You may select a single individual from another setting to appear with a slightly altered background to fit this world. The only restriction is that their power will be decreased so that it is acceptable in this setting. For example, if you choose Goku then his power would likely be on par with Akuma or Gouken. Alternatively you may design the personality, appearance, and species of this character if you wish to create a custom individual instead.

## **Veteran Fighter - 100 CP (Free Rookie)**

You can go pretty far on your own, but it certainly can be helpful to have someone show you the ropes. This companion is a seasoned warrior who has seen it all. By default they possess all of your powers and abilities though you may restrict some of them if you wish. This individual will be absolutely loyal to you however, meaning that there is literally zero risk of them betraying you. You may design their personality, and appearance if you wish. Given how different Cammy is from Bison you shouldn't expect a one to one copy of yourself.

# Drawbacks

There is no drawback limit, but make sure you can handle whatever you take.

## **Supplement Mode - 0 CP**

Well it turns out this entire time you only filled out part of the paperwork. You may take this jump and use it as a supplement to a second jump. This will allow you to either merge the two jumps or for you to take all of your purchases into a new world. Just remember you can't run from the drawbacks, no matter how hard you try to.

## **Self-Insert - 0 CP**

So you want to be one of the named characters huh, well if you take the appropriate background, and then you will get to take their place. This won't give you any of their skills unless you buy them however. Otherwise you are free to go in as any character you would like.

## **Welcome Fighters - 0 CP**

Street Fighter has had a number of crossovers and games outside of their canon universe such as this one. This toggle allows you to include or remove pieces of the world. For example some of the settings that have appeared such as Tekken, Final Fight, Rival Schools, Power Rangers, Monster Hunter, Mega Man, Smash Bros, Tatsunoko, Asura's Wrath, Project X Zone, Marvel vs Capcom, and of course Naruto given this particular setting.

You may freely choose which aspects or characters you wish to be present in the world. That being said, the introduction of confusing and sometimes conflicting new plotlines and setting elements can lead to a more chaotic end result even if it does mean more options. So you could simply add some of your favorite characters or mash all the worlds together. The choice is yours.

## **Extended Stay +100 CP**

For each purchase of this your time here is extended 10 years. Just be careful this world has a number of dangers even to those who stand at its peak. ## **I Hit My Head +100 CP**

Something appears to have gone wrong upon entering the jump. As a result you have forgotten all information related to the future of this setting beyond what your origin

provides. You will have no knowledge of events or people that have not yet occurred. As far as you are aware this world is a brand new setting waiting for you to discover its secrets.

The cause of this memory erasure is unknown and cannot be reversed by any means available to you. You will have to rely on your instincts and natural abilities to survive and thrive in this new world. While this may give you a sense of freedom and the chance to start anew, it also means that you are vulnerable to being caught off guard by unexpected events and enemies.

### **He's From America +100 CP**

When Naruto was brought to Japan he introduced himself as an American. This resulted in him being seen as a "Gaijin". Like Naruto there is some factor that makes you clearly stand out from those around you. This will likely force you to face constant discrimination, prejudice, and exclusion from the local community. This leads to a sense of alienation and a constant struggle to fit in. You may encounter difficulties finding acceptance, forming meaningful connections, or participating in cultural activities.

### **Random Mook #1 +100 CP**

Your rise to fame has attracted the unwanted attention of countless individuals seeking to challenge and prove themselves against you. Just as Naruto faced a continuous stream of bullies and mooks, you find yourself in a similar situation. Despite their lack of strength or skill, these challengers are relentless in their pursuit to test their mettle against you. At minimum you will have to deal with a few of these idiots every couple of days. At the very least this ensures that you'll stay in shape due to constant exercise.

### **Lousy Fortune +100 CP**

Luck has never been on your side, and misfortune seems to follow you like a relentless shadow. It's as if the universe conspires against you, manifesting in a constant stream of unfortunate events and comically improbable mishaps. Whether it's slipping on a banana peel during a crucial moment, being caught in the rain without an umbrella, or having your plans foiled by a series of bizarre coincidences, you find yourself facing setbacks and obstacles that hinder your progress at every turn.

This perpetual string of bad luck can be incredibly frustrating and demoralizing. It tests your resilience and challenges your ability to keep pushing forward in the face of seemingly insurmountable odds. No matter how carefully you plan or how skilled you may be, the universe always finds a way to throw a wrench into your plans. However, it is through adversity that true strength is forged, and you will need to tap into your resourcefulness and creativity to navigate the treacherous path ahead.

### **Overconfident Warrior +200 CP**

You possess an unshakable belief in your own abilities as a warrior, a confidence that borders on arrogance. Even when the evidence suggests otherwise, you remain convinced that you are the strongest, most skilled fighter around. This overconfidence often leads you to underestimate your opponents, disregarding their true capabilities and making reckless decisions in battle.

Your inflated ego and misplaced bravado can put you in dangerous situations and leave you vulnerable to defeat. Others may view you as a laughingstock, mocking your exaggerated claims and boasting. It's a constant uphill battle to prove yourself and back up your words with actions.

The consequences of your overconfidence are twofold. First, you may find yourself caught off guard by opponents who are more skilled or strategic than you initially believed, leading to embarrassing defeats and a dent in your reputation. Second, your overbearing personality may alienate potential allies or lead to strained relationships, as your constant need to assert your dominance can rub people the wrong way.

### **Unyielding Professionalism +200 CP**

Your demeanor exudes an unwavering sense of professionalism and formality. Whether in a social gathering or a high-stakes situation, you maintain an air of utmost refinement and strict adherence to protocols. This unyielding professionalism becomes deeply ingrained in your character, shaping your interactions and behavior with others. Acting casually or letting loose may seem foreign to you, as your natural inclination is to uphold a stringent and controlled demeanor.

However, with your closest allies, a rare glimpse of your relaxed and informal side emerges. Only in the presence of those you trust implicitly can you let your guard down and display a more casual attitude. This drawback may lead to challenges in forming connections with individuals who prefer a more relaxed or informal approach. Your unwavering professionalism may create barriers in social situations, making it difficult to relate to others on a personal or casual level. However, your closest allies will experience a unique bond, as they are the privileged few who witness the occasional glimpses of your less formal side.

### **You Dare Refuse Me +200 CP**

Beware the wrath of the unyielding ego, for it fuels the flames of resentment and vindictiveness. In this unforgiving world, you find yourself constantly crossing paths with individuals who possess an insatiable hunger for recognition and despise any form of

rejection. Vega, a prime example of such pettiness, serves as the harbinger of their ire. When you dare to decline an offer of employment or service, these wounded egos are kindled into a spiteful frenzy.

Initially, the effects of their resentment may seem minor, gradually dissipating within a day's time. However, within the realm of influential organizations or among notable individuals, the repercussions become more pronounced. Rejecting an offer from someone like Vega himself would result in him branding you as a kill-on-sight foe for the nefarious Shadaloo. The ripples of your refusals reverberate across the social fabric, creating enemies out of those who feel scorned. The exact repercussions will depend on the offended party in question, but this is certain to cause you some trouble.

### **Japanophile +200 CP**

You have an obsession with a particular culture, reminiscent of Sodom's infatuation with Japan. You have the option to choose the culture that captivates your heart, such as Japan. Your fascination runs deep, leading you to become fixated on various aspects of the chosen culture. You yearn to speak the language fluently, immerse yourself in its traditions, and display unwavering admiration for the country at every opportunity.

However, your attempts at using the language may fall short, resulting in linguistic mishaps that elicit cringes from those around you. Other similar issues are likely to occur as well. The pursuit of cultural immersion may be met with mixed responses, with some individuals cautioning you against embarrassing yourself further. Nonetheless, your passion remains unwavering, and you constantly seek opportunities to engage with the chosen culture, even if it means going out of your way.

### **You Wanna Go +200 CP**

Bound by an unwavering spirit, you are incapable of turning down any challenge that comes your way. Perhaps this is due to a mixture of pride, the preservation of your reputation, or simply an insatiable desire for combat. Regardless you will find yourself compelled to accept every confrontation that presents itself, no matter the circumstances. This could be irritating or deadly depending on the circumstances in which the challenge occurs.

### **Dealing with Fan Clubs +200/400 CP**

Within the realm of celebrated warriors and the alluring spectacle of combat, fanaticism finds fertile ground to flourish. The esteemed fighters of this world have amassed fervent followings, with fan clubs dedicated to their idols. Alas, you find yourself entangled in the whims of these ardent devotees, who border on obsession. Prepare to face the trials and tribulations of dealing with fan clubs and the passionate souls who

populate them. For 200 CP, your encounters with these zealous enthusiasts will be relatively contained, limited to normal individuals and occasional lower-ranked fighters. They will pursue you with relentless determination, their singular focus fixated on claiming you as their own. The pursuit may manifest in constant attention, pleas for your favor, and perhaps even the occasional intrusion into your personal space. Beware, for their ardor can border on possessiveness and may lead to precarious situations.

However, for an additional 200 CP, the scope of this challenge expands exponentially. The ranks of your admirers swell to encompass highly dangerous combatants, akin to the greatest warriors within this realm. No longer confined to mundane nuisances, these formidable devotees possess skills and abilities that match their unwavering passion. They will stop at nothing to win your favor, to the point of endangering your well-being and those around you. The tireless pursuit of your fans knows no bounds, persisting unyieldingly no matter how many individuals you manage to appease or resolve conflicts with. Even as you navigate the labyrinth of their affections, they possess an uncanny ability to track you down, evading whatever defenses or sanctuaries you may seek. However, should you succeed in finding peaceful resolutions with these passionate followers who may have developed deeper connections with you, they have the potential to become valued companions, joining you in your journey at no additional cost.

### **Forgotten Payments +400 CP**

It seems that your benefactor forgot to pay for access to the game or failed to upgrade your deal. As a result you have been restricted and aren't allowed to use items that don't belong here. In addition, you have been banned from accessing your warehouse while you are here. You get to keep access to your powers, but any items that don't belong to this universe are forbidden.

### **Powers Begone +400 CP**

So you thought that you could just use your other powers in order to blitz the setting did you? Well now you can't, your out of jump powers have been locked away. If you are going to survive in this world then you're going to do it with the powers that belong to this setting. As a small mercy you will be allowed to use any powers that can fit this setting such as any abilities from the Street Fighter jumps, many of the various Naruto jumps, and any other jump related to the Street Fighter and Naruto series.

### **I Need a Rematch +400 CP**

Within this chosen world, there exists an individual who has become your sworn rival. The desire to face them in combat and assert your superiority consumes you completely. You are willing to go to great lengths, even compromising your own morals,

to secure a rematch and prove your worth as a warrior. The burning intensity of this rivalry fuels your actions, pushing you to serve even those you despise if it brings you closer to the long-awaited confrontation. However, alongside the intensity of your rivalry, there is an immense respect for your adversary.

You hold them in high regard, considering them your Ryu while you play the role of Sagat. The depth of this respect prevents you from allowing anyone else to slay or dishonor them. In fact, you may find yourself aligning with your rival if you perceive that someone has shown them disrespect or brought dishonor upon their name. Should fate lead you to befriend your rival, their status changes from adversary to companion, and you can welcome them into your journey without any additional cost. This unique bond forged through rivalry and mutual respect enhances your shared experiences, making your path as warriors all the more compelling.

### **Code Activation +400 CP**

Similar to Cammy, you have experienced the horrors of being brainwashed in the past. As a result, a secret code phrase exists that can be used to seize control of your mind and body. When this code is activated, you become obedient to the commands given to you, regardless of their nature. Resisting this influence is an uphill battle, requiring immense strength of will. It is possible to fight against the control, but be prepared for a tremendous struggle.

If you become aware of this code and its influence over you, there is a chance to break free from its grasp. However, it is not a simple task. You may need the assistance of skilled psychologists, spiritual guides, or other knowledgeable individuals who can help unravel the complex web of manipulation that binds you. Breaking free from the code's control will demand great determination and the willingness to confront your darkest fears.

### **Dark Jumper +600 CP**

Within the depths of your being, a corruptive energy has taken hold, giving rise to a twisted and malevolent alter ego. This dark version of yourself holds opposing morals and values, embodying everything you stand against. For instance, if you are a compassionate individual who cherishes life, this alternate persona will be a merciless psychopath driven by a thirst for destruction. To maintain control over your own body and protect all that you hold dear, you must confront and defeat this dark counterpart.

Failure to do so will result in your consciousness being imprisoned within your own mind, forced to bear witness as your alter ego wreaks havoc upon everything you care about. This internal struggle will test your resolve and push you to the brink of your

capabilities. Confronting and defeating this malevolent presence will require immense strength, both physical and mental. You must find a way to overcome the corruptive energy that has taken hold within you and reclaim control over your own destiny. The battle against your dark self will be an arduous and perilous journey, but the fate of your own existence hangs in the balance.

### **A Worthy Opponent +600 CP**

Prepare to face the ultimate test of your strength as the infamous Akuma, thirsting for a worthy adversary, sets his sights upon you. Having vanquished countless fighters and grown weary of their inadequacy, Akuma has learned of your extraordinary nature and becomes captivated by the potential of a new formidable foe. Early in your journey, Akuma will seek you out and engage you in a battle to the death, a confrontation that will push your limits and determine your survival.

Should you prove insufficiently powerful to face him, Akuma may bestow upon you the Satsui-No-Hado, an ominous force that grants strength but risks consuming your very soul. Regardless of whether you can control this dark power or succumb to its malevolence, Akuma will find you once more at the end of the jump. He will be driven by an insatiable thirst for a final showdown. Only one of you shall emerge from this fateful clash alive, standing as the ultimate victor.

### **It's Up To Us +600 CP**

In this world, the government, police organizations, and all centers of authority have proven to be shockingly inept at fulfilling their duties. They either lack the capability to perform their roles effectively or simply exhibit apathy towards their responsibilities. Consequently, the burden of resolving every major incident falls upon the shoulders of small groups of individuals, much like Naruto and his allies. By willingly accepting this drawback, you now find yourself thrust into the heart of this predicament.

Any significant problem or crisis that arises becomes your personal responsibility to address and resolve. Whether it's quelling a rebellion that threatens to overthrow your country or tackling other dire threats, you cannot rely on the military, police, or any other authority figures to take appropriate action. Instead, you must actively involve yourself and take charge of the situation. The fate of your nation, its people, and perhaps even the world rests squarely on your shoulders. It is up to you to confront these challenges head-on and emerge as the driving force behind their resolution.
