Labo [600 CP | Discounted for Strange Furret]

A laboratory full of cloning machines and other technology that you'd find in a mad scientist's house, although it's all based on a Furret theme, which greatly reduces the credibility of any evil monologue you might say here. You're not a Furret or a ferret, in fact you're just your old self in a very poor quality, albeit strangely cute and funny, Furret costume. The problem is that you can't let anyone notice otherwise you'll have to wear a really stupid Furret costume for the next ten jumps!

However, you get a little Furret for free who is very funny, has enormous potential and admires you. He can follow you for free in all the jumps as a free companion who doesn't take up import space with the option of importing in the different jump as long as he survives all his misadventures.

Ferret Racing [100 CP | free for Furet]

You haven't understood a thing, you don't walk like a normal Furret, and instead you sprint at full speed like a real racing car and the greatest champion in the history of Ferret racing.

Ferret Legging [200 CP | Discounted for Furet]

Snap your fingers and two ferrets will appear in your target's trousers, enough to throw him off... For an extra 100 CP, it's actually Furret.

Kamaitachi [400 CP | Discounted for Furet]

You're very quick, and in a gust of wind you can rush at your target to knock him over, cut off his legs and then apply first aid... You don't need to do all three, but you're good at doing all three.
