My Childhood Friend Is My Personal Mouth Maid

V1.0

Modern Japan looks much as you'd expect: packed commuter trains, harried office workers glued to their phones, and high schoolers fretting over entrance exams and crushes.

Most households chug along in quiet normalcy. Some, though, veer into the delightfully peculiar.

Keigo's stands out among them.

Son of a wildly wealthy and whimsically eccentric tycoon, Keigo enjoys a life of polished luxury, tended by live-in maids Chisato and Kaneko. They manage the everyday chores with flawless grace—cooking, cleaning, organizing—while doubling as free-use intimate partners. When the mood strikes, they're there for Keigo or his father, ready to provide whatever relief they desire, no questions asked.

It's an eyebrow-raising setup, to be sure.

Yet it's one that hums along in perfect, peculiar harmony. No resentments simmer; everyone seems content in their roles.

Not all corners of life gleam so brightly, however.

Mizuki, Keigo's childhood friend from humbler roots, knows hardship all too well. Her family's drowning in bills after her mother skipped town, leaving a mountain of gambling debt behind. Bills pile up, her father's health crumbles under endless overtime—and options dwindle fast.

Desperate times call for bold moves. She turns to the one household where money flows like water: Keigo's.

His father is happy to help.

With one catch, of course.

To wipe the slate clean—debts gone, medical bills covered—Mizuki joins as Keigo's personal maid. All the usual household duties, cooking and cleaning, but just like Chisato and Kaneko, she'll also be offering intimate service, even if only for him. His father isn't a barbarian after all, to lay hands on his own son's girl.

What can she do but accept?

Now, you're stepping into this cheekily lewd twist on modern Japan. Will you bask as an indulged student like Keigo, toil devotedly as a maid like Mizuki, or pull strings from the shadows as a benefactor? You start with **1,000 CP** to gear up for the decade ahead.

Location, Age, and Gender

You may begin anywhere in Japan, though by default you will find yourself in the same neighborhood that Keigo lives in.

You may choose your starting age freely between 18 and 50.

Your gender is entirely up to you.

Origins

In a household like the one shown in this manga, everyone has a role to play. Whether you are the one being indulged, the one doing the work, or the one quietly making the entire arrangement possible, the dynamics of this world revolve around comfort, dependency, and the strange ways people choose to support one another.

Choose one of the following Origins. Each provides **discounts** on its associated perks and items. Any Origin may be taken as a **Drop-In**, in which case you arrive in this setting without any pre-existing history, relationships, or established circumstances beyond those explicitly provided by your own abilities, perks, and items.

Student

You are, at least on paper, a perfectly ordinary high school student—albeit one with access to a level of wealth and indulgence far beyond what most people your age could ever dream of. Whether through family circumstances or sheer good fortune, your needs are met, your comforts are assured, and your whims are often indulged.

More importantly, the people around you are far more tolerant of your behavior than they have any right to be, treating your selfishness, impropriety, or lack of restraint as little more than a harmless quirk.

Childhood Friend

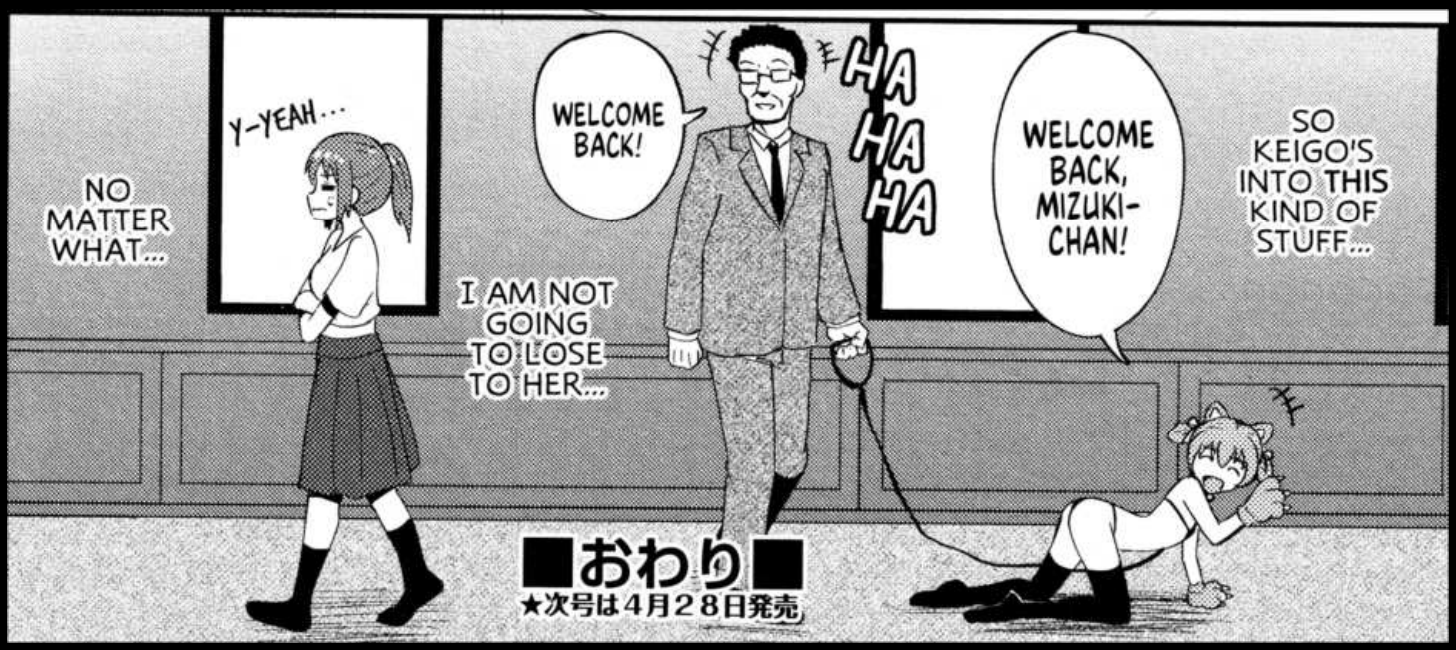

You come from a far more modest background, one shaped by responsibility, hardship, and the need to make the best of difficult circumstances. Whether driven by necessity or devotion, you are willing to work harder than most, adapt to situations others would balk at, and do whatever it takes to secure a better future for yourself and those you care about.

Where others might falter under pressure, you endure, adjust, and keep moving forward—no matter what it takes.

Side Character

Not every story revolves around the people at its center. Some exist comfortably on the periphery, shaping events through wealth, influence, or simple indifference to convention. Whether you are an established member of an eccentric household or a benefactor with unusual tastes, you occupy a position where the rules that bind others seem far more… flexible.

In your world, what might be scandalous, improper, or outright unacceptable elsewhere is more likely to be dismissed as eccentricity—so long as you can afford it.

Perks

Perks corresponding to your chosen Origin are discounted by 50%. The 100 CP perk for your Origin is free.

Unless otherwise stated, all perks may be freely toggled, adjusted, or selectively suppressed at will.

Student Perks

[100 CP] Headpats

You may inexplicably induce a small surge of comfort, affection, and emotional warmth toward yourself in any person or creature simply by patting them on the head. While hardly mind control—and unlikely to do more than briefly stall active hostility—this gesture has an uncanny tendency to calm tensions, soften irritation, and leave others unusually receptive to your presence.

[200 CP] A Loveable Dick

Your sexual partners possess an almost supernatural tolerance for selfishness in the bedroom. Behavior that would normally be considered inconsiderate, arrogant, or blatantly self-serving somehow comes across as charming, amusing, or simply part of your appeal instead.
More than that, your partners tend to derive genuine satisfaction from prioritizing your pleasure over their own, finding your enjoyment emotionally rewarding in and of itself. While this will not override genuine mistreatment, abuse, or serious incompatibility, ordinary sexual selfishness rarely causes lasting resentment.

[400 CP] A Different Sort Of Jealousy

Your romantic and sexual partners tend to react to rivalry in highly unconventional ways. Rather than becoming hostile, possessive, or emotionally withdrawn at the thought of you being involved with someone else, they are far more likely to respond with determination to "outdo" their perceived rivals instead—particularly in terms of affection, attention, intimacy, and sexual enthusiasm.
Jealousy still exists, but it manifests less as resentment and more as motivation. Your partners are inclined to compete for your affection by trying harder, becoming more attentive, or deepening their involvement with you rather than attempting to drive others away.

[600 CP] Big Protagonist Energy

Things simply tend to go your way. The universe itself seems strangely reluctant to inconvenience you for long. Weather shifts at convenient moments, traffic clears when you are in a hurry, mechanical failures avoid affecting you directly, and coincidences disproportionately favor your interests.
More importantly, life itself seems inclined to arrange unusually fortunate circumstances around you. You are far more likely than most to find yourself surrounded by supportive relationships, improbable opportunities, timely assistance, and outcomes that somehow leave you happier, wealthier, more comfortable, or more fulfilled than strict probability would normally allow.
Even more esoteric forms of fortune—reincarnation, supernatural encounters, chance meetings, inheritance, or bizarre narrative coincidences—tend to resolve in your favor more often than they reasonably should. While not absolute protection from misfortune, nor any defense against deliberate hostile action, reality consistently seems to treat you as one of its favorites.

Childhood Friend Perks

[100 CP] Masochistic Tendencies

You possess a distinctly self-sacrificing approach to intimacy. Physical exhaustion, embarrassment, discomfort, frustration, humiliation, and even outright deprivation can all become sources of genuine pleasure for you, particularly when endured for the sake of someone else's enjoyment.

More than that, you are remarkably good at acclimating to intimate acts or experiences that would normally be considered unpleasant or difficult to tolerate. So long as they occur in a sexual or emotionally intimate context, things you initially dislike may gradually become pleasurable, addictive, or emotionally comforting over time.

This mindset may be freely toned down, intensified, or disabled entirely at will.

[200 CP] A Whole Bunch Of Part-Time Jobs

You have an almost absurd talent for finding employment opportunities, particularly informal, temporary, unconventional, or part-time work. Employers seem unusually willing to overlook inconvenient details such as your age, schedule, lack of experience, criminal record, or other circumstances that would normally complicate hiring.

Whether the work in question is entirely legitimate, morally questionable, outright criminal, or simply bizarre, people offering jobs tend to view you as trustworthy, reliable, discreet, and surprisingly easy to hire.

So long as you are willing to work, you rarely remain unemployed for long.

[400 CP] Not A Barbarian

Your employers, supervisors, clients, and coworkers tend to become unusually fond of you remarkably quickly, and are generally willing to accommodate your needs so long as you remain reasonably reliable. Flexible schedules, adjusted workloads, under-the-table payments, additional benefits, paid time off, and similar conveniences become surprisingly easy to negotiate.

Even demanding employers often find themselves wanting to “take care of” you in return for your efforts, becoming notably more patient, forgiving, generous, and protective than they would normally be toward someone in your position.

[600 CP] Star Student

Like Mizuki herself, you possess a startling ability to thrive under pressure. Stress, overwork, complicated schedules, emotional strain, sleep deprivation, and constant demands somehow fail to significantly hinder your performance. Where most people would burn out, you adapt, endure, and continue improving.

You learn quickly, adjust rapidly to new situations, and develop practical competence at an astonishing pace once you commit yourself seriously to something. Whether academics, domestic work, sexual technique, social maneuvering, professional skills, or nearly any other field of expertise, you can become talented enough to rival experienced professionals with only a fraction of the time and training one would normally require.

Side Character Perks

[100 CP] They’re Really Maids

And so are you. You possess all the skills expected of a truly exceptional maid or domestic servant: cooking, cleaning, laundry, scheduling, presentation, etiquette, household management, and countless smaller details most people never consciously notice.

More importantly, you perform all of these tasks with effortless professionalism and polish, maintaining an atmosphere of comfort, refinement, and quiet efficiency around yourself almost instinctively. Even ordinary domestic work somehow becomes strangely elegant in your hands.

[200 CP] It's Not Prostitution If They're Maids

For reasons that would likely make both lawyers and regulators develop stress headaches, people seem unusually willing to accept your bundling of sexual duties alongside otherwise legitimate employment.

This effect applies to any position for which you are the ultimate employer. Whether your personal assistant has unusually personal "additional duties," the secretaries at your company do more than most to maintain "corporate morale," or the turndown service your hotel chain provides is more of a "going down" service, such arrangements are generally treated as eccentric, private, or merely "one of those rich people things" rather than causes for serious scandal or institutional scrutiny.

The primary limitation is that everyone involved must knowingly agree to the arrangement, and employees will still expect compensation appropriate to the additional duties being requested of them. While people may gossip, quietly judge you, or question your taste, meaningful social, legal, or moral backlash never seems to materialize.

[400 CP] He's So Full Of Energy For His Age!

Rather than exhausting you, sexual activity has an invigorating effect on both body and mind. Fatigue fades, stress diminishes, aches lessen, and your overall energy noticeably improves afterward.

While not true regeneration, regular intimacy leaves you feeling healthier, more rested, and considerably younger than your age might otherwise suggest. Minor aches, lingering exhaustion, and the cumulative strain of stress and overwork become far easier to shake off, allowing you to maintain an almost suspicious level of vigor well into old age.

Additionally, your recovery following sexual activity is dramatically accelerated. Your refractory period becomes substantially shorter, physical stamina recovers quickly, and repeated encounters become far easier to sustain without wearing yourself down—though you are not capable of continuing indefinitely without rest through this perk alone.

[600 CP] Lending Money As A Hobby

The normal social, legal, and institutional expectations surrounding loans, debt, and financial dependency seem strangely flexible in your hands. You may freely offer loans on nearly any terms you desire, no matter how unconventional, unequal, or personally involved the arrangement might otherwise appear.

So long as the other party knowingly agrees to the terms being offered, society, the legal system, and most institutions never seem particularly inclined to object. Arrangements that would normally provoke outrage, intervention, or scandal are instead treated as eccentric, private, or merely another example of how wealthy people behave.

A wealthy older man offering to pay off a young woman's family debts in exchange for her working as his live-in maid until the debt is repaid might raise eyebrows, but little more than that. In conjunction with *It's Not Prostitution If They're Maids*, such arrangements may naturally include intimate or sexual duties as part of the agreed terms.

This perk does not compel anyone to accept your offers, and the protection from scrutiny surrounding any given arrangement vanishes the moment you violate the agreed-upon terms. It merely ensures that, somehow, no one ever seems especially interested in stopping you from making such arrangements in the first place.

Items

Items corresponding to your chosen Origin are discounted by 50%. The 100 CP item for your Origin is free.

Student Items

[100 CP] Protection

You have access to an effectively endless supply of condoms in any variety reasonably available on modern Earth. Different sizes, materials, textures, colors, flavors, specialty designs, novelty options, and similar variations are all available to you as desired.

They are always conveniently close at hand whenever you reach for one, remain in perfect condition indefinitely, and somehow never seem to run out no matter how frequently they are used. You may use them yourself, provide them to others, or distribute them freely without ever noticeably depleting your supply.

[200 CP] School Uniform

A perfectly tailored school uniform of your choice, male or female, styled after those worn by Keigo and Mizuki. It is always impeccably clean, freshly pressed, and perfectly fitted to you.

A fresh instance of the outfit may always be found anywhere one would reasonably expect to store clothing: closets, wardrobes, dressers, lockers, suitcases, and similar locations. Any discarded, damaged, or otherwise abandoned instances quietly vanish on their own, ensuring that only a single copy meaningfully exists at any given time.

Strangely, people will almost always accept it as appropriate attire regardless of context, allowing you to wear it nearly anywhere without attracting more than mild curiosity.

[400 CP] Family Home

A comfortable modern home straddling the line between luxurious family residence and outright mansion. Spacious, well-maintained, and tastefully furnished, it possesses numerous bedrooms, generous common areas, large bathing facilities, and all the conveniences one might expect from an extremely wealthy household.

More importantly, the house always somehow seems capable of comfortably accommodating additional residents without ever feeling cramped or overcrowded, no matter how many companions, employees, guests, or live-in maids eventually come to reside there. To the point that new rooms seem to manifest without ever increasing the exterior dimensions if needed.

This property may be attached to your Warehouse, merged with any other property, dimension, or suitably spacious item you own, or inserted into future settings at a location of your choosing, and you may freely change your selected arrangement between jumps or once every ten years. Any relevant property taxes or the like seem to arrange themselves with no input from you, and the utilities in the form of water, power, sewage, trash, and even wi-fi likewise seem inexplicably taken care of.

[600 CP] Your Personal Mouth Maid

You gain a single attractive follower of your preferred gender who has willingly agreed to become your personal “mouth maid.” They possess deep romantic affection toward you, unwavering loyalty, and a genuine emotional desire to support, please, and remain close to you.

They are highly intelligent, emotionally supportive, and exceptionally talented at both domestic service and intimate companionship. This follower possesses the equivalent of the **Masochistic Tendencies**, **Star Student**, **They're Really Maids**, and **He's So Full Of Energy For His Age!** perks, making them an extraordinarily capable servant, companion, and partner able to rapidly master nearly any skill they seriously devote themselves toward.

Additionally, they possess their own copies of the **Protection**, **School Uniform**, **Maid Uniform**, and **Cleaning Supplies** items.

Should they somehow become separated from you through kidnapping, misfortune, death, dimensional separation, or similar circumstances, they will inevitably find their way back to your side within twenty-four hours at most, fully restored if necessary while retaining any skills they've learned, equipment they've been given, or upgrades made to them.

Childhood Friend Items

[100 CP] Cleaning Supplies

You have access to an effectively endless supply of cleaning equipment and materials: mops, rags, dusters, brushes, buckets, carts, disposable gloves, trash bags, and an extensive range of cleaning agents suited for nearly any surface, stain, or situation.

These supplies replenish as needed, remain in good condition indefinitely, and always seem conveniently available whenever and wherever you go looking for them. Storage closets remain unexpectedly well-stocked, forgotten supplies turn up exactly when needed, and somehow you never seem to fully run out of anything important in the middle of a job.

[200 CP] Maid Uniform

An extremely… abbreviated… take on a classic French maid uniform, styled after those worn by Mizuki, Chisato, and Kaneko complete with an optional belt and attachments for carrying cleaning supplies. It exposes an honestly absurd amount of skin while somehow still functioning as legitimate work attire.

A freshly cleaned and perfectly fitted instance of the outfit may always be found anywhere one would reasonably expect to store clothing: closets, wardrobes, dressers, lockers, suitcases, and similar locations. Any discarded, damaged, or otherwise abandoned instances seem to quietly vanish on their own, ensuring that only a single copy meaningfully exists at any given time.

Despite its blatant impracticality, the outfit somehow remains comfortable in nearly any climate or weather and provides protection roughly equivalent to a far more sensible and durable maid uniform under similar circumstances. Straps and frills never seem to snag on anything, the shoes possess inexplicably good traction and support, and the outfit as a whole never meaningfully interferes with physical activity, cleaning, or domestic work no matter how unsuitable it ought to be.

[400 CP] Attendance

Education is important, and with this, it is no longer something you need to worry about. You possess a certificate which may be presented to any educational institution—schools, universities, academies, training programs, apprenticeships, or similar organizations—to secure your immediate enrollment with minimal difficulty.

Tuition, enrollment fees, housing costs, required materials, prerequisite qualifications, prior academic history, disciplinary records, and similar bureaucratic obstacles are quietly waived, resolved, overlooked, or handled in your favor with little more than mild paperwork.

[600 CP] Refinancing

Your benefactor has extended to you an unusually generous financial instrument in the form of a set of refinancing documents. You receive one fresh set of these documents every ten years, and any unused copies may be freely stockpiled for later use.

By filling in the name of a specific individual or the details of a particular, you may completely pay off all debts, obligations, overdue bills, liens, fines, medical expenses, or similar financial burdens affecting the selected target.

These are replaced with a single, zero-interest loan structured to be realistically within their means to repay over time. The new arrangement is stable, clearly defined, and entirely free from hidden fees, predatory clauses, escalating interest, or similar financial traps.

Collection agencies, debt buyers, predatory lenders, and similar parties lose all claim to the original debts once the refinancing occurs, with the entire arrangement being treated as fully legitimate and legally binding by all relevant institutions.

While this does not grant unlimited wealth, it is often more than enough to transform a desperate or hopeless financial situation into a manageable one.

Side Character Items

[100 CP] Toys

A wardrobe containing an effectively endless supply of lingerie, accessories, restraints, costumes, and other intimate paraphernalia suited for nearly any consensual sexual scenario, roleplay, or aesthetic you can imagine. Simply picture the desired theme, mood, kink, or presentation—along with the intended participants—when opening the doors, and appropriate selections will already be waiting inside.

Everything is clean, properly maintained, correctly sized, and mysteriously well-organized no matter how impractically large or chaotic the collection should realistically become. Used or discarded items likewise seem to quietly clean and return themselves on their own over time.

[200 CP] Aphrodisiac

Apparently you know the same "invention enthusiast" as Kaneko. You possess a small bottle containing a dozen pills capable of rapidly restoring arousal, dramatically shortening or eliminating refractory periods, and significantly reducing the physical exhaustion associated with sexual activity.

The effects begin within moments of ingestion and may persist for several hours depending on dosage and individual physiology. Despite the alarming lack of proper testing standards involved in their creation, they appear to be entirely safe aside from substantially increasing libido for the duration of their effects.

The bottle itself always seems to turn up wherever you would reasonably expect to keep it, whether in your medicine cabinet, a desk drawer, or your cleavage, and expended pills replenish automatically at a rate of roughly one per hour.

[400 CP] Maid Service

Any fiat-backed residences you own, whether houses, pocket dimensions, vehicles, ships, or similar items, now inexplicably comes with two live-in personal maids.

These maids are persistent followers possessed of the equivalents of the **They're Really Maids** and **Masochistic Tendencies** perks, along with the **Cleaning Supplies** and **Maid Uniform** items. They are attractive, highly competent, discreet, and entirely comfortable with their roles as both maids and prostitutes.

Maids who are killed will inexplicably return after roughly ten years or at the beginning of your next jump, whichever comes first, while permanently dismissed maids and any pushed to the point of quitting are replaced by entirely new arrivals on the same timeline. You may freely dismiss any or all maids and suppress their replacement indefinitely.

Newly arriving maids may be customized to broadly match your preferred age, gender, appearance, race, and similar surface details within the normal limits of the setting from which their assigned property is drawn. Maids are always qualified adult volunteers fully aware of the arrangements involved in their employment.

Their salaries, living expenses, and other needs are entirely handled by

this purchase. When not actively working, they quietly vanish into comfortable “servants’ quarters” located… somewhere… which no one else ever seems capable of locating.

[600 CP] Patriarchal Lifestyle

Regardless of your Origin, background, or Drop-In status, you possess fully legitimate and thoroughly backstopped records establishing your identity, citizenship, residency, and financial standing within a nation of your choice in this and all future jumps.

Additionally, every twenty-eight days you receive an income equivalent to roughly $84,000 USD circa 2026, delivered through whatever means are most appropriate to the setting: salaries, dividends, trust funds, investments, corporate revenue, cash payments, or similar arrangements. Taxes, documentation, and other legal obligations are handled automatically and entirely legitimately.

Unless you actively choose otherwise, you will consistently be regarded as financially established, socially respectable, and comfortably wealthy.

Companions

[50 CP] Import/Create

You may import a previous companion or create a new one for 50 CP each. Imported or created companions receive an Origin of their choice, along with its associated discounts, and 600 CP to spend on Perks and Items. This CP cannot be used to purchase additional Companions.

The import option may also be used to raise followers from this or previous jumps to full companion status.

Created companions may be fully customized, including their gender, age, appearance, personality, history, and relationship to you. They are absolutely loyal to you, assuming you choose to make them so, to the point of readily accepting your use of Jumpchain Fiat to ensure that loyalty.

[100 CP] Recruit

You may bring along any local individual for 100 CP each. Recruited companions do not receive an Origin, discounts, or CP by default.

You may combine this option with Import/Create for a total cost of 150 CP to grant a recruited companion an Origin, discounts, and 600 CP as normal.

Drawbacks

You may take any number of drawbacks, provided you are willing to put up with them for the duration of your stay, and believe you can survive doing so.

[Free/Toggle] Self-Insert

Perhaps you would prefer not to merely arrive in a similar situation, but to step directly into the story itself. By taking this option, you may replace one of the major characters associated with your chosen Origin, inheriting their role in the setting, social position, and existing relationships.

Students may replace Keigo. Childhood Friends may replace Mizuki. Side Characters may instead choose between replacing Keigo's father, Chisato, or Kaneko.

This does not overwrite your personality or memories, though you will possess whatever knowledge, documentation, and social context are necessary to seamlessly occupy your chosen role from the moment the jump begins.

[+100 CP] That's Exactly Why My Wife Left Me!

You possess an absurdly high libido and a correspondingly poor sense of restraint whenever temptation presents itself. Given a willing partner and an environment unlikely to result in immediate legal, social, or physical consequences, resisting the urge to initiate or participate in sexual activity becomes genuinely difficult.

Extended periods of abstinence leave you increasingly distracted, irritable, frustrated, and prone to poor decision-making, while opportunities for intimacy tend to dominate your attention far more than they reasonably should.

[+100 CP] It Tastes Awful!

Your sexual fluids always seem to taste absolutely vile to anyone exposed to them. Unfortunately, the reverse is equally true: any sexual fluids you encounter taste just as unpleasant to you.

No one involved will ever fully acclimate to this, and even the most determined attempts to politely hide one's disgust tend to be only partially successful.

[+200 CP] A Little Left Out

Whenever you witness, overhear, or otherwise become aware of sexual activity involving others, you develop a persistent urge to personally participate in or experience something similar yourself, insofar as your own anatomy and circumstances allow.

This applies even when you are already involved in the encounter. Watching someone perform a particular act on you may easily leave you wanting to experience performing that same act yourself, and vice versa.

The more pleasurable, emotionally intimate, physically intense, or otherwise memorable the encounter appears, the more distracting this feeling becomes, often leaving you preoccupied with wanting similar attention or treatment directed toward yourself. While not completely overwhelming, the urge can become increasingly difficult to ignore the longer it goes unaddressed.

[+200 CP] He Shot It All Over Me

You are seemingly incapable of engaging in sexual activity without somehow ruining any clothing involved in the process. Stains, tearing, stretching, displaced garments, inexplicable leaks, and similar disasters occur with almost comedic inevitability.

Even encounters that should realistically remain fairly restrained have a habit of escalating into situations requiring a change of clothes, an emergency trip to the laundry room, or both. Laundry expenses rapidly become a fact of life.

[+400 CP] Such Great Friends

Your friends, acquaintances, coworkers, and other social contacts possess a remarkable tendency to view your goodwill, affection, loyalty, or desperation as opportunities to be taken advantage of. Requests that should reasonably be considered inappropriate, exploitative, or unfair somehow become alarmingly common around you.

Favors become obligations, boundaries become negotiable, and people seem unusually comfortable asking you to sacrifice your time, money, comfort, dignity, or well-being for their convenience or benefit. While this behavior is not usually overtly malicious, it is often selfish, insensitive, and deeply inconsiderate in ways that become exhausting over time.

[+400 CP] Selfish Lover

All of your sexual partners become markedly more selfish once intimacy begins. Consideration, attentiveness, restraint, and concern for your own satisfaction tend to diminish rapidly as things heat up, often leaving you putting in significantly more effort than you receive in return.

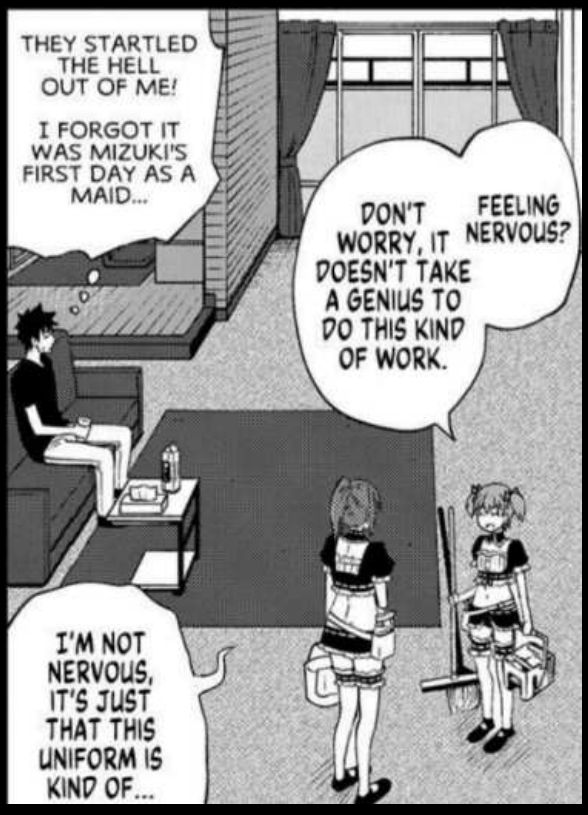

Requests are ignored more often than respected, your discomfort is more easily overlooked, and your partners frequently become preoccupied with their own pleasure to the point of carelessness. While not outright abusive, intimacy has a strong tendency to become frustratingly one-sided whenever you are involved.

[+600 CP] Debt

You are buried beneath an overwhelming mountain of debt owed to both organized crime and the medical system, to the tune of "far beyond your realistic ability to repay." Interest accumulates relentlessly, collectors never seem far away, and financial pressure becomes a constant presence hanging over nearly every aspect of your life.

Bills, late notices, repayment demands, threatening phone calls, legal pressure, and increasingly desperate attempts to stay afloat become unavoidable facts of daily existence. Even maintaining basic stability often feels like an exhausting uphill battle.

As part of this drawback, access to outside financial resources is completely suspended for the duration of your stay here. Passive incomes, money-producing items, external bank accounts, trusts, treasure stockpiles, and similar advantages from previous jumps simply fail to function or become inaccessible until the jump ends. Yes, this applies even to Drop-Ins.

[+600 CP] Compulsory Employment

For the duration of this jump, you are contractually employed as a full-time maid under the authority of a wealthy benefactor. You are expected to perform domestic duties, remain available on an extremely demanding schedule, and participate in the sort of "additional services" common to this setting whenever requested.

Your employer is not outright abusive, the compensation is at least reasonable, and the arrangement remains broadly within the generally lighthearted tone of the setting. Nevertheless, your

freedom, privacy, and personal time are heavily restricted for the next ten years, with much of your daily life revolving around the expectations, demands, and desires of your employer and household.

Attempts to simply walk away from the arrangement tend to run into persistent practical, legal, financial, or social complications that somehow keep pulling you back into the role unless you are willing to abandon nearly everything you have built for yourself in this setting.

Ending

After ten years have passed, your time in this strangely indulgent corner of modern Japan will come to an end. At that point, you may choose one of the following options:

Go Home
Return to the world from which you originally came, carrying with you all that you have gained during your chain thus far.

Stay Here
Remain in this setting permanently. Perhaps you have grown attached to the people, the lifestyle, or simply the comfort of a world where even the strangest arrangements somehow work themselves out.

Move On
Leave this world behind and continue onward to a new jump, carrying your companions, perks, items, and experiences with you into the next setting.

Notes

A Loveable Dick

This effectively let's you give your sexual partners a limited equivalent of the Masochistic Tendencies perk, applied to their relations with you.

Masochistic Tendencies

Effectively, the more your partner(s) are enjoying something, the more amplified any pleasure you get out of it becomes, and the more toned down any pain or discomfort. This has a somewhat cumulative effect over time, particularly with regards to similar sorts and sources of discomfort. Go from hating the taste of cum and gagging constantly to happily gulping it down while cumming from a throatfuck over a couple of days if you "put the work in."

Star Student

I'm hesitant to give an exact "you learn X times faster" for this... It's more a "you have no problems keeping up with anything you're trying to learn, regardless of other circumstances" sort of thing. Mizuki apparently had no issues keeping up with Keigo academically and maintaining the appearance of a young woman with her shit together, despite working

multiple jobs and dealing with an increasingly stressful home life, then went from inexperienced virgin to sexually rivalling Chisato and Kaneko remarkably quickly.

It’s Not Prostitution If They’re Maids

The primary limitations to this are that it only smoothes the way for entirely consensual aand above-board employment, that it won't help you hire anyone who wouldn't agree to the terms in a world where they were legal, and it does nothing at all to lower the compensation someone would expect for whatever you're asking them to do. So, someone who just has a strong conviction against the idea of sex outside of marriage is unlikely to accept the position of free-use maid for any amount of money, but someone who's already a bit of a slut is likely to jump on the offer if you add an extra zero or three to their salary. It mainly covers making sure no one finds any such offers inherently unreasonably and society at large never gets around to objecting if you start employing maids, secretaries, etc who are obvious prostitutes.

Lending Money As A Hobby

Similarly does not compel anyone to accept any offer you make but does let you make offers with pretty much any sort of terms and conditions, even those which would otherwise be wildly illegal. Attaching the condition that the recipient will pay off any loan you give them via working for you in a specified job at a fixed rate is fine. As is just giving a standard loan with the caveat that you'll send someone to break their kneecaps the first time they default. The guy doing the leg-breaking might be guilty of assault but there's no problem with you sending him to do it, provided the terms were knowingly and consensually agreed to. Combining with It’s Not Prostitution If They’re Maids explicitly let's you recreate the terms Mizuki was subjected to of "in exchange for this loan, you'll pay it off by working as a sex-maid."

Your Personal Mouth Maid vs Maid Service

The former is a perfectly devoted follower who will turn out to be quite talented at anything they put their mind to, retains any skills they learn or upgrades made to them, and respawns in 24 hours if lost, killed, or destroyed. They don't start as much more than a capable domestic servant who's always DTF, but they have tons of growth potential. The latter provides maids. They're "maids" by this settings definition sure, which means they're also DTF however and whenever their employer wants, but... someone hired them to be your sex-maids and trying to force them outside of that comfort zone is likely to cause them to quit and subsequently vanish, with quite a long wait on their replacement.

Maid Service

This is the equivalent of automatically hiring a couple of "maids" to staff any qualifying property, from the setting that property came from, without having to do any of the actual scouting, recruitment, etc and while retaining the ability to hire replacements if needed even after moving on from a particular jump. The standards for what qualifies to have this applied are fairly wide but not entirely without limits, mainly that "being a place for the owner to live" needs to be pretty high up as far as it's purpose. A TIE fighter definitely wouldn't count, a YT-1300 would, a full sized star destroyer again probably wouldn't, but a super star destroyer, or at least the captain/admiral's quarters aboard such very well might. Ultimately, it's up to fanwank.

Self-Insert Toggle

You may still take this as a drop-in, although you probably want to make sure you've got some way to compensate for or cover up the character you choose to replace apparently developing amnesia. Also, choosing to replace Mizuki without having some method to deal with her situation is effectively taking several drawbacks without necessarily getting anything from it... So at that point you might as well go ahead and take them for the points. Not that many experienced jumpers are likely not to have some way to overcome those circumstances, in the worst case, picking up Refinancing would let you circumvent the entire plot. Choosing to replace Keigo or his father essentially turns this into a vacation jump, but there's nothing necessarily wrong with that.

Based on the hentai manga Osananajimi wa Ore no Senzoku Okuchi Maid | My Childhood Friend is my Personal Mouth Maid by Poncocchan

Jump by KyleDaScourge, with AI assistance for spelling and grammar.
