Fuck or Die - Gauntlet

By Complex_Ad_5944

This world is much like our own—modern and secular—but a disease has struck Japan, affecting only men. Its origin remains unknown, though one hypothesis suggests that, given the country's extremely low birth rate, the disease may have emerged as a mechanism to encourage procreation.
The condition affects men: whenever they experience sexual arousal, their eyes temporarily turn crimson, and their blood circulation accelerates—a process that leads to death within 30 minutes. To prevent this, an affected man must engage in sexual intercourse with a woman and ejaculate inside her. This causes the effect to subside; however, if he fails to ejaculate within 30 minutes of the symptoms appearing (the crimson eyes), he will die of cardiac arrest. This is merely a temporary solution; for a permanent cure, the man must successfully impregnate a woman.
By law, women are required to satisfy any man exhibiting these symptoms, regardless of whether his eyes have actually turned crimson. This mandate applies to women aged 15 and older, as the disease affects men within that age range. Women are not permitted to ignore such a request; if a stranger knocks on their door late at night claiming to have the disease, they are legally obligated to comply. Conversely, if it is proven that the man in question is already cured or does not have the disease at all, his actions are classified as sexual assault. To prevent abuse, there are strict oversight mechanisms in place to verify men's medical histories—rigorous checks designed to ensure that fraudulent claims are accurately distinguished from genuine cases.

Within the next year, you will be in this kind of world, so to start the Gauntlet, we give you + 0 CP.

Location and Time

You appear in any city of your choice in Japan—whichever one you like. The time period is between 2010 and 2020, so choose whichever year you prefer.

Gender

You can only choose a man. Unless the jump specifies otherwise.

Origin

Ordinary Civil (Free)

You are an ordinary person, a citizen with not much to offer. You determine your own age; you can choose an age between 19 and 45 years old.

High School Student (Free)

You are a student with the obligation to attend school, but with the advantage that you do not have to work and you receive a modest allowance to cover your basic expenses. You may choose an age between 15 and 18.

Patient (Free)

You're confined to a hospital, at least until you recover. Until you're cured or a year has passed, you'll be confined to these facilities to treat your illness. The good thing is that there are nurses and doctors (all female) to treat your illness. The bad thing is that your privacy and freedom will be limited, not like a prisoner, but like any hospital patient who shares a room with others. Staff turnover is very common, so the average length of stay for each doctor or nurse is a minimum of one week and a maximum of one month (though such cases are rarer).
You may choose an age between 18 and 40.

Mission

Your mission here is simple: survive the illness for one year or get a woman pregnant—in the latter case, you may complete the gauntlet and move on to your next destination.
Should you fail, it is not considered a fail-chain; instead, you will simply proceed to your next destination.
If you are a woman, you must give birth to overcome this challenge.

Reward

If you complete the mission, you get to keep all the options you purchased during this gauntlet, and all the perks you acquired become part of your "body mod."
As a second reward, you will exhibit the symptoms of the condition without actually having the illness itself. You can change your eye color to crimson at will. This is not merely aesthetic; in future jumps or Gauntlets, women will be compelled to engage in sexual relations with you. Whether or not you choose to ejaculate inside them is entirely up to you, but they will offer no resistance to your requests and will fulfill all your fantasies (provided

nothing is violent—rough sex is fine, but no heavy blows or torture). There will be no social stigma; their family and friends will view the situation as perfectly normal—though, should you get them pregnant, you will be responsible for your children.

DRAWBACKS

You may take any number of drawbacks you like.

Same World (+0 CP)
The Sex Shinai to Shinu Yamai series is a manga by the author Minazuki Mikka. This author has other works, so if you wish, you can bring everything together in this gauntlet. You may encounter characters from his other works within this gauntlet, as they appear as recurring figures.

Jump Mode (+1000 CP)
If you wish, you can turn this into a "jump" and receive 1,000 CP, but forget about the protection from the Gauntlet, as well as the reward for completing the mission associated with this Gauntlet.

Extended Time (+100 CP)
If you want, you can spend 10 years in this gauntlet.

Ugly (+100 CP)
Most men in this world are ugly, but your case is even worse. You have the look of a typical "NTR bastard"—ugly and fat. At least it’s purely an aesthetic issue, so you won’t have any health problems.

Repetition is not Permitted (+200 CP)
For some reason, you cannot have sex with the same person, so it is limited to one session per woman.

Infertile (+200 CP)
The cure for this disease is, at the very least, to get a woman pregnant. Unfortunately, you are infertile, so you will have to wait until the time limit for this jump expires—or die from the disease—whichever happens first.

Femme Fatales (+400 CP)
Most women do not take kindly to the law that forces them to have sexual relations with strangers—or even to conceive children—whenever they exhibit symptoms of the disease. In some extreme cases, women will attempt to kill the men they are compelled to have sex with, carefully timing the encounter to ensure that ejaculation does not occur within that 30-minute window.
Unfortunately for you, one in every five women you encounter will try to kill you. They won’t do something as straightforward as resisting or refusing to have sex with you—though that would be the most logical course of action for a sane person—but rather, they will manipulate the timing to prevent you from reaching climax. They might try to goad you or use verbal provocations to ensure the encounter lasts longer than 30 minutes, all with the intent of keeping you from ejaculating. If you let your guard down or get distracted, it will be the end of you.

Serious Symptoms (+400 CP)
Instead of something that happens once a week or every three days, your symptoms will manifest twice a day. We are talking about being on the verge of death twice a day.

Durability (+600 CP)
In other situations, this would be an advantage, but here it is fatal. It takes you at least 20 minutes to reach climax—and that's if you're really trying. This is dangerous, because if you don't ejaculate within 30 minutes, you will die from the disease.

Cuck (+600 CP)
Good news, jumper: you are immune to the disease, given that you are married and have children. The downside is that your wife cannot disobey the law, so she will have to fulfill her civic obligations (if you catch my drift).
Throughout this jump, you will have to endure the reality that your wife is being used as a plaything or a sexual outlet—an everyday occurrence involving various men, at least 50 per day. To make matters worse, she will always return home without even bothering to clean herself up, opting to use the household bathroom instead.
If you thought that was the extent of it, I'm afraid not. Since you don't have the disease, you cannot use it as an excuse to relieve stress; nor can you divorce her, as she is not legally doing anything wrong. And if you consider being unfaithful, it could cost you your assets and your social standing. Your own sex life won't be very active either, as she will be far too exhausted to engage—at least most of the time.
If you have a partner or follower with whom you share a romantic connection, you are required to bring them along into this jump so they can take your wife's place. The silver lining is that it won't cost you any CP.

Woman (+1000 CP - Incompatible with "Reverse" and "Repetition is not Permitted")
The primary victims of this situation are women, who are compelled by law to assist men suffering from this condition. As it happens, you are a woman in this world, and you are therefore required to abide by the law.
Consider that, at a minimum, you will have to be with ten men a day—and keep in mind that, in this world, while women are beautiful, men are, at best, only somewhat attractive, with even the most handsome among them reaching no more than a 7/10.

Reverse (+1000 CP - Incompatible with "Ugly" and "Woman")
Well, this is a 180-degree turn. It's not men who will have the disease, but women. By law, men are required to have sexual relations with women—and must get them pregnant. That might sound good, but keep reading: the beauty of both men and women will also undergo a radical shift. Men will be handsome, while most women will be unattractive—with even the most attractive among them reaching, at best, a 6/10.

Perks

Hentai World (Free)
In this world, women are incredibly beautiful. They possess delicate faces with highly attractive features, as well as well-developed bodies—boasting generous busts and shapely buttocks. The women are, at the very least, an 8/10; they are so stunning that it is impossible to find an unattractive woman—even those who are older or elderly age like fine wine.
As is typical for worlds of this genre, sexually transmitted diseases do not exist, making sex safe (in terms of disease).
Dirt and unpleasant odors are also non-existent in this world; even the grosser aspects of sexual activity are absent.
Post-Jump, you can influence the worlds you visit using this Perk.

Disease (Free - Mandatory - Only in this Gauntlet)
You will enter this Gauntlet with the condition; depending on how you view it, you could consider it either a curse or an opportunity. As previously explained, the symptoms manifest when you become aroused: your eyes turn crimson, and if you do not ejaculate within 30 minutes of the symptoms appearing, you will die from cardiac arrest.

Beautiful (100 CP)
With such beautiful people around, it's only logical that you'd be just as beautiful as they are. You are a very attractive person—a beautiful face and a well-developed, toned body. You're basically a 10/10.

Only for Me (100 CP)
In this world, women are compelled to have sex with anyone who exhibits the symptoms; however, this does not apply to your loved ones or partners. They are exempt from this law, and there will be no consequences for them.
Post-jump, this functions as an "anti-NTR" perk: your partners are protected, making it impossible for them to engage in infidelity (NTR) or cheat on you. Even forced attempts by others will be futile, and those who try will face severe punishment. You will never have to worry about your partner cheating on you or being coerced into doing so.

Fertility Control (200 CP)
You can control your own fertility, as well as that of your sexual partner. You can even control the genetics and characteristics of your offspring—such as their gender, traits derived from the parents, and so on.
Post-Jump, this extends to the abilities, powers, or talents of both parents, including perks or powers that are biological, hereditary, familial, or racial in nature—in short, anything capable of being inherited. These traits are also passed down to subsequent generations, with no dilution of their power over time.

Just in Time (200 CP)
Although women are obligated to alleviate the symptoms, this does not guarantee that one will always be nearby. Furthermore, keep in mind that individuals under the age of 15 are

strictly off-limits—not only could you end up in prison, but the condition itself could prove fatal, as they simply do not count as a viable option.
Fortunately, there will always be a woman nearby to assist you, no matter where you happen to be.
Post-Jump, this may also attract specific individuals—such as key characters (whether primary, secondary, or named) from fictional worlds like Naruto or Bleach. However, this process is random; while you can choose whether a man or a woman appears, you cannot determine exactly who it will be.

Always the Best (400 CP)
You are quite fortunate in that you tend to encounter highly attractive women who align perfectly with your preferences. For some reason, you frequently cross paths with beautiful, influential women who are more than willing to help you with your "symptoms"—though this is really just a pretext, as their true intention is to have sex with you. They also serve as valuable connections for non-sexual matters; for instance, a businesswoman might offer you a position at her company, or a celebrity might happily promote your products for free—to name just a few examples.
Post-Jump, you will find yourself "coincidentally" running into specific individuals. For example, if you are in the Naruto universe and happen to be thinking about a blonde woman with a large bust, you are almost certain to encounter someone like Tsunade or Samui. Furthermore, these women will be eager to have sex with you—either by taking the initiative themselves or by responding positively to your advances—whichever happens first.

Complaisant Women (400 CP)
Generally, no woman would view having to engage in sexual activity with a stranger—simply because a law mandates it—as a positive thing. While this is depicted in the manga, there are instances where women act out of empathy, seeking to save as many people as they can. You are quite fortunate to encounter such women; they are deeply empathetic toward your situation and will assist you in any way they can. If you were to ask one to live with you as a favor, she would agree without a second thought. As it happens, all the women you encounter possess this level of empathy toward you.
Post-Jump, this essentially becomes a scenario of "free sex" with any woman you approach. Regardless of who she is, she will agree—whether out of pity or the belief that she is performing a "good deed" by helping you. Just be sure that she doesn't have a partner, or at least that her partner doesn't find out, as they certainly wouldn't take it well.

Shot Control (600 CP)
You can control your duration during sex, which means you can control when you reach your climax and ejaculate. This might seem like a minor Perk, but it is actually a very significant advantage—one that could end up saving your life.
Post-Jump, you can control not only your own climax but also those of others near you—without needing to touch them, regardless of their species or whether they are even capable of experiencing one. This can serve as a distraction against your enemies; however, you will need to train this ability, specifically regarding the range at which it functions and the number of orgasms you can influence.

Clear Mind (600 CP)
The symptoms of this condition manifest only when the affected individual experiences lust, causing their eyes to take on a reddish hue. However, this does not mean it cannot be controlled; a disciplined mind can keep the symptoms in check, allowing for a normal life. You possess control over your emotions and impulses, enabling you to regulate your libido. In the worst-case scenario, the symptoms will appear once a week. As an additional effect, you tend to approach matters in a cold, logical manner.
Post-Jump, this also grants you mental protection, rendering you immune to any form of mental attack or anything that might compromise your sanity. Not even Lovecraftian horrors will be able to corrupt your mind or drive you to madness—though they may still kill you in other ways.

Items

Sex or Die Manga (Free)
The manga for this series—along with other works by the same author, available in whatever language you prefer—makes for great "fap material." However, I wouldn't recommend using it during this Gauntlet; you can just store it in your Warehouse instead.

Papers (Free)
The documents required to live in this country: proof of citizenship and academic certificates covering the level of education you completed during your life before becoming a "Jumper."

The Basic (100 CP)
Don't get your hopes up: ten years of advance rent payment for a decent apartment (bedroom, kitchen-dining area, and bathroom) and a monthly income of 2,000 dollars or its equivalent.

Incriminating Evidence (100 CP)
You hold in your hands incriminating evidence against a specific individual. This can give you a major advantage if you know how to use it. In each jump, you can choose a particular individual and obtain incriminating evidence against them—or against people connected to them.

Yes-Contact (200 CP)
You have a contact who always says yes—well, at least when it comes to having sex. This person is always available and will magically arrive at the meeting spot the moment you reach out to them.
Post-Jump, you may choose any individual to serve as your contact, but only one per jump.

My Business .(200 CP)
Congratulations, Jumper! You are now the owner of a small shop—specifically, a typical Japanese-style convenience store that sells a bit of everything. While it may not be anything extraordinary, it will generate a monthly profit (after all expenses are deducted) of $50,000. You can afford to hire up to 4 employees without impacting that aforementioned monthly profit. All the paperwork is in order, and the business is tax-exempt.

Black Card (400 CP)
This black card is a V.I.P.-style card intended for prominent individuals. You can use it to make unlimited credit purchases without needing to pay the balance yourself, as the debt will be settled using "dirty" money from illicit activities—all without harming any decent, law-abiding people.
Keep in mind, however, that you can only purchase legal goods or items from merchants that accept card payments; if a place only accepts cash, this card is nothing more than a flashy piece of plastic.

Apartment Complexes (400 CP)
You are the owner of an apartment complex. The units are located in a prime area, attracting tenants from the upper-middle or upper class. The complex spans 75 floors and contains 400 luxury apartments. It features parking facilities, an interior park for residents, a convenience store, gyms, and various other businesses for the convenience of your tenants. The property covers an area of 10,000 square meters. For some reason, many attractive women reside in these apartments, work there, or rent out commercial spaces for their own businesses.
All paperwork is in order, and you are exempt from paying taxes. You can charge a monthly rent of $8,000 (or the equivalent value).
Post-jump, key or significant individuals from the worlds you visit may become tenants in your apartments—they would be the primary candidates, provided they have the means to afford the rent.

School (600 CP)
You are the owner of a secondary school or university. As the owner, your students and staff must follow your rules, no matter how absurd they may be (provided they are of a sexual nature).
The institution is equipped with everything necessary to provide a top-tier education, surpassing many similar establishments in terms of technology and infrastructure. The study materials, teaching methods, and extracurricular activities are also of the highest caliber, making it the premier choice for anyone.
The requirements for staff, faculty, and students are entirely at your discretion; you may be as exclusive as you wish without facing any social backlash. Furthermore, everyone affiliated with your institution will be deeply loyal to it, following the rules you impose without complaint.
All legal documentation is in order, and as an educational institution, it is exempt from taxes. In future jumps, prominent individuals from the worlds you visit will apply to join the school as either faculty or students.

Hospital (600 CP)
Your very own hospital—a facility visited by many patients that generates a substantial profit, all without the need for predatory practices or causing your patients any financial harm. The hospital is fully equipped with the infrastructure necessary to treat a wide variety of patients and medical conditions (excluding those that are invariably fatal or involve illnesses unknown to a top-tier medical facility). All documentation is in perfect order, and—naturally—you are exempt from paying taxes.
This hospital has a unique feature: all the nurses and doctors are women, and they are exceptionally beautiful. They possess a strong work ethic, attending to patients with great dedication. As exemplary employees, they will follow every single one of your orders—without exception. Whether your instructions are standard professional directives or of a sexual nature, they will carry them out to the letter. Because they are loyal to your establishment, they will never resign; if you want one to leave, you must dismiss her yourself. Furthermore, everything that happens within the hospital stays within the hospital. Keep in mind that these individuals are not permanent followers; therefore, each time you visit a new world, a fresh set of staff will be present.

Companions

By default, they will all be loyal to you. You can customize them to your liking, in terms of both appearance and personality.

Canon Character (100 CP)
Is there any character you like from this series or from the author's other works? Choose whichever one you'd like; they will accompany you on your adventure.

Partner in Crime (100 CP)
There's nothing particularly special about this guy, other than the fact that he shares your tastes and interests. He can be a companion for conversation or gaming, and you could even have a threesome with any woman either of you happens to meet. Another advantage is that he'll always share everything with you—his belongings, his money, and even his partner.

Relative (200 CP)
A female relative—whether close or distant—who will always be there for you and help you in any way she can, including with your illness. She will also bring a sense of sisterly or parental care to the relationship (depending on the specific nature of your bond).

Reliable Teacher.(200 CP)
A female teacher who holds you in high regard—you are her favorite student. Beyond this intense favoritism, she will assist you in any way she can, acting as your private tutor, counselor, or even helping you manage your sexual urges. She also employs a reward system for when you perform well in your studies (which are of a sexual nature).

Arrogant Doctor (400 CP)
An arrogant doctor who will provoke you with insults and always look at you as if she were your superior—yet, deep down, she only wants you to dominate her and turn her into your "meat-toilet."
Beyond being a unique sexual partner, she is a highly qualified professional with extensive medical knowledge, holding a university degree and various postgraduate credentials. If you put her to work, she will prove to be a stable and profitable asset, as her professional performance is world-class and beyond reproach.

Kind Gyaru (400 CP)
Gal is very empathetic and treats you beautifully—though this behavior is reserved exclusively for you, as she is generally indifferent toward everyone else. With you, she is naturally protective and will spoil you to such an extent that she'll do anything you ask of her. While she may have a strong, assertive personality around others, she is always sweet when it comes to you.

Accomplice Doctor (600 CP)
This character is a blend of a "partner in crime" and the expertise of an "arrogant doctor." He is a renowned physician who will be at your beck and call, assisting you with whatever you

ask and serving as a key ally. As an added bonus, he possesses the "Hospital" item—where you are treated as a V.I.P. guest—allowing you both to enjoy a private paradise.

My Beloved Partner (600 CP)
Congratulations, Jumper—you have the wife of your dreams. She possesses all the traits you value most, both in terms of personality and appearance. Loyal and loving, she is an excellent choice for a life partner.
As an added bonus, she comes with protection similar to that provided by the "Only for Me" perk, making it impossible for her to cheat on you or be coerced into doing so. She also owns the "Apartment Complexes" item; she shares half of the rental income with you and grants you the authority to set the rules for the residents and staff who live and work there.
