

D&D XXX a Porn Parody Jump

V1.0 By u/Only-Cellist2989 & u/tales2tellu

I really want to call this Dungeons and Deviants, but sadly there is already a CYOA called that may one day get its own Jump. Back on track this another Jump based around a Dungeons and Dragons campaign me, the wife, and perverted friends we played in the crazy DM homebrew death trap slash fetish factory. All in all it was a fun, weird, and "sexually exploration" journey in a very perverted world. The finer details don't matter if you ask me as the setting boiled down to DnD but if it everyone acted like they lived in a porno movie. Albeit with better dialogue as the DM was a theater major that normally ran the Vampire the Masquerade campaign, me and some of the group have been playing since high school. God I feel old…..right moving on here we go do please enjoy.

Here's 1000CP to help you out, Pervert.

Origin: Class & origin are the same thing. Backgrounds are up to you as they are not part of this Jump so feel free to fanwank. You can take any of this as a drop-in if you want. This is your first class so if you want to multiclass it will be a perk later or earned in Jump. Pick any playable race from 5e printed books as long as it has genitals.

Barbarian: I would like to rage…on your ass. Enters a blind rut where they can keep going for HOURS, but potentially kill partners.
Bard: Can fuck anyone and anything without penalty, and can "perform" on command.
Cleric: Dommy mommy. Do what she says or face extreme pain. She makes you feel better later, though.
Fighter: All they do is thrust in and out. Basic, effective, and boring as hell.
Monk: How long can you go without masterbating? It's all about the big one.
Paladin: The subs. They want rules to follow.
Ranger: The monster fuckers.
Rogue: Those nimble fingers. They can fit anywhere and do anything.
Sorcerer: The descents of monster fuckers.
Warlock: Sugar baby. Also, they can last a long time overall but need a short rest each time they cum.
Wizard: Knows the widest variety of sex spells, but they're out after they cum once.

Starting Location: Just one.

Stormwreck Isle: You wake up on the beach near a path leading to the Dragon's Rest, a place that will soon host the largest dragon orgy in Faerûn.

Perks: The fun stuff.

Better hope she doesn't find out it's your shit on her face every morning.

Open Palm [400CP, Discount Monk]: Go up 11 levels of the Monk Class.

One hand [600CP, Discount Monk]: The five point palm exploding nut technique! Each punch, kick, and headbutt all carry the pulsable impact of 10 minutes of self love. This will be both very confusing and distracting in a fight as the jarring pain of being kicked in the balls is accompanied by the pleasure of meeting betting time. Repeated use of this ability will turn your victime into massive sadists rather quickly. The brainwashing power of your fist can be turned off if you don't feel like giving a werewolf a happy ending along with its actual end.

Oath of Virginity [100CP, Free Paladin]: Starting at Level 3 so you can get this subclass.

- **No Nut November:** Beginning at 3rd level your strict and self disciplinary gives you the Channel Divinity: Word of Shame. All creatures that can see or hear you within 30 feet must succeed on a Wisdom Saving throw or have their movement speed half for 10

Unlike a Paladin it can be a ranged or melee weapon attack.
- **Monsterfucker:** By 15th level aberrations, beasts, celestials, dragons, elementals, fey, fiends, giants, monstrosities, and oozes with genitals would rather fuck you then eat you. Something about you screams build to breeding rather than eating, but probably don't rely on this solely to survive.

Breed True [200CP, Discount Ranger]: Maybe you like orc partners, but hate to bring another half-orc into the world. With this perk you have almost perfect control how dominant or recessive your genes are, letting you have a 99% orc, 99% human, or anything in between. You could even use it to prevent ginger from going extinct by breeding them like bunnies.

Pathfinder [400CP, Discount Ranger]: Go up 11 levels of the Ranger Class.

The Source [600CP, Discount Ranger]: Have you ever wondered where all the sorcerer's bloodlines came from yep monsterfuckers. Succubus Bloodline [100CP, Free Sorcerer]: Starting at Level 3 so you can get this subclass.

- **Bikini Armor:** Beginning at 1st level the less clothing you were the higher your AC. In a bra and pants you would have an AC of 18 and butt naked you would have an AC of 20. This doesn't prevent you from getting a cold sorry to say.

- **Fatal Climax:** By 18th level you gain the legendary succubus kiss. The target must make a DC 15 Constitution saving throw taking 10d10 + Sorcerer levels psychic damage on a failed save, or half as much damage on a successful one. If the target dies from this kiss you gain equal temporary hit points. You may use this feature twice before requiring a long rest to use again.

Sune's Tits [200CP, Discount Sorcerer]: Don't think you're that hot? Well take a look in the mirror–you are now a twenty out of ten, so perfect anyone who sees you is going to want to fuck you silly. Things like sexual orientation, age, race, & social status are quickly forgotten after looking into your eyes or at your ass. If you are a lad expect lesbains, asexuals, and straight guys to fight for your attention as much as the straight girls are. Ladies, expect the same from gay guys, asexuals, and formally straight girls. The Kinsey scale will be straight-up busted for any humanoid that sees you. Forget ever having to pay for your drinks and start thinking about starting the first Forgotten Realms OnlyFans.

Mystic Blood [400CP, Discount Sorcerer]: Go up 11 levels of the Sorcerer Class.

Semen Demon [600CP, Discount Sorcerer]: Every time you consume ejaculate or vaginal fluids during a climax you can also consume the experience points (if they have any) forcing the creature to level down. You will always consume enough to level the creature down only one level at a time. The creature can make a DC 15 Perception check to notice the draining effect if they even want to notice. This may be easier on female creatures as they can multi-orgasm and thus steal more levels in one go. A creature drained of all experience points can't be drained anymore. The experience points consumed will add straight to you so get sucking!

Soul Whore [100CP, Free Warlock]: Starting at Level 3 so you can get this subclass.

Great Old One, or the Undying until your next long rest. In exchange your temporary patron may give you a mini-quest they need doing in the local area you're in. Failure to complete the mini-quest will result in the removing itself from that list.

- **Pleasures of Service:** At 6th level your magical prostitution has gained you the ability to connect your nervous system to another creature you have touched in the last 24 hours. The pleasure you feel they will feel & vice versa. This also works with pain letting you pass the feeling of that pain to them as well. Each time you take damage you can pass that to the linked creature having them take 1d4 psychic damage per hit. Unlike them you can block them damage, but will still feel the pain. You can choose to end the effect as a bonus action or if you fall unconscious.
- **Find Customers:** By 10th level even a magical prostitute needs to search for new clients now and then. By spending a Soul Coin (item) you can instantly regain all used spell slots (even in combat) and choose a second temporary patron until you take a long rest. The coin pays for the powers and doesn't get you another quest.
- **Donkey Show:** By 14th level you can perform a ritual to summon your current patrons servants and offer your body, for their pleasure. The kind of creatures and amount are random, but needless to say you will more then likely be double teamed at the very least. After they're done running a train on you they will join you as temporary party members until your next long rest.

Teachers Pet [200CP, Discount Warlock]: Something about you makes your amidite superiority hold you in high regard. This can either be from a perk you got from a different perk outside of this Jump, a magical contract you made here, or hell a Soul Coin (item) you just happen to have on you. Either way each new patron grants you its full subclass benefits and doubles your spell slots.

- **Deviant Craft:** At 10th level, Artificer is a dumb concept let us be honest. A lesser Wizard that can use Alchemy a little better than a normal Wizard or blacksmithing a lot better. You on the other hand are a master of a very specialized kind of crafting. Making enchanting sex toys and lewd items. The more sexual the crafts the better your magic will flow into it making thus more likely to succeed in the crafting.
- **Living Doll:** By 14th level an old Wizard will go out of the way to craft a Golem to prove how smart they are and just use it for protection. Your far more perverted making your own soulless waifu/husbando to fuck. Its appearance is totally up to you, so go crazy. You will need to spend a 7th level spell slot to summon it and last until your long rest.

Nudie Scroll [200CP, Discount Wizard]: Limits suck so we are removing one from the Wizard class. You can inscribe any spell scroll into your spell book even if it's not a spell the wizard should be able to learn and even if it's above what you can cast at the time. Hell it could be a spell from a different setting as long as you can read it you can inscribe it.

Casting [400CP, Discount Wizard]: Go up 11 levels of the Wizard Class.

Magic Condom [600CP, Discount Wizard]: Ever since you were a kid you trained for years to learn magic all to fulfill a dream of fucking a Succubus. Glowing rune tattoos with spell circle formulation are inscribed all over your skin except for your head and hands. Automatically activating when you are being touched (Physically or by their magic) by an Outsider that's any non-elemental creatures that originated on a plane other than the Prime Material Plane (normal reality) in case you forgot. Making you completely magic immune to all their magic and other abilities, but not good old fashioned bruteforce. Go enjoy your years of painstaking studying by fucking that Succubus without fear.

Companions: People to fuck.

The Party [50CP each, or 200Cp for 8]: Make or import a party(ies) member. They get a free origin, 300CP points to spend on whatever they like, and can take drawbacks. Their personality and appearance are up to you. Just remember their not just waifu/husbando orgy group, but the people who should be trying to keep you alive.

Drawbacks: The painful stuff.

Campaign [+0CP]: Want to supplement a D&D Jump like Baldur's Gate 3, Neverwinter, Legend of Vox Machina, Lost Mines Of Phandelver, etc. Keep all the points separate other than that have fun and stay safe.

Supplement [+0CP]: Want to mix this with a non-DnD Jump or maybe a setting that hasn't even gotten a Jump yet? Just like above, but you only gain half the points from drawbacks.

One Pump Chump [+100CP]: You can only cum one time per 30 minutes without passing out.

One Orb [+200CP]: You only have one breast and or ball. Anyone who sees you is going to point and stair at the lack of two. Sexual encounters with a new partner may end with laughter, disgust, or even a strong desire (awaken fetish). Any who it's going to be awkward.

One Eyed Willy [+300CP]: A insane Level 20 Wizard spectator who wants to explore its new vore fetish by eating you. If this crazy thing gets you in its mouth you're dead.

One Class [+400CP]: You are unable to multiclass at all.

One Night Stand [+500CP]: Anyone you bed will be unwilling to ever have sex with you again regardless of how good you were in bed or even if you are use fucked up mind control on them.

One Warehouse [+600CP]: You are locked out of your warehouse and can't bring any out of world items that you didn't import into the purchased items.

One Level [+700CP]: You can't ever raise your level past 1.

One Source [+800CP]: No outside Perks will work in this Jump.

One Full Moon [+900CP]: Both Selûne and Shar want you dead and the normal rules about direct interactions with the world are revoked by Lord Ao. They will put aside their problems just to kill you and anyone you want to bone.

One World [+1,000CP]: All of the outer planes are merging into the material plane a month after you arrive. Angels of the heaven and demons of the abyss all in the mortal world. If you don't find a way to stop this all the planes will fall into the abyss ending all reality. If you can't tell, that's a chain end.

Notes:

- The DM banned Druid saying they dislike (used less kind words) furries and beastiality is just wrong. So I don't have any material from the camp to work with.
- The normal level cap in D&D is level 20. If you are earning the levels the old fashioned way then that holds true. If you spent CP buy more levels then normal rules would allow then just awesome you can level up 4 more times before hitting a new cap.
- I still have zero idea how I got my wife to make this Jump with me.
- The chart below may be helpful for anyone who wants to breed.
- Before you ask why I don't have Soul Coins as I buyable items because they are made of fucking souls.
- Living Doll their level matches yours, as you are commanding them they have all your skills and proficiencies, but no magic.
