

PUAZI (INCASE)

V 1.2 By Apocbox

Quite a while ago an interstellar sentient species known as Puazi arrived on Earth. Now, unlike what a lot of Hollywood movies would tell you, this did not evolve into some sort of interspecies war but instead cooperation and cohabitation. To the point that today the majority of Puazi have been born on Earth. The whole friendliness bit probably has something to do with with how the chemistry of humans affects Puazi, the way they feel, smell and taste, that makes Puazi very, very horny. Yes, pun intended. You arrive shortly before Anna gets on the train.

Take this 1000 points to spend. You will stay here for 10 years.

ORIGINS

Choose your age and sex for free, as well as your general appearance, like being a Femboy or a Big Tiddy Goth Gf if you want to. Both origins can be taken as a Drop In.

Human

You and your kind have lived on this blue rock since ancient times, and surprisingly, the arrival of horny aliens didn't really change much for you.

Puazi

One of the orange, brown, and blue-colored aliens that arrived on Earth some time ago. You've never really been to your species' home planet; hell, you haven't even left the Earth before. Just like all other members of your species, you possess a reaction to humans, though in your case it's rather mild, allowing you to live a comfortable life without jumping anyone's bones if you jerk off a few times a day. Acts as an Altform after this jump.

Perks

Perks are Discounted to their respective origins, perks worth 100 are free and the rest is 50% off. Free Perks are optional.

General

Incase Special Free

Everyone around here, as well as you, looks rather nice, and it will be the same in future worlds. You are immune to STDs, always clean inside and out with your partners being the same during sex as well as having total control over your fertility, with your partners thinking you're using protection if you set it to zero.

Nice Cock Free

You have a nice cock, bro! Thick but not too flaccid, perfect length, and a nice eighty-degree angle! I rate it 8.5 out of 10; good job, king! Stretches people nicely and pleasantly; makes you a futa if you are a woman and didn't have a cock before.

Some Extra Spice Free

In this and future jumps you can freely alter sexual and gender demographics of both the entire world as well as change specific canon people, like making that one girl into a futa or that muscle man into a muscle mommy.

Human

Welp That's A Thing Now 100

The aliens arrived, and so what? Are they going to kill and eat us all? No? Don't care then. Oh, they're actually sexy and horny for humans? Cool, going to go fuck some blue pussy now. You have an easy time adapting to new circumstances and are generally fast-thinking. If some horny bitch is offering to suck cocks of your friend group, you'll be first to take off your pants while they're stunned.

Share And Care 100

Your wife's actually pretty happy that you are fucking her mother, daughter and son. It's family, so it doesn't count as cheating after all! This mindset affects all of your partners and their families, with them not being angry that you are sleeping with each other and even encouraging all parties to do so.

Bob Doesn't Mind. He Loves His Wife Very Much 200

You are a generally good partner, having an easy time understanding their wants and needs as well as delivering on them. Even if you had shitty stamina on average, you could fuck your nympho alien wife to satisfaction quite easily as long as that's what she wants.

The Indomitable Human Spirit 200

The spirit is willing, but the flesh is spongy and bruised. But that's a quitter talk, and mama didn't raise no quitter! Your willpower is without limit, and you can force your body to function even if it's damaged or out of resources. You will squeeze out at least one more nut, you fucking will!

I'm Not! This is Weird! 400

It seems sex now is an extremely valid way for you to improve relationships with others, and nobody thinks it to be strange. Want to raise some points with your study buddy? Well, a quick fellatio is going to do the trick. Your stepson seems a bit distant? Fuck him while you watch a game on TV.

Holy Shit I Love Plan B 400

You are a master manipulator, easily spotting weak points of other people, and can construct situations to force them to do whatever it is that you want and even make them think that it was all their idea and you are innocent.

Lucky Bastard 600

So you wake up one day thinking it's going to be a boring one, but on your way to your friend's house some hot nympho chick was giving you fuck-me eyes, and so you railed her in the toilet. You get to your buddy's house, and it turns out that there's some hottie is joining you in your study session, so of course you double-teamed her. On your way back you get called in by some guy you know saying some hot milf needs help around her house. You say sure, but instead of doing any actual work, you just spend all your time fucking her. And as you finally arrive home

you notice a wallet with a crisp hundred just sitting there on a sidewalk. Well, that's just your luck I guess.

Strong Reactions 600

Holy shit, what sort of cologne do you use? You smell fucking divine. Any person who isn't part of your species finds you to be intoxicating. From your taste to your feel to of course, your smell, it just makes them so fucking hot and bothered. And if they are the same species as you, it still works, just to a weaker degree. Can turn it from 0 to 100 with a thought.

Puazi

Exotic Beauty 100

Not only are you a generally attractive person, being somewhere around a 9/10, and your beauty seems to transcend any sort of species or racial barrier, making you universally appealing to everyone.

What That Mouth Do 100

Puazi naturally have longer and more dexterous tongues than humans, but you take it a step further. Your tongue can easily stretch to about a foot in length, and your level of control and skill using it to cause pleasure is immense.

Are You Sure You Don't Have Another One In You? 200

Both your regular and sexual stamina is fantastic, far surpassing what is normal. You can easily spend the whole day fucking, do some strenuous physical work, and go for another sex marathon, feeling only a little winded by the end.

Do Not Have Sex With Your Students. Do Not- 200

You are an excellent teacher, being able to get through the skulls of even the dumbest people and easily explain even the hardest of ideas to them. Your students remember things you teach them far better and for far longer. You could've taught someone in middle school an interesting fact about biology, and they would still be able to perfectly recall it in their fifties.

I Won't Complain Earth Is A Nice Place To Live 400

As long as you do not behave as a complete menace to society, people are easily able to accept anything strange or different about you. Be it your race, sexuality, species, or even some sort of superpowers. Behave decently, and you will be seen as a nice curiosity and treated well.

Lots Of Experience 400

Considering your species' reputation as absolute nymphos, which is honestly kinda deserved, is it a surprise that you picked up a few things? Your skills in bed are kinda insane. You could easily leave even entire cheerleader teams full of experienced sluts in panting, eye-rolled orgasms with how good you are.

How Did It All Work Out This Well? 600

Don't get me wrong, being beautiful nymphs did help a lot, but to be honest, there was quite a bit of diplomacy before Puazi was accepted as a guest on earth. Not only are you always guaranteed at the very least a short time of talking with any opponent or organization before you engage in any kind of conflict, but you are also a master diplomat, having enough skill and experience to almost singlehandedly secure peace between two alien species. From negotiation to political maneuvering, economic integration, and so on that can make cohabitation actually stick and be quite peaceful and beneficial to both parties.

Xeno This, Xeno That. Xeno Please! 600

It can be quite annoying for people to refer to something normal to you as alien, but then again, you are a guest, so it's probably fine? Whatever the case, you are a master of all of your species' sciences, from knowing exactly why you get so horny around humans and how to make pills that block such reactions to your methods of space travel and much more. In future worlds, you can choose one species to gain a similar level of knowledge from.

Items

Items are Discounted to their respective origins, items worth 100 are free and the rest is 50% off. Anything can be imported into a fitting item (Weapon into a weapon, tool into a tool etc.). If lost or stolen you get them back in an hour. All items can be bought multiple times, with free items costing 50 after first purchase. You can combine compatible items like Perfect Kitchen and Big House.

Has a computer perfectly tracking the health and lineage of everyone on board. Has infinite fuel and power, and although it does come with an FTL drive, it's pretty slow, only reaching about 1% above the speed of light and is unable to be active for more than a couple of days at a time, requiring a week of cool-down before activating again, making you to rely on rather slow regular
