and you can fuck them utterly senseless on a subway and nobody will cry rape. They're also utterly devoted to you, and have no physical needs other than sex.

200 cp - Jar Of Pollen

A jar of pollen, guaranteed to set off allergies of anyone it gets near. Non-fatally, of course. Anyways, once spread, this takes the form off a decently sized horde of naked women who will proceed to molest absolutely everybody they see, and sleep with them if at all possible. They don't register as anything other than pollen to anyone but you, so all of that sex will be unaware sex.

400 cp - Sexual Education

You know how the library of congress contains a copy of nearly every book ever, and as many as america itself can get its hands on? Well this is that, except for porn. Every book, movie, hentai, art, anything and everything of an erotic nature. It comes in two forms. The first is a library, which at your discretion can be an actual one, with librarians and loans. Second, much like the previous two items, it can come with an anthropomorphism in the form of a very sexy librarian with an experience level equivalent to the amount of porn 'she' holds. Which is all of it.

Teenager (Student)

100 cp - Magazine Subscription

Okay, not really, but close enough. Physical evidence is so out of style these days, after all. Instead, you've got access to a handful of sites dedicated to your particular fetish. Obviously, more than one fetish can show up in a work, but these handful of sites find and catalogue everything they can find for each one. You can have up to four.

200 cp - Notebook

A small composition notebook, the standard black and white kind, with your name written on it. Completely normal on the outside, can potentially hold the library of congress within its pages. Just tap any book you own on the cover, and it will copy it into itself. Anybody who picks it up will just see a handful of failed love letters, or maybe your math homework.

400 cp - Sex Club

I have no idea how you convinced your school to go along with this, but you managed to convince them a club for the purposes of having sex was a good idea. There's probably mind control involved, somehow. Anyways, nobody seems to think that this is odd, at least not until you invite them to join. And I do mean that literally, they could be standing in the middle of an orgy and it's perfectly normal club activities going on. If you don't want this attached to a school, you might end up with a local gym, or a few rooms in a back alley bar. Up to you.

Teenager (Idol)

100 cp - Porn Collection

Funny thing about being a popular and pretty celebrity persona. People tend to fantasize about you. And people fantasizing leads to them spending money for artists to draw/write/make porn of you. So, congrats. Not only do you have a loyal - if perverted - following, but you also have a collection of the porn they made. It's probably not all to your taste, but i'm sure they'd make more of a specific type if you asked.

200 cp - Cosplay Closet

What does an Idol actually need? An iconic outfit to wear when in the public eye. Of course, just one outfit is no good, even if you were to have an infinite amount of it. Instead, you can pick and choose pretty much anything - no, power armor doesn't count - and it will show up inside the closet inside a day or two. If you don't specify anything, it will just fill itself with things you already know you like. Most of it is off-the-rack, but always in the closest size to a perfect fit as it can be.

400 cp - Film Crew

Well, not really but kinda? Basically, everything you do is recorded. And from pretty much every angle as well. No need to bother with getting a studio or an actual film crew, you've got this. Be a one idol show and do it all yourself. Or turn it all into one big porno and make loadsa money. Either one works. Comes with a usb stick which somehow fits all of this, and a smartphone app that determines exactly what gets recorded, from what angle, and so on.

Teenager (Sports)

100 cp - One Size Too Small

Not technically a wardrobe option in and of itself, but it will modify/copy any other wardrobe you have to include copies that are one or two sizes too small, but still seem to fit. Or in other words, something that will hug your chest and show off your abs, or leave your boobs very visible. All the better to help you show off.

200 cp - Regulation Uniform

Probably boring and unflattering. That's why you get to design your own! When you are actively participating in a sport, you can freely modify the uniform into something more perverted. Or less, if the mood strikes, you. I'm not saying making the 'appropriate uniform' for pool based sports nudity won't get you perved at, by the way, but you won't get called out on it. It also changed back if you quit, so if you want the uniform, you have to participate.

400 cp - Sexercise

Each jump, you're capable of making two or three changes to sports, or even just general fitness. You could make sex a full on sport, with points being assigned by how long you lasted and how good your technique was if you wanted too. Hell, do it in front of an audience. Or if you prefer, you could make it so that yoga should be done in the tightest hot pants available, or full on nude. Or maybe you want to weld some sex toys to the exercise equipment, or make 'protein supplements' a critical part of womens fitness. Whatever you end up deciding on, you have until the end of the first day of the jump what these changes are, if any.

Adult (Rapist)

100 cp - Travel Pass

Now, you probably do need your own car or form of transportation in order to properly abduct someone, but this is the next thing. Any expenses you might accrue while stalk - I mean, traveling, are paid for in advance. Taxi? Bus? Subway? Done and paid for. Of course, this won't help you go cross country or international, but up till then it's good for pretty much everything.

200 cp - Sex Dungeon

Well, mostly. In the basement of your house - or houses, if applicable - you now have an additional basement level. As expected, it's basically impossible for a normal person to force their way out of, and fully sound proofed to boot. Anyone you lock down here is going to stay down here, bar outside interference.

400 cp - Liquid 'Love'

By another name, aphrodisiac. Also a few flavors of knockout drugs, and an assortment of hypersensitivity drugs. All of them are relatively fast acting, basically untraceable after a few days, and are very hard to overdose in. Comes in both vials and pill forms, and restocks once every few days. You might be familiar with some of the names, but they won't have much in common effect wise.

Adult (Family Man)

100 cp - Visitor Pass
'Hello, my name is JUMPER'. That's what this plastic badge says. It also has a picture of your face, as if your actual face wasn't good enough. It's a bit simple, but it lets you wander around the 'public' areas of places like schools, hospitals, and similar locations which are technically public but you still need a reason to be in Basically, it just means they can't kick you out for looking or acting suspicious, half because they won't notice.

200 cp - House and Home
You own a decently sized house, that may or may not be slightly bigger on the inside. More specifically, it always has room for your family. Guests are out of luck, but family always has a room. In addition, the plot of land this house sits on can - depending on other jumps - swell to massive size, in order to fit all your other properties onto it.

400 cp - Marriage Certificate
You know, fucking your way into having a harem is great and all, but when you decide to get married… You still have to pick one, because multiple wives is rarely legal. Thankfully, you have this blank marriage certificate. Just write your name down as the groom, and then the rest of your harem as the bride. As long as the names are in the right place for your relationship, it works.

Adult (Molester)

100 cp - Molesters Handbook
A small book with a blue cover. Inside are listings of all the women in the immediate vicinity - only about 100 feet or so - complete with pictures and profiles that include things like height, three sizes, and fetishes. Or in other words, everything you need to pick your next target.

200 cp - Subway Line
You - what? It's an actual subway line. You don't even own it or anything, it just shows up in your starting location each jump, even if there shouldn't really be one there. A guaranteed hunting ground for women to molest, I suppose. Or if subways aren't your thing, it can be a bus line or something similar.

400 cp - Orgy Ticket
A step beyond molestation, this ticket is used to turn any travel scenario - be it a subway or an airplane - into a sexy one. Specifically, it will let you to hand it to any women - preferably a conductor or something - and they'll all agree to have sex with you. Most importantly, nobody thinks this is out of the ordinary, so you can actually have sex, not just heavy foreplay.

General

200 cp - Maid Cafe
Would you come to the counter please, your fetish is now being served. As you can see, this cafe - filled with cute young women in maid outfits - is rather oversexualized. The skirts are short and the bustlines are seemingly only held up by stiff nipples. Said waitresses are not merely on the menu, they are the menu. You could order a nice meal, and they'll feed it to you in a very romantic manner - tip them enough, and you can eat them in a very romantic manner. Or maybe that's not quite to your tastes? What are they serving the, their futanari dick milk? ...Well okay, if you want that.

Companions

50 cp - I Got My Eye On You
What's this, you want to take someone rather than bring someone? Well, you can always do both, but that wasn't the point. If you saw someone during your 'research' that stood out to you, feel free to take them with you into future jumps. The only real limitation here is that you can't take 'canon' characters - if you're using this as a generic, take someone from a generic. If it's a supplement, buy them from the actual jump and not here. You could technically use this to pick up someone without a jump though.

100 cp - Come And Get Your Love
Parties are best when they're large, you know? Just like orgies. That's why you can bring one of your companions with you into this world. Each purchase is worth slightly more companions - the first purchase is one for 100 cp, then three for 100 and finally four, a total of 300 for 8. They get one origin and 600 cp to play around with, but do not receive the floating discount for the general section.

100 cp - Home Is Where The Heart Is
Family. They've got your back, and they're always there when you need them. Well, a good family at least. Anyways, pick two. Mother and father, wife and daughter, brother and sister, ex-wife and cousin, anything you can think of. They're now your companions. Their exact interest in you is currently undetermined, but they probably share your fetish, or at least enjoy it. They also share a companion slot.

Drawbacks

Max +800 cp

+100 cp - Scandalously Short Skirts

The MILFs and Teens may be wearing some truly revealing clothing in this world, but the granny-ladies are still the same as ever. No, actually, they're much worse. Expect them to firmly scold anyone wearing less than concealing clothing. Oh, and for one or two to just show up out of nowhere to scold you personally.

+100 cp - Mood Killer

Nine times out of ten, right before you whip 'it' out, or even right after you do so, something will come up to interrupt you. Cellphone, noisy neighbors, janitor walking around the hallway. Anything and everything.

+100 cp - Not My Fetish

Pick something you hate. Anal. Yaoi. NTR. BBC. Whatever it is you hate. It's now the most common fetish in the world. Enjoy everyone and your mother fully embrace the steaming pile of shit that is your anti-fetish.

+100 cp - Censor Bars

Your view has been censored. Little black bars, pixelated distortions, those kinds of things. You are now incapable of viewing tits, pussy, and dick. You can still have sex, but I guarantee this will be annoying.

+100 cp - Dere Locked

Tsundere, Yandere, Kuudere, Dandere, Deredere, Kamidere, or Himedere. For the duration of the jump, your personality is locked inside one of those categories. You are very one dimensional for the duration of your time here, and you have the depth of character about equal to a kiddy pool.

+100 cp - (D)esire, (D)espair

Wandering through an alleyway one day, an old man shoved a box into your hands. Inside were three dozen coins with the word 'Desire' written on them. As it turns out, any women that see's one of the coins is overcome with a desire to own it, and is suddenly willing to do you a… Favor, if you'll let them have it. The catch comes when you run out of coins, and you aren't going to remember this bit. See, you have to earn the coins back. To that end, you're suddenly turned into a woman, and 'raped' by the siblings, lovers, parents, etc all, of the girls you had your way with. One for every coin you spent, which now have the word 'Despair' written on them. Power comes at a price after all. Once you reclaim the coins, you are turned back into a male, and can choose to shove them onto someone else, or to use them again.

+100 cp - She Ugly!

Under normal circumstances, everyone here is good looking at worst, with a high probability of looking like a supermodel with an actual chest. Sadly, pretty much everyone is now good looking at best. Not exactly horrible, but not eye candy everywhere either.

+100 cp - Whatsome?
Twosome, right? Except that's just normal sex, you and one other. Threesome? Foursome? Nope, never heard of it and you're never having one. No, really. Under no circumstances will you ever get two or more people willing to sleep with you at the same time. They might not mind taking turns, but at the same time is completely out of the question.

+200 cp - Irresponsible Authority Figures.
The doctors, dentists, and other medical professionals of this world are out to get you. Hope you enjoy knockout gas and taking your special white medicinal fluid. If it involves your health, it probably involves you getting raped. Don't trust teachers or the government either.

+200 cp - Incredibly Repetitive
It's like you're trapped inside some simplistic hentai game! Mostly because anyone you sleep with will refuse to have sex that is in any way different from the first kind you had. You can stretch this out by maybe giving a massage, getting a blowjob, and then having sex, but then you're stuck giving her a massage every time you want sex.

+200 cp - You Will Be Mine
There's someone out there. Someone special. Someone who's decided that you're the perfect one for them… Right after they make a few small changes to you. Once they've got you locked in the basement, just remember. They're only doing this because they love you.

+200 cp - Closed Relationship
Your girlfriend, companion or otherwise, is now a yandere with a hair trigger. Expect them to find out about, and murder, anyone you sleep with. I'd say about the closest you're going to get to base with any girl that isn't her before they die is 'Hello', and god forbid they try to give you a gift - or you give them one.

+200 cp - High Priestess of Fuck
Once upon a time in ancient egpyt, a bored goddess started a religion soley devoted to raping the shit out of women. Her high preistess, a woman named Freyja, was specifically raised to adore rape, abuse, degradation, amputation, and pain in general, and to loathe such concepts as loving sex, cuddling, and sex that doesn't somehow cause pain. Mind you, she's gt a variety of blessings that let her actually survive her prefered treatment. However, her goddess is currently forbidding her from that, and is forcing her to be monogamous with you in the hopes she'll get a chance to spread her religion to other worlds. The downside? Freyja will be taking out her frustrations on the people around you, poptentially up to arranging the kidnapping and rape of the entirety of whatever nation you happen to be in if you try to treat her gently and with kindness. Which, if for some reason, you actually want her as a companion, is the only way to do so. It also has the benefit of giving her a more normal mindset and making her actually enjoy her time with you.

+200 cp - Blushing Virgin
You're a virgin, or maybe not. Either way, even mentioning sex will leave you blushing, stuttering, and tripping over your own feet. Even if you're a god in bed and they know it, expect to be embarrassed more than aroused by someone propositioning you. Women in skimpy outfits is bad, but not to the same point. And no, losing your virginity will not solve this.

+300 cp - Cuck
You seem to have a slight problem holding onto a girl. Expect that anyone you show any interest in to get into a relationship with someone else within a day or two. Additionally, anyone near you is also at risk. Parents, siblings, all that jazz. Even your companions aren't immune, though I won't be mean and say they might leave you permanently.

+300 cp - Just A Normal Guy
Mandatory power sealing drawback! But, since you probably don't actually need them, let's take it one step further. Anything that you don't specifically buy, doesn't exist in setting. In other words, unless you pick up the porn logic perk, you're basically stuck in the real world.

+300 cp - Sorry, Not My Fetish
Pick something. Blowjobs, vouyerism, titfucks, in the dark with the lights off, whatever. Unless that activity is going on or about to happen, you are not going to get hard. Doesn't matter how badly the repressed milf wants you inside her, if your thing is blowjobs, you aren't going to be fucking her properly. You will literally lose your boner the second she asks for you to cum inside her.

Final Destination

Here - Stay here for the rest of your life and enjoy the easy life. +500 cp.

Home - Back to where it all began. Call it quits before something bad happens.

Somewhere - Keep going to new places and find new things.

Notes
Companions - The max you can have is 8 companions in the jump.

Supplement Mode

In exchange for forfeiting half of the base CP, you may use GH Modern as a supplement to an applicable jump. In other words, it should be a modern world with no supernatural aspects - even a single elf or succubus disqualifies it. Mind you, things like 'twenty minutes into the future, virtual reality blah blah blah' is good enough to qualify. That said, keep it as normal as possible. You may acquire additional points through drawbacks, up to the drawback cap. On your first use this equates to a maximum of 1300 CP, and 800 CP on each use afterwards. No, you may not take a drawback multiple times. If you run out of drawbacks, you obviously cannot take the supplement anymore.

You may change your origin with each usage of the supplement, but may only gain 1 sub-origin per usage. Additionally, companions can not be imported more than once via supplement mode, and supplement mode is incompatible with using the base GH Modern as an actual jump. Lastly, you may only spend the CP you get from drawbacks in the GH Modern jump on things from the GH Modern jump itself, as well as not spending CP from the supplement in whatever jump you are supplementing, if that wasn't already obvious.
