Book of Companions Supplement

Friends, who doesn't want them? Sure, people maybe don't need them, but life would be easier if you did have them. Someone to fall back on, to confide in and just hang out with.

This supplement will have a collection of friends, lovers and maybe rivals to pick from. Maybe you recognise them, maybe you don't. Whatever the case, these people will be by your side in struggle and strife.

No points here, just take who you like!

In fact, any companions you get here will get a full 1000CP for whatever jump you're using! Fun, right?

The Childhood Friend (Free): It's your friend from pre-school! This girl met you when you were very young, looked at you and declared "You're my friend now!" and now she won't leave your side. Loud, energetic, kinda ditzy but oddly streetsmart, she adores you wholeheartedly. Not much else to say except she's willing to do a lot for you…Like, will bury a body with you. Maybe keep an eye on her.

Femboy Cult Failer(Free): This young man is the leader of a cult that defected from their main religion, and isn't…doing so well. With members you can count on one hand, he's starving for new members and he thinks you're the solution! Nevermind the fact he can barely keep a straight face around you, and always squirms when you stare too hard. He's indoctrinating you, he swears!

Misogynistic Brat(+100): This woman is an absolute menace! Brash, foul-mouthed, and antagonistic. She's the absolute worst! Yet, for some reason is insanely traditional that it borders on fanaticism. She believes that ALL women belong in the kitchen, should have at least four kids, and never argue with their husbands. Lesbians disgust her, Gay men confuse her. She thinks the two of you are soulmates, and will do anything to keep you to herself. Good luck with her, cause it's pretty much impossible to break her views of women.

Super Tsundere(100): Behold, for this girl holds the power of being a total Tsundere! You met her at the mall after you crashed into each other. As she was about to tear you a new one your eyes met, and it felt as though something shocked you both. Instantly smitten with you, she struggles to say something. She then proceeds to deck you in the face. Now the two of you are close friends, and she *really* can't hide her infatuation with you, often speaking her thoughts in a forceful manner.

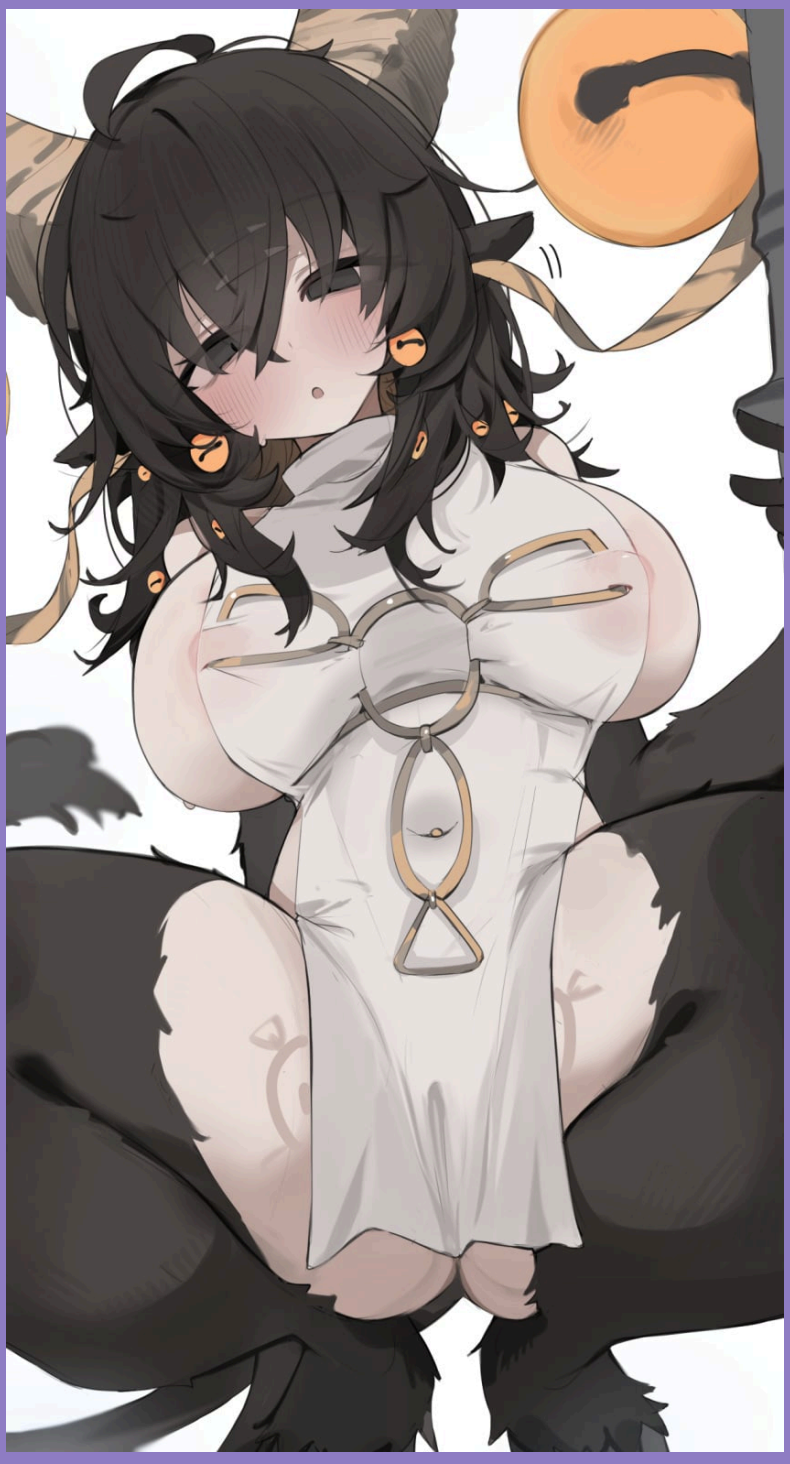

Smug Sensei(Free): This absolute Nepo baby of a teacher gets on your nerves like no other. Smug, cocky, and absolutely knows it. He met you one day in the streets, watching you fight some thugs that were harassing you. After barely holding your own, he swoops in, grabs you, and proceeds to beat the shit out of you. Afterwards, when things settle, he offers to be his apprentice. It isn't later that you learn that he's actually a gifted martial artist, taking to any fighting style with ease. If only he was actually a good teacher and not winging it. Don't question the blindfold, he just thinks it's cool.

Drunk Auntie(Free): This woman was around when you were younger, a reserved woman who didn't really socialize. Now, years later, you meet her on the street, sloshed out of her mind and humping a booze bottle. After helping her out she seems to have latched onto you, glad that someone in her life cares about her. Expect her to come to you often for basic needs. Food, showers, and maybe even clothes if her current wear is unwearable.

Creature of Night(Free): Meet Libra, a Nightlord from the lands between that got themselves captured by some weirdos. Nobody really knows what happened when she was captured, but whatever happened turned them into what you see now. Depleted of power, she looks to you for protection and care. Maybe you can help her regain what she lost?

Crazed Wolf Girl(Free): This right here is Lappland, a Terran Lupo that's different from the one you might know. Unlike the wartorn and frankly batshit insane world she's originally from, this one is from a world where things fall in line with Earth. Now instead of an exiled Mafioso, she's a drug addicted party girl that loves sex, and thinks you're the best thing that's happened to her. Something about you just makes her extremely horny, and *will* break your pelvis if you give her the light of day.

Elvish Netrunner(Free): No, she's not an actual elf, it's just a bio-mod she got because she thought David would like it. Lucy is…not doing well mentally. After the fight with Boggieman Adam Smasher and losing everyone she loved she just shut down, and she would have gotten scrapped by scavs if it weren't for you. When I say she shut down, I mean *shutdown.* She couldn't eat and you had to feed her, bathe her, and if needed, *wipe her ass*. She's doing better now, clinging to you and never leaving your side. It'll be long, but eventually she'll recover.

Fallen Child(NOT)(Free): Originally a child that fell between the cracks of the foster system, she now works at a diner in Hometown. Snippy, aloof, and generally not nice, she's seemed to gather a following in this little town for her rudeness. *You* are her favorite customer, always talking to you, giving you free drinks, and even a free entree if she's in a good mood! The other workers like to tease her about you, and don't seem to deny any of it? Her blush is very cute if you manage to get her too.

Horsin' Penguin!(Free): This girl is an absolute gooner! Can't blame her when she's swinging a horsecock like that. High libido, aching balls, and cumshots that can reach the other side of the room. She saw you, doesn't really matter when or how, but something in her just *flipped*, and now she can only masturbate and gain pleasure from you. Desperate, horny and down bad, she'll do anything to get you to touch her beefpole. Hope you're into this, cause she's into *you*.

Avatar of Sky Dragon(Free): This is Raquaza, or at least one of her avatars. She doesn't interact with the world below often, residing in the ozone layer and protecting the planet from extraterrestrial threats. Recently, after both Groudon and Kyogre were revived, she decided to take a break, shedding off some of her power to make the form you see right now. Now on land, she looks to you as a tour guide, seeking enjoyment and relaxation.

Lemon and Tangerine(Free): Orphans who grew up together and consider themselves twins. Lemon(right) is dry, crass, and oftentimes impulsive. Tangerine(Left) is coolheaded, meticulous, and likes Thomas the tank engine? Anyway! Despite these two looking cute and harmless, they're actually stonecold killers. Nobody really knows who they really are, just that the work they do is brutal, clean and efficient. They think you're cute, so you've got that going for you!

Serie and Frieren (Modern Day): Thousands of years after the defeat of the demon king, humanity has revolutionized the world, so much so that it resembles our modern day. Cars, Phones, the works but with magic integrated in them. Frieren, after multiple millennia to work through her baggage, dragged Serie to experience what the human world has to offer. You met them at a resort you were staying at, and both elves seem to take a shine on you after seeing you use a complicated yet simple spell to apply sunscreen. Serie sees great potential in you and wants to cultivate it, while Frieren is curious about the many odd spells you seem to have.
