2) Miami Beach: A south Florida island city full of hot ass people wearing very little.

3) Dresden: The large city in eastern Germany and has the best bratwursts I have ever had. Why does this matter? It doesn't just want to share.

4) Istanbul: As a Turk I think anyone who calls the largest city of the modern Republic of Türkiye Constantinople can go kiss my ass.

E) Supplement Mode: Should you desire something more from your stay here, then you can use this as a supplement for another WoD Jump. Alternatively, you could be in another world, separated from the WoD series entirely. Whether you merge the two worlds into one, or bring your purchases from here to there, is entirely up to you.

F) Wonderland: Yes not a normal place in the World of Darkness, just say it's part of the Dreaming that connects to the 1976 Alice in Wonderland: An X-Rated Musical Fantasy naked. Why is this an option? NSFW and why not?

G) London: Wait somethings not right. Ok so this is London from Bridgerton starting in Season 1 the year 1813. Why you may ask because Charithra Chandran, Jonathan Bailey, Phoebe Dynevor, Yerin Ha, Regé-Jean Page, and Genevieve Chenneour are all very pretty and I don't need to explain myself further do I?

Perks & Stuff:

Ventrue [0 CP, Mandatory]: You are no longer counted amongst the living, now one of the supernatural predators of humanity that share the blood of Ventrue, The Hand of Caine. You are completely ageless, capable of living potentially forever so long as you don't run butt ass naked into oncoming traffic. You possess superhuman strength and durability, and no longer require the majority of your organs to survive. The only thing you need to consume is blood, as not only can it be used to heal you, but it is also what powers your vampiric abilities. This doesn't mean that you're invincible, as sufficient damage or dismemberment can kill you, as will fire. Chief among your weaknesses is the light of the sun, which will immediately reduce you to ashes, Oh don't look at me like that it all becomes an alt-form post jump.

Blood Bond [Free, Optional]: The blood of a Kindred has some interesting properties, especially when consumed by a normal human or an animal, transforming into what is known as a Ghoul. Feeding them your blood will see them developing strong feelings for you, as well as gaining a smattering of your vampiric powers. They will cease aging, possess slightly superhuman physicality, heal quickly, and learn the basics of your Disciplines. When fed to an animal, they tend to grow larger than normal.

Ancilla [400 CP]: Being a Neonate sucks and somehow being a Fledgling is worse. Want to skip that? Cool now you're an 8th generation Ancilla with the blood to prove it. Don't let it go to your head there are always bigger fish out there.

RA9-Earth23425 [1,000 CP]: Fuck it you have somehow overpowered the Tzimisce Antediluvian! Diablerie Diablerie for everyone! Jokes aside, you're a 3rd generation now removing the 5 dot cap and setting all your Attributes 7 dots, except for Charisma, Manipulation, & Wits that go up to 10 dots. As he was an Tzimisce you get one dot in Animalism, Auspex, and Vicissitude for free. You will receive extra **500 Discipline Points** to spend and can purchase above Rank 5, but I am not listing shit. If you want it read the wiki or fanwank there is just too much to list for each Discipline. As an added price you must take **Metamorphosis** for zero CP.

Dom Perks, Items, & Drawback

Born Leader [100 CP, Dom xxx]: It's not enough to have leadership skills, but the business instincts and learned wisdom to use them correctly. Knowing how to navigate a boardroom and motivate the wage slaves to turn a profit. You have all of that and a bag of blood.

Not Just People [200 CP, Discount Dom]: Being able to control people is all well and good, but it's not going to help you if a Lion controlled by a Gangrel leaps on your pale ass. After choking down animal blood and throwing it back up a few hundred times you learn something new. Now **Animalism** is an in-clan Discipline with the first dot free.

Self-Control [400 CP, Discount Dom]: You have perfect control over your body letting you restart your heart, breathe, have your genitals get rock hard/wet, skin bumps (like from the cold), hair grow, etc without having to spend blood on the "Blush of Life". It will

spend willpower instead and can control far more precisely. You also have the Unbondable Merit making you immune to the blood bond.

The Rightful King [600 CP, Discount Dom]: Your word is law. Something like that as you now both automatically use your **Dominate & Presence** Disciplines on mortals and when used on mortals, they are one hundred percent free. As for Kindred I will throw in a +2 success flat bonus to both Disciplines.

Spending Money [100 CP, Free Dom]: A bank account in your name worth 40 million USD and a theft-proof ATM card. If your next jump does not take place in the modern day, you gain a magical bag instead. It can only store money and only you can pull funds out. The account resets at the beginning of each jump.

Business [200 CP, Discount Dom]: Get yourself a severally profitable small business that both pat out your portfolio nicely and pay out a few million a year. It always looks good to be able to call yourself a small business owner even and still be able to buy nice things when you want.

Sexy Suit [400 CP, Discount Dom]: A perfect-fitting suit, something that Barney Stinson would be proud of. Why pay CP for this? Because the Tremere magic has a layer of **Fortitude** 5 dots field on it. If destroyed it will reappear in your warehouse a week later.

Arrogance [+200 CP, Mandatory Dom for +0 CP]: Fueled by the beast and your natural desire for power you must force someone to obey a command given before you

can feed on them. Yes, you're a vampire Dom that can only feed on mortal Subs, no animals, and any Kindred blood is fine. You can't take the **Yielding Control** drawback.

Sub Perks, Items, & Drawback

Brat [100 CP, Free Sub]: It's not just about serving the needs of the Dominant, but being playful, defiant, and attention seeking little shit and getting away with the bad behavior. At worst you will get a public dressing down, a private spanking, or a toy taken away. Even the prince of the city will just give you a slap on the wrist for your behavior rather than a beheading. This works 90% of your behavior words and deeds, just doesn't cover out right violence or high value theft.

Get Away [200 CP, Discount Sub]: Sometimes not all the time, but sometimes you can't get away with it. Decades of running away from accountability for your bad behavior has paid off, I guess. Cowardly activity got you **Celerity** as in-clan Discipline with the first dot free.

Daddy's Money [400 CP, Discount Sub]: Coming from old money and being a spoiled little masochist paid off I guess. Extra **600 CP** for the item section only and yes this perk reset at the being of each Jump.

Princess [600 CP, Discount Sub]: *"Yes, I'm a gatekeeper and a hater. I'm also God's favorite princess and the most interesting girl in the world"* Starting with 5 dots of Charisma and a perfect bubble butt. Second, anyone who spansks your bare bottom or plows your anus will fall in love with you. I am not talking blood bond I am talking the kind of

true love a sadist and a willing worm feel. This doesn't need to be renewed once a month as you will simply have a place in their heart forever.

Long Car [100 CP, Free Sub]: A limousine just a very pricy thing with four wheels. The vehicle never needs any maintenance, has unlimited fuel, and if destroyed it will reappear fixed in a week.

Victorian Estate [200 CP, Discount Sub]: This vast piece of real estate has a manor home, garden, and a small army of maids (followers) to keep it clean. Nothing less the best will ever do for your Haven.

Blood Rubies [400 CP, Discount Sub]: The families money starting with \$71.4 billion at the start of each Jump and adding \$100 million a year. Yes, it will change to match the currency of the next setting you end up in.

Yielding Control [+200 CP, Mandatory Sub for +0 CP]: Something about you wants to be dominated not just by the Discipline of the same name, but obeying a command, publicly humiliated, being punished (especially spanked), and getting restrained by force. You just love it so much even your Beast goes for it. What oh yeah feeding restriction. You can only feed on those who have dominated you sexually, yep mortal Dom's, no animals, and any Kindred blood is fine. You can't take the **Arrogance** drawback.

Techie Perks, Items, & Drawback

Tech Head [100 CP, Free Techie]: Oh, you're a smarty aren't you. Got yourself 4 dots of Intelligence, 3 dots of Intelligence (Mathematics), and 3 dots of Technology (Coding).

Mind Over Matter [200 CP, Discount Techie]: Science and spiritually don't have to be opposite. After delivering through a mountain of research you see past the pseudoscience and find a deeper understanding. When presented with a "scientific fact" you can now automatically tell if it's bullshit and know why even if you should have the scientific knowledge you just know. Unlock **Kineticism** as in-clan Discipline with the first dot free.

Advanced Idea [400 CP, Discount Techie]: Inventor isn't just a title, it's who you are. Your sheer scientific talent matches the likes of Dr. Emmett Brown, too bad you have zero engineering skills. You got computer skills instead of making

time machines you can make true A.I. Yeah I know it doesn't sound as great until you figure out how to make a terminator.

Future [600 CP, Discount Techie]: You have seen the future and it's not magic it's technology. Gaining all 5 Ranks of both **Technica** and **Thaumaturgy VI** even without meeting the normal prerequisite. The funny thing is you're still using magic right.

Bag of Money [100 CP, Free Techie]: Best way to get away with being a creep is to have a lot of money. You will receive \$500,000, either in cash or in a bank account of your choice, and no one questions its origins unless you actively point them out. This restocks once a month.

Lab [200 CP, Discount Techie]: A facility full of laboratories and computer programmers all paid by government grants? Whatever the nerds work for you will be coding new computer programs, working on bettering A.I. learning, nanofabricating smaller chips, and or just arguing Trek lore.

Cumm-bot [400 CP, Discount Techie]: DEMI the sex droid straight out of Subverse. You didn't just look into the future, you brought something back and it thinks you are "her" Captain so have fun with that. If you want this droid to be a true A.I. and not a sex toy then you will have to purchase **Vampiric Coterie** take the import option.

Pride [+200 CP, Mandatory Techie for +0 CP]: You have always thought of yourself as smarter than everyone else and loathed to be around those you thought of as lesser minds. Know your undead you are unable to drink the blood of a mortal who isn't also a genius and I mean real genius not a fool with money like Elon Musk.

Drop-In Perks, Items, & Drawback

It still works! [100 CP, Free Drop-In]: Your genitals are always in "blush of life" mode and rock hard/gushing wet. You can cum like a living person and it's not blood, but the correct fluids. No more refractory person hell it looks more like rigor mortis and for the lady vamps your crotch looks like Niagara Falls. You can cum hundred times in a row without any rest in between or at least your genitals can. All that with your sex organs feeling just like when you were alive if not better. Yes, I keep reusing this.

Oral [200 CP, Discount Drop-In]: Dedication to training your oral sex skill to the point extended your tongue to be longer than Gene Simmons. I am so proud of you. Please take *Enchanting Gaze*, *The Tongue of the Asp*, and *Serpentis* as an in-clan discipline.

Anal [400 CP, Discount Drop-In]: Funny thing about anal sex and feeding they both make a mess. We can fix that with the power of cleaning. Spill some blood it disappears after five minutes, plowing someone's ass it's clean as soon as you're in, someone doing the same to you also clean, got recorded feeding videos gets deleted after five minutes, forgot to lick the wound closed self-closed five minutes later, etc. Yes, this covers almost all your masquerade breaching evidence and ass-play needs.

Vaginal [600 CP, Discount Drop-In]: As good as gooning feels it's nothing compared to a tight gushing pussy. Whenever you watch porn while masturbating you can choose to feel the mouth, buttohole, cock, or vagina of the performer on the video. The genitals of the person feel like they would have felt at the time of the scene. Oh and if it's live feed you can choose to have them feel your genitals also. Hmm does this count as astral projection? Ok 5 dots of **Auspex** for you.

Dildo Sword [100 CP, Free Drop-In]: Anyone you strike with this purple dildo baseball hybrid will both be stunned for one second with each hit and feel equal arousal to the physical damage done. It's not unbreakable or anything, but if destroyed or lost you get a new one in a different color in a week.

Nightclub [200 CP, Discount Drop-In]: The most basic hunting ground even a fledgeling can find a drink at. The mortal (followers) staff will keep the place running, drinks flowing (alcohol), keep triff raff out and the money coming in. You can pick the theme of the club at the beginning of the jump and change it every 5 years. For the purposes of hunting it counts as your very small Domain. The money it makes in pure profit is equal to 3 dots of spending money unless you have some skill at running a nightclub then maybe it could make even more money.

Bordello [400 CP, Discount Drop-In]: Look at all the fresh human passion for the right price. Pleasure doesn't come cheap after all the lads and ladies working here know how to bring out the best feelings in their clients. The money this place makes is nothing to scoff at plus just look at them. They will not follow you out of the bordello so don't bother asking. You can feed on your followers just be aware if you do they will not be working for a few days after. No one wants to bang someone who looks sick after all.

Slut [+200 CP, Mandatory Drop-In for +0 CP]: Every try thinking with something other than your genitals? Me neither. As a result you can only feed on the blood of a mortal who is having sex either with someone else or themselves (it's called masturbation look it up, no do a google search in video!). I really hope you're not ugly or you're going to go hungry. Oh yeah you can still feed on Kindred blood normally.

Items:

First Haven [100]: The shitty first haven you get in bloodlines as the protagonist. It's horrible, dirty, in the crap part of the city you start in and paid up front for ten years.

Second Haven [200]: Every Venture needs a haven where they can feel safe and protected from their enemies and the sun, this mansion is yours. It is a full-size McMansion with a secure basement and panic room. Too bad it's ostentatious and lacking in architectural integrity rooms in a weird lay out that would please a Malkavian.

Elysium [400]: - Somehow you got this opera house a permanent Elysium meaning no one with half a brain cell will be willing to start a fight in your place. The opera house itself is a massive provider of "face" for you but getting it made into an Elysium is a nail in the coffin to any and all of your detractors. It's noteworthy to say the mortals that work here have no idea about vampires, so you want to "hire" some ghouls to run the other half of the business. Speaking of business this place will reap great pay days every event.

Evil Incorporated [600]: This corporation seems to do everything in its power to be complete assholes to everyone. Going out of their way to polluting the environment, underpaying their employees, supporting totalitarian regimes, and protecting racist, rapists, & pedophiles. The blood money this corporation makes is stupid were talking in the hundreds of billions a year. If you can live with yourself this will keep you in the 1% of the 1% for the rest of your unlife you evil dick bag. So yeah Pentex.

Companions:

Normal rules apply to max 8 companions.

Vampiric Coterie [50/100/200 CP]: You don't want to be alone in this nightmare, do you? No? Good, because neither do they. Your new OC friend(s) or returning beasts gains a free origin, 800 CP to spend as they like, and they may take drawbacks. Just in case it wasn't clear, one costs 50 CP, up to four costs 100 CP, and up to eight costs 200 CP.

Locals [Free]: If you can convince them of their own free will, without mind control like Disciplines or blood bonds. Then you can take as many people with you as you like. They don't gain any CP, you don't get a favorable meeting, or anything like that.

Valentina [100 CP, Discount Dom]: She is a weird combination of submissive brat and a deeply caring person. I have no idea how she has survived for so long, probably something to do with the 5 dots of Fortitude and all that money.

Dracula's Wives [Free, Requires The Rightful King]: Got yourself three submissive Venture wives all need to be punished. They take up only one companion slot and do everything together wink wink.

Drawbacks:

Not The End [+0 CP]: Gehenna. Apocalypse. Winter. The Time of Judgement. Last Call. So many creatures of the night have their own stories about the end of the world,

and many believe that those times are fast approaching. Thankfully for everyone involved, though, there is this option, ensuring that such cataclysmic events don't happen unless you actively go out of your way to cause them.

A Familiar World [+0 CP]: Would rather visit the world of a game of Vampire the Masquerade you played, watched, even maybe a video game version.

Extended Stay [+100 CP]: Ok sure additional ten years drawback can be taken multiple times if you like. The maximum amount is 10 times.

Stereotype [+100 CP]: The masquerade got you good, didn't it, to be fooled by all the vampire stories you've read or seen. You wear a long black cape, speak with an accent and otherwise act in a cartoonish fashion. Non Malkavians vampires are likely to ostracize or mock you and probably report you to the prince.

Bimbofication [+200 CP]: Just google it if you need a picture, just not at work. You have been transformed into a plastic-looking sex doll to the point that you have hit the uncanny valley. Eye lashes are so long it obscures your vision, lips so big it's hard to bite, and skin covered in removable glitter. Some people may be into you, but most will find you off putting. Think turbo Kim Kardashian good luck getting anyone to take you seriously.

No Reflection [+200 CP]: You cast no reflection on any surface, any picture or video of you is incredibly blurry and indistinct. If you were a Lasombra this would be normal, but you're not so try to avoid letting anyone else notice this as it will raise questions. Worst part, your own cousins are more likely to notice that you have two different clan weaknesses. As the Lasombra are the Ventrue's biggest enemies' things aren't going to go great if they notice.

Nemesis [+200 CP]: You have a truly perfect foil. This person is above you in the Venture hierarchy, status, money, and power. The worst part is if they always seem to see through plans and adjust accordingly. After your first year they will decide to have you eliminated, good luck.

Nymphomaniac [+200 CP]: You are so horny that every night you go without sex you, increases the difficulty of using any Discipline and skill not related to having or getting sex. Starting at a -1 dot on the first night with sex and going all the way to -5 dots on the fifth without sex. On the sixth night without sex results in a lust frenzy check difficulty 6 and every night after.

Metamorphosis [+800 CP]: The Eldest is living rent free in your heart's blood. This crazy ancient Tzimisce is still butt hurt about failing to evolve past being a vampire and

is now making it your problem along with whispering in your mind to build a new Cathedral of Flesh, restart his metamorphosis project, and summoning packs of Tzimisce & Revenants to try to eat you.

Ending:

Did you know that the Latin text on the Dark Ages clan shield reads "Regere sanguine regere in veritatem est," which means "to rule with blood is to rule in truth." Err...I mean good job not meeting the final death now pick a thing.....

Stay: Staying in this trash fire of a world?

Go Home: Probably a good idea after all this.

Continue: Sounds like fun.

Notes:

- Sorry RA9-Earth23425 I couldn't help myself.
- Hentia pics from CherryMouse, Ayanakitori, SleepyGimp, Andava, Master69m, DoubleDeck, Fellatrix, Tarakanovich, DevilHS, Yellowroom, Flook, zunta, Aelion, Arthur-Asa,
- Small Discipline list: yes I know there are a lot more out there. I have listed all the ones you are likely to learn from the Camerilla clans (20th anniversary edition) and from perks. If you want something I haven't listed, I am not stopping you.
- Post Jump removes the sunlight weakness from you and your companions. Doesn't work on anyone your sire in the future sadly, but they get your origins flavor of rich dicked automatically so that could be fun.
